CLARITY. DETAIL. AND COMFORT.

Immerse yourself in ultimate surround sound theater experience for one! There's nothing else like it—the AR Wireless 5.1 Dolby Surround Sound Headphones give you real surround sound: 3 separate speaker drivers in each earcup, offering separate front/subwoofer, center and surround speakers. These separate speakers give you real, physical separation for a listening experience virtual surround sound headphones can't match. The integrated multi-chamber design of each earcup enhances speaker separation for a clearer, more spacious sound. Excellent phase accuracy provides 360° depth and outstanding sound dimensioning. In fact, the Wireless 5.1 Dolby Surround Sound Headphones offer the only listening environment that faithfully reproduces the acoustics of your audio source—no reflections off surrounding walls, no speaker distance calculations. All for your listening pleasure.
