

## FCC Compliance and Advisory Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

The equipment has been certified to comply with the limits for a Class B computing device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by switching the equipment off and on. The user can try to correct the interference by the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

User Manual  
The Headset. Features. Technical Support. Actiontec Electronics prides itself on making durable, highquality, highperform  
Turning Off. Handling Calls. Connecting to a Computer  
Class B Equipment  
Hardware Actiontec Electronics, Inc., warrants to the end user "Customer" that. The Headset allows the user to communicate between various Bluetooth devices, including cellular phones, personal digital assistants, and laptop computers, using advanced voice recognition technology. Important! Please read this entire chapter.  
Putting On the Headset You can wear the Wireless Bluetooth Headset on either ear. The ear brace is detachable from the earpiece section of the Headset.  
If you need assistance, the Actiontec Technical Support Department is available 24 hours a day, seven days a week, to provide professional support.  
Charging the Battery The rechargeable battery included with the Headset is not fully charged when new, and must be recharged before using. Recharging the first time takes approximately 4 hours; afterwards, each full battery recharge will take approximately 2 hours. A fully charged battery will provide approximately 3 to 4.  
Two short, lowpitched tones will sound, then the red light will flash. When it stops flashing, the Headset is turned off. Pairing the Headset To use the Headset with a cellular phone, it must be paired with the phone. To do this 1. Press the Large Button for 5 seconds. Two highpitched tones will sound, followed by two more tones, and then the red and blue If your cellular phone supports voice dialing, you can perform this with the Headset. Making Calls There are two ways to make a call, using the Headset keying in the number on the cellular phone dial pad, or using voice dialing if the cellular phone supports this feature. Using the Dial Pad To use the dial pad on the cellular phone, dial the phone number.  
The computer must support Audio Gateway Profiles. 1. Press the Large Button for 5 seconds.

- **bths-6023-f manual, bths-6023-f manual.**

Two highpitched tones will sound, followed by two more tones, and then the red and blue lights will flash. 2. On the computer, open the Bluetooth Configuration screen and double-click 1234, then press Enter. 6. The Headset icon turns green. The Headset is successfully connected to the computer. Connecting to Other Devices To connect the Headset to another type of device a PDA, for example, the device must support Audio Gateway Profiles.  
The Red Light is flashing. What does this mean. When only the Red light is flashing, the Headset's rechargeable battery is running low. Plug the Headset into a wall outlet via the power adapter and recharge the battery. Full recharge takes approximately two hours. I charged the Headset's battery for 20 minutes, but it still doesn't work. What can I do  
The Headset's rechargeable battery has a limited life. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.  
Note To comply with FCC RF exposure compliance requirements, the user must follow the following guidelines:  
For questions regarding your product or the FCC declaration, please contact Actiontec Electronics' sole obligation under this express warranty shall be, at Actiontec's option and expense, to repair the defective product or part, deliver to Customer an equivalent product, or refund the purchase price. Very often issues with Actiontec electronic BTHS6023F begin only after the warranty period ends and you may want to find how to repair it or just do some service work. Even oftener it is hard to remember what does each function in Bluetooth Headset Actiontec electronic BTHS6023F is responsible for and what options to choose for expected result. Fortunately you can find all manuals for Bluetooth Headset on our side using links below. For Mini Bluetooth Headset

Po w e r A dapter I nstallation miniCD include U ser Man ual. Earpads Quick Start Guide A cc essor y bag 1 P utting On the Headset Y ou can wear the W ireless Bluetooth Headset on either ear. The ear brace is detachable from the earpiece section of the Headset. Simply remov e it from the He adset and set it in the appropriate direction to fit y our ear. If you need assistance, the Ac t i o n te c T echnical S uppor t Depar tment is av ailable 24 hours a day, seven days a week, to pr ovide professional support.Charging the Battery The rechargeable battery included with the Headset is not fully charged when new, and must be recharged befor e using. R echarging the first time takes appro ximately 4 hours; afterwards, each full battery recharge will take appro ximately 2 hours. T o recharge the batt ery 1. Plug the battery charger into a wall outlet. The g reen light on the charger will illuminate. 2.

Co nnect the other end of the batter y charger into po wer por t on the bottom of the Headset. A click is heard when the charger is properly inserted in the power port, and the red light on the charger will illuminate. 3. Wh en the battery is full, the r ed light w ill turn off. T wo short, highpitched t ones will sound, then the blue light on the Headset will illu minate. The Headset is now turned on. Not eI f the Headset ' s rechargeable batt er is low, the red light on the Headset will flash. 2 T wo short, lo wpitched to nes will sound, then the red light will flash. When it st ops flashing, the H eadset is tur ned off. P airing the Headset To use the Headset with a cellular phone, it must be paired with the phone. T o do this 1. Pr ess the Large B utt on for 5 seconds. T wo highpitched tones will sound, fol lowed b y two more t ones, and then the red and blue lights w ill flash. 2. I nitiat e the pairing procedur e on the Bluetoothenable cellular phone to pair w ith the Headset. Mak e sure the cellular phone is in disc over y mode. 3. Place the H eadset one to three feet fr om the cellular phone. 4. Wh en the cellular phone requests a passk e y, enter 1234 the default PIN of the Headset. When pairing is successful, the red light will tur n off, and the blue light w ill illuminate. If the pairing fails, the H eadset w ill turn off automatically after two minut es. About Pairing P airing is the process of associating Bluetooth devices with each other. When two devices are paired, they establish a permanent, secure link with each other, enabling quick access t o serv ices pro vided w ithout having to enter passwor ds e very time either device is activated. P aired devices remain paired ev en when one of the dev ices is not po wered up, the serv ice connection is st opped or interrupted, or one or both of the de vices are re booted. If your cellular phone supports v oice dialing, you can per form this with the Headset.

Making Calls There are tw o ways to make a call, using the Headset key ing in the number on the ce llular phone dial pad, or using v oice dialing if the cellular phone supports this feature. Using the Dial Pad To use the dial pad on the cellular phone, dial the phone number. Once the call is placed, the con versation will be carried by the Headset. Using V oice Dialing To use voice dialing, press the Large Buttone until a beep is hear d. Say the name of the person to be called. T o answer 1. Pr ess the Large Button. 2. If needed, adjust the volume. P ress the Large Button to incr ease the volume;

press the Small Button to decrease the volume. 3. To end the call, press the Small Button for three seconds, or do nothing. After 10 seconds, the Headset will automatically disconnect. If the Headset is powered off and an incoming call is received, press the Large Button for three seconds to answer the call. Notedue to the design of some cellular phones, the Headset may automatically disconnect even if it is powered on, and will not beep when receiving an incoming call. To reconnect the Headset to the cellular phone, press the Large Button for one second. The computer must support Audio Gateway Profiles. 1. Press the Large Button for 5 seconds. Two high pitched tones will sound, followed by two more tones, and then the red and blue lights will flash. 2. On the computer, open the Bluetooth Configuration screen and double click Find Bluetooth Devices. NoteThe Bluetooth Configuration setup may differ based on the brand of the Bluetooth adapter you are using. 3. Place the Headset firmly in either ear. 4. On the computer, Rightclick on the CSR bc2 icon. From the menu that appears, select Pair Device. Enter 1234, then press Enter. 6. The Headset icon turns green. The Headset is successfully connected to the computer.

Connecting to Other Devices To connect the Headset to another type of device a PDA, for example, the device must support Audio Gateway Profiles. Refer to the user manual of the other device to set up the Headset. The Red Light is flashing. When only the Red light is flashing, the Headset's rechargeable battery is running low. Plug the Headset into a wall outlet via the power adapter and recharge the battery. Full recharge takes approximately two hours. I charged the Headset's battery for 20 minutes, but it still doesn't work. What can I do The Headset's rechargeable battery must be charged for at least 40 minutes before it can be used. It is recommended, however, that the battery be charged for the full two hours. I plugged the Headset into an electrical socket, but it doesn't appear to be recharging. What's going on If the Headset hasn't been used for a long time, or the battery is nearly empty, it may take a few minutes for the Red Light to flash and indicate that it is recharging. I am getting no sound between the Headset and the device it's connected to. Disconnection can occur if more than one Headset is being used. 3 These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by implementing one or more of the following measures. Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio or television technician for help.

Modifications The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by Actiontec Electronics, Inc., may void the user's authority to operate the equipment.
