# Precautions

## Notice

- The product specifications and other information provided in this User Manual are for reference only. Provided information was correct at time of print. All information is subject to change without notice. Updated content can be downloaded from our website at <http://www.agneovo.com>.
- To register online, please go to <http://www.agneovo.com>.
- To protect your rights as a consumer, do not remove any stickers from this product. Doing so may affect the determination of the product's warranty period.

## Installation

- Do not cover or block the ventilation holes in the housing.
- Do not place the monitor near a heat source, such as a space heater or exhaust vent, nor in direct sunlight.
- Do not place this device in any location subject to vibration or other physical shocks.

## Warning on power connection

- Use an appropriate power cord to connect the monitor to a power outlet.
- The outlet should be installed near the monitor and be easily accessible.
- Do not allow anything to rest on the power cord.
- Disconnect the power plug from the power outlet in the following circumstances:
  - If you will not use the monitor for an indefinite period time.
  - When the power cord or plug is damaged or frayed.
  - If the product has been dropped or the housing has been damaged.
  - If the product exhibits a distinct change in performance, indicating a need for service.

## Maintenance

- Clean the housing, glass panel and controls with a soft cloth lightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder or solvent, such as alcohol or benzene.
- Do not rub, touch, or tap the surface of the screen with sharp or abrasive items such as a pen or screwdriver. This type of contact may result in scratching the surface of the glass.
- Do not insert sharp objects or spill liquid into the monitor through ventilation holes. This may cause accidental fire, electric shock or failure of the device.
- Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltages or other risks.

# Transportation

When you transport this monitor for repair or shipment, use the original carton and packing materials.

## Retracting the base stand

If you want to bend up the base to 90 degrees for transportation, please push the 2 metal pillars on the bottom of base and fold to 90 degrees as shown in the illustration below.

The maximum tilt angle of the monitor is 25°; the monitor can not be pushed down any further when the tilt angle is at the 25° position.

## Adjusting Your LCD display Viewing Angle

You can adjust your LCD display between 5°~25° by holding the top of the panel with both hands and pushing back and forth to adjust the viewing angle to the desired angle.

# Wall mounting

If you want to mount your LCD display on the wall, please follow the steps described below using the wall mount kit or arm..

## First, remove rear cover

Insert a coin or flat screwdriver into the rear cover slot and pull out the rear cover.

## Second, unlock base assembly

1. Unlock two screws
2. Remove base assembly

## Third, mount arm or wall mount kit on the rear side.

AG Neovo wall-mountable products (wall mount kit, WMK series) are recommended.

# Getting Started

## Unpacking Your LCD Display

After you have unpacked your LCD display, make sure that the following items are included in the package.

- LCD display

- Adaptor (Output Voltage should be 12Vdc and Ampere should be min.4A)

- Power cord

- D-sub 15-pin VGA cable (\*1)

- DVI-D digital cable (\*1)

- Audio cable

- CD-ROM (\*1)

- Quick Guide (\*1)

## Product Features

1. Control buttons
2. Earphone jack
3. Built-in speakers
4. Foldable base
5. NeoV Optical Glass™

# Control Buttons

## Front View

### Power Switch

Turn the monitor on or off.

### LED Indicator

Indicate the monitor's operational mode : green for regular mode, and amber for power saving mode.

### Right Button

1. Activate the On-Screen Display menu.
2. While the On-Screen Display menu appears, press  to move the selected item clockwise or onward.

### Left Button

1. Activate the On-Screen Display menu.
2. While the On-Screen Display menu appears, press  to move the selected item counterclockwise or backward.

### Increase Button

1. Call out the volume bar; when the volume bar appears, press  again to increase the volume
2. When the On-Screen Display menu is activated, press  to confirm/ enter the selected items.
3. When the On-Screen Display menu is activated, press  to increase the adjustable value of the selected item.

### Decrease Button

1. Turn mute on or off.
2. When the volume bar appears, press  to decrease the volume.
3. When the On-Screen Display menu is activated, press  to confirm/ enter the selected item.
4. When the On-Screen Display menu is activated, press  to decrease the adjustable value of the selected item.

### Auto Button / Video Mode

1. Press  to select the preferred video mode: User, Text, Movie, Game or Graphic. The option will toggle on the top right hand corner of the display.
2. Press  for 3 seconds to adjust the picture position and performance automatically for optimal settings. You are recommended to press the button the first time you use the monitor or every time you change the resolution and/or refresh rate of the input signal.
3. When the On-Screen Display menu is activated, press  to exit the menu at any time.

## Setup

Please follow the following instructions to setup monitor.

Step 1: Remove all packing materials and wrapping from the monitor and then tear down the plastic dust cover from the screen surface.

Step 2: With the computer or video equipment turned off, connect the signal cable.

- Connecting to an IBM or IBM compatible computer

IBM PC/AT or compatible computer

- Connecting to a video equipment with digital source

IBM PC/AT or compatible computer

Step 3: With the monitor turned off, connect the monitor end power plug of adapter to the power jack of the monitor. Then connect the power cord to the adapter and the power plug to the power source.

Step 4: Turn on your computer or video equipment. Press  power switch to turn on monitor.

Step 5: Set for best performance.

Set for E-W22 LCD monitor, it will have the best performance at resolution 1680 x 1050. Ensure that your computer display is set at 1680 x 1050 pixels and 60Hz. Press the  button. The monitor will optimize the display automatically.

For E-W19 LCD monitor, it will have the best performance at resolution 1440 x 900. Ensure that your computer display is set at 1440 x 900 pixels and 60Hz. Press the  button. The monitor will optimize the display automatically.

## Software Configuration

Installing the Microsoft Windows data file

You can find the Microsoft Windows data file (also called the driver program) on the included AG Neovo CD. To ensure smooth operation after initial installation, you can refer to the installation guide, which can also be found on the CD.

# Adjusting Your LCD Display

In the OSD menu, you will find all kinds of features to help you adjust your LCD panel to the optimal performance.

## User Mode:

To allow preferable viewing images for different tasks, users are able to adjust each setting manually in User mode.

## Text/ Movie/ Game/ Graphic Mode:

The four specialised modes have their own pre-arranged settings for optimal viewing within each application. To better suit users' needs and environments, Brightness Adjustment and Contrast Adjustment are available for further adjustment (Color temperature is also adjustable in Text mode).

**Important!** Though manual adjustment of the LCD panel is available, we strongly recommend you to use the auto adjustment function of the panel. It will automatically tune your LCD panel to the optimal performance. Simply push the AUTO button for 3 seconds to enable the auto adjustment function. Additionally, we recommend you to use the auto adjustment function every time after you have changed the resolution or frequency of your display.

## Selecting OSD Features

Step 1. Call Out the On-Screen Display Menu

Press  or  to activate On-Screen Display menu.

Step 2. Adjust the Settings

Press  to move the selected item clockwise or onward

Press  to move the selected item counterclockwise or backward.

Press  ,  to confirm/ enter the selected items.

Press  to increase the adjustable value of the selected item.

Press  to decrease the adjustable value of the selected item.

Step 3. Exit the On-Screen Display Menu

Press  to exit the On-Screen Display menu at any time.

# OSD Menu

## VGA-Input

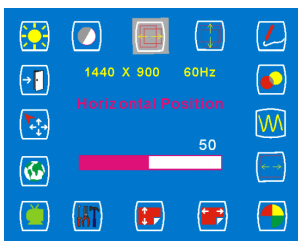

### Brightness Adjustment

### Contrast Adjustment

### Horizontal Position Adjustment

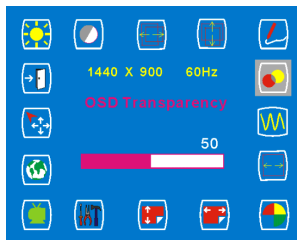

### Vertical Position Adjustment

### Sharpness Adjustment

### OSD Transparency Adjustment

**Important!** Sharpness adjustment is not available when:

1. the resolution is set as 1440 x 900 (E-W19) or 1680 x 1050 (E-W22); or
2. the application is in Text, Movie, Game, or Graphic mode.

### Phase Adjustment

### Clock Adjustment

### Color Temperature Selection

### Horizontal OSD Position Adjustment

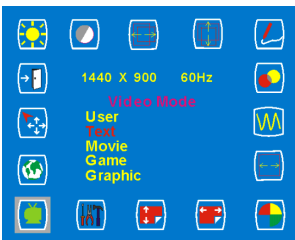

### Vertical OSD Position Adjustment

### Tools Adjustment

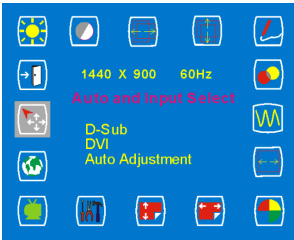

### Video Mode selection

### Language Selection

## Auto and Input Select Selection

## Exit Selection

## DVI-Input

**Important!** When DVI-Input is selected, the following adjustments are not available: horizontal position adjustment, vertical position adjustment, sharpness, phase adjustment and clock adjustment.

## Brightness Adjustment

## Contrast Adjustment

## OSD Transparency Adjustment

## Color Temperature Selection

## Horizontal OSD Position Adjustment

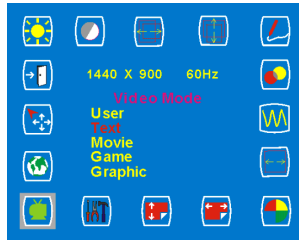

## Vertical OSD Position Adjustment

\*The above specifications are subject to change without notice.

This FCC Class-B compliant digital device complies with the Interference-Causing Equipment Regulations of Canada.

## FCC Disclaimers

This device complies with Section 15 of the FCC listing. The operation procedures must meet the following conditions: (1) this device must not cause any damaging interference; and (2) this device must accept any received interference, including any unpredictable interference that may possibly occur.

Dear users,

This device has passed the Class B digital device regulations and complies with Section 15 of the FCC listing; these are intended to provide reasonable warranty against damaging interference for home use. This device will produce, use and emit radio frequency energy; therefore, installation or use without following the instructions given may cause damaging interference to radio communication. Nonetheless, it is not possible to state with certainty that interference will occur from specific installations. If this device has caused damaging interference to radio or TV signals (simply turn the device on and off to check if such interference is caused by the device), we recommend that you fix the interference using the following methods:

- Readjust the direction or location of the antenna.
- Increase the distance between this device and the receiver.
- Use a different power source other than the power source used by the receiver.
- Consult your local dealer or an experienced radio/TV technician.

**Warning:** The making of changes or modifications to the device without permission from an authorized dealer may void the warranty of this device.

# IT Equipment Recycling Information

## (For E-W19 model only)

Associated Industries China Inc. is strongly committed to environmental protection and views recycling, in the form of salvaging and disposal, of used equipment as one of the company's top priorities in minimizing the burden placed on the environment.

We AG Neovo are very conscious of the environmental forces that impose on our business and strive to identify and provide the best working products to reduce the environmental impact of our products.

For more information and help in recycling, please visit the following websites:  
[www.agneovo.com](http://www.agneovo.com)

## WEEE

### Information for users applicable in European Union countries

The symbol on the product or its packaging signifies that this product has to be disposed separately from ordinary household wastes at its end of life. Please kindly be aware that this is your responsibility to dispose electronic equipment at recycling centers so as to help conserve natural resources. Each country in the European Union should have its collection centers for electrical and electronic equipment recycling. For information about your recycling drop off area, please contact your local related electrical and electronic equipment waste management authority or the retailer where you bought the product.

## Hg

### Lamp Disposal

LAMP(S) inside this product contain mercury and must be recycled or disposed of according to local, state or federal laws. For more information, contact the electronic industries alliance at [www.eiae.org](http://www.eiae.org) for lamp specific disposal information check [www.lamprecycle.org](http://www.lamprecycle.org).
