ATLAS GENTECH

DATA COMMUNICATIONS SECURITY

New Zealand's number one provider of data, communications and security products. We pride ourselves on our vast knowledge and our breadth of brand partners. Our services are second to none; from our state of the art mobile showroom, to world class tech training and client presentations, to our comprehensive product support team. Our expansive product inventory is the most diverse in Australasia and philosophy is built upon partnering with only the leading powerhouse brands; Sennheiser, Ericsson-LG Enterprise, Lifesize, VTech, Legrand, Hikvision, Paradox Security Systems and Inner Range.

We believe in continually astounding customers with our depth of knowledge and responsiveness.

Atlas Gentech; your complete technology solutions.

TO SHAPE THE FUTURE OF AUDIO

The best tools for capturing lifelike audio, all those breathtaking instances of sound that deserve to be recorded or transmitted. The best tools for processing, and the best tools for making all these very special moments come alive again during playback.

Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets and speakerphones depending on their needs. For professional users, that need is to communicate as effectively as possible.

With Sennheiser's range of headsets and speakerphones, the combination of Sennheiser sound leadership, quality design and build - and a focus on real life usability - give the best performance possible in Offices, Contact Centres and Unified Communications environments. Try a Sennheiser headset and experience the difference for yourself.

Sennheiser Strategic Alliances

Sennheiser works with strategic alliance partners to ensure that our headsets and speakerphones are easy to deploy and are fully compatible with all major Unified Communications platforms and desk phones.

Sennheiser headsets and speakerphones are thoroughly tested with our partners for compatibility and optimal acoustic performance.

SN-506797

SENNHEISER TEAMCONNECT CEILING MICROPHONE

TeamConnect Ceiling opens up new dimensions for meetings. Thanks to the automatic beamforming focus, the ceiling microphone gives the speaker an unprecedented freedom: He determines where he sits or stands during the meeting and can move flexibly - the microphone simply follows his voice in the room. Sennheiser's TeamConnect Ceiling is ideal for mid to large sized meeting rooms.

- o Optimal microphone alignment
- o Seamless integration: Subtle design, 3 flexible installation variants and invisible wiring
- o Compatible: Easily connect to video and audio conferencing systems with analog audio output
- o Easy, fast set-up: Thanks to the Beamforming Array technology
- o Expandable: A ceiling microphone covers an area of 60 m² and can be complemented by other microphones

HeadSetup™ Pro Manager Software

SN-508300 - 305

SENNHEISER HEADSETUP™ PRO MANAGER SOFTWARE LICENSES

Save valuable time on unnecessary tasks and make life simpler and smarter for your IT department, your business and your colleagues. By keeping you in touch with your Sennheiser devices, HeadSetup™ Pro Manager puts you in control of three key areas:

Asset Management - Find out who, what, where, when - from wherever

From one location you get full visibility of all Sennheiser headsets and speakerphones in your organization.

Get a perfect overview of both active and inactive devices as well as non-Sennheiser devices to identify who is registered as the owner of an audio device and who is using it. By tracking who has which kind of headset or speakerphone – and how and when they are being used – you can easily re-allocate unused headsets elsewhere in the organization – in order to manage your resources effectively and improve productivity.

With the report function, it is possible to extract reports on device usage to get full control of your inventory and gain insights into the company's UC environment.

Update Management - Smart, easy and convenient

A flexible and cost effective way to get the latest firmware updates to all your organization's Sennheiser devices, whenever it's convenient for you and your end-users.

Push new updates to an unlimited number of devices across your organization from one simple dashboard. Schedule your automated updates to cause minimum downtime and disruption for your company's workflow.

Configuration Management - One tool puts you in control

The centralized configuration option allows all settings to be controlled from the IT department, ensuring that headset users experience a simple plug and play solution.

You can centrally push configurations or lock specific specifications on Sennheiser devices to comply with regulatory compliance settings for specific groups or individuals from one single tool.

SENNHEISER USB-ED CC 01 MS EASY DISCONNECT TO USB CABLE

The Sennheiser USB-ED CC 01 MS cable adapter offers a smooth and easy to implement and cost-effective transition Skype for Business as you can continue using your existing Sennheiser CIRCLE™ and CENTURY™* headsets with Easy Disconnect plug, maximizing your previous headset investment.

The USB-ED CC 01 MS is ideal for contact centres and hot-desking environments, where users frequently change shifts or work desk, as its durable Easy Disconnect plug with its simple quick-release mechanism reduces wear and tear on vulnerable PC USB ports and plugs. The Easy Disconnect plug provides walk-away convenience and allows the headset to detach while putting the call on hold.

* Variants: CIRCLE™ SC 230, SC 260 & CENTURY™ SC 630, SC 660

SENNHEISER UI 770 ACTIVE WIDEBAND INTERFACE BOX WITH 2 AMPS

The UI 770 is the ideal universal wideband Interface box which allows the user to connect a PC, standard phone, handset, a headset of the Sennheiser contact center or office series and even a dictaphone for voice recording.

- o Dynamic Volume control™ keeps incoming calls at the same sound level and prevents sudden noises
- o Sound clarity system™ reduces background noise and enhances the caller's voice
- o Compatible with both wideband and narrowband
- o Easy switching option between handset and handset as well as between phone and PC use
- o Integrated dictaphone interface for economical and easy call recording
- o Compliance with the EU Noise at work Directive with a single switch

SN-09882

SENNHEISER UI 710 PASSIVE BOX - MINI

The UI box works as a connector between your handset and headset. At the touch of a button, a passive box will enable you to easily switch back and forth between the handset and headset or even integrate a PC into the system if you wish.

- o Enables the user to switch between handset and headset at the touch of a button
- o Quick and easy to set up and use
- o Line powered, therefore no battery or AC transformer required
- o Discreet and modern design to save space
- o Works with all Sennheiser wired headsets
- o Peace of mind 2-year warranty

SN-05373

SENNHEISER CUIPC 1 CONNECTION UI BOX TO PC CABLE WITH 3.5MM

UI Box to PC Cable: Modular plug to two 3.5mm jack plug.
To be used when connecting the UI box to the PC's standard sound card.

SN-506491

SENNHEISER SECURITY CABLE LOCK

The security cable lock safely attaches devices such as speakerphones, headsets and web cameras to tables in meeting rooms and to desks. The patent-pending design prevents inconvenient borrowing and reduces the risk of theft, ensuring that the device remains where it was placed. The security cable lock is simple to use and install; users simply insert the cable(s) and close the lock.

Its small, discrete design takes up very little space on the table and it is still possible to move a speakerphone freely around a meeting room table or desk while secured. It can secure two devices simultaneously, to provide a secure and practical solution for meeting rooms and desks.

- o Ensures that the speakerphone or headset remains where it was placed.
- o Reduces risk of theft
- o Discrete small design takes minimum table space
- o Quick and simple to set up
- o Secures two devices simultaneously
- o Choice of four fixing options
- o K-Slot® compatible
- o Audio performance of devices is unaffected

CLOUD FACTORY SOLUTIONS

Cloud Factory is your local business partner with a world-class edge. We provide New Zealand businesses with a powerful, reliable and completely bespoke cloud voice solution.

Choose a telephony solution built for business:

From the roaming sales team to the IT manager, the factory floor to reception, we specialise in keeping your business connected. Our voice solution comes with a state of the art IP deskphone, competitive calling rates and a telephony service you can easily manage online. With a range of specialised services including disaster recovery planning and Skype for Business integration, you can pick and choose which features you need.

There is no commitment to a certain number of voice channels either, any voice connected handset will always have a line available.

Whether you are a small business looking to grow, a large business looking to streamline or a multi-site business wanting to operate as a single site, Cloud Factory has a purpose built solution to fit.

Why choose Cloud Factory:

- Locally hosted, our cloud platform operates from a New Zealand based data centre.
- Internationally backed, we're supported by international powerhouse, Ericsson-LG Enterprise.
- High level of redundancy. If there's a service outage, we'll make sure it's business as usual.
- Intuitive reporting, monitor your calls and calling times with ease.
- 24/7 support with our helpdesk open around the clock.
- Advanced features and functionality with a range of options to choose from, no matter your size or structure.

iPECS
Your Communications Solution

WE CREATE INNOVATION IN BUSINESS COMMUNICATIONS

Ericsson-LG Enterprise is a leading provider of business communications solution with over 40 years of experience in the global market.

Ericsson-LG Enterprise

Ericsson-LG provides the connectivity that eliminates barriers in the exchange of information, helping customers realize users' full potential. Experience simple and powerful VoIP and mobility solutions for your efficient communications and collaboration for your business.

iPECS

Bringing its premium brand 'iPECS' in the market, Ericsson-LG Enterprise delivers a complete product lineup for Unified Communications from small to large-sized businesses, and establishes its strong position through advanced technology and diverse reference sites. Continuing their efforts, they aim to build the iPECS brand as the world's top-most enterprise communication solution provider.

UCP

iPECS UCP is Ericsson-LG Enterprise's Unified Communications Platform designed to meet SME and Enterprise communications needs. As ground breaking innovative platform, iPECS UCP provides out of box UC and Mobility solution. In addition, iPECS UCP is scalable for premium UC solution.

eMG80

iPECS eMG80 adopts VoIP technology running as an optimized IP/TDM hybrid switching platform. This gives the ability to communicate seamlessly over IP networks and delivers advantages over existing hybrid technologies by providing SMEs with efficient and productive applications using iPECS eMG80 in a simple and cost-effective manner.

Ericsson-LG Enterprise iPECS UCP Platform

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

ERICSSON-LG IPECS UNIFIED COMMUNICATIONS PLATFORM FOR SMB'S & SME'S

iPECS UCP is Ericsson-LG Enterprise's unified communications platform designed to meet SMB and Enterprise communications needs. As a ground breaking innovative platform, iPECS UCP provides out-of-box UC & Mobility solutions and can be scalable for premium UC.

Easy and economical UC

- o The iPECS UCP call server has UCS standard built-in. You can utilise video, IM, audio conference, visual voicemail and voice calls on one platform. As an external server the iPECS UCS Premium server can also provide various collaboration features.

Anytime & anywhere connected

- o iPECS UCS optimises Mobile Client, Mobile Extension, DECT, and Wi-Fi terminals. Mobile communications are available both in and out of the office.

Improving your business performance

- o iPECS CCS, IPCR, Attendant, NMS, Voicemail, Click Call and Skype for Business are all optimised. These applications enable users to build their own unified communications solution to suit their business.

Efficient investment

- o You can simply expand your capacity with license options. Invest in additional licenses as your business grows.

Management cost reduction

- o Server redundancy and T-Net features provide high reliability and very easy management in both local and remote offices.

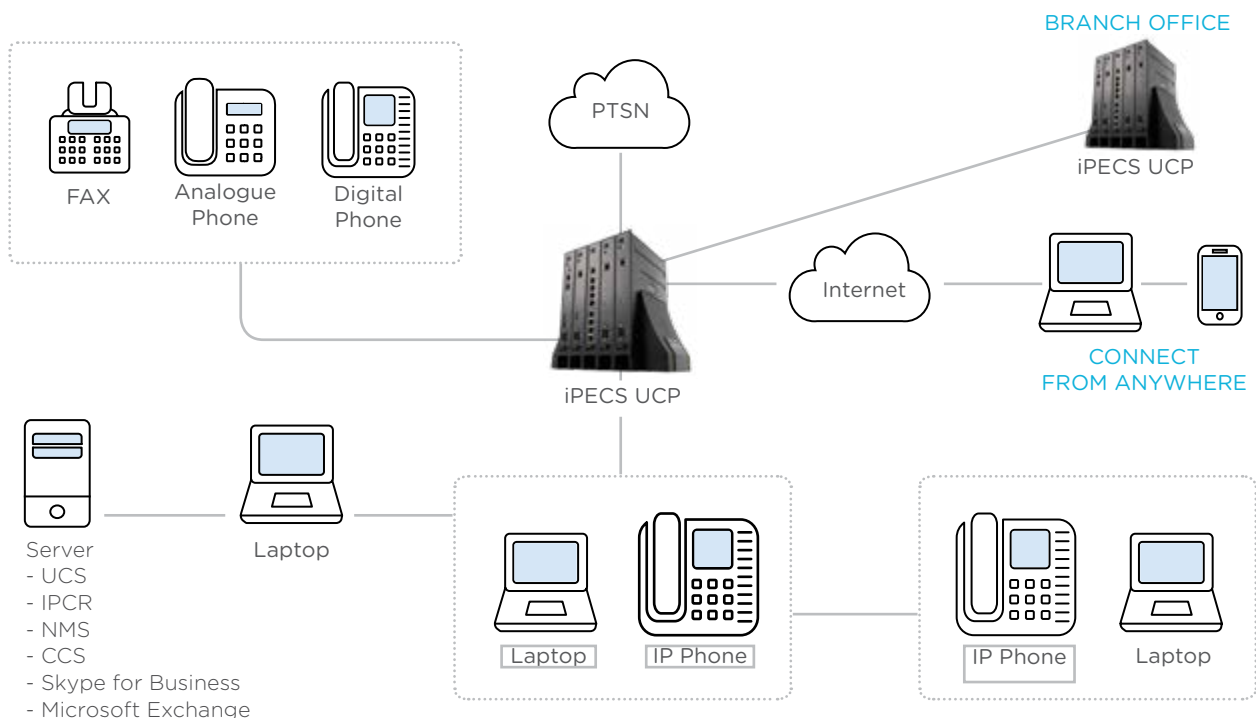

Save time and resources

- o Web management (i.e. install wizard) based on HTML5 helps the administrator install or make changes to the configuration.

Three Models of UCP

- o Users can design their system starting with a base UCP100, UCP600, UCP2400, and grow their system with licenses specific to their requirements.

ERICSSON-LG IPECS UCP CONFIGURATION DIAGRAM

Ericsson-LG Enterprise iPECS eMG80 Platform

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

ERICSSON-LG IPECS eMG80 HYBRID COMMUNICATIONS PLATFORM FOR SMB'S

iPECS eMG80 adopts VoIP technologies running in optimized IP/TDM hybrid switching platform. The ability to communicate seamlessly over IP networks delivers advantages over existing hybrid technologies permitting SMBs to access efficiency and productive applications with iPECS eMG80 in a simple and cost effective manner.

Seamless expendability for SMBs

- o With iPECS eMG80, you can start small with 8-12 users and grow seamlessly to more than 100 ports. Employing a multi-cabinet (KSU) architecture that allows four KSU and one expansion KSU to configure a dynamic system. iPECS eMG80 delivers cost effective communications to small and growing businesses and affordable expandability to medium size businesses.

Cost effective and expandable VoIP Technology

- o iPECS eMG80 platform includes advanced VoIP technology supporting low cost SIP trunking, on and off-premise mobility, remote connectivity and multi-site networking with minimal cost to overcome geographical boundaries.

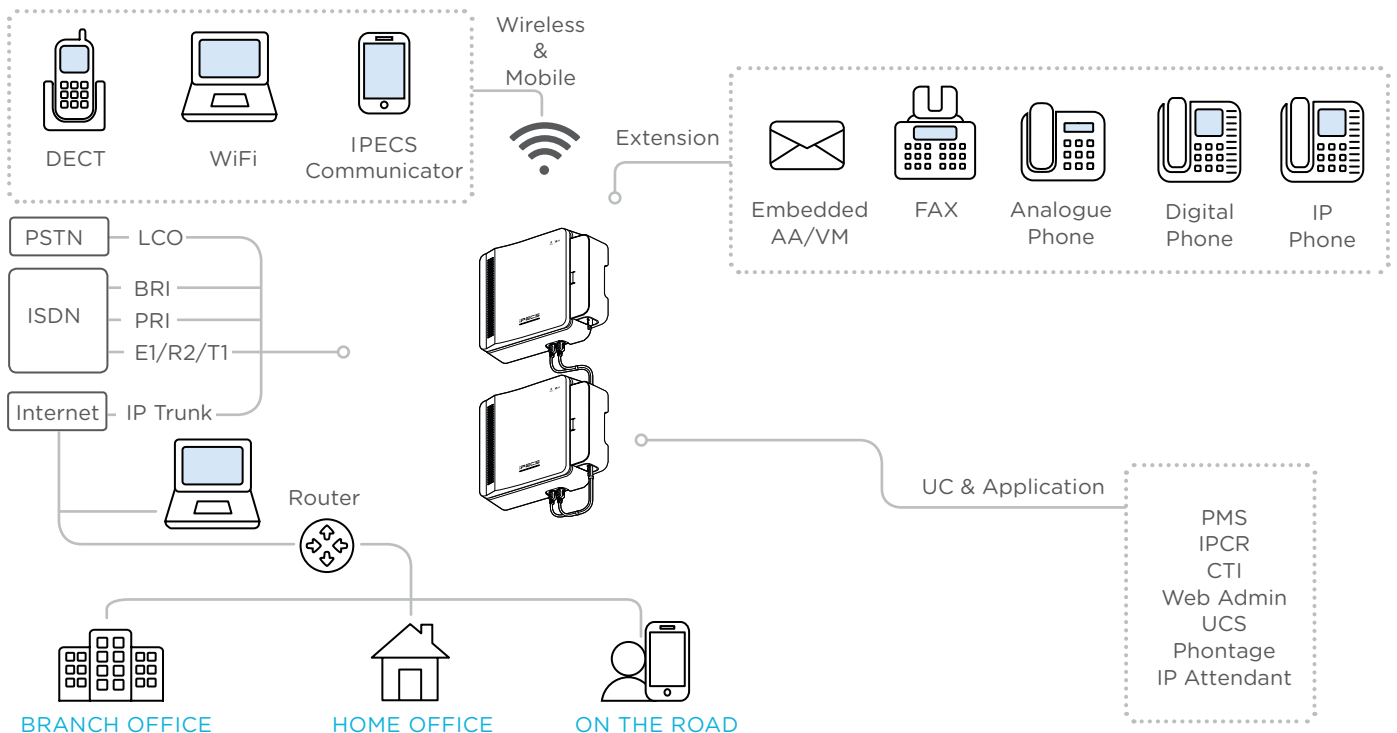

Simple installation and maintenance

- o The iPECS eMG80 adopts advanced HTML5 based Web admin, which is an intuitive simple solution to system configuration and maintenance. The Web Manager Install Wizard presents the basic installation in a series of simple steps for an easy basic installation in English or other local language.

Rich features and applications

- o The rich feature set spans all the basic features and functions of a modern communications platform such as Transfer, Caller ID, MOH, etc. and delivers advanced functions including an integrated multi-level Auto Attendant and Voice Mail with both mobile and E-mail notification.

THE BEST BUSINESS TELEPHONES IN THE WORLD

Sound design is an art form at Snom. It is at the core of their development, as they utilise some of the world's most advanced voice quality engineering tools. Snom software has a 15-year history of development and improvement and Snom's high standards in engineering come from German heritage.

Snom SIP Phones

The professional D7XX Series telephones are both aesthetically appealing and highly practical, meeting business requirements when the telephone is a key tool in daily work. These high performance devices are future proofed and provide the best in Wideband HD audio, ensuring crystal clear sound quality. They are Bluetooth compatible to meet the connectivity requirements of today's offices.

These phones come with the very best in security options as well as a preinstalled certificate to enable secure provisioning of the phone without manual intervention. Snom telephone management and auto provisioning are included, and these telephones support Snom's unique, proven software.

Snom IP DECT

The Snom family of DECT products ensures that business users don't sacrifice functionality and quality with increased mobility.

Designed for use in small and medium-sized businesses to reduce cabling costs and allow rapid installation, or in front office and corporate environments to provide user mobility, Snom DECT solutions use a dedicated frequency band that is less congested than alternative wireless technologies. This allows for high quality audio with DECT's secure communication encryption. Setup is easy and intuitive thanks to the integrated installation mode on the Snom handsets. Our base stations make the Snom DECT solutions ideal for use across several floors or throughout large buildings. Snom DECT handsets provide options for professional indoor and outdoor use, including hard hat or industrial areas.

Snom D-Series SIP Phones

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

SM-D120

SNOM D120 SIP DESKPHONE

With the D120, Snom completes its phone series with a real entry-level device. Designed for large installations, such as those that can be found in the hotel- or healthcare industry, its straightforward design and exceptional audio quality meet all the requirements of an entry-level phone. The D120 is a no-frills phone without a large display, special function keys or features such as call holding for more than one call etc. and has been designed purely with stability and ease-of-use in mind.

Nevertheless, the Snom D120 does feature a backlit display which is a unique within the price segment. The D120 is hearing aid compatible (HAC), is equipped with its own specially adapted firmware, has very low power consumption requirements, can be used via PoE (Power over Ethernet) and is compatible with Snom's redirection services. Combined with an unbeatable price, it is the leader in its class.

- o 2 SIP identities
- o Low power consumption (PoE)
- o Backlit graphical display
- o 360° degree call/message indicator
- o 4 context sensitive function keys + 5 function keys

SM-D712

SNOM D712 4-LINE 5-BUTTON SIP PHONE 10/100 POE

The D712 is a state-of-the-art, full-featured IP desk phones for small or large scale deployments suitable for use in a multitude of business scenarios. The D712 delivers a rich set of business telephony features critical to today's real-time, information-driven business workforce. Built for HD audio, it provides superior, crystal-clear end-to-end call quality.

- o Elegant design
- o 4-line backlit B/W display
- o 4 identities (lines)
- o IPv6
- o 4 context-sensitive function keys
- o 5 freely programmable function keys with LEDs
- o Wideband HD audio
- o Speakerphone
- o Power over Ethernet (PoE)
- o Ethernet switch
- o XML Minibrowser

SM-D715

SNOM D715 4-LINE 5-BUTTON SIP PHONE GIGABIT POE

The D715 is designed to provide the professional worker with the best in high-speed connectivity combined with high-quality audio. The integral Gigabit switch provides future proofing and, combined with the USB port, enables high levels of flexibility and functionality. The USB port can connect a USB headset, a D7 expansion module or Wi-Fi.

- o Elegant design
- o 4-line backlit B/W display
- o Dual Stack IPv4 / IPv6
- o WLAN ready
- o Gigabit switch
- o Wall mountable
- o 5 configurable LED function keys
- o 4 identities (lines)
- o Wideband HD audio
- o Hands-free operation/speakerphone
- o Power over Ethernet (PoE)
- o XML Minibrowser
- o USB Port

SM-D725

SNOM D725 12-LINE 18-BUTTON SIP PHONE GIGABIT POE

The D725 has 18 freely programmable multi-colour function keys in three rows – a design that allows D725 users to have a complete overview of all calls at their fingertips. This, combined with the ability to support up to twelve SIP identities, makes the Snom D725 handset an ideal candidate for intensive phone usage. The D725's Gigabit Ethernet switch meets demanding telephony connectivity requirements, while its USB port enables the use of accessories for greater connectivity options.

- o Elegant design
- o 18 multi color function keys
- o Wideband audio
- o USB Port
- o Gigabit switch
- o 12 SIP identities
- o VLAN support
- o Warranty 2 years

Snom D-Series SIP Phones

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

SM-D745

SNOM D745 12-LINE 8-BUTTON LSS SIP PHONE GIGABIT POE

Prime solution for those who utilize the telephone in daily work. It is not only easy to use, but also cost effective for large-scale deployment. Its elegant design complements even the most prestigious surroundings, and its high/low angle foot stand allows for maximum user comfort and efficiency. Wideband HD audio ensures crystal clear sound quality, and features such as call management, customizable call lists and address book are provided on a high-resolution graphical display. A second screen supports four virtual pages, offering a total of 32 programmable keys with multicolored LEDs.

- o High-resolution display
- o Dual display
- o 8 (32) configurable, self-labelling, multicolored LED keys
- o Gigabit switch
- o USB port
- o Wideband audio
- o 12 SIP identities

SM-D765

SNOM D765 12-LINE 16-BUTTON COLOUR SIP PHONE GIGABIT POE

The D765 combines ease of use, versatility, design quality and audio performance. It offers a 3.5" high-resolution color TFT display that delivers rich information – such as presence and photocaller ID – to the user. 16 freely programmable multicolor function keys can be configured for a variety of one-touch telephony functions such as speed dial, busy lamp field or presence indication.

- o Elegant design
- o High-resolution colour display
- o 16 LED function keys
- o Wideband audio
- o USB connectivity
- o Gigabit switch
- o 12 SIP identities
- o Built-in Bluetooth compatibility
- o Warranty 2 years

SM-D785

SNOM D785 24-BUTTON COLOUR SIP PHONE GIGABIT POE

The Snom D785 belongs to the latest generation of advanced Snom IP phones. Elegantly designed and featuring a large high-resolution colour display and a convenient second screen for dynamic contact management as well as integrated Bluetooth, this IP phone has all the functions necessary to fulfil even the most demanding requirements.

Featuring an integrated Digital Signal Processor (DSP), the Snom D785 has unprecedented HD audio quality. Based on 20 years of experience in audio engineering, Snom provides the best sound quality for every application.

- o Elegant design
- o High-resolution colour display
- o 6 (24) configurable self-labeling multicolour LED keys
- o USB port
- o Bluetooth connectivity
- o Digital Signal Processor (DSP)
- o HD audio quality
- o Second integrated display

SM-D7

SNOM D7 18-BUTTON DSS MODULE FOR D715/D725/745/765

An expansion module provides users who experience high call coverage with greater flexibility and increased productivity. The D7 expansion module enhances the 700 series by adding 18 programmable keys with LEDs to deliver features such as speed dial, busy lamp field and presence indication.

The high-resolution display provides an ideal visual interface. The D7 connects to the telephone via a USB cable, and up to three expansion modules can be daisy chained to add 54 function keys. The final D7 in the chain provides a USB port to connect other peripheral devices such as a USB headset. When more than one D7 is used with a telephone, additional external power is needed.

- o Supports all 700 series telephones with USB ports
- o High-resolution graphical display with backlight
- o 18 freely programmable multicolor LED function keys
- o Dual-angle foot stand: 46° and 28°
- o Fully configurable via host phone
- o 18 highly configurable self-labelling LED keys
- o High-resolution black & white display with backlight
- o Daisy chain up to 3 modules
- o Plug and play
- o Power supplied by phone via USB port for first D7 module

Snom M-Series IP DECT Phones

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

SM-M25

SNOM M25 IP DECT OFFICE HEADSET

The M25 DECT handset is a high-functioning device with an excellent price-performance ratio. Designed for professional business use, the handset relies on rechargeable AAA standard batteries that provide up to 75 hours standby and 7 hours talk time. Snom's cutting edge user interface is streamlined for speedy, intuitive navigation and ease of use. The handset can be deployed in both Snom DECT solutions with easy configuration, flexibility and scalability.

- o IP DECT handset
- o TFT color display
- o Up to 75 hours standby and 7 hours talktime
- o Configurable signal LED
- o Intuitive user interface
- o 3.5 mm headset jack

SM-M325

SNOM M325 DECT BUNDLE

This single cell DECT package includes the M300 base station and one M25 handset, forming a uniquely powerful and expansive mobile telephony solution. This package can be extended with up to 20 additional Snom DECT handsets from the single M300 base station, and is ideal for creating mobile telephony in a small office environment. With a range of up to 300 meters outdoors and approximately 50 meters indoors, the base station provides broad coverage, which can be extended by adding up to three M5 repeaters. This single cell DECT solution is easy to install and provision, and utilizes the same interface as Snom desk pfamiliar user experience.

- o M300 base station and M25 handset package
- o Up to 20 handsets
- o Up to 5 parallel calls
- o 75 hours standby and 7 hours talk time

SM-M65

SNOM M65 IP DECT PROFESSIONAL HANDSET WIDEBAND AUDIO

With its sleek appearance and comprehensive range of features, the M65 is ideal for customers requiring mobile coverage across several floors or throughout large buildings. A large backlit 2" color display and backlit keypad provide easy visibility, while wideband audio ensures crystal clear voice quality. The handset features six polyphonic ringtones and vibration alert for incoming calls. An integrated tricolor LED indicates missed calls, voicemail messages and low battery status. When using the handset with a M700 or M300 base station, users have access to phone system features such as voicemail, automatic call forwarding, call lists, caller identification and direct search of the corporate directory.

- o Wideband speakerphone
- o CAT-iq 1.0 compliant
- o DECT encryption
- o 250 hours standby
- o Local and shared address book
- o Headset plug via 3.5mm jack
- o SW upgrade over-the-air
- o Two-line display (2x16 characters)

SM-M85

SNOM M85 RUGGEDISED IP65 INDUSTRIAL DECT HANDSET

The Snom M85 has been developed for indoor and outdoor use in industrial settings. Not only is the phone's casing robust and shockproof - it also offers protection from water and dust. Thanks to a wide DECT range, a long-lasting rechargeable battery and integrated Bluetooth, it also offers maximum flexibility in how it is used. With its safety features and its robust construction, it lends itself well to use in special environments such as warehouses, construction sites, etc. Thanks to its integrated location sensors, the Snom M85 comes with a so-called dead man's feature. If the handset registers an extended period of motionlessness when laid down, if programmed to do so, it will send an emergency message in order that, for example, an unconscious employee can be given assistance.

- o DECT encryption
- o Alarm function
- o Indoor/outdoor industrial settings
- o Water, dust and shockproof
- o Safety features including 'dead man's sensor'
- o Programmable alarm key
- o Bluetooth
- o Headset plug via 3.5mm jack
- o Answering machine
- o Automatic call forwarding
- o Caller ID
- o Direct search in company directory

Snom M-Series IP DECT Phones

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

SM-M700

SNOM M700 IP DECT MULTI-CELL BASE STATION

Provides VoIP wireless coverage across several floors or throughout large buildings.

- o Scalable up to 253 base stations
- o Up to 1000 handsets per installation
- o Wideband audio
- o Over-the-air synchronization
- o Repeater support
- o Snom provisioning
- o No hidden costs for licenses
- o No DECT manager required

SM-M5

SNOM M5 IP DECT RANGE EXTENDING REPEATER

This wall mounted repeater increases the reception range of the M700 and M300 base stations, allowing for free movement between stations and for DECT calls to continue uninterrupted as the speaker moves around an area.

- o Support single and multi-cell
- o Increase the range without Ethernet
- o Wideband audio

Snom SIP Conference Phones

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

SM-C520WiMi

SNOM C520 SIP CONFERENCE PHONE WITH TWO WIRELESS MICS

Thanks to advanced DECT and Bluetooth technology, the C520 is the perfect device for team conferencing and offers three cutting-edge microphones. The first of these is built into the high-performance full-duplex speaker in the main base station with two further wireless DECT microphones that can be freely placed or carried in the room as required.

The C520 microphones use dynamic noise reduction and adaptive feedback control to provide crystal clear HD audio transmission, even in crowded or spacious rooms. The microphones synchronize with the base station in real-time according to their location. This technology allows the user freedom of movement without even having to raise their voice - regardless of meeting room size.

Connectivity is now one of the most important factors for effective collaboration. This is why the C520 features a versatile Bluetooth interface allowing smartphones or DECT phones to be easily paired and used.

To extend the C520 conference system across even larger areas, simply couple wireless C52 loudspeaker units to the base unit and the range of the loudspeakers and microphones will be increased greatly.

SM-C52SP

SNOM C52 SIP DECT EXPANSION WIRELESS SPEAKERPHONE

Up to three C52-SP units can be paired wirelessly with the Snom C520 - WiMi with ease, then serving as fully hands-free modules thanks to the two integrated microphones and powerful speaker.

The C52-SP can be moved around anywhere in the room at a distance of up to 50 metres enabled by wireless DECT connection and battery operation. Thanks to the fully automated voice synchronisation of all microphones, all attendees can be clearly understood in optimal HD-Voice quality. The C52-SP speaker also features a very powerful battery for up to 12 hours talk time.

- o Full-duplex handsfree unit
- o Snom HD-voice
- o Up to 12 hours talk time
- o Up to 70 hours standby
- o Wireless integration
- o Investment security

Snom SIP Public Address System

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

SM-PA1

SNOM PA1 4-LINE SIP PUBLIC ADDRESS BRIDGE

The PA1 can be used in both small and large applications due to the inclusion of a 4-watt amplifier for single speaker projects. A microphone input is provided for two-way communication. Larger projects can utilize multiple speakers driven by external high wattage amplifier(s). The PA1 serves as an auto SIP answering preamp that drives the multi-speaker setup. Use of Snom's proven SIP stack enables wide compatibility with all SIP platforms.

Applications for the Snom PA1 include:

1. Large PA systems driven by external amplifier(s).
2. Small PA systems driven by internal PA1 amplifier (eg. door answering system), and internal relay to open door(s).
3. Phone ringer amplifier with ability to drive strobe light as visual indicator.
4. Multi-cast relay up to 4 SIP identities to four multi-cast IP addresses.

- o Works from your Snom handset
- o 4 Watt power amplifier
- o Works with handset, headset or in handsfree mode
- o Easy to install
- o Broadcasting announcements over 8 ohm speakers
- o No training needed

Snom Accessories

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

SM-EHS

SNOM EHS WIRELESS HEADSET ADAPTER

Headsets allow users a much wider range of movement than possible with a telephone receiver. The Snom wireless headset adaptor is compatible with all Snom desk phones and creates a bridge between professional VoIP telephony and professional wireless headsets supplied by Jabra, Plantronics and Sennheiser.

Using an electronic hook switch that conforms to vendor-specific norms as well as to the DHSG standard, this adaptor makes it possible to accept calls on the headset itself. When the phone receives an incoming call, the original ringing tone is signalled in the headset, and the call can be answered and terminated on the headset.

- o Complete freedom of movement
- o Signaling of ringtone
- o Call acceptance on headset
- o Call termination on headset
- o Perfect integration of firmware
- o Vendor-specific EHS protocols
- o DHSG Standard
- o No additional power supply required
- o Easy to connect

LIFESIZE CLOUD & AUDIO CONFERENCE SOLUTIONS

High Definition (HD) has changed the face of video communications, enabling an experience as authentic as if you're physically sitting in the same room. Now with HD, organizations can truly realize the promise of video communications.

Lifesize Difference:

One solution for simply connecting your conference rooms to everyone who needs to be in the meeting - from anywhere, on any device.

Who?

The only company that delivers video conferencing that's as easy, as lifelike, and as remarkable as meeting in person.

How?

We do it by connecting our incredible conference room systems and mobile apps.

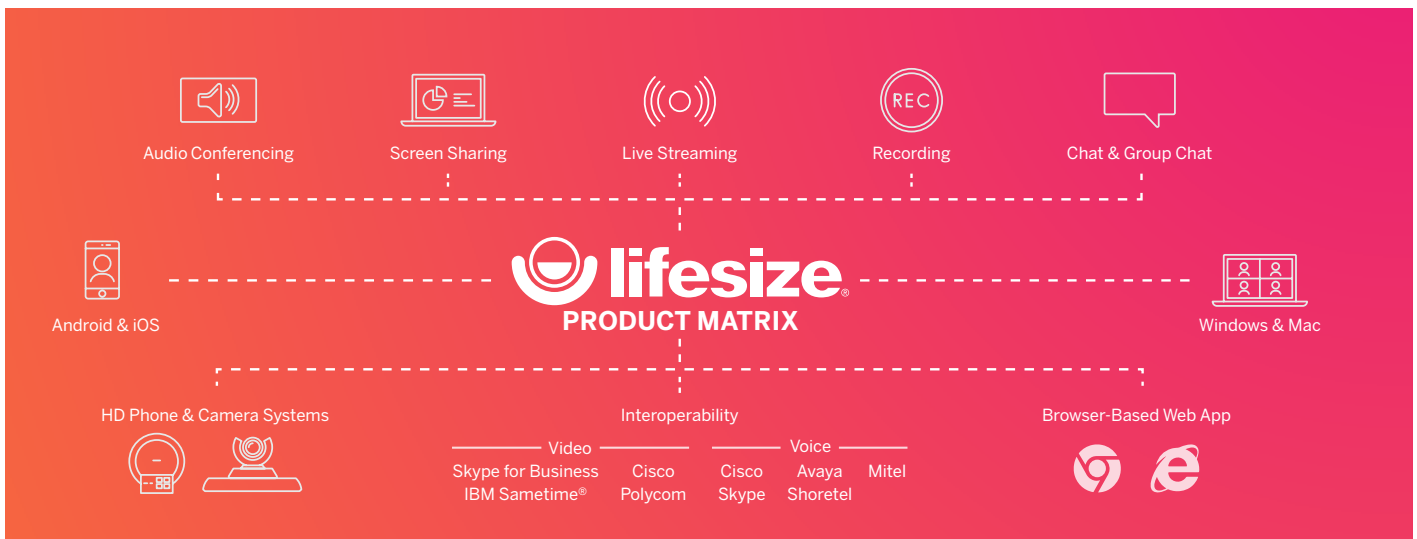

Why?

Now, no matter where they are everyone is just one video call from having a seat in the meeting.

Note: Product purchased must carry a minimum of 1 year LAMS (Lifesize Assurance Maintenance Services).

VTECH HOSPITALITY PHONE SOLUTIONS

Founded in 1976, VTECH is the world's leading manufacturer of corded and cordless phones for the hospitality, business and residential markets.

From the guest room to the lobby, VTECH® corded and cordless phones fit right in—whether you're catering to busy road warriors or families on vacation. That's thanks to our experience as the world's largest manufacturer of telephony products.

For more than 35 years, we have made significant investments in understanding what consumers want in corded and cordless phones. It's allowed us to deliver products that are easy to use, design forward and technologically advanced. It's also enabled us to provide world-class sales support to our customers in every corner of the globe. The result is a clear cost and feature advantage in our hospitality product line—solutions that can be scaled to accommodate a variety of business models, property needs and other special requirements.

Tasteful design, advanced engineering, antibacterial plastic and practical footprints come together in our comprehensive palette of 1-Line and 2-Line phones. Choose our contemporary styling in analogue or SIP technology—with innovative features to meet your specific needs.

In an industry where first impressions matter and space is often at a premium, VTECH® hotel phones answer the call.

VTech Hospitality Phone Overview

Communications Catalogue | Atlas Gentech (NZ) Limited | www.atlasgentech.co.nz

The VTech advantage is what has made us the world's leading manufacturer of corded and cordless phones—for 40 years. Affordable and reliable, our analogue phones offer straightforward features that will make your guests feel right at home.

Form and function come together in our SIP phones. Contemporary styling lends a fresh, sophisticated touch to guest rooms, while advanced features cater for today's road warriors. Easy to install and manage, these phones are also certified to work with most major PBXs worldwide.

OUR STORY

Simply Leasing is 100% New Zealand owned, making us as Kiwi as stubbies in September. We know what makes successful Kiwi companies tick which is why you'll find we're a bit different when it comes to leasing.

Our name says it all, with products designed especially for the New Zealand market, our core purpose is to take the complexity and pain out of every transaction. We live by an advice-led approach to help make it easy for you to do business.

WHY SIMPLY LEASING?

Customer

All Payments are tax deductible
Payments are 100% tax deductible and are treated as an operating expense.

Be up to Date
Get the latest and greatest technology on a budget you can afford.

Cash-flow Management
Put your valuable working capital to better use elsewhere in your business.

Budget
Leasing offers fixed rates making budgeting simpler and easier.

Dealer

Another String in your Bow
Leasing is another value ad you can offer your customers and helps overcome barriers to sale.

Paid Within 48h
Get paid as soon as the job is done and improve your cash-flow.

Differentiate Your Business
Leasing solutions help you differentiate and establish yourself as a superior company.

Increased Sales
Upgrade your customers equipment at the end of a lease and keep them up to date.

Our helpdesk is open around the clock.

Advanced features & functionality

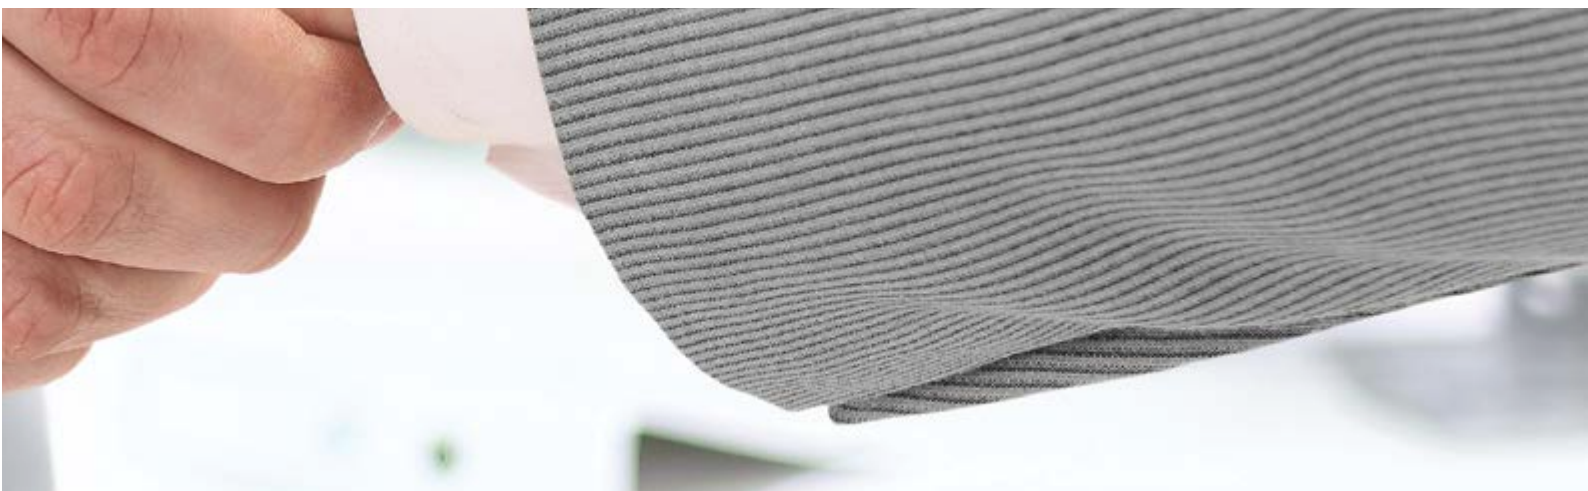

We have a range of options to choose from, no matter your size or structure.

ATLAS GENTECH

Terms of Trade

1. DEFINITIONS
- 1.1 "Atlas Gentech (NZ) Limited" shall mean Atlas Gentech (NZ) Limited, or any agents or employees thereof.
- 1.2 "Customer" shall mean the Customer, any person acting on behalf of and with the authority of the Customer, or any person purchasing products and services from Atlas Gentech (NZ) Limited.
- 1.3 "Products" shall mean:
 - 1.3.1 all Products of the general description specified on the front of this agreement and supplied by Atlas Gentech (NZ) Limited to the Customer; and
 - 1.3.2 all Products supplied by Atlas Gentech (NZ) Limited to the Customer; and
 - 1.3.3 all inventory of the Customer that is supplied by Atlas Gentech (NZ) Limited; and
 - 1.3.4 all Products supplied by Atlas Gentech (NZ) Limited and further identified in any invoice issued by Atlas Gentech (NZ) Limited to the Customer, which invoices are deemed to be incorporated into and form part of this agreement; and
 - 1.3.5 all Products that are marked as having been supplied by Atlas Gentech (NZ) Limited or that are stored by the Customer in a manner that enables them to be identified as having been supplied by Atlas Gentech (NZ) Limited; and
 - 1.3.6 all of the Customer's present and after-acquired Products that Atlas Gentech (NZ) Limited has performed work on or to or in which goods or materials supplied or financed by Atlas Gentech (NZ) Limited have been attached or incorporated.
 - 1.3.7 The above descriptions may overlap but each is independent of and does not limit the others.
- 1.4 "Products" shall also mean all products, goods, services and advice provided by Atlas Gentech (NZ) Limited to the Customer and shall include without limitation the supply of security products and all charges for labour, hire charges, insurance charges, or any fee or charge associated with the supply of Products by Atlas Gentech (NZ) Limited to the Customer.
- 1.5 "Price" shall mean the cost of the Products as agreed between Atlas Gentech (NZ) Limited and the Customer and includes all disbursements eg charges Atlas Gentech (NZ) Limited pay to others on the Customer's behalf subject to clause 4 of this contract.
2. ACCEPTANCE
- 2.1 Any instructions received by Atlas Gentech (NZ) Limited from the Customer for the supply of Products or the receipt of Products by the Customer shall constitute a binding contract and acceptance of the terms and conditions contained herein. These terms and conditions apply to all sales of Products by Atlas Gentech (NZ) Limited and shall prevail over any terms or conditions referred to in the Customer's order (if any) or in correspondence or elsewhere unless specifically agreed to in writing by Atlas Gentech (NZ) Limited and expressed to form part of the contract and any conditions or stipulations to the contrary are hereby excluded or rejected.
3. COLLECTION AND USE OF INFORMATION
- 3.1 The Customer authorises Atlas Gentech (NZ) Limited to collect, retain and use any information about the Customer, for the purpose of assessing the Customer's credit worthiness, enforcing any rights under this contract, or marketing any Products provided by Atlas Gentech (NZ) Limited to any other party.
- 3.2 The Customer authorises Atlas Gentech (NZ) Limited to disclose any information obtained to any person for the purposes set out in clause 3.1.
- 3.3 Where the Customer is a natural person the authorities under clauses 3.1 and 3.2 are authorities or consents for the purposes of the Privacy Act 1993.
4. PRICE
- 4.1 Where no price is stated in writing or agreed to orally the Products shall be deemed to be sold at the current amount as such Products are sold by Atlas Gentech (NZ) Limited at the time of the contract.
- 4.2 The price may be increased by the amount of any reasonable increase in the cost of supply of the Products that is beyond the control of Atlas Gentech (NZ) Limited between the date of the contract and delivery of the Products.
5. PAYMENT
- 5.1 Payment for Products shall be made in full on or before the 20th day of the month following the date of the invoice ("the due date").
- 5.2 Interest may be charged on any amount owing after the due date at the rate of 2.5% per month or part month.
- 5.3 Any expenses, disbursements and legal costs incurred by Atlas Gentech (NZ) Limited in the enforcement of any rights contained in this contract shall be paid by the Customer, including any reasonable solicitor's fees or debt collection agency fees.
- 5.4 Receipt of a cheque, bill of exchange, or other negotiable instrument shall not constitute payment until such negotiable instrument is paid in full.
6. QUOTATION
- 6.1 Where a quotation is given by Atlas Gentech (NZ) Limited for Products: Unless otherwise agreed the quotation shall be valid for thirty (30) days from the date of issue; and
- 6.1.2 The quotation shall be exclusive of goods and services tax unless specifically stated to the contrary;
- 6.1.3 Atlas Gentech (NZ) Limited reserve the right to alter the quotation because of circumstances beyond its control.
- 6.2 Where Products are required in addition to the quotation the Customer agrees to pay for the additional cost of such Products.
7. RISK
- 7.1 The Products remain at Atlas Gentech (NZ) Limited' risk until delivery to the Customer.
- 7.2 Delivery of Products shall be deemed complete when Atlas Gentech (NZ) Limited gives possession of the Products directly to the Customer or possession of the Products is given to a carrier, courier, or other bailee for purposes of transmission to the Customer.
- 7.3 The time agreed for delivery shall not be an essential term of this contract.
8. TITLE AND SECURITY (PERSONAL PROPERTY SECURITIES ACT 1999)
- 8.1 Title in any Products supplied by Atlas Gentech (NZ) Limited passes to the Customer only when the Customer has made payment in full for all Products provided by Atlas Gentech (NZ) Limited and of all other sums due to Atlas Gentech (NZ) Limited by the Customer on any account whatsoever. Until all sums due to Atlas Gentech (NZ) Limited by the Customer have been paid in full, Atlas Gentech (NZ) Limited has a security interest in all Products.
- 8.2 If the Products are attached, fixed, or incorporated into any property of the Customer, by way of any manufacturing or assembly process by the Customer or any third party, title in the Products shall remain with Atlas Gentech (NZ) Limited until the Customer has made payment for all Products, and where those Products are mixed with other property so as to be part of or a constituent of any new Products, title to these new Products shall be assigned to Atlas Gentech (NZ) Limited as security for the full satisfaction by the Customer of the full amount owing between Atlas Gentech (NZ) Limited and Customer.
- 8.3 The Customer gives irrevocable authority to Atlas Gentech (NZ) Limited to enter any premises occupied by the Customer or on which Products are situated at any reasonable time after default by the Customer or before default if Atlas Gentech (NZ) Limited believes a default is likely and to remove and repossess any Products and any other property to which Products are attached or in which Products are incorporated. Atlas Gentech (NZ) Limited shall not be liable for any costs, damages, expenses or losses incurred by the Customer or any third party as a result of this action, nor liable in contract or in tort or otherwise in any way whatsoever unless by statute such liability cannot be excluded. Atlas Gentech (NZ) Limited may either resell any repossessed Products and credit the Customer's account with the net proceeds of sale (after deduction of all repossession, storage, selling and other costs) or may retain any repossessed Products and credit the Customer's account with the invoice value thereof less such sum as Atlas Gentech (NZ) Limited reasonably determines on account of wear and tear, depreciation, obsolescence, loss or profit and costs.
- 8.4 Where Products are retained by Atlas Gentech (NZ) Limited pursuant to clause

- 8.3 the Customer waives the right to receive notice under s.120 of the Personal Property Securities Act 1999 ("PPSA") and to object under s.121 of the PPSA.
- 8.5 The following shall constitute defaults by the Customer:
- 8.5.1 Non payment of any sum by the due date.
- 8.5.2 The Customer intimates that it will not pay any sum by the due date.
- 8.5.3 Any Products are seized by any other creditor of the Customer or any other creditor intimates that it intends to seize Products.
- 8.5.4 Any Products in the possession of the Customer are materially damaged while any sum due from the Customer to Atlas Gentech (NZ) Limited remains unpaid.
- 8.5.5 The Customer is bankrupted or put into liquidation or a receiver is appointed to any of the Customer's assets or a landlord distrains against any of the Customer's assets.
- 8.5.6 A Court judgment is entered against the Customer and remains unsatisfied for seven (7) days.
- 8.5.7 Any material adverse change in the financial position of the Customer.
9. PAYMENT ALLOCATION
- 9.1 Atlas Gentech (NZ) Limited may in its discretion allocate any payment received from the Customer towards any invoice that Atlas Gentech (NZ) Limited determines and may do so at the time of receipt or at any time afterwards and on default by the Customer may reallocate any payments previously received and allocated. In the absence of any payment allocation by Atlas Gentech (NZ) Limited, payment shall be deemed to be allocated in such manner as preserves the maximum value of Atlas Gentech (NZ) Limited' purchase money security interest in the Products.
10. DISPUTES AND RETURN OF PRODUCTS
- 10.1 No claim relating to the Products will be considered unless made within forty-five (45) days of delivery.
- 10.2 No Products will be accepted for return without prior approval of Atlas Gentech (NZ) Limited. A 15% restocking fee may apply. Any Products considered for return must be in original packaging and undamaged.
- 10.3 All products returned must be accompanied by original invoice or packing slip.
11. LIABILITY
- 11.1 The Consumer Guarantees Act 1993, the Fair Trading Act 1986 and other statutes may imply warranties or conditions or impose obligations upon Atlas Gentech (NZ) Limited which cannot by law (or which can only to a limited extent by law) be excluded or modified. In respect of any such implied warranties, conditions or terms imposed on Atlas Gentech (NZ) Limited, Atlas Gentech (NZ) Limited' liability shall, where it is allowed, be excluded or if not able to be excluded only apply to the minimum extent required by the relevant statute.
- 11.2 Except as otherwise provided by clause 11.1 Atlas Gentech (NZ) Limited shall not be liable for:
- 11.2.1 Any loss or damage of any kind whatsoever, arising from the supply of Products by Atlas Gentech (NZ) Limited to the Customer including consequential loss whether suffered or incurred by the Customer or another person and whether in contract or tort (including negligence) or otherwise and irrespective of whether such loss or damage arises directly or indirectly from Products provided by Atlas Gentech (NZ) Limited to the Customer; and
- 11.2.2 The Customer shall indemnify Atlas Gentech (NZ) Limited against all claims and loss of any kind whatsoever however caused or arising and without limiting the generality of the foregoing of this clause whether caused or arising as a result of the negligence of Atlas Gentech (NZ) Limited or otherwise, brought by any person in connection with any matter, act, omission, or error by Atlas Gentech (NZ) Limited its agents or employees in connection with the Products.
- 11.3 Without prejudice to clauses 11.1 and 11.2 above, Atlas Gentech (NZ) Limited's maximum aggregate liability (including any liability for the acts or omissions of its employees, agents and sub-contractors) to the Customer whether for tort (including negligence or breach of statutory duty), breach of contract (including deliberate, repudiatory breach by Atlas Gentech (NZ) Limited), misrepresentation, restitution or otherwise shall in no circumstances exceed the purchase price of the relevant Products which give rise to such liability, as determined by the net price invoiced to the Customer.
12. WARRANTY
- 12.1 Manufacturer's warranty applies where applicable, provided that any warranty does not cover normal wear and tear and shall not apply to the Products which have been subjected to misuse or abuse, neglect, accident, damage, improper storage, improper installation or maintenance.
- 12.2 Atlas Gentech (NZ) Limited makes no warranty that any software will operate uninterrupted or error-free.
- 12.3 Subject to clauses 12.1 and 12.2, if the Products do not comply with the manufacturer's warranties, Atlas Gentech (NZ) Limited shall at its option replace or repair such Products free of charge or refund the price of such Products provided that, if Atlas Gentech (NZ) Limited so requests, the Customer shall, at the Customer's expense, return the Products or the part of such Products which is defective to Atlas Gentech (NZ) Limited. The Customer's exclusive remedy for Atlas Gentech (NZ) Limited's breach of the warranties under this clause 12 will be the obligation to repair, replace or refund (in all cases at Atlas Gentech (NZ) Limited's option).
13. CONSUMER GUARANTEES ACT
- 13.1 The guarantees contained in the Consumer Guarantees Act 1993 are excluded where the Customer acquires Products from Atlas Gentech (NZ) Limited for the purposes of a business in terms of section 2 and 43 of that Act.
14. PERSONAL GUARANTEE OF COMPANY DIRECTORS OR TRUSTEES
- 14.1 If the Customer is a company or trust, the director(s) or trustee(s) signing this contract, in consideration for Atlas Gentech (NZ) Limited agreeing to supply Products and grant credit to the Customer at their request, also sign this contract in their personal capacity and jointly and severally personally undertake as principal debtors to Atlas Gentech (NZ) Limited the payment of any and all monies now or hereafter owed by the Customer to Atlas Gentech (NZ) Limited and indemnify Atlas Gentech (NZ) Limited against non-payment by the Customer. Any personal liability of a signatory hereto shall not exclude the Customer in any way whatsoever from the liabilities and obligations contained in this contract. The signatories and Customer shall be jointly and severally liable under the terms and conditions of this contract and for payment of all sums due hereunder.
15. CANCELLATION
- 15.1 Atlas Gentech (NZ) Limited shall, without any liability, and without any prejudice to any other right it has in law or equity, have the right by notice to suspend or cancel in whole or in part any contract for the supply of Products to the Customer if the Customer fails to pay any money owing after the due date or the Customer commits an act of bankruptcy as defined in section 19 of the Insolvency Act 1967.
- 15.2 Any cancellation or suspension of this agreement shall not affect Atlas Gentech (NZ) Limited' claim for money due at the time of cancellation or suspension or for damages for any breach of any terms of this contract or the Customer's obligations to Atlas Gentech (NZ) Limited under this contract.
16. MISCELLANEOUS
- 16.1 Atlas Gentech (NZ) Limited shall not be liable for delay or failure to perform its obligations if the cause of the delay or failure is beyond its control.
- 16.2 Failure by Atlas Gentech (NZ) Limited to enforce any of the terms and conditions contained in this contract shall not be deemed to be a waiver of any of the rights or obligations Atlas Gentech (NZ) Limited has under this contract.
- 16.3 If any provision of this contract shall be invalid, void or illegal or unenforceable the validity existence, legality and enforceability of the remaining provisions shall not be affected, prejudiced or impaired.
- 16.4 These terms and conditions are governed by the laws of New Zealand and any dispute arising hereunder shall be subject to the exclusive jurisdiction of the courts in Auckland.
