INTRODUCING NEW & IMPROVED PLEATS PLUS®

No other N95 respirator has more wearer-comfort features.

Now there's a comfortable choice in N95 respirators. Pleats Plus from AOSafety is ergonomically designed to not only protect, but to fit, feel and breathe better than other respirators. Isn't it time you came face-to-face with the comfort of Pleats Plus?

- **Protection For Health Care Environments. NIOSH-approved.**

Pleats Plus helps protect against microorganisms, dusts, fumes, mists and other solid and liquid particulates not containing oil. *Complies with OSHA Bloodborne Pathogens Standard when worn properly with protective eyewear.*

- **Larger Surface Area = Added Protection + Easier Breathing.**

With up to double the surface area of other respirators, the new and improved Pleats Plus provides more filtering capability with even lower breathing resistance.

- **Flexes With Mouth Movements - Without Chafing Face or Breaking Seal.**

Unlike stiff shell respirators that can chafe the nose bridge and chin, this pleated design "moves with conversation" while maintaining an effective seal.

- **"Breathable" Fiber Means Cooler Wear and Reduced Moisture.**

The lightweight filter fiber helps reduce heat and moisture build-up. Respirator retains shape longer.

- **Woven, Latex Free Elastic Bands Fit Comfortably. Won't Snag Hair.**

Just the right amount of stretch for a snug, comfortable fit and no painful hassles with hair tangles.

- **Sizes To Fit Wide Range of Facial Profiles - including Small.**

Two sizes are available to fit virtually every face profile.

OSHA Respiratory Protection Standard

OSHA requires a respirator program in any workplace where respirators are used. Refer to OSHA 29 CFR 1910.134 for program requirements.
