

XCALIBUR II

Premium H.264 Hybrid 16 Channel DVR's

Now with iPhone viewer

The **XCalibur II** series is a premium **H.264** DVR supporting Multi-codec, 8-channel IP cameras, Megapixel recording and GUI. It is designed for advanced surveillance and multi-functional projects such as military bases, research institutes, financial buildings and casinos.

With high-performance compression engine, the **DR16X II** series provides real-time recording ability, fast data transmission over the internet and crystal video quality. Additionally, Multi-codec allows users to select specific recording mode from H.264 / MPEG-4 / MJPEG to meet various uses in different environments. Compatible with both IP and analog cameras, the **DR16X II** applies the concept of hybrid connection for flexible surveillance solution. Furthermore, the capability for Megapixel recording provides vivid and high-definition video quality of the **DR16X II**.

Integrating intuitive GUI and supporting USB keyboard and mouse make system operation of the **DR16X II** series much easier. Moreover, the **Remote software** and **CMS** provide distant accessibility for remote system control. Users can also do remote surveillance through mobile phone by using the Mobile View software.
