Super Light

PRADINES®

Super Light

-25% lighter

P-SL Loppers with high precision

- Soft wood
- Very easy to handle
- Precise cut

Designed for soft wood such as in younger vineyards.

Narrow cutting head for precise cutting

P-SL2 Loppers with high tense/power

- Tough wood
- Evolving bevel
- Large cutting capacity

Designed for tough wood such as in older vineyards.

Two edged radii blade with evolving bevel for better durability and an easier cut in tough wood.

P52/53 Hedge shears very easy to handle

- Clean cut
- Very easy to handle
- For leaf pruning and topiary

Designed for leaf and clump pruning and topiary

The Evolving bevel® of the P-SL 2

Exclusively by Bahco Pradines

The evolving bevel technology utilised by the P-SL2 lopper range, improves the penetration of the blade in the wood and brings to the user a feeling of ease, quickness and efficiency during pruning activities. The evolving bevel reinforces the slicing motion of the Bahco Pradines blades. This evolving bevel technology is exclusive to Bahco Pradines, who are always looking for technical improvements for the professional user.

Thin grips for a perfect cutting action

Soft buffers for maximum comfort

Handles made of aerospace aluminium are extremely strong, yet very light

 Evolving Bevel
Blade with evolving bevel

Centre bolt locking system for a secure fixing
