3. When the MP Drivers Uninstaller window is displayed, click 'Execute.'

4. When the confirmation window is displayed, click 'Yes.'

<< Previous

5. When the Uninstallation Complete window is displayed, click 'Complete.'

## Preparing to Connect My Multifunction To My Network

### **Network Requirements**

Before connecting the machine to the network, make sure that configuration of the computer and access point or router is complete, and that the computer is connected to the network.

#### Notes on Network Connection

- The configuration, router functions, setup procedures and security settings of the network device vary depending on your system environment. For details, refer to your device's instruction manual or contact its manufacturer.
- The machine cannot be used over a wireless and wired connection at the same time.

#### **Wireless Connection**

Connect to your network environment over a wireless connection.

## Preparing to Connect My Multifunction To My Network

An "Ad-hoc connection," which establishes a direct connection to the computer over a wireless connection without using an access point, is not supported.

<< Previous

### Be sure to prepare an access point.

### **Important Information You Need Before Adding Your Multifunction**

The following information is required to connect to your access point or router.

• Access Point Name/Network Name:

Also referred to as SSID. A name to identify the specific access point.

### • Network Key:

Also referred to as encryption key, WEP key or WPA/WPA2 passphrase, Pre-Shared key.

A password required to set to prevent unauthorized access to communication.

Check your access point or router for the following information, and then write it down.

NOTE: For details on how to check the following information, refer to the manual of your access point or router, or contact its manufacturer.

### **Downloading the Driver**

To use the machine by connecting it to a computer, software including the drivers needs to be copied (installed) to the computer's hard disk. The installation process takes about 20 minutes. (The installation time varies depending on the computer environment or the number of applications to be installed.)

### Step One

Go to the Canon USA Download Library Click here to go MX340 download library page

### Step Two

In the **Drivers / Software Selection** section, select your operating system in the **Select OS** dropdown menu.

### **Drivers & Software**

Choose an operating system from the drop down menu then select the appropriate driv the list below

<< Previous

Choose Operating System:	Select OS		
	Select OS	-	
Firmware	Mac OS X	ste	
	Windows XP (x64) Windows XP		
No firmware updates are availa	able fo Windows 2000		

### Step Three

In the Drivers section, click the link\* (red printing) for the MP Driver

Choose Operating System:	Windows 7	*
Drivers		Date Posted
<ul> <li>mx340swin103ea24.exe</li> <li>Controlador MP MX340 series</li> <li>x64/Vista/Vista64/XP/2000 x</li> </ul>	y	09/07/2010
<ul> <li>mx340swin103es</li> <li>MX340 series MP Driver Ver.</li> <li>x64/Vista/Vista64/XP/2000)</li> </ul>	1.03 (Windows 7/7	09/07/2010
<ul> <li>mx340swinxps536ea24.ex</li> <li>Controlador de la impresora X (Windows 7/7 x64/Vista/Vista)</li> </ul>	e IPS MX340 series v. 5.36 a64) [Spanish Version]	01/28/2010
<ul> <li>mx340swinxps536ea24.ex</li> <li>MX340 series XPS Printer Driv x64/Vista/Vista64)</li> </ul>	e ver Ver. 5.36 (Windows 7/7	01/28/2010

**NOTE:** The driver names will vary based on operating system (OS) selected. Make sure you have selected the correct OS and select the driver that states "MP Driver."

### **Step Four**

On the next screen, read the information and instructions and click I Agree - Begin Download

Once the file has been downloaded, double-click it to begin the installation process

### **IMPORTANT:**

• Quit all running applications before installation.

• Log on as the administrator (or a member of the Administrators group).

• Do not switch users during the installation process.

• Internet connection may be required during the installation. Connection fees apply.

• It may be necessary to restart your computer during the installation process. Follow the on-screen instructions. The installation resumes once your computer has restarted.

If the firewall function of your security software is turned on, a warning message may appear that Canon software is attempting to access the network. If such a warning message appears, set the security software to always allow access.

### **Installing the Driver**

**NOTE:** If a **User Account Control** screen appears, click **Continue** or **Yes** (depending on Windows version) to continue. **NOTE:** If the same screen reappears in subsequent steps, click **Continue** or **Yes**.

### Step One

#### Click Next on the Welcome screen.

### Step Two

Select your place of residence and click Next.

<< Previous

### **Step Three**

### Click Yes for the License Agreement.

Before installing the software programs, carefully read the license agreement below.	
END USER LICENSE AGREEMENT	
ATTENTION: PLEASE READ THIS DOCUMENT BEFORE INSTALLING THE LICENSED SOFTWARE.	1
This is a license agreement between you and Canon Inc., having its place of business at 30-2 Shimomaruko 3-chome, Ohta-ku, Tokyo 146-8501, Japan ("Canon"), with respect to software and its associated electronic or online manuals, if any (the "Software") and/or text, image, graphic and other creations in digital format ("Contents Data"), which are provided to you with this End User License Agreement (Software and Contents Data hereinafter shall be referred to individually or collectively as the Licensed Software").	-
If you accept the agreement, click Yes. If you click No, the installation of MP Drivers will be canceled.	,
< Back Yes No	

### **Step Four**

At the **Connection method window**, click Use the printer on network and then click **Next**.

Connection method		×			
-0000	Select the printer connection method.				
and the	C Use the printer via USB Select this option to use the printer via USB.				
Garant	Use the printer on network Select this option to use the printer on network.				
	Next > Cancel				

If the **Please Allow All Install Wizard Processes** screen appears, click **Next**.
