A4 PLAIN PAPER LASER FAX

**FAX-L380**

Ultra fast and efficient  
laser faxing and printing

- High speed Super G3 fax  
- 3 sec. per page\*
- Large 510-page memory\*
- Ultra High Quality imaging
- 250-sheet paper capacity
- 50-page Automatic Document Feeder
- Ultra fast laser printing and copying, 18 ppm/cpm
- 32 one touch/100 coded dial keys
- Direct Mail prevention
- Convenient All-in-One cartridge

#### LESS COSTS, MORE EFFICIENCY

This Super G3 fax transmits documents at a fast 3 seconds per page\*, so your phone costs are reduced and less time is spent standing at the machine. Multiple faxes can be received without blocking the line, saving even more time.

#### WORRY-FREE FAXING

If your paper or toner runs out during the evening or weekend, a large 510-page\* memory safely stores all incoming documents, for printing out afterwards. Also large documents can be scanned rapidly - just 2 seconds per page - and then sent from memory.

#### FLAWLESS FAXING PERFECTION

When you're transmitting detailed documents, such as diagrams or photos combined with text, Canon's unique UHQ (Ultra High Quality) technology ensures a perfect finish every time. Half-tone reproduction, with 256 grey scales, gives extra depth and clarity.

#### TIME-SAVING CONVENIENCE

With a 250-sheet paper capacity, the cassette needs refilling far less often. Large documents can be faxed in a single operation, thanks to the 50-page Automatic Document Feeder. Dialling is quick and simple, as 32 one touch and 100 coded dials store all your regular numbers. Direct mail prevention stops unwanted faxes, as you will receive faxes only from coded numbers stored in the machine.

#### RAPID LASER PRINTING & COPYING

Use the FAX-L380 as a fast, 18 pages per minute, laser printer or copier, via the USB connection. And get superior quality output, thanks to its high 600 dpi resolution.

#### CLEAN AND EASY

Simply replace the All-in-One cartridge, containing toner and all essential parts, and your fax is as good as new. There's no mess, no hassle - just continuous high quality output.
