# ONE CHARIOT

A World of Possibilities

*I ♥ my new carrier!*

One Chariot is all you need to have your children share in your active lifestyle. Whatever your activity, wherever you are and whatever the conditions, a Chariot allows your family to accompany you safely and comfortably.

Chariot Carriers is a market leader in multi-functional child transportation. For more than fifteen years, parents have been choosing our carriers because of the quality and innovation of our products, our attention to detail and our outstanding level of customer care.

Chariot has a wide variety of models available to suit your lifestyle needs, and for 2009 our product line has been expanded with even more colours, graphics and features to choose from.

# ONE CHARIOT

## Ultimate Flexibility

You and your family can enjoy the outside world together thanks to Chariot's breakthrough concept in child transport systems (CTS). CTS is all about being versatile without compromising performance. Whether you stroll, jog, bike, hike or cross-country ski, your CTS carrier can quickly and easily be converted so you can take your child wherever you want to go. Our carriers and kits have been long chosen for their rock-solid quality, so having the flexibility of CTS doesn't come at the price of safety.

We know that everyone leads a unique lifestyle and has different needs when it comes to our products. That's why the X-Country Series is sold as a CTS ready chassis. You simply choose the CTS Conversion Kits you want to add so you get exactly the functions that you want. Check out our web site for more information on CTS. [www.chariotcarriers.com](http://www.chariotcarriers.com)

At the heart of the CTS System is Chariot's revolutionary VersaWing™. This innovative system makes adding any conversion kit or accessory as simple as pressing a button.

**Strolling Kit**  
(Newborn and up)\*

**Jogging Kit**  
(Six months and up)

**Bicycle Trailer Kit**  
(One year and up)

**Hiking Kit**  
(Six months and up)

**Cross-Country Ski Kit**  
(Six months and up)

### What can CTS do for you?

In a snap, convert your carrier into one of five great activities: stroll, jog, bike, hike and cross-country ski.

This is the perfect way to start using your Chariot. The CTS Strolling Kit includes two easy-turning wheels that are simple to attach to your carrier's VersaWings™ for all-weather strolling.

\* Baby comfort accessory may be required

If you enjoy getting out for a run, you'll need the CTS Jogging Kit which includes a 16" quick-release wheel and lightweight aluminum arms. Just attach the arms to your carrier's VersaWings™ and you are off and running. Please note that each Chariot is designed to work with a specific Jogging Kit, so be sure to choose the right kit for your model.

Hit the road with the CTS Bicycle Trailer Kit. The stainless steel hitch cup stays with your bike and the unique ezHitch™ makes attaching and removing the carrier a breeze. The CTS Bicycle Trailer Kit includes the lightweight aluminum hitch arm, axle-mount ezHitch™, extra-tall safety flag and approved reflector kit.

Take the load off your shoulders and pull it behind you with the CTS Hiking Kit. This unique kit features two lightweight aluminum tow bars and a padded shoulder harness.

You don't need to stop when the snow starts to fly. The CTS Cross-Country Ski Kit features two lightweight Rossignol skis and telescoping aluminum tow bars with waist belt. This kit works great with both classic and skate skiing.

# ONE CHARIOT

## The leader in Quality and Innovation

When you purchase a Chariot carrier, you're buying a North American made and engineered product that has undergone years of internal and real-world testing. Not only does Chariot meet regulatory safety standards, but all our products must also exceed our own, even stricter standards. Independent international test results with Chariot products have verified our quality. All Chariot Carriers meet or exceed ASTM standards F 1975-02 and F 833-07a.

At Chariot, we know that you are carrying the world's most precious cargo in your carrier. That's why we ensure that the materials we use are the best quality

and the safest for you and your children. Whether it's the lightweight 6063-T6 anodized aluminum material used in our frames or our sewn fabrics that meet the rigorous European Oeko-Tex 100 standard for chemical composition, we ensure that every detail of our carriers is carefully considered. For example, our premium poly-urethane backed fabrics and state-of-the-art poly-urethane windows provide superior wear and puncture resistance, much improved all-weather reliability, and are free from any harmful chemicals.

All Chariot carriers are covered by our Limited Lifetime Warranty which provides customers with an extra level of comfort when choosing our products.

Your family's safety is your top priority - and ours. That is why Chariot takes such care in the design and materials used in our products, and why we back everything we make with our Limited Lifetime Warranty.

### Some of Chariot's industry leading innovations:

- 1. Energlo<sup>®</sup>, 3M<sup>™</sup> Reflective Material, and Stridelite<sup>™</sup>**  
Stay visible with your Chariot when the sun goes down. Exclusive to Chariot, Energlo<sup>®</sup> photo-luminescent fabric builds a charge when exposed to light and provides a glow-in-dark-effect to your carrier after dark. 3M<sup>™</sup> Scotchlite<sup>™</sup> reflective materials incorporated throughout our carriers and the Stridelite<sup>™</sup> accessory, which emits a blue strobe light that can be seen from up to a 1/2 mile away, all help ensure you don't go unnoticed when darkness falls.
- 2. Chariot Adjustable Suspension<sup>™</sup> CAS<sup>™</sup>**  
Easily adjust Chariot's patented CAS<sup>™</sup> suspension system without tools, and smooth out the bumps along your path.
- 3. VersaWing<sup>™</sup> and ezClick<sup>™</sup>**  
As the heart of the CTS system, the VersaWing<sup>™</sup> safely mounts all of the CTS conversion kits, as well as the brake and side fender kits. With ezClick<sup>™</sup>, attaching and removing kits is as simple as the push of a button.
- 4. Handlebars**  
Chariots have either an ergonomic five-position handlebar (CX<sup>™</sup>) or HeightRight<sup>™</sup> adjustable handlebar. Just reverse these handlebars to suit your pushing style.
- 5. Multiple Cargo Storage Options**  
All of our models offer spacious cargo storage, such as a rear mesh pocket and a rear wallet/key/phone pocket, as well as the innovative foldaway rear storage compartment. (Cougar<sup>™</sup> and CX<sup>™</sup>)
- 6. Click n' Store<sup>™</sup> Brackets**  
With these built-in brackets you can easily store your Jogging or Cycling Kit arm right on your Chariot. (Cougar<sup>™</sup> and CX<sup>™</sup>)
- 7. Drum Brakes**  
These dual rear drum brakes provide fast stops in strolling or jogging modes. It also functions as a hand-operated parking brake. (CX<sup>™</sup>)
- 8. ezFold<sup>™</sup>**  
Chariot's patented ezFold<sup>™</sup> is the simplest and fastest folding system in the industry. This design also ensures that when your carrier is open and in use, it is locked safely in position.
- 9. Runner's Kick Stride and Aero Styled Profile**  
The X-Country Series is a multisport design. They have a low centre of gravity, a raked back design and lots of room for a runner's kick stride.
- 10. ezHitch<sup>™</sup>**  
The patented ezHitch<sup>™</sup> makes attaching or detaching your Chariot to a bike simple, and the ball and socket design ensures maximum range of movement while riding.
- 11. Child Comfort**  
Spacious, ergonomic and contoured for growing children, Chariot's child comfort innovations are unmatched in detail. With innovations such as padded, reinforced seat systems, and fit-enhancing accessories such as the Baby Bivy, Infant Sling and the redesigned Baby Supporter, your children will always enjoy a great ride.

# ONE CHARIOT

Life Simplified

Chariot makes it simple for you to focus on the important things like spending time with your kids.

Use our patented ezFold™ to quickly have your carrier folded and ready for transport. Plus the lightweight aluminum frame makes it easy to lift into the trunk of your car. With Chariot CTS you don't need a garage full of multiple, activity-specific child carriers. Your one Chariot chassis and conversion kits stow easily out of the way.

With Chariot's enclosed child cockpit and various climate control features, you don't have to let the weather slow you down. Zip-off windows, side air vents, UV blocking tinted windows and sunshades keep your kids comfortable in the sun. Large 20-inch rear tires and 16-inch jogging wheel make rolling through sand, mud and snow a breeze, and the 2-in-1 weather cover completely covers the child cockpit, making a cozy compartment even in rainy or cool conditions.

Not only does the fully enclosed child cockpit provide a safe haven for those who have fallen asleep, but it also helps to keep the curious travelers from tossing objects out when you're not looking.

## CHARIOT OWNER'S COMMENTS:

I am a first time mom, and therefore a first time Chariot buyer. I am very, very pleased with the product so far, and cannot wait to get out more with my daughter. Though I originally planned to have this stroller as an outdoor activity stroller, I am now reconsidering using it for shopping as well due to how easy it is to maneuver, and how smooth of a ride it is for my daughter.

Jennifer C.

LOVE my Chariot and I am continuously recommending it to others.

Brandy E.

I love your product! Our Cougar has become our new vehicle.

Amy H.

Our last child carrier was a cheap tank from a toy store that wouldn't fold well enough to fit in the back of the van. This product is not only versatile, lightweight, and safe, but folds and stores very well. We're taking it on an airliner for vacation instead of a conventional stroller.

Pam W.

Think about doing your everyday tasks without a vehicle. Whether you're shopping for groceries or taking the kids to daycare, the ample storage space, durable high quality construction and versatility of Chariot CTS means spending money on gas can be a thing of the past. (Peter and Andrea Tombrowski have been living car free since 1998. check out their book, Urban Camping: A Testament to Living Without a Vehicle.)

# ONE CHARIOT

## Community and Environmental Commitment

At Chariot Carriers we are committed to doing our part to ensure that we all have a world to enjoy with our kids and for generations to come. For us at Chariot, that means being a responsible company in terms of our environmental impact and our commitment to our community. The Chariot Green Team, made up of members from different departments at Chariot, works to ensure that we are meeting our environmental targets and striving to do all we can to act as a responsible company and manufacturer.

### Our community commitment:

- We will strive to contribute our time and efforts to charitable organizations within our community.
- We will continue to donate product in support of causes that will help to strengthen our community.
- We will continue to treat all of our employees, suppliers, and customers with dignity and respect.
- In our Canadian factory, we will continue to pay fair wages, provide a safe working environment and provide time off as required, and we will ensure that the same attitude is used in any factory we work with.

### Our environmental commitment:

- As a founding member of EcoMobility, we will strive to provide products that will make it easier for our customers to reduce their dependence on motor vehicles.
- We will continue to ensure our products are designed and built to the highest standards and made with the best materials to ensure a long product life.
- We will use only materials that are free of known harmful substances.
- We will strive to use recycled materials wherever possible.
- We will continue to ensure the ongoing support of our products by maintaining an inventory of parts from 1994. With the support of our retailers we can help keep Chariots functioning for years to come.
- We will strive to reduce the environmental impact of our packaging by reducing packaging materials and using earth-friendly products.

# X-COUNTRY

CTS Adventure Carrier Series

The X-Country Series is designed for maximum flexibility and performance, eliminating the need to purchase several dedicated child carriers. Sold as a chassis only, you can choose up to five CTS conversion kits to suit your active lifestyle. Whether you choose to stroll, jog, bike, hike, or cross-country ski, the X-Country Series is designed to perform as well, or better, than any dedicated units on the market.

Maximum flexibility,  
Maximum cool!

## X-COUNTRY STANDARD FEATURES

Sold as a chassis only. You will need to add at least one conversion kit. Compatible with all five CTS Conversion Kits. While each of the three carriers in the X-Country Series are themselves unique, they all share these innovative features:

- Padded five point seatbelt system
- Protected child cockpit for one or two children
- Bug proof mesh upper seat for air flow
- Integrated helmet space for passenger comfort while wearing a helmet
- Removable 2-in-1 weather cover
- Durable poly-urethane coated polyester fabric with water repellent (DWR) finish
- Oeko-Tex 100 certified fabrics
- Poly-urethane tinted side windows
- 3M™ Scotchlite™ reflective material
- 20" push button removable wheels
- Lightweight aluminum frame
- Patented ezFold™
- VersaWing™ 2.0
- Integrated parking brake
- No tools required for assembly or conversion
- Limited lifetime warranty
- Meets or exceeds ASTM standards

# ONE CHARIOT

Epic Adventures

Whether you are taking your Chariot around the block or around the continent, you travel knowing that you can rely on your equipment. With ample storage space and high quality, reliable construction, Chariot Carriers have always been the choice of long distance travelers.

Jesper Olsen is an ultra distance runner from Denmark who ran around the world in 22 months. "During the world run one, January 1, 2004 to October 23, 2005, I had the pleasure of using the Chariot Cougar 1 as one of the main parts of my equipment for the record breaking run of 26,232 kilometers around the world. It proved to be one of the most durable pieces of my equipment and with ease held through the Scandinavian winter of -20°C all the way to the burning heat of +50°C during the run across the Australian Nullabor Desert. Whether it's for a 'run around the block' or across continents I can truly say that it's the best running stroller available on the market today!"

*My Cougar never let me down!*

"The Chariot lets me to do what I love to do, cross-country skiing, and now I can still ski with my entire family. This is an essential tool for any parent who wants to stay active, enjoy the outdoors and to go on adventures with their children. Now that I have a family, I don't need a minivan - I just need my Chariot and my legs, heart and lungs!"

Sara Renner - Olympic silver medalist, cross country skiing, mother

Take it Outside  
Contest Winner

Congratulations to Jen Jolliff of Anchorage AK. Their photo was chosen as the Photo of the Year from Chariot's "Take it Outside" photo contest.

## CHARIOT OWNER'S COMMENTS:

My Chariot Cougar 2 is my life-line! I have twin boys who have now logged a year of travel in their Chariot - dirt roads and XC ski trails. This summer...on to the bike!

Barclay R.

Love my Chariot. My children would outgrow it before it becomes unuseable. Great resale value on it too. It's a great investment.

Junelyn A.

I have had my carrier now for 3 years. The only downside is that I do not get out and use it more often. I just love it and so does my son. What a great thing to do together as a family, outdoors in the rain or shine... I love our Chariot

Anthony H.

I am convinced that Chariot trailers are the most well designed and manufactured trailers available.

Victor S.

# CLASSIC

CTS Bicycle Trailer Series

Ready to Ride!

When the emphasis is on cycling, parents often choose the "ready to ride" Classic Series. The added versatility of CTS means you can also convert these traditionally styled carriers for many other outdoor pursuits. With their spacious two child cockpits, ezFold™ design and lightweight aluminum frame, you are guaranteed to enjoy the pathways with your children.

## CLASSIC STANDARD FEATURES

While each of the three carriers in the Classic Series is unique, each share these innovative features:

- Deluxe five point seatbelt system
- Protected child cockpit for one or two children
- Bug proof mesh upper seat for air flow
- Integrated helmet space for passenger comfort while wearing a helmet
- Durable poly-urethane coated polyester fabric with water repellent (DWR) finish
- Oeko-Tex 100 certified fabrics
- Poly-urethane tinted side windows
- 3M™ Scotchlite™ reflective material
- 20" push button removable wheels
- Lightweight aluminum frame
- Patented ezFold™
- Axle mounted ezHitch™
- VersaWing™ 2.0
- No tools required for assembly or conversion
- Limited lifetime warranty
- Meets or exceeds ASTM standards

# CABRIOLET

## CLASSIC CTS Bicycle Trailer Series

The Cabriolet™ trailer incorporates CTS versatility to stroll, jog, bike and hike. It is loaded with lots of great features such as: lightweight spoke wheels, a super comfy seat, padded harness and adaptable weather protection. This Chariot original trailer is also loaded with ample storage space making it a great addition to your next family outing.

All Classic carriers are sold initially as bicycle trailers.

### CABRIOLET™ FEATURES:

**Includes all of the Classic standard features shown on page 23 plus:**

- Larger child cockpit
- Side air vents with covering flaps
- Padded seat bottom with wicking mesh
- 20" lightweight aluminum wheels with canted axle for added stability
- Removable 2-in-1 weather cover
- Rear flap that doubles as a sunscreen and rear bug proof mesh panel
- Additional 3M™ Scotchlite™ reflective material

### CABRIOLET™

**3 Activity:**

Select your optional Conversion Kits to convert to these specific activities.

# CORSAIRE XL

## CLASSIC CTS Bicycle Trailer Series

The Corsaire XL™ has all the features avid cycling families need to ride everywhere possible, and its larger size can accommodate older children. With plenty of storage for those extended cycling tours there are no limits on where you can go or what you can do with this feature packed CTS carrier.

All Classic carriers are sold initially as bicycle trailers.

### CORSAIRE XL™ FEATURES:

**Includes all of the Classic standard features shown on page 23 plus:**

- Our largest child cockpit
- Large rear mesh pocket
- Deluxe 2-in-1 weather cover with zip-down front window
- Side air vents with covering flaps
- Reinforced padded seat with wicking mesh fabric
- 20" lightweight aluminum push button removable wheels
- CAS™ Chariot Adjustable Suspension
- Additional 3M™ Scotchlite™ reflective material

# CADDIE

## Bicycle Trailer

The Caddie™ is just right for families looking for a lightweight, high quality and economical bicycle trailer. There is no compromising with the Caddie™ as it is built to Chariot's high standards and it comes with many great features, such as our patented ezFold™ design, ample storage space and our stainless steel axle-mounted ezHitch™. With the optional Walking Kit you can quickly transform this bicycle trailer to an easy-turning stroller.

All Classic carriers are sold initially as bicycle trailers.

### CADDIE™ FEATURES:

Includes all of the Classic standard features shown on page 23 plus:

- VersaWing™ 1.0
- Molded 20" quick release wheels with canted axle for added stability

### CADDIE™

# SIDECARRIER

## Bicycle Sidecar

The patented SideCarrier™ has to be the coolest way to see the world with your child. It allows for easy interaction and a watchful eye as you head down the pathways together, while your child has an unobstructed view of the road while riding right beside you.

The pivoting SideCarrier™ hitch keeps the carrier level, allowing the bicycle a full range of movement while protecting your child with the enclosed frame.

### SIDECARRIER FEATURES:

- Extra-low centre of gravity for extra stability
- Right side mount to keep your child on the safe side of the pathway
- Unique hitch design keeps the SideCarrier™ upright while allowing the bike to lean naturally
- The axles of the SideCarrier™ align with the bike to keep wheels from scrubbing or skidding
- Narrow width makes the bike and SideCarrier™ combined as wide as a traditional double trailer yet much shorter
- The SideCarrier™ can be folded and pivoted up to the bike for storage in narrow spaces
- Easy to install hitch stays on the bike and makes attaching and removing the SideCarrier™ a breeze
- Lightweight aluminum frame with oversized lower frame that protects your child as well as the wheel and underside of the SideCarrier™
- Enclosed single child cockpit
- Quick folding design
- Rear storage bag and large mesh pocket
- Deluxe five point seat belt system
- Mesh upper seat
- Tinted side windows
- 20" aluminum spoke wheels with push button release
- Maintenance free cartridge bearings
- 2-in-1 weather cover
- Durable poly-urethane coated polyester fabric with water repellent (DWR) finish
- 3M™ Scotchlite™ reflective material
- Limited lifetime warranty

# CHARIOT

## Accessories

Chariot puts more thought and research into your lifestyle than any other child carrier company. We offer a wide range of accessories to significantly enhance your quality time while using a Chariot.

### Child comfort:

- 1. Baby Bivy**  
(Newborn plus, Recommended for strolling only)

The Baby Bivy is designed to make it easy to get strolling with your new baby weighing 6 to 18 lbs. It easily attaches to your carrier's frame and seat belt. This soft padded accessory features handles that make moving your baby in and out simple without disturbing his or her sleep.

- 2. Infant Sling**  
(1 - 10 months, not for use while cycling)

While your child is still building his or her strength, this padded sling gives your baby lateral support while providing maximum comfort and stability. The hammock-like design helps provide a smooth ride and it makes it possible for the baby to be reclined while still being able to look around and see the world outside.

- 3. Baby Supporter**  
(3 - 18 months)

As your little one grows and learns to sit upright, the Baby Supporter helps by providing a little extra support. The padded sides and head rest also make it more comfortable during naps. The head support is adjustable to accommodate growing children and can also be removed for riding while wearing a helmet. **New for 2009**, the Baby Supporter is redesigned with improved head and body support.

- 4. All Season Bunting Bag**

This oversized, fleece-lined Bunting Bag adds warmth on your cooler day outings. One layer can be used as a seat liner or use both layers to add warmth without worrying about blankets dropping outside. The outer layer is made of wind-resistant micro-fiber, and the foot area is made of vinyl for easy cleaning.

### Added practicality:

- 5. Stridelite™ Strobe Kit**

Licensed exclusively to Chariot, the patented Stridelites™ provide the highest level of visibility. This kit includes two electroluminescent lamps which are completely flexible, virtually weightless and highly durable. Easily installed, this kit offers a blue strobe light that is visible from 600 meters (half a mile) away and has a lifespan of 20,000 hours!

- 6. Hydration Kit**

This kit comes with two water bottle holders and frame clips. The parent's larger bottle clips to your carrier's handlebar, while the child's smaller bottle clips onto the interior frame.

- 7. Jogging Brake 1.0**

For use in jogging mode on CTS carriers with either VersaWing™ 1.0 or 2.0. This quick release caliper adds stopping power using a handlebar-mounted brake lever. This kit fits either one or two child carriers and easily removes without tools for converting to other kits.

- 8. Jogging Brake 2.0**

For use in jogging mode on X-Country CTS carriers with VersaWing™ 2.0. This brake is designed to fold away under the carrier when not in use. This brake features an integrated fender to protect the front of your carrier. Available for one or two child carriers.

- 9. Side Fenders 2.0**

These fenders easily attach to your carrier's VersaWing™ 2.0 to help keep dirt and debris away from your carrier. The quick release brackets make adjustments quick and easy.

- 10. Classic Cargo Conversion**

Turn your Cabriolet™ or Caddie™ into a full size cargo trailer. This kit includes a tough, reinforced floor insert with anchor points, and a water resistant cover.

### Additional storage:

- 11. X-Country Cargo Rack**  
The X-Country Cargo Rack is designed to be easily installed or removed. Attached to your carrier's upper frame, the Cargo Rack gives you easily accessible storage space for up to 2.3 kg/5 lbs of gear. Available for one or two child carriers. **New for 2009**, the X-Country Cargo Rack now has Energlo® fabric for added nighttime visibility.

- 12. Handlebar Bag**

This accessory easily fastens to your carrier's handlebars and can be removed and used as a diaper bag or a child's backpack. The bag features an external water bottle pocket and a sleeve for a one-litre hydration bladder. (Bladder not included)

### Protection for your Chariot:

- 13. Rain Covers**

These clear fitted covers are used when you require protection from heavier rain conditions. They can be used in place of, or in addition to your current weather cover. Available for one or two child carriers.

- 14. Travel Bags**

These softcase bags help protect your Chariot while traveling and are also great for storage. These oversized bags include two wheel bags to help keep your carrier clean. Available for one or two child carriers.

- 15. Storage Covers**

This fabric cover helps protect your Chariot while not in use. Available for one or two child carriers.

### For your second bike:

- 16. Axle Mount ezHitch™**

The Axle Mount ezHitch™ is mounted to a second bike when you want to easily move your cycling-ready Chariot from one bike to another. Compatible with both solid and quick release rear axles. Package includes hitch cup and quick release skewer.

- 17. SideCarrier™ Hitch**

This SideCarrier™ Hitch is mounted to a second bike when you want to easily move your Chariot SideCarrier™ from one bike to another. Compatible with most standard bikes.

## About Us

Chariot Carriers is one of the very few companies in the world that dedicates itself solely to outdoor transportation of children. We are guided by principles such as family togetherness, outdoor activities, health and fitness, balanced lifestyles, ultimate safety and an ongoing commitment to turning your family outings into unforgettable memories.

Chariot leads in many marketplaces around the world, including North America and Europe, where parents have been choosing Chariot over other brands for more the 15 years, citing quality, innovation, attention to detail and worldwide customer care.

**Discover the Chariot difference!**
