3. Attach all elastic bands.

Using the Canopy

Attaching

Fully insert the canopy holder (male) to the canopy holder (female) until a click is heard.

Removing

Pull tab on canopy up and pull out of canopy holder.

CAUTION

Failure to fully secure the canopy holders can cause the holders to bend. When storing the stroller by laying it down, be sure the canopy is off the ground to prevent it from bending.

Extending

Press lock down to fully extend canopy.

Folding

Push lock up to fold canopy.

Using the Air-Thru System

Open and close the Air-Thru window using the zipper located at the rear of the canopy.

Routine Maintenance

STORE IN A COOL AND DRY AREA, especially in the summer. Do not store the stroller in the trunk of a vehicle.

SEAT CUSHION

The seat cushion is machine washable. Set to gentle cycle using cold water and a mild detergent. Do not use bleach. Lay seat cushion flat to dry in shaded area. Do not machine dry. To prevent color fading, do not leave soaking for a long period. Do not dry in the sun. If the seat cushion is frayed or unraveling, discontinue use and call Consumer Affairs for further instruction.

EGGSHOCK PAD

The Eggshock pad is not washable. Should pad become damp, lay flat in a shaded area to dry.

CANOPY, WAIST BELT, FIXED SEAT BASE AND BASKET

Hand wash with brush. Wipe out excess water with a dry cloth and dry in a shaded area. For stubborn dirt, dilute a mild detergent and apply directly to the dirty area. Wipe out the detergent.

MAIN BODY

Briskly wipe off any mud and dirt. To clean the body, wipe with a damp cloth then wipe out any traces of moisture on the body with a dry cloth. The main body might become moldy and musty if not wiped dry.

Excessive exposure to the sun could cause premature color fading of stroller plastic and fabric.

WHEEL ASSEMBLIES

After prolonged normal use, the wheels of your stroller may not swivel or turn as easily as when the stroller was new. This is usually due to a buildup of dirt in the swivel mechanism. Before adding lubrication, wipe off mud and dirt. **Do not use soap and water to wash wheels.** Periodically check that all screws, bolts and nuts are tight.

Avoid lubricating the swivel wheels whenever possible. Excessive lubrication or adding lubricant to swivel wheels when new may cause them to develop a shimmy or wobble that may quicken their deterioration. Add silicone* to **the wheel assemblies** in small amounts.

Do not use lubricants because oil attracts dust and would hinder the movement rather than improve it.

*Silicone spray is available in varying size cans at most hardware stores.

Trouble Shooting

STROLLER WILL NOT FOLD

- Check to see that the waist belt is not caught in the side.
- Make sure front swivels are locked.
- Make sure the backrest is in the folded position.
- Remove all items from the basket.

DIFFICULT TO STEER/STROLLER PULLS TO ONE SIDE

- Remove any items hanging from the handle.
- Make sure weight in basket is distributed evenly.
- Check that the brakes are not in the locked position.
- Clean and add silicone to wheels, if necessary.

DIFFICULT TO GET UP CURBS

- Pulling stroller backward makes going up a curb difficult, and could pose a safety hazard. Pull the handle up to lift the rear wheels onto the curb, then pull the stroller backward until the front wheels clear.

DIFFICULT GOING DOWN CURBS

- Turn stroller around, bringing rear wheels toward the edge of the curb. Gently lower rear wheels onto the surface below. Once the rear wheels have landed, guide the front portion of the stroller, using the armrest as support.
