

Wheeled Trimmers

Our durable ECHO Bear Cat Wheeled Trimmers have the power to take on the toughest weeds. Five different models available (1 economy, 2 self-propelled & 2 tilt n' trim) with (2 engine choices & 2 drive choices) to suit all of your trimming needs. The 3-speed, self-propelled drive uses a two wheel drive sprockets and a chain drive for more positive traction over single wheel drives models. A variety of options are available for each Wheeled Trimmer model including a Pro-Line mow ball replacement with extra thick line for demanding applications, a Sabre Blade Kit for easily cutting saplings up to 4" diameter, and a Nylon Blade Kit that powers through thick, tough weeds with ease.

"Optional" Sabre Blade Kit show above cuts anything in its path including limbs upto 4" in diameter

Large 24" cutting swath makes quick work of large grass patches

Manual Container Holder helps keep your manuals safe and dry for quick access.
