

2013 OEM INTEGRATION GUIDE

PACIFIC ACCESSORY CORPORATION

Pacific Accessory Corporation – Your Source for Technological Innovation, Industry Commitment and Customer Service for More Than 30 Years

We're innovators dedicated to developing tomorrow's technologies, today. We're an industry mainstay who offers everything from steering wheel control and portable media integration, to radio replacement and amplifier integration, Bluetooth integration, security system interfacing. But, we're also a company that understands patented, cutting-edge technology is worthless without knowledgeable tech support, in-depth installer training, reliable delivery and personalized customer service.

It's that extra level of commitment – our heartfelt dedication to providing shop owners and installers the products and know-how they need to make their customers happy – that has set us apart for more than 30 years. That's right. . . we've been here since the 8-track player was the iPad of the day and replacing a radio required hours of cutting, splicing and rolls of electrical tape. Although the technology has changed and we have grown beyond our wildest dreams, our goal now – as it was from the start – has remained exactly the same: create high quality mobile electronics interfaces and deliver the latest technology to satisfy the needs of even the most demanding customer.

That's why more people worldwide trust PAC than any other OEM integration solution brand. That trust proves to us that we've been doing it right. . . and keeps us working hard to keep that trust for tomorrow.

New Marketing Solutions including commercials, radio spots, magazine ads, web advertising and more!

ALL DESIGNED TO DRIVE CONSUMERS TO YOUR STORE!

Connect™

New Item

iOS 6 Compatible

ISUSB

Made for

iPod iPhone iPad

With a Universal USB input, Bluetooth connectivity and more, the iSimple Connect is the most advanced OEM integration module available for linking smartphones, tablets, MP3 players and other portable media devices to the factory entertainment system in many late model vehicles.

The iSimple Connect delivers the things that consumers are looking for most from an integration kit: great sounding, digital-quality audio; hands free calling (HFP); streaming audio (A2DP) and wireless control (AVRCP) of many Apple or Android devices, and battery charging via USB.

Combining multiple emulation modes, the iSimple Connect is compatible with a majority of today's most popular OEM radios, regardless of vehicle make, model or factory options. This makes the Connect an affordable, easy-to-install solution for helping consumers get the most of their portable devices while on the go.

- USB Connection for Charging and Control of Android, iPhone and other Smartphones
- Device browsing and control by wired or Bluetooth connection
- Built-in Bluetooth for Hands-free Calling (HFP) and Audio Streaming (A2DP)
- Wireless device control using Audio Video Remote Control Profile (AVRCP)
- 2.1Amp Charging for iPad and Other Compatible Devices
- Song text (metadata) on factory radio
- Auxiliary Audio Input

Connect Kits

Connect™

Factory Radio Interface for iPod, iPhone or iPad, Android and Other Smartphones for Select 2003 - 2012 Vehicles

- USB connection for charging and control of smartphones, tablets, and media players
 - Supports Apple iAP over USB (control using Apple USB cable (not included))
 - Android device browsing and control by wired (USB)* or Bluetooth connection
 - Built-in Bluetooth for hands-free calling (HFP) and audio streaming (A2DP)
 - Wireless device control using audio video remote control profile (AVRCP)
 - 2.1 Amp charging for iPad and other compatible devices
 - Song text (metadata) on factory radio
 - Auxiliary audio input (3.5mm or RCA)
- * MTP support coming soon

GateWay™

PXAMG

The iSimple GateWay represents the ultimate integration solution for iPod or iPhone. By emulating satellite radio or CD Changer data, the iSimple GateWay gives you complete integration between any iPod or iPhone and your factory-installed car stereo. You'll enjoy browsing and song information through your standard radio controls, as well as battery charging on models of iPod or iPhone. Additionally, the iSimple GateWay offers an extra headphone style audio input for use with other portable audio devices, and can also be upgraded with an optional iSimple NuRadio HD Radio tuner or iSimple BluStream Bluetooth module.

MSRP **\$169.95**

- Direct connection provides excellent, CD-Quality sound
- Use the OEM radio controls to browse the iPod or iPhone
- Song information displayed on factory radio
- Battery charging for iPod or iPhone
- Secondary audio input for use with other audio sources
- Vehicle Specific harnesses for Plug-and-play installation available
- Upgradable with HD Radio
- Upgradable with Sirius Satellite Radio
- Upgradable with Bluetooth

NOTE:

2MSRP **\$99.95**

- Plug-and-play installation maintains factory wiring integrity
- Direct audio input to factory radio for maximum sound quality
- Two separate inputs for use with a multitude of auxiliary audio sources
- Inputs selectable from the factory radio

NOTE: Not compatible w/ in dash 6-Disc changer radio

ALPINE

AAI-ALPA

Auxiliary Audio Input Cable for Alpine AI-Net or JVC Radios

AUX
1MSRP **\$9.95**

- Plug-and-play installation
- Converts CD changer port into a universal RCA input

ALPINE

AAI-ALPM

Auxiliary Audio Input Cable for Alpine M-Bus Equipped Radios

MSRP **\$9.95**

- Plug-and-play installation
- Converts M-Bus changer port into a universal RCA input

KENWOOD

AAI-KENW

Auxiliary Audio Input Cable for Kenwood Radios

MSRP **\$9.95**

- Plug-and-play installation
- Converts changer port into a universal RCA input
- Comparable to CAC1AUX

PIONEER

AAI-PIOP

Auxiliary Audio Input Cable for Pioneer IP-Bus/P-Bus Equipped Radios

MSRP **\$9.95**

- Plug-and-play installation
- Converts P-Bus changer port into a universal RCA input
- Comparable to CDRB10

SONY

AUXON-SONY

Sony Radio Auxiliary Input Activation Device

MSRP **\$39.95**

- Plugs directly into the CD Changer port on a Sony Unilink radio
- Enables the use of the "Aux in" RCA input on the radio

PIONEER

PIOAC25

2.5mm to 3.5mm Interconnect for Portable Audio Devices

MSRP **\$9.95**

- Connects to an audio source with 2.5mm headphone or line output jack
- Connects to any stereo with a 3.5mm auxiliary audio input jack
- High quality metal connectors for optimal sound quality

KENWOOD

IC-KENUSB22F

Charging and Control Cable for Connecting iPod or iPhone to Select Kenwood Radios

MSRP **\$39.95**

- Plugs into the 3.5mm and USB connections on compatible headunits
- Comparable to CA-1W51V

KENWOOD

IC-KENUSB202V

Charging and Control Cable for Connecting iPod or iPhone to Select Kenwood Radios

MSRP **\$39.95**

- Plugs into the 3.5mm and USB connections on compatible Kenwood headunits
- Comparable to KCA-IP202

PIONEER

IC-PIOUSB51V

Charging and Control Cable for Connecting iPod or iPhone to Select Pioneer Radios

MSRP **\$39.95**

- Plugs into the 3.5mm and USB connections on compatible Pioneer headunits
- Comparable to CA-1W51V

KENWOOD

IC-KENUSB302V

Charging and Control Cable for Connecting iPod or iPhone to Select Kenwood Radios

MSRP **\$39.95**

- Connect and charge iPod, or iPhone
- Plugs into the 3.5mm and USB connections on compatible Kenwood head units
- Playback music with control through select Kenwood head units.
- Comparable to KCA-iP302

DENSION

GW52M02

Dension's Gateway products allow the driver to enjoy hands-free calling, wireless audio streaming, and to play and control iPod or USB music sources through the car's original audio system without changing any of the original components or aesthetics of the vehicle.

MSRP **\$529.95**

- Play iPod or iPhone and USB audio device through the car's audio system
- Display song information on the factory radio screen
- Make and receive hands free calls in the car

New Item

- Charges iPod or iPhone
- Dedicated auxiliary audio input
- Stream music wirelessly from your phone (A2DP)

TR7PRO

Universal Trigger Module with Android and PC Compatibility

TR7-PRO is a multi-channel control device which offers such dynamic flexibility; it can be used in virtually any installation. The 4 inputs and outputs are easily programmable using the free application for Android tablets or a Windows PC.

New Item

MSRP **\$49.95**

- Unique, Highly versatile solution to many installation challenges
- Easily Programmable by Android Tablet using free application via USB
- Easily Programmable by PC using free Windows application via USB
- Low voltage trigger
- Aftermarket video bypass
- Latching outputs
- Double pulse output
- Pulse extender
- Linear actuator controller
- Door lock pulse generator
- Channel splitter
- 3 in 1 timer outputs
- Pulses to timed output
- Turn on pop delay
- Delayed amp turn off

TR7-PRO APP

ISFM2101

Integration Kit for Android devices with Hands-Free Calling, Audio Streaming, with Steering Wheel Controls

InSeam™

New Item

MSRP **\$169.95**

- Wirelessly connects your smartphone to your car's audio system for Bluetooth audio streaming (A2DP) and hands-free calling (HFP)
- Controls commonly used functions of the Smartphone from Steering Wheel Controls
- Hands-free calling
- Supports Android voice control functions
- Audio Output via RCA or FM

ISFM21

Bluetooth Enabled Audio Input Module for Audio Streaming (A2DP)

The ISFM21 is a Bluetooth enabled, application controlled FM transmitter made specifically for your Android smartphone. It wirelessly connects your phone to your car's audio system using Bluetooth for audio streaming (A2DP).

MSRP **\$119.95**

- Provides an audio connection solution with factory-like appearance
- RCA audio output for radios equipped with auxiliary audio
- No visible wires in the vehicle
- Auto-reconnect when entering vehicle
- Three selectable FM broadcast frequencies
- Full band FM broadcast selection via Android application (free)

TranzIt BLU™

TranzIt BLU App

IS9501

6' Micro HDMI to Standard HDMI Interconnect Cable

uLinX™

MSRP **\$24.95**

- Connect a Micro HDMI device to a standard HDMI connection
- High-Speed HDMI cable supports Full HD 1080P
- Compatible with older HDMI standards
- Superior construction for quality audio and video
- Gold plated connectors for supreme connectivity

IS9401

USB to Mini USB Cable for Charging and Sync

uLinX™

MSRP **\$14.95**

- Synchronize or charge most USB phones, digital cameras, portable entertainment, GPS, and other devices
- Supports up to 480 MBps transfer rate
- Cable length 3 feet

IS9502

6' Mini HDMI to Standard HDMI Interconnect Cable

uLinX™

MSRP **\$24.95**

- Connect a Mini HDMI device to a standard HDMI connection
- High-Speed HDMI cable supports Full HD 1080P
- Compatible with older HDMI standards
- Superior construction for quality audio and video
- Gold plated connectors for supreme connectivity

IS9402

Radio Replacement

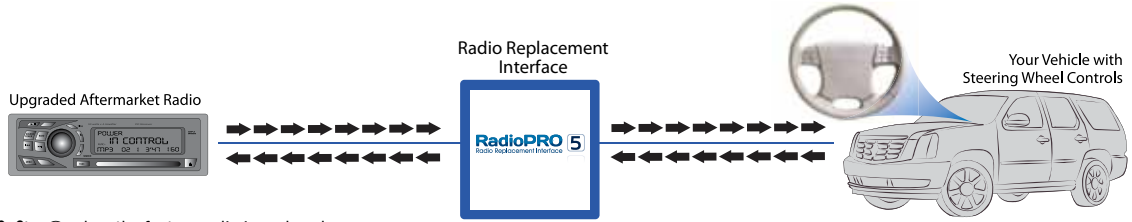

New Item

Radio Replacement Interface with Steering Wheel Control Built-in

This product allows the replacement of your automobile's original factory radio with an upgraded aftermarket radio. It has been engineered to interface seamlessly with the automobile's computer data bus system and retain important safety and convenience features such as OnStar®, steering wheel controls, back-up sensors/camera, rear seat audio controls, Bluetooth and factory amplified audio systems, including BOSE (if equipped).

- Retains OnStar® when the factory radio is replaced
- Retains Factory Bluetooth (2009+ model vehicles)
- Retains rear seat audio controls
- Retains factory XM
- XM Text displayed in the Driver Information Center (cluster display)
- Retains all warning chimes (chime module included)
- Retains back-up sensors/park assist
- Retains back-up camera signal
- Retains factory BOSE audio systems
- Retains factory premium BOSE audio (Y91 digital. does not support fading)
- Supports non-amplified audio systems
- Built in pre-programmed SWC retention
- Dual zone function
- Chime volume adjustment (factory buttons)
- Rear seat audio and video (GMRVD) required
- OnStar volume adjustment
- Retained accessory power output (R.A.P.)
- Reverse Wire output
- VSS (Vehicle Speed Sense) output
- Illumination output
- Parking brake output
- Includes antenna adaptor
- Retains lane departure warning system
- Retains OnStar Turn-By-Turn voice prompts
- In package updatable using the PAC-UP

RadioPRO 4
Radio Replacement Interface

Radio Replacement Interface with Steering Wheel Control Built-in

For years, PAC has led the way in radio replacement interfaces and steering wheel control (SWC) interfaces. The RadioPRO4 offers the best of both worlds in one convenient module. An all-in-one radio replacement and SWC interface, the innovative new RadioPRO4 comes pre-loaded with amplifier retention and SWC software, navigation based output signals, and other features that save time and money during installation. And, because the RadioPRO4 communicates directly with the vehicle's databus, it retains all important OEM safety and convenience features.

- Data controlled RAP accessory output
- Data controlled outputs for connection to your navigation radio; speed, reverse and E-brake status output wires
- Retains original steering wheel control functions with the new radio (if radio is equipped with remote input) with no additional interface or programming needed
- Works right out of the box with most radio brands
- Keeps vehicle data-bus intact for service and emissions testing
- Retains factory installed amplified audio system
- Interface can be quickly updated if needed from the PAC website using a PAC-UP USB adapter

- Data controlled vehicle speed sense wire
- Retains factory-installed amplified audio system
- Retains vehicle entertainment system (CHYRVD required for VES video in/out)
- Keeps Data bus intact for vehicle service & emissions testing

NOTE: Does not support fading in Premium Amplified Systems. Does not retain Uconnect

CHRYSLER, DODGE, JEEP

CHYRVD

Factory Rear Video Display (VES) Retention Cable / Video Output Cable for Chrysler, Dodge, Jeep Vehicles

MSRP **\$39.95**

- Provides an audio/video output from the factory radio -OR-
- Routes audio and video from an aftermarket DVD player to the factory overhead LCD monitor (use with C2RCHY4 Rev.1.1.4 or higher)
- Provides factory reverse camera signal (when reverse camera is present)

NOTE: Does not support fading in Premium Amplified Systems.

CHRYSLER, DODGE, JEEP

C2R-CHYNA

Radio Replacement Interface for Non-Amplified Chrysler, Dodge, Jeep Vehicles

MSRP **\$79.95**

- Data controlled RAP accessory output wire
- Data controlled illumination output wire
- Keeps Databus intact for vehicle service and emissions testing

NOTE: - Only compatible when replacing a REF, REC or RAQ model radio
 - Does not retain uConnect or VES.

FORD SYNC®

MS-FRD1

Radio Replacement Interface with LCD Display, Controller for Select Ford Vehicles with Ford SYNC® Connectivity System

MSRP **\$249.95**

- Retains all functions of SYNC® including:
 - Voice recognition music search
 - USB
 - iPod
 - Auxiliary input
 - Streaming bluetooth audio
 - Bluetooth phone
 - Turn-by-turn navigation
 - 911 assist
 - Vehicle health report
- Display screen included
- Retains Factory Satellite Radio
- Retains Standard, Audiophile, Shaker, THX, and Sony Amplified systems
- Retains all Steering Wheel Controls
- Retains Rear Seat Entertainment and Rear Seat Controls
- Provides all necessary outputs for Standard or Navigation radio installations
- Retains MyKey support to turn off radio
- Antenna adapter is included

NOTE: - Rev 1.2.1.6 or higher retains "My Key" features
 - Not compatible in vehicles equipped with navigation

* SYNC® is a Registered Trademark of Ford Motor Company

FORD, LINCOLN, MERCURY

C2R-FRD1

Radio Replacement Interface for select Ford, Lincoln, Mercury Vehicles

MSRP **\$129.95**

- Data controlled RAP accessory output wire
- Data controlled reverse trigger wire
- Data controlled illumination output wire
- Retains rear seat entertainment and dual zone audio
- Data controlled parking brake wire
- Data controlled vehicle speed sense wire
- Retains factory-installed amplified audio system
- Single wire output for steering wheel control module
- Retains factory 3.5mm jack if equipped

NOTE: - SYNC equipped vehicles: Rear Seat Entertainment (RSE) audio is only retained through the IR headphone system, not the door speakers.

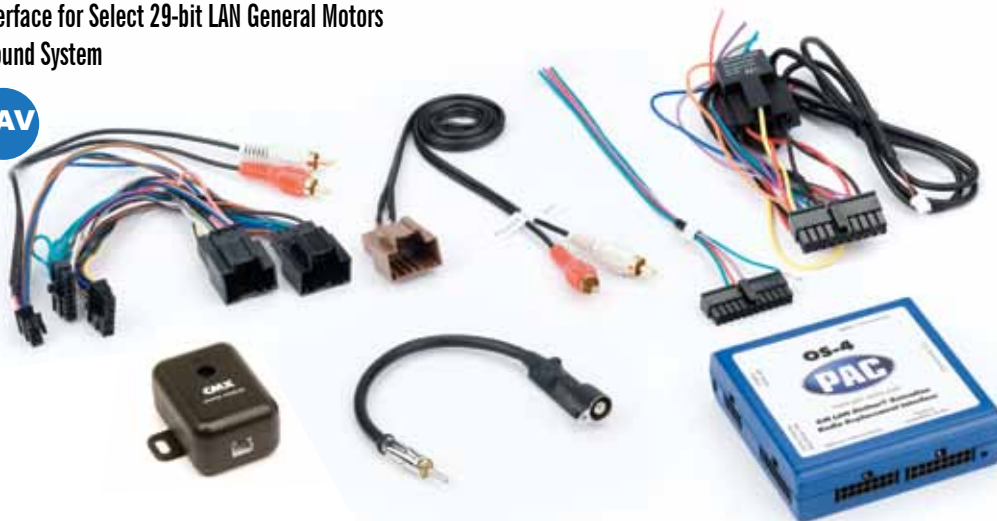

- Does not retain the Ford SYNC system
- Compatible with THX, SONY, Shaker and Audiophile sound systems in applicable vehicles. (v1.1.4 or higher required)

* SYNC® is a Registered Trademark of Ford Motor Company

GENERAL MOTORS

OS-4

OnStar® Radio Replacement Interface for Select 29-bit LAN General Motors Vehicles with or without Bose Sound System

MSRP **\$189.95**

- Retains OnStar® when the factory radio is replaced
- Retains Bluetooth functions
- Data controlled RAP accessory output
- Includes antenna adaptor
- Illumination Output
- V.S.S. output
- Includes chime module
- Retains Bose amplified audio system
- Dual zone audio control
- Retains park assist
- Parking brake trigger
- Retains factory XM aftermarket radio must feature an aux input. Vehicle must also have SWC & D.I.C.
- Direct plug-in for SWI module to retain Steering Wheel Controls
- Retains all safety warning chimes (adj. volume)
- Reverse output trigger

New features now available (rev. 1.2.3.8 or later)

- XM text displayed in the Driver Information Center (cluster display)
- Retains lane departure warning system
- Retains OnStar Turn-By-Turn voice prompts

NOTE: Fading is not supported in "Premium" amplified systems

GENERAL MOTORS

OS-311

OnStar® Radio Replacement Interface for Select 11-bit LAN General Motors Vehicles without Bose Sound System

MSRP **\$189.95**

- Retains OnStar® when the factory radio is replaced
- Retains Bose amplified audio system
- Retains all safety warning chimes
- Includes chime module
- Data controlled RAP accessory output
- Includes antenna adaptor

NOTE: Not compatible with 2009 vehicles that are equipped with factory Bluetooth.

GENERAL MOTORS

OS-311B

OnStar® Radio Replacement Interface
for Select 11-bit LAN General Motors
Vehicles without Bose Sound System

MSRP **\$189.95**

- Retains OnStar® when the factory radio is replaced
- Retains Bose amplified audio system
- Retains all safety warning chimes
- Includes chime module
- Data controlled RAP accessory output
- Includes antenna adaptor

NOTE: Not compatible with 2009 vehicles that are equipped with factory Bluetooth.

GENERAL MOTORS

OS-2C

OnStar® Radio Replacement Interface for Select General Motors
Vehicles without Bose Sound System

MSRP **\$169.95**

- Retains OnStar® when the factory radio is replaced
- Maintains a "healthy" status on the Class II databus
- Plug-in installation for vehicles with 24-pin harness
- Chime Module Included
- Provides 10 minute R.A.P. output wire
- Retains all safety warning chimes
- Retains rear parking assist

NOTE: - Not compatible with 2009 vehicles that are equipped with factory Bluetooth.

GENERAL MOTORS

OS-2C-BOSE

OnStar® Radio Replacement Interface for Select
General Motors Vehicles with Bose System

MSRP **\$169.95**

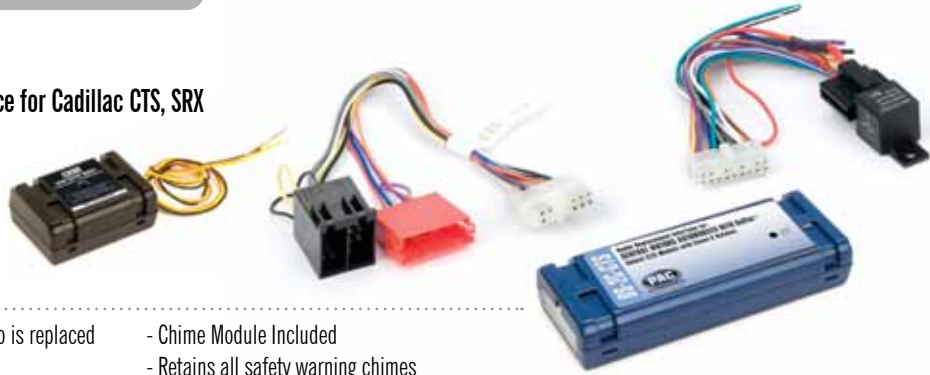

- Retains OnStar® when the factory radio is replaced
- Maintains a "healthy" status on the Class II databus
- Plug-in installation for vehicles with 24-pin harness
- Chime Module Included
- Provides 10 minute R.A.P. output wire
- Retains all safety warning chimes
- Retains rear parking assist

NOTE: - Not compatible with 2009 vehicles that are equipped with factory Bluetooth. - Does not support fading front to rear

GENERAL MOTORS

OS-2C-CTS

OnStar® Radio Replacement Interface for Cadillac CTS, SRX

MSRP **\$169.95**

- Retains OnStar® when the factory radio is replaced
- Retains Bose amplified audio system
- Maintains a “healthy” status on the Class II databus
- Provides 10 minute R.A.P. output wire
- Retains rear parking assist
- Chime Module Included
- Retains all safety warning chimes
- Plug-in installation for Cadillac CTS or SRX

NOTE: - OnStar® must be enabled using the OnStar® button on the rear view mirror
 - steering wheel OnStar® button will not enable OnStar®
 - OnStar® volume is not adjustable on CTS-V and SRX models

GENERAL MOTORS

OS2-GM32

OnStar® Radio Replacement Interface for Select Cadillac Vehicles

MSRP **\$169.95**

- Retains OnStar® when the factory radio is replaced
- Retains Bose amplified audio system
- Plug-in installation for vehicles with 32-pin harness
- Retains all safety warning chimes
- Maintains a “healthy” status on the Class II databus
- Provides 10 minute R.A.P. output wire

GENERAL MOTORS

OS-1

OnStar® Radio Replacement Interface for Select General Motors Vehicles without Bose Sound System

MSRP **\$119.95**

- Retains OnStar® when the factory radio is replaced
- Plug-in installation for vehicles with 21-pin harness

NOTE: Not compatible with radios that have an “RDS” logo on the face

GENERAL MOTORS

OS-1 BOSE

OnStar® Radio Replacement Interface for Select General Motors Vehicles with Bose Sound System

MSRP **\$169.95**

- Retains OnStar® when the factory radio is replaced
- Retains Bose amplified audio system
- Plug-in installation for vehicles with 21-pin harness
- 4 Channel adjustable

NOTE: Not compatible with radios that have an "RDS" logo on the face

GENERAL MOTORS

C2R-GM29

Radio Replacement Interface for Select General Motors Vehicles without OnStar®

MSRP **\$119.95**

- Retains all safety warning chimes
- Provides 10-minute RAP accessory output
- Compatible with all audio system levels

- Amplifier turn-on output wire
- Single wire output for steering wheel control module

NOTE: Not compatible with "Y91" premium Bose

GENERAL MOTORS

C2R-GM11

Radio Replacement Interface for Select General Motors Vehicles without OnStar®

MSRP **\$119.95**

- Retains all safety warning chimes
- Provides 10-minute RAP accessory output
- Compatible with all audio system levels
- Retains audible turn signal indicators

- Amplifier turn-on output wire
- Single wire output for steering wheel control module
- Provides illumination wire

NOTE: Does not retain factory XM satellite radio

GENERAL MOTORS

C2R-GM11b

Radio Replacement Interface for Select General Motors Vehicles without OnStar®

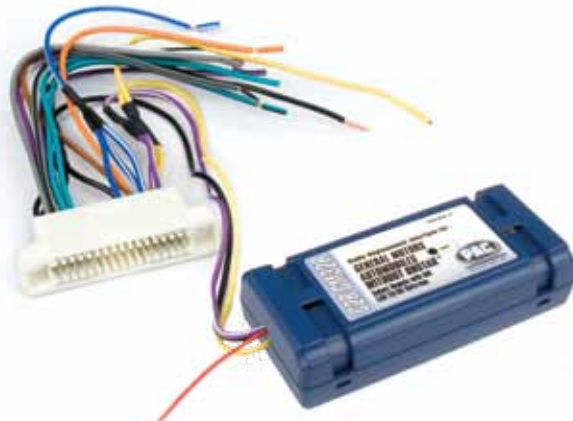

MSRP **\$119.95**

- Retains all safety warning chimes
- Provides 10-minute RAP accessory output
- Compatible with all audio system levels
- Retains audible turn signal indicators
- Amplifier turn-on output wire
- Single wire output for steering wheel control module
- Provides illumination wire

GENERAL MOTORS

C2R-GM32R

Radio Replacement Interface for Select General Motors Vehicles without OnStar®

MSRP **\$119.95**

- Retains all safety warning chimes
- Provides 10-minute RAP accessory output
- Retains audible turn signal indicators
- Amplifier turn-on output wire
- Compatible with all audio system levels

NOTE: Not compatible with Bose "premiim" amplifier

GENERAL MOTORS

C2R-GM24

Radio Replacement Interface for Select General Motors Vehicles without OnStar®

MSRP **\$119.95**

- Retains all safety warning chimes
- Provides 10-minute RAP accessory output
- Compatible with standard Bose systems
- Amplifier turn-on output wire
- Compatible with non-amplified systems
- Compatible with Monsoon systems

NOTE: NOT compatible with "Y91" premium Bose

GENERAL MOTORS

C2R-GM24B

Radio Replacement Interface for Select General Motors Vehicles without OnStar®

MSRP **\$119.95**

- Retains all safety warning chimes
- Provides 10-minute RAP accessory output

- Amplifier turn-on output wire
- Compatible with all audio system levels

NOTE: NOT compatible with "Y91" premium Bose

GENERAL MOTORS

CM-1

Add-On Chime Output Module for use with OS-2 or OS-2 Bose Interface

MSRP **\$39.95**

- Add-on module for OS-2 or OS-2 Bose
- Produces key-in chime
- Produces headlights-on chime
- Produces seatbelt chime
- Produces low fuel chime

GENERAL MOTORS

GMRVD

Overhead LCD Retention Cable for General Motors Vehicles with Rear Seat Entertainment

MSRP **\$39.95**

- Provides an audio/video output from the factory radio
- Routes audio and video from an aftermarket DVD player headunit to the factory overhead LCD monitor

GENERAL MOTORS

NAV-1129

Navigation Output Module for 11-Bit and 29-Bit LAN General Motors Vehicles

MSRP **\$49.95**

- Data controlled RAP accessory output wire
- Data controlled parking brake wire
- Data controlled reverse trigger wire
- Data controlled illumination output wire
- Data controlled vehicle speed sense wire
- Can be used with or without factory radio

MAZDA

MAZATO

Radio Replacement Interface for Select Mazda Vehicles with Bose Sound Systems

MSRP **\$99.95**

- Turns on Bose factory amplifier
- Retains Centerpoint® signal processing
- Use with an SWI module to retain factory steering wheel controls

MITSUBISHI

C2R-MIT

Radio Replacement Interface for Select Mitsubishi Vehicles

MSRP **\$25.95**

- Can be used to replace the OEM radio and retain the infinity sound system
- Can be used to integrate a new amplifier with the factory radio (use din to RCA at amplifier location)

TOYOTA

TATO

JBL Amplifier Turn-On Interface for Toyota & Lexus select CANBUS Vehicles

MSRP **\$99.95**

- Retains JBL or JBL Synthesis® amplifier (when factory radio is replaced)
- Retains balance and fade capabilities
- Direct plug-in for SWI module to retain steering wheel controls
- Adjustable gain settings for optimal audio configuration
- Quick and simple installation

NOTE: For best performance connect an aftermarket radio with 4 volt RCA outputs or higher.

VOLKSWAGEN

C2R-VW2

Radio Replacement Interface With Navigation Outputs for Select Volkswagen Vehicles

MSRP **\$129.95**

- Provides CAN based navigation outputs
- Retains safety warning chimes
- Retains factory installed amplifier
- Direct plug-in for SWI module to retain steering wheel controls

NOTE: - 2006-2010 vehicles with Eight button SWC (excludes Touareg) Can program volume up & down, phone button and star button without effecting Multi-Function Display (MFD). Arrow up & down can be programmed but will control MFD.
 - 2009-2010 vehicles with 12 button SWC (excludes Touareg) Can program left hand side of steering wheel volume up & down, track left & right, phone and mute buttons without effecting MFD. Arrow up & down on right side can be programmed but will control MFD.
 - 2004-2010 Touareg Can only program volume up & down

UNIVERSAL

SOEM-4

4-Channel Premium Line Output Converter with Remote Output

MSRP **\$39.95**

- Accepts 4 channels of input up to 60-watts
- Provides a 12-volt remote turn on
- Converts speaker level signal to RCA level signal
- Can be use with OEM headunit to add an amplifier
- Excellent audio quality

CHRYSLER

ROEM-CHR

Radio Replacement Interface for Chrysler Vehicles with Infinity Sound System

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

FORD

ROEM-FRD1

Radio Replacement Interface for Select Ford Vehicles Featuring Premium Sound Systems

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

FORD

ROEM-FRD2

Radio Replacement Interface for Select Ford Vehicles Featuring Premium Sound Systems

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

NOTE: Not compatible with Mustang "Mach" system

FORD

ROEM-FRD3

Radio Replacement Interface for Select Ford Vehicles Featuring Premium Sound Systems

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

GENERAL MOTORS

ROEM-GM21

Radio Replacement Interface for Select General Motors Vehicles

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

GENERAL MOTORS

ROEM-GM21A

Radio Replacement Interface for Select General Motors Vehicles
Featuring Factory Bose Sound Systems

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

HONDA, ACURA

ROEM-HON

Radio Replacement Interface for Select Honda, Acura Vehicles

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

NISSAN, INFINITI

ROEM-NIS1

Radio Replacement Interface for Select Nissan, Infiniti Vehicles
Featuring Factory Bose Sound Systems

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

NISSAN, INFINITI

ROEM-NIS2

Radio Replacement Interface for Select Nissan, Infiniti Vehicles
Featuring Factory Bose Sound Systems

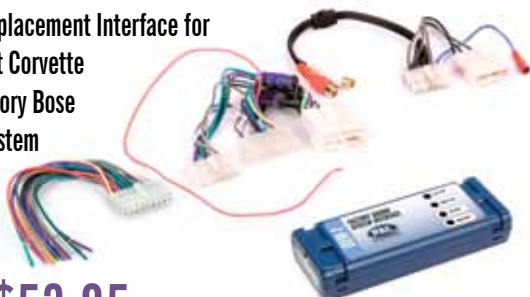

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

CORVETTE

ROEM-VET1

Radio Replacement Interface for
Chevrolet Corvette
with Factory Bose
Sound System

MSRP **\$53.95**

- Plug-and-play installation retains factory wiring integrity
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Retains the function of the factory-installed amplified sound system

FOR RADIOS WITH WIRELESS REMOTE CONTROL 

COMPATIBLE WITH CAN BUS VEHICLES 

FOR RADIOS WITH WIRED REMOTE CONTROL INPUT 

Steering Wheel Control Interfacing

SWI-PRO	58
SWI-PROGRAMMER	61

ALPINE, JVC, CLARION, KENWOOD, PIONEER, SONY, VALOR, OEM, BOYO, DUAL, VISTEON, ADVENT, BLAUPUNKT

SWI-PRO

Steering Wheel Control Interface with Built-in CAN bus Compatibility

SWI-PRO is an all-in-one steering wheel control interface. When replacing the factory radio, the SWI-PRO will facilitate the original steering wheel control functions operating the new aftermarket radio. With On-board CAN compatibility, there are no extra modules required for vehicles equipped with CAN bus.

- Retains steering wheel control functions when replacing the factory radio
- Programmable by PC or Android device with app
- Supports multi-function button mapping
- 6 analog input wires for vehicles with multiple steering wheel control signal leads
- Tech tool feature for testing SWC wiring
- On-board CAN compatibility enables installation behind headunit in many applications
- Provides 2-amp Accessory 12-volt output on vehicles with CAN-bus
- Retains programming even if the vehicle's battery is disconnected

ALPINE, JVC, CLARION, KENWOOD, PIONEER, SONY, VALOR, OEM, BOYO, DUAL, VISTEON, ADVENT, BLAUPUNKT

SWI-RC

Steering Wheel Control Interface for Most Aftermarket Radios.

MSRP **\$85.95**

- Retains Steering Wheel Control Functions When Replacing the Factory Radio
- Retains Programming Even if the Vehicle's Battery is Disconnected
- Supports Bluetooth functions in compatible radios
- Compatible with Most Alpine, JVC, Pioneer, Sony, Valor, Oem, Boyo, Clarion, Kenwood, Dual, Visteon, Advent and Blaupunkt with Wired Remote Control Input

UNIVERSAL

SWI-X

Universal Steering Wheel Control Interface

MSRP **\$85.95**

- Retains steering wheel control functions when replacing the factory radio
- Works with most aftermarket radios featuring an wireless IR remote control
- Retains programming even if the vehicle's battery is disconnected

ECLIPSE

SWI-ECL2

Steering Wheel Control Interface for Eclipse Radios

MSRP **\$85.95**

- Retains steering wheel control functions when replacing the factory radio
- Works with all Eclipse radios featuring a wired remote control input
- Retains programming even if the vehicle's battery is disconnected

CHRYSLER, DODGE, MITSUBISHI, JEEP, AUDI, VW, MERCEDES BENZ

SWI-CAN2

CANBUS steering wheel control add-On interface for Chrysler, Dodge, Mitsubishi, Jeep, Audi, VW, Mercedes Benz

MSRP **\$85.95**

- Retains Steering Wheel Control Functions when replacing the factory radio in a CAN Bus vehicle
- Compatible with SWI-X, SWI-JACK, SWI-ECL2, SWI-PS, SWI-RC
- Retains programming even if the vehicle's battery is disconnected

CHRYSLER, DODGE, JEEP, AUDI, VW, MERCEDES BENZ

SWI-CAN

CANBUS steering wheel control Add-on interface for Chrysler, Dodge, Jeep, Audi, VW, Mercedes Benz

MSRP **\$85.95**

- Retains Steering Wheel Control Functions when replacing the factory radio in a CAN Bus vehicle
- Compatible with SWI-X, SWI-JACK, SWI-ECL2, SWI-PS, SWI-RC
- Retains programming even if the vehicle's battery is disconnected

PIONEER

WRI-P

Wireless Infrared Remote Interface for Pioneer Radios with Wired Remote Control Input

MSRP **\$34.95**

- Compatible with Pioneer radios featuring a wired remote control input
- Provides wireless remote control compatibility for full feature control
- Provides connection for SWI-PS
- Easy to install
- Adds functionality to Pioneer radios without wireless control
- Recommended compatible remotes are Pioneer: CD-R510, or CXC9115

NOTE: Not all radios will support Voice Recognition function via wired remote input

SWI PROGRAMMER

PP-SWI

Hand-held Portable Steering Wheel Control Module Programmer

- The PP-SWI is a handheld, portable device used to program the SWI-RC, SWI-JACK and SWI-PS by connecting directly to the SWI module.
- The PP-SWI is powered by either the 12 volt power outlet or the supplied two AA batteries. Since the SWI module does not need to be installed before programming, the PP-SWI can be used on the bench before the vehicle arrives, or in the vehicle at time of installation.
- Follow on-screen prompts and select the module being installed, the year, make, model of vehicle, and options, then PP-SWI handles the programming of the button functions for you.

-
- Allows quick and easy programming of the SWI-RC, SWI-PS, or SWI-JACK module
 - Can be used on the bench or in the car
 - Saves time during Installation
 - Includes PAC-UP: interface updater module
 - Quick and easy vehicle selection & configuration
 - Instantly configures vehicle settings for SWI installation
 - Eliminates manual programming errors
 - Web updateable
 - Saves time and money
 - Eliminates manual programming errors

COMPATIBLE WITH CLASS II GM VEHICLES

Amplifier & Audio Integration

Pro-100 Gold

CHRYSLER

C2A-CHY

Amplifier integration interface for Chrysler CAN Bus vehicles

MSRP **\$119.95**

- Converts CAN bus signals to analog audio signal
- Plug-in installation retains factory wiring integrity
- Linear 20-20,000Hz sound reproduction based on input signal
- 4 channel 5 volt RCA output
- Output level controlled by factory radio

NOTE: The vehicle must be equipped with a factory installed amplifier & does not retain OE Radio bass, midrange, and treble controls.

CHRYSLER

C2A-CHY23

Amplifier integration interface for Chrysler CAN Bus vehicles & VW Routan

MSRP **\$149.95**

- Converts CAN bus signals to analog audio signal
- Plug-in installation retains factory wiring integrity
- Linear 20-20,000Hz sound reproduction based on input signal
- 4 channel 5 volt RCA output
- Output level controlled by factory radio

NOTE: The vehicle must be equipped with a factory installed amplifier & does not retain OE Radio bass, midrange, and treble controls.

CHRYSLER

C2A-CHY5

Amplifier integration interface for Chrysler CAN Bus vehicles

MSRP **\$149.95**

- Converts CAN bus signals to analog audio signal
- Plug in installation retains factory wiring integrity
- Linear 20-20,000Hz sound reproduction based on input signal
- 4 channel 5 volt RCA output
- Output level controlled by factory radio

NOTE: The vehicle must be equipped with a factory installed amplifier & does not retain OE Radio bass, midrange, and treble controls.

GENERAL MOTORS

C2A-GM24

Amplifier integration interface for class II General Motors vehicles

MSRP **\$119.95**

- Converts CAN bus signals to analog audio signal
- Plug-in installation retains factory wiring integrity
- Linear 20-20,000Hz sound reproduction based on input signal
- 2 channel RCA output
- Output level controlled by factory radio

NOTE: - If the factory amplifier is removed or disconnected, the C2A-GM24 will not function
 - Vehicle must be equipped with a "Premium Bose" (Y91 RPO code)

AOEM

Amplifier Integration Interfaces for Assorted Vehicles

OEM-1 with a vehicle specific harness plugs into the vehicle's wiring and offers a 4 channel RCA audio output for adding aftermarket amplification. Provides full range audio output 20-20,000Hz. Audio output level is controlled by the volume of the factory radio.

- Plug-in installation retains factory wiring integrity
- Linear 20-20,000Hz sound reproduction based on input signal
- 4 channel RCA output
- Amplifier turn-on trigger wire
- Transformer isolated for optimal sound and performance

NOTE: Check pac-audio.com for application information

Sold as A Complete Kit -
AOEM-CHR2 Kit Shown

AOEM-CHR2

Amplifier integration interface for select Chrysler Vehicles

MSRP **\$53.95**

NOTE:
Not compatible with Premium amplifier

AOEM-CHR3

Amplifier integration interface for select Chrysler Vehicles

MSRP **\$53.95**

NOTE:
Not compatible with factory installed amplifier
If vehicle has factory amplifier it must be disconnected

AOEM-FRD24

Amplifier integration interface for select Ford, Lincoln, Mercury Vehicles

MSRP **\$53.95**

NOTE:
Not compatible with THX or Sony amplified systems

AOEM-GM1416

Amplifier integration interface for select General Motors Vehicles

MSRP **\$53.95**

NOTE:
Warning chimes will sound through the front left RCA output
Not compatible with factory amplifier

AOEM-GM1416A

Amplifier integration interface for select General Motors Vehicles

MSRP **\$53.95**

AOEM-GM21A

Amplifier integration interface for select General Motors Vehicles

MSRP **\$53.95**

AOEM-GM21C

Amplifier Integration Interface for select General Motors Vehicles

MSRP **\$53.95**

AOEM-GM24

Amplifier Integration Interface for select General Motors Vehicles

MSRP **\$53.95**

NOTE:

- Warning chimes sound through the front left RCA output
- Turning on rear entertainment controls will make rear outputs of interface play second audio source

AOEM-HON17

Amplifier Integration Interface for select Honda Vehicles

MSRP **\$53.95**

NOTE:

Can be used in vehicles with or without premium sound

AOEM-HON20

Amplifier Integration Interface for select Honda Vehicles

MSRP **\$53.95**

NOTE:

- Not compatible with BOSE™
- Not compatible with factory amplifier.

AOEM-MAZ2

Amplifier Integration Interface for select Mazda Vehicles

MSRP **\$53.95**

NOTE:

Not compatible with factory amplified systems (BOSE™)

AOEM-NIS2

Amplifier Integration Interface for select Nissan Vehicles

MSRP **\$53.95**

AOEM-VET1

Amplifier Integration Interface for Corvette

MSRP **\$53.95**

GENERAL MOTORS

AA-GM44

4 Channel Add-an-amp Interface for select General Motors Vehicles with 44-pin Harness

MSRP **\$59.95**

- Plug-in installation retains OEM wiring integrity
- Provides 4 channels of full range output for adding aftermarket amplification
- Provides 12v amplifier turn-on trigger wire
- Transformer isolated for optimal sound and performance
- Delivers linear frequency response — 0.5dB from 20 to 20,000Hz — for unparalleled sound quality

NOTE: - Not compatible with factory amplified audio systems (excluding Camaro)

LINE OUTPUT CONVERTER WITH AUX INPUT

PDLC81

8 Channel Intelligent Digital Line Output Converter with Auxiliary input and Remote Level Control

MSRP **\$249.95**

- Intelligent signal sensing turn-on circuit allows easy addition of aftermarket amplifiers to OEM radios
- Independent Front / Rear / Subwoofer / Auxiliary level adjustments, for full system control
- Multi-Input summing/blending, provide installation flexibility with high end multi-channel OEM system
- High power 10 volt RCA output provide enough power to cleanly drive any amplifier
- Ultra-low 50 mOhm output / 20 Ohm input impedance, virtually impervious to noise interference
- SMT (Surface Mount Technology) using precision components for noise free operation
- Output clipping LED, provides visual adjustment indicator for maximum output
- Remote level control with auxiliary audio input

New Item

LINE OUTPUT CONVERTER

PDLC21

2 Channel Intelligent Digital Line Output Converter

MSRP **\$99.95**

- Intelligent Signal Sensing Turn-on Circuit allows easy addition of aftermarket amplifiers to OEM radios
- High power 10 volt RCA output provide enough power to cleanly drive any amplifier
- Ultra-low 50 mOhm output / 20 Ohm input impedance, virtually impervious to noise interference
- SMT (Surface Mount Technology) using precision components for noise free operation
- Output clipping LED, provides visual adjustment indicator for maximum output
- Nonmetallic housing for noise and rattle free installations

New Item

UNIVERSAL

SOEM-T

2-Channel Premium Line Output Converter with Remote Output

MSRP **\$29.95**

- Accepts up to 2 channels of signal input from 2 to 60-watts.
- Transformer isolates the input and output circuits, blocking DC noise and preventing snaps and crackles
- Sealed potentiometers prevent circuit-induced distortion and signal drift
- Provides an internal trigger to turn on a 2-amp/12v power line with a 1-second delay for an amplifier or power antenna
- Delivers linear frequency response - 0.5 dB from 20 to 20,000Hz - for unparalleled sound quality.
- Provides a 12 Volt Remote turn on

Configurations:
Wire in /Wire out or Wire in / RCA Out

UNIVERSAL

SOEM-4

4-Channel Premium Line Output Converter with Remote Output

MSRP **\$39.95**

- Accepts up to 4 channels of signal input from 2 to 60-watts.
- Transformer isolates the input and output circuits, blocking DC noise and preventing snaps and crackles
- Sealed potentiometers prevent circuit-induced distortion and signal drift
- Provides an internal trigger to turn on a 2-amp/12-volt power line with a 1-second delay for an amplifier or power antenna
- Delivers linear frequency response - 0.5 dB from 20 to 20,000Hz - for unparalleled sound quality.
- Provides a 12-volt remote turn on

LINE OUTPUT CONVERTER

SNI-35

Adjustable Line Output Converter

MSRP **\$19.95**

- 50 Watts Max Power Handling
- Linear 20 to 20,000Hz output based on input signal
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Works with most factory installed radios

LINE OUTPUT CONVERTER

SNI-50A

Adjustable High Power Line Output Converter

MSRP **\$26.95**

- 50 watts Max Power handling
- Linear 20 to 20,000Hz output based on input signal
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Works with most factory installed radios
- Detachable wiring harness
- Integrated wire tie mounts
- Small Size

LINE OUTPUT CONVERTER

SNI-15

Line Output Converter

MSRP **\$15.95**

- 45 Watts Max Power Handling
- Linear 20 to 20,000Hz output based on input signal
- Transformer isolated for optimal sound and performance
- Maintains correct phasing
- Works with most factory installed radios
- Subsonic filter to eliminate speaker damaging frequencies (below 20Hz)

SIGNAL CONTROLLER

LC-1

Remote Level Controller (Bass Knob)

MSRP **\$24.95**

- Great for subwoofer level control
- Mountable in-dash or under dash
- Stereo RCA input/output
- Use with ISFM 21 and ISFM22 for RCA volume Control

LINE OUTPUT CONVERTER

LC-2

Line Output Converter with Volume Control

MSRP **\$25.95**

- Reduces speaker output to preamp levels
- Cuts out subsonic frequency noise
- Mountable in-dash or under dash
- Works with most factory or aftermarket radios

UNIVERSAL

LD-10

Line Driver with Up to 10X Amplification

MSRP **\$39.95**

- Amplifies an audio signal up to 10 times.
- Standard RCA connectors on inputs and outputs for maximum compatibility

LINE OUTPUT CONVERTER

TURBO X

Fixed Line Driver

MSRP **\$45.95**

- Up to 18 db Gain Boost
- S/N ratio of 96 db for high quality sound
- Average draw is less than 15 milliamps
- Fixed signal output with a 12 dB bass boost

SOURCE SWITCHER

ASAI-21

Dual Source RCA Audio Switcher with Signal Sensing

MSRP **\$49.95**

- Connects two Stereo RCA audio sources to one RCA audio input.
- Signal sensing on the second input detects audio and automatically switches the ASAI-21

PnP

Navigation Unlock

CHRYSLER

NU-CHY1

Navigation Unlock Interface for Select Chrysler Vehicles

PnP

MSRP **\$299.95**

- Unlocks Advanced Features of Factory Navigation Radio for Passenger Use
- Unlocks Destination Entry
- Enables the Reverse Camera at Any Time
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition

CHRYSLER

NU-CHY2

Navigation Unlock Interface for Select Chrysler Vehicles

PnP

MSRP **\$299.95**

- Unlocks Advanced Features of Factory Navigation Radio for Passenger Use
- Unlocks Destination Entry
- Enables the Reverse Camera at Any Time
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition

GENERAL MOTORS

NU-CTS2

Navigation Unlock Interface for Cadillac CTS

PnP

MSRP **\$299.95**

- Unlocks Advanced Features of Factory Navigation Radio for Passenger Use
- Unlocks Destination Entry
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition

FORD

NU-FRD1

Navigation Unlock Interface for Select Ford, Lincoln, Mercury Vehicles

MSRP **\$299.95**

- Unlocks Features of Factory Navigation for Passenger Use
- Unlocks Destination Entry
- Unlocks Factory installed back up camera
- Plug-N-Play
- Status Text Displayed on Radio
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition

GENERAL MOTORS

NU-GM3

Navigation Unlock Interface for Select General Motors Vehicles

MSRP **\$299.95**

- Unlocks Advanced Features of Factory Navigation Radio for Passenger Use
- Unlocks Destination Entry
- Unlocks Bluetooth Key Pad
- Enables the Reverse Camera at Any Time
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition

GENERAL MOTORS

NU-GM4

Navigation unlock interface for SELECT GM models with 44-Pin harness and GM LAN-29 Bit V1 data

MSRP **\$299.95**

- Unlocks Advanced Features of Factory Navigation Radio for Passenger Use
- Unlocks Destination Entry
- Unlocks Bluetooth Key Pad
- Enables the Reverse Camera at Any Time
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition

GENERAL MOTORS

NU-GM29

Navigation unlock interface for select General Motors vehicles

MSRP **\$299.95**

- Unlocks Advanced Features of Factory Navigation Radio for Passenger Use
- Status Text Displayed on Instrument Cluster
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition
- Unlocks Destination Entry
- Unlocks Bluetooth KeyPad (2009+)
- Unlocks Satellite Categories
- Unlocks Reverse Camera at any time (Rev 1.3 .1f or higher)

GENERAL MOTORS

NU-ST5

Navigation unlock interface for Cadillac ST5

MSRP **\$299.95**

- Unlocks Advanced Features of Factory Navigation Radio for Passenger Use
- Unlocks Destination Entry
- Fast Navigation Re-Sync When De-Activated
- Does Not Interrupt GPS Antenna for Fast GPS acquisition

PROVIDES AUDIO / VIDEO INPUT **AV**

PLUG AND PLAY INSTALLATION **PnP**

Video Integration

FORD

VCI-FRD1

Automatically switches to the backup camera input when the vehicle is shifted into reverse. Module plugs directly into the vehicle wire harness without the need to cut and splice the factory harness.

MSRP **\$449.95**

- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Converts Ford factory navigation radio to a backup camera monitor
- Provides +12 volt accessory, ground and reverse (some vehicles) signal wires for the main interface

GENERAL MOTORS

VCI-GM1

Back-Up Camera Video Interface for Select General Motors Vehicles
Featuring Class II Non-Touchscreen Navigation Radios

MSRP **\$449.95**

- Comes with the VCI-X and a special interface ribbon cable
- Converts GM Class II non-touchscreen navigation radio to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 NTSC video inputs

GENERAL MOTORS

VCI-GM2

Back-Up Camera Video Interface for Select General Motors Vehicles
Featuring Class II Touchscreen Navigation Radios

MSRP **\$449.95**

- Comes with the VCI-X and a special interface ribbon cable
- Converts GM Class II touchscreen navigation radio to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 NTSC video inputs

NOTE: - Not compatible with Denso NAV radio

GENERAL MOTORS

VCI-GM3

Back-Up Camera Video Interface for Select General Motors LAN
Vehicles Featuring Navigation Radios

MSRP **\$469.95**

- Comes with the VCI-X and a special interface ribbon cable
- Converts GMLAN touchscreen navigation radio to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 NTSC video inputs

GENERAL MOTORS

VCI-GM3A

Back-Up Camera Video Interface for Select General Motors LAN
Vehicles Featuring Navigation Radios

MSRP **\$449.95**

- Comes with the VCI-X and a special interface ribbon cable
- Converts GMLAN touchscreen navigation radio to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 composite NTSC video inputs

HONDA, ACURA

VCI-HON1

Back-Up Camera Video Interface for Select Honda, Acura Vehicles
Featuring Navigation Radios

PnP

MSRP **\$449.95**

- Comes with the VCI-X and a special interface cable
- Converts radios with factory navigation (external DVDROM drive) to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 composite NTSC video inputs

HONDA, ACURA

VCI-HON2

Back-Up Camera Video Interface for Select Honda, Acura Vehicles
Featuring Navigation Radios

MSRP **\$449.95**

- Comes with the VCI-X and a special interface cable
- Converts radios with factory navigation (external DVDROM drive) to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 Composite NTSC video inputs

NISSAN, INFINITI

VCI-NIS1

Back-Up Camera Video Interface for Most 2004-2006 Nissan,
Infiniti Vehicles Featuring Navigation Radios

PnP

MSRP **\$449.95**

- Comes with the VCI-X and a special interface cable
- Converts radios with factory navigation (external DVDROM drive) to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 Composite NTSC video inputs

NOTE: Vehicle must be equipped with a color LCD screen

NISSAN, INFINITI

VCI-NIS2

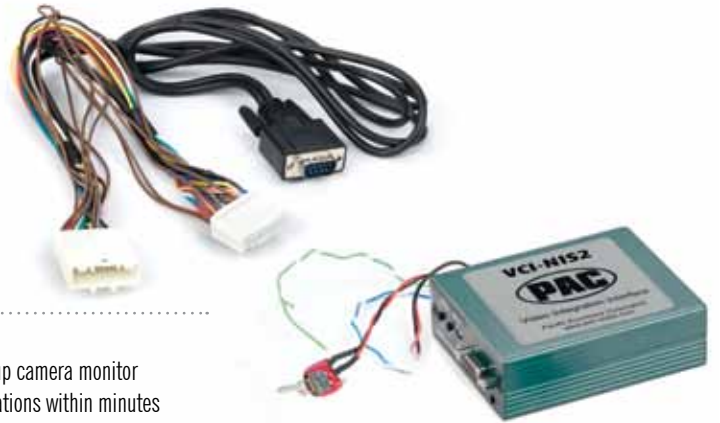

Back-Up Camera Video Interface for Most 2007-2010 Nissan, Infiniti Vehicles Featuring Navigation Radios

PnP

MSRP **\$449.95**

- Comes with the VCI-X2 and a special interface cable
- Converts radios with factory navigation (external DVDROM drive) to a backup camera monitor
- Plug-and-play installation allows conversion of radio back to OEM specifications within minutes
- Brightness controls on VCI-X module allow for adjustment during installation
- 2 Composite NTSC video inputs

NOTE: Vehicle must be equipped with a color LCD screen

UNIVERSAL

VCI-X

Universal Back-Up Camera Video Interface for Factory-Installed Navigation Radios with Outboard Video Driver

MSRP **\$399.95**

- Converts factory-installed navigation radio into a backup camera monitor
- Brightness controls on the VCI-X module for adjustment during installation
- Small size allows it to be easily hidden
- Equipped with reverse light trigger input so no additional relays are required
- Provides 2 NTSC video inputs

UNIVERSAL

VCI-X2

Universal Back-Up Camera Video Interface for Factory-Installed Navigation Radios

MSRP **\$399.95**

- Converts factory-installed navigation radio into a backup camera monitor
- Brightness controls
- Small size allows it to be easily hidden
- Equipped with reverse light trigger input so no additional relays are required
- 2 NTSC video inputs

VIDEO SWITCHER

VA26

Video Amplifier and Switching Unit

MSRP **\$70.95**

- Dual source video amplifier with trigger wires
- Positive and negative triggers for selecting inputs
- 6 RCA video outputs (all show the same video source)

REMOTE EXTENDER

IR-X

Infrared Repeater Interface

MSRP **\$34.95**

- Extends the range of any IR remote control (17ft. cable)
- Easy two wire hook up
- Operates on both 40KHz and 56KHz frequencies
- Perfect for head units or DVD players mounted out of sight
- Red LED confirms operation

IN-HOME

IR-X/HOME

Infrared Remote Repeater For Home Use

MSRP **\$53.95**

- Wall outlet adaptor for home use
- Extra long, 17 feet plug-in wire for IR LED
- Red LED confirms operation
- Small and easy to mount
- 40kHz and 56kHz operation
- For use with VCR, DVD, TV tuners, or stereos that are out of sight of a wireless remote
- Great for RVs, marine, custom hot rods and many other custom applications

IN-HOME

IR-X/HOMELED

IR-X Emitter and Splitter For Home Use

MSRP **\$14.95**

- Remote repeater controls electronic components located out of sight
- Extra long 17-foot plug-in wire for IR LED
- For use with DVD or VHS players, satellite tuners, stereo systems, etc.
- Add-on "Y" splitter allows control of two units

IN-HOME

IR-X/LED

LED Splitter and Cable for IR-X

MSRP **\$10.95**

- Use with IR-X
- Extra long, 17 feet plug-in wire for IR LED

MOBILE TUNER

VCI-MH1

ATSC Digital and Mobile Tuner

MSRP **\$199.99**

- High Performance ATSC-M/H module built in
- Electronic Program Guide (EPG)
- Noise cancellation provides a high-quality picture
- High Sensitive rod antenna; magnet type
- All functions by compact remote control
- Selectable picture size normal/full
- Easy Installation

BACK UP CAMERA

VCI-BCB2

Black Bar Style License Plate Mounted CMOS Back Up Camera

New Item

MSRP **\$119.99**

- 1/4" CMOS back-up camera with reverse image
- Built-in parking lines
- 420 TVL horizontal resolution
- Excellent auto white balance
- 170 degree wide angle lens
- Waterproof to IP67 standard (submersible in water up to 1 meter)
- Waterproof (IP67)

BACK UP CAMERA

VCI-BCC2

Chrome Bar Style License Plate Mounted CMOS Back Up Camera

New Item

MSRP **\$119.99**

- 1/4" CMOS back-up camera with reverse image
- 420 TVL Horizontal Resolution
- Excellent auto white balance
- Low LUX performance of 0.5 Lux
- 170 degree wide angle lens
- Waterproof (IP67)

BACK UP CAMERA

VCI-CRVCB

Black Full-Frame Rearview Color License Plate Camera

MSRP **\$179.00**

- Low light sensitivity 0.5 Lux @ F2.0
- Digital Clarity CMOS image sensor
- 380 TVL Horizontal Resolution
- Waterproof to IP67 standard
- 140 degree wide viewing angle

BACK UP CAMERA

VCI-CRVCC

Chrome Full-Frame Rearview Color License Plate Camera

MSRP **\$179.00**

- Low light sensitivity 0.5 Lux @ F2.0
- Digital Clarity CMOS image sensor
- 380 TVL Horizontal Resolution
- Waterproof to IP67 standard
- 140 degree wide viewing angle

BACK UP CAMERA

VCI-SRVCB

Slim Frame Rear View Camera License Plate (Black)

MSRP **\$298.95**

- Slim license plate frame does not block the name of the state
- 150 degree Wide viewing angle
- 380 TVL horizontal resolution
- 0.3 lux @ f 2.0
- Excellent Auto White Balance
- Waterproof (IP67)
- Viewing angle adjustable, and camera can be inverted
- Rear view

BACK UP CAMERA

VCI-SRVCC

Slim Frame Rear View Camera License Plate (Chrome)

MSRP **\$298.95**

- Slim license plate frame does not block the name of the state
- 150 degree Wide viewing angle
- 380 TVL horizontal resolution
- 0.3 lux @ f 2.0
- Excellent Auto White Balance
- Waterproof (IP67)
- Viewing angle adjustable, and camera can be inverted
- Rear view

BACK UP CAMERA

VCI-LP3C

Chrome Full Frame License Plate Video Camera with Night Vision

MSRP **\$251.95**

- High-sensitivity 1/4" DSP color CMOS
- 300,000 pixels
- 380 TV line horizontal resolution
- Waterproof (IP67)
- 140-degree angle of view
- Auto white balance
- Super sensitive low lux image capture
- Aluminum die-casting frame
- Night vision sensors
- Eight high intensity infrared LEDs for clearer night vision
- Front or rear view (with park assist grid)

BACK UP CAMERA

VCI-LP3B

Black Full Frame License Plate Video Camera with Night Vision

MSRP **\$251.95**

- High-sensitivity 1/4" DSPcolor CMOS
- 300,000 pixels
- 380 TV line horizontal resolution
- Waterproof (IP67)
- 140-degree angle of view
- Auto white balance
- Super sensitive low lux image capture
- Aluminum die-casting frame
- Night vision sensors
- Eight high intensity infrared LEDs for clearer night vision
- Front or rear view (with park assist grid)

BACK UP CAMERA

VCI-BK1

Keyhole Back Up Camera with 3 Mounting Options

MSRP **\$52.99**

- 1/4" CMOS back-up camera with reverse image
- Three mounting options, with hardware included
- 120 degree wide angle lens
- 420 TVL horizontal resolution
- Waterproof (IP67)
- 1 Lux low light performance

New Item

BACK UP CAMERA

VCI-KH2

Bullet-style Back-up CMOS Camera with Night Vision

MSRP **\$69.90**

- 1/4" color CMOS back-up camera with reverse image and nightvision LEDs
- 120 degree wide angle lens
- 380 TVL Horizontal resolution
- Waterproof (IP67)
- 0.5 Lux low light performance
- 0.0 Lux with nightvision on
- Includes mounting bracket with angle adapter shims
- Threaded body design

BACK UP CAMERA

VCI-MC1

Surface Mount Video Camera with Forward or Rear View and Parking Grid Option

MSRP **\$238.95**

- Easily add a back-up camera to any location on the vehicle
- 170° viewing angle
- 6-layer crystal lens
- 12v DC powered
- NTSC video signal output

UNIVERSAL

VCI-M35

3.5" Digital Monitor w/ Dual Inputs

MSRP **\$199.99**

- Supports up to 320 lines of resolution
- Low power consumption
- Automatic sleep mode
- Includes dash / windshield mounting bracket

USB 

1 AMP CHARGING 

2.1 AMP CHARGING 

2 USB CHARGING OUTPUTS 

BATTERY BACK-UP 

USB & Portable Power

UNIVERSAL DUAL USB

IS44

Dual 1 Amp USB Outlet Car Charger with Universal Charging Adaptor Tips

MSRP **\$24.95**

- Plug-and-Play: Installs in seconds
- 2 universal cables and 7 interchangeable power adaptors included
- Works with any standard USB charging cables including iSimple IS9000 series cables
- Offers two 5-volt USB charging ports
- 1 Amp of power available per outlet
- LED power indicator

HubVolt Pro™

UNIVERSAL USB

IS47

Compact Low-Profile 2.1 Amp USB Charging Adaptor

MSRP **\$24.95**

- USB charging adapter for 12 Volt power outlet
- Provides a 2.1 Amp USB charging outlet
- Low profile form factor

HubVolt Jr™

UNIVERSAL USB

IS45

Compact Low-Profile 1 Amp USB Charging Adaptor

MSRP **\$9.95**

- Plug-and-Play: Installs in seconds
- Provides 1 Amp of current at 5 Volts
- Use for charging portable devices
- LED power indicator
- Less than 1-3/4" long

HubVolt Jr™

UNIVERSAL DUAL USB

IS42

Dual 1 Amp USB Outlet Car Charger

MSRP **\$12.95**

- Works with any standard USB charging cable
- Offers two USB ports for charging portable devices
- LED power indicator
- 5V/1Amp output per USB
- Plug-and-play – no installation necessary

HubVolt™

UNIVERSAL USB

IS4551

Cigarette Lighter Adapter with 1 Amp USB Outlet and Built-in Voltage Meter with Digital Display

MSRP **\$23.95**

- Provides 1 USB charging port with 1 Amp of power
- Perfect for charging Android, iPhone or other smartphone
- Built-in real-time digital voltage monitor display

HubVolt VM™

UNIVERSAL USB

IS43

Dash or Flash Mountable 1 Amp USB Charging Adaptor

HubVolt DM™

MSRP **\$19.95**

- Dash mountable USB port
- Includes mounting bracket for quick, under-dash mounting option
- Provides 1 Amp of current at 5 Volts
- Use for charging portable devices

iPod, iPhone, iPad

IS6101

2.1 Amp Charging Cable with 180° Rotation Dock Connector, and 12-volt Power Plug for iPod, iPhone, or iPad.

TraVolt™

180° CONNECTOR ROTATION

MSRP **\$23.95**

- Plug-and-Play: Installs in seconds.
- Unique 180 degree "Rotation" connector allows for convenient cable routing
- 12 Volt power plug provides battery charging for most models of iPod, iPhone, or iPad
- Provides 2.1 Amps of current at 5 Volts via an Apple approved 30-pin connector

PORTABLE POWER

IS714

Portable Emergency Battery Charger for the iPod, iPhone and Many Popular Cell Phones

GoVolt™

MSRP **\$34.95**

- Include USB cable and adapters to charge most phones
- Charges all dockable models of iPod and iPhone
- Lightweight, compact design can be carried anywhere conveniently
- Lithium ion battery recharges quickly and easily via included mini-USB charger

UNIVERSAL

ISVE41

TwinVolt™

Power Outlet splitter with Two Power Output Connections

MSRP **\$10.95**

- Plugs directly into cigarette lighter port, or power outlet on dash of vehicle
- Provides two power outlets for charging an MP3 player, or cell phone

UNIVERSAL USB FAST CHARGE

IS46

HubVolt FC™

Fast-Charging 3 Amp USB Charging Adaptor

MSRP **\$19.95**

- Plug-and-Play: Installs in seconds
- Provides 2.1 Amps of current at 5 Volts for iPod, iPhone, or iPad
- Provides up to 3 Amps at 5 Volts for other portable devices
- Faster Charging for iPod & iPhone 4

iPod, iPhone, iPad

IS9403

uLinX™

USB Cable with 180° Rotation Dock Connector for Charging or Syncing an iPod, iPhone, or iPad

180° CONNECTOR ROTATION

MSRP **\$23.95**

- Compatible with a computer or USB power port
- Supports up to 480 MBps transfer rate
- Compatible with most models of iPod, iPhone, and iPad
- Cable length 3 feet

ANDROID, SMARTPHONE

IS9404

uLinX™

Mini and Micro USB Cable with Standard USB Adaptor for Charge or Sync

MSRP **\$23.95**

- Synchronize or Charge most USB phones, digital cameras, portable entertainment, GPS, and other devices
- Supports up to 480 MBps transfer rate
- Cable length 3 feet

ANDROID, SMARTPHONE

IS9401

uLinX™

USB to Mini USB Cable for Charging and Sync

MSRP **\$14.95**

- Synchronize or charge most USB phones, digital cameras, portable entertainment, GPS, and other devices
- Supports up to 480 MBps transfer rate
- Cable length 3 feet

ANDROID, SMARTPHONE

IS9402

uLinX™

USB to Micro USB Cable for Charging and Sync

MSRP **\$14.95**

- Synchronize or Charge most USB phones, digital cameras, portable entertainment, GPS, and other devices
- Supports up to 480 MBps transfer rate
- Cable length 3 feet

PAC	100-105

TABLETS

ISSH6501

Universal Headrest Mounting System for Tablets up to 10.2"

StrongHold™

MSRP **\$34.95**

- Fits tablets from 7" to 10.2"
- Adjustable to fit most head rests
- No Tools Required

UNIVERSAL iPod, iPhone

ISSH72

Adjustable Dashboard Mounting Kit with Custom-Fit Cradles for iPhone and Universal Adaptors for Most Phones

StrongHold™

MSRP **\$19.95**

- Includes mounting cradles for:
- iPhone 4S or iPhone 4
 - iPhone 3G, iPhone 3GS
 - 1 universal mounting adaptor
- Super-adhesive pad that ensures a firm grip to any flat surface
 - Unique "Z" design allows you to view song info and maps safely
 - Sturdy, reliable construction withstands even the roughest of rides
 - Built-in adjustment tool keeps all moving joints tight and secure

*iPhone not included

UNIVERSAL SMARTPHONE

ISSH73

Adjustable Dashboard Mounting Kit and Desktop Stand with 3 Universal Adaptors for Most Phones

StrongHold™

MSRP **\$19.95**

- Includes 3 universal mounting adaptors
- Super-adhesive pad that ensures a firm grip to any flat surface
- Sleek Aluminum desk stand
- Unique "Z" design allows you to view song info and maps safely
- Sturdy, reliable construction withstands even the roughest of rides
- Built-in adjustment tool keeps all moving joints tight and secure

UNIVERSAL GPS

ISSH41

Dashboard and Windshield Mounting Kit for TomTom, Garmin and Magellan GPS Models

Large 270° base range of motion for almost limitless mounting options

220° device rotation for the perfect view

MSRP **\$19.95**

- Includes mounting cradles for TomTom, Garmin and Magellan
- Includes — an adhesive pad for dash mounting and a suction cup for windshield mounting
- Designed for viewing maps or other GPS information safely and easily

*GPS not included

StrongHold™

- Sturdy, reliable construction withstands even the roughest of rides
- Built-in adjustment tool keeps all moving joints tight and secure
- Quick release feature that lets you take your GPS with you

iPod, iPhone, iPad

ISHP2501

Sound Isolating Stereo Headset with Headphone Remote and Mic System for iPod, iPhone, or iPad

CONTROLS
iPhoneMSRP **\$39.95**

- Passive noise-cancelling design creates a pristine listening experience
- Built-in buttons to control volume, play, pause, next, and previous track functions on iPod, iPhone, or iPad
- Noise-cancelling microphone for clear phone calls
- Voice control available on applicable devices, such as iPhone

iPod, iPhone, iPad

ISHP2201

Ergonomic Fit Stereo Headset with Headphone Remote and Mic System for iPod, iPhone, or iPad

CONTROLS
iPhoneMSRP **\$29.95**

- Superior fit and sound quality
- Built-in buttons to control volume, play, pause, next, and previous track functions on iPod, iPhone, or iPad
- Noise-cancelling microphone for clear phone calls
- Voice control available on applicable devices, such as iPhone

TRIGGER MODULE WITH ANDROID AND PC COMPATIBILITY

TR7PRO

Universal Trigger Module with Android and PC Compatibility

New Item

TR7-PRO is a multi-channel control device which offers such dynamic flexibility; it can be used in virtually any installation. The 4 inputs and outputs are programmable using the free application for Android tablets or a Windows PC.

MSRP **\$49.95**

- Unique, Highly versatile solution to many installation challenges
- Easily Programmable by Android Tablet using free application via USB
- Easily Programmable by PC using free Windows application via USB
- Low voltage trigger
- Aftermarket video bypass
- Latching outputs
- Double pulse output
- Pulse extender
- Linear actuator controller
- Door lock pulse generator
- Channel splitter
- 3 in 1 timer outputs
- Pulses to timed output
- Turn on pop delay
- Delayed amp turn off

TR7-PRO Android App

TRIGGER MODULE

TR7

Universal Trigger Module

MSRP **\$34.95**

- Low voltage trigger
- Latching outputs
- Pulse extender
- Door lock pulse generator
- 3 in 1 timer outputs
- Turn on pop delay
- Alpine video bypass
- Double pulse output
- Linear actuator controller
- Channel splitter
- Pulses to timed output
- Delayed amp turn off

TRIGGER MODULE

TR-4

Low Voltage Trigger Module

MSRP **\$15.95**

- Easily adds remote turn-on for aftermarket amplifiers
- Eliminates turn-on pop in aftermarket amplifiers
- Senses voltage as low as 0.8V
- Provides 12V output with 1 second delay

POWER MANAGEMENT

SPR-200

Dual Battery Isolator and Monitor

MSRP **\$110.95**

- Disconnects the second battery when voltage drops below 11.6v
- Prevents a dead primary battery when listening to stereo with engine off
- Gives visual indication of faulty charging system

POWER MANAGEMENT

PAC-80

80 Amp Isolator Relay

MSRP **\$23.95**

- Prevents primary battery discharge
- Maximum current transfer
- Extends battery life
- Universal 12 Volt applications
- Great for isolating a second battery making it dedicated to the stereo system
- Does not create a voltage drop to the second battery like conventional isolators

POWER MANAGEMENT

PAC-200

200 Amp Battery Isolator Relay

MSRP **\$79.95**

- Prevents primary battery discharge
- Maximum current transfer
- Extends battery life
- Universal 12 Volt applications
- Great for isolating a second battery making it dedicated to the stereo system
- Does not create a voltage drop to the second battery like conventional isolators

POWER MANAGEMENT

PAC-500

500 Amp Battery Isolator Relay

MSRP **\$149.95**

- Prevents primary battery discharge
- Maximum current transfer
- Extends battery life
- Universal 12 Volt applications
- Great for isolating a second battery making it dedicated to the stereo system
- Does not create a voltage drop to the second battery like conventional isolators

POWER MANAGEMENT

BG-12
Battery Monitor

MSRP **\$40.95**

- Microprocessor that constantly monitors voltage
- LED changes color with state of battery: green at 12.4v or higher, yellow below 12.4v, red at 11.5v or lower
- Below 11.6v the monitor turns off the vehicle's sound system
- Progressively resets as battery recharges, turning the head unit back on at 12.4v
- Accurate to within 0.1v DC
- Connects to the dash lamps to dim the LED at night

POWER MANAGEMENT

R 2
2-Ohm Resistor
R 4
4-Ohm Resistor
R 8
8-Ohm Resistor

MSRP **\$1.95**

- Increases a speaker's resistance to reduce it's overall output
- Great for balancing speaker output

COOLING FANS

CF-1
Cross Flow Fan

MSRP **\$45.95**

- Perfect for stealth installations, where the amplifiers are not out in the open air
- 54 CFM of airflow
- Draw .19 amp
- 8-1/4" cross flow fan
- Sound level 32 dBA

COOLING FANS

PF-1
Cooling Fan

MSRP **\$18.95**

- 2.5" Polycarbonate housing
- 23 CFM of airflow
- Draws .13 amps of current
- Grills available
- Sound level 32 dBA

COOLING FANS

PF-2
Cooling Fan

MSRP **\$25.95**

- 5" Polycarbonate housing
- 105 CFM of airflow
- Draws .6 amps of current
- Grills available
- Sound level 45 dBA

BASS BLOCKER

BB-1PR
Bass Blocker (6" X 9") 0-300hz (4 Ohm), 0-150hz (8 Ohm) Blue

MSRP **\$9.95**

- Easily handles power of up to 50 watts
- Blue color coded leads for easy identification
- Encased in heat shrink tubing with wire leads for easy installation
- Filters out 0-300hz (4 Ohm)
- Filters out 0-150hz (8 Ohms)

BASS BLOCKER**BB-2PR**

Bass Blocker (6") 0-600hz (4 Ohm), 0-300hz (8 Ohms) Green

MSRP **\$9.95**

- Easily handles power of up to 50 watts
- Green color coded leads for easy identification
- Encased in heat shrink tubing with wire leads for easy installation
- Filters out 0-600hz (4 Ohm)
- Filters out 0-300hz (8 Ohms)

BASS BLOCKER**BB-3PR**

Bass Blocker (5 1/4") 0-800hz (4 Ohm), 0-400hz (8 Ohms) Yellow

MSRP **\$9.95**

- Easily handles power of up to 50 watts
- Yellow color coded leads for easy identification
- Encased in heat shrink tubing with wire leads for easy installation
- Filters out 0-800hz (4 Ohm)
- Filters out 0-400hz (8 Ohms)

BASS BLOCKER**BB-4PR**

Bass Blocker (4") 0-1.2Khz (4 Ohm), 0-600hz (8 Ohms) Orange

MSRP **\$9.95**

- Easily handles power of up to 50 watts
- Orange color coded leads for easy identification
- Encased in heat shrink tubing with wire leads for easy installation
- Filters out 0-1.2Khz (4 Ohm)
- Filters out 0-600hz (8 Ohms)

BASS BLOCKER**BB-5PR**

Bass Blocker (3 1/2") 0-2.8Khz (4 Ohm), 0-1.4Khz (8 Ohms) Red

MSRP **\$9.95**

- Easily handles power of up to 50 watts
- Red color coded leads for easy identification
- Encased in heat shrink tubing with wire leads for easy installation
- Filters out 0-2.8Khz (4 Ohm)
- Filters out 0-1.4Khz (8 Ohms)

BASS BLOCKER**BB-6PR**

Bass Blocker (tweeters) 0-5.6Khz (4 Ohm), 0-2.8Khz (8 Ohms) Black

MSRP **\$9.95**

- Easily handles power of up to 50 watts
- Black color coded leads for easy identification
- Encased in heat shrink tubing with wire leads for easy installation
- Filters out 0-5.6Khz (4 Ohm)
- Filters out 0-2.8Khz (8 Ohms)

NOISE FILTER**BC-10**

10-Amp Passive Noise Filter

MSRP **\$3.95**

- Suppresses high frequency audio noise
- Handles up to 10-amps of current

NOISE FILTER

PCF10

10-Amp Noise Filter

MSRP **\$8.95**

- A passive noise filter for power leads of stereos, multimedia devices, CB's etc
- Great for solving noise problems with FM Modulators and rolling video screens

NOISE FILTER

SNI-1

Ground Loop Isolator

MSRP **\$15.95**

- Close to perfect response of +/- .03 db from 2 to 20,000Hz
- Utilizes proprietary audio transformers for a 1.3 dB gain

NOISE FILTER

SNI-1/3.5

Ground Loop Isolator

MSRP **\$16.95**

- Close to perfect response of +/- .03 db from 2 to 20,000Hz
- Utilizes proprietary audio transformers for a 1.3 dB gain

NOISE FILTER

CSS-100

Eliminate Noise on the Power Leads of Radios, CBs, EQs, etc.

MSRP **\$14.95**

- Wide frequency audio noise suppression
- Handles up to 10-amps of current
- Deluxe choke and capacitor toroid

UNIVERSAL

LD-10

Adjustable Line Driver with Up to 10X Amplification

MSRP **\$39.95**

- Amplifies an audio signal up to 10 times
- Standard RCA connectors on inputs and outputs for maximum compatibility

NOISE FILTER

NF-10

10 Amp Power Lead Filter

MSRP **\$14.95**

- Eliminates noise on the power leads of radios, CBs, EQs etc.
- The deluxe noise filter covers a wider range of noise including pops and ignition ticks
- Filters power leads passing up to 10 Amps

GENERAL MOTORS

LAN110N

Turn-On Interface for 11-bit LAN General Motors Radios

GMLAN
11

MSRP **\$99.95**

- Powers 11-bit GMLAN radio outside of the vehicle
- Perfect for display or demo use in your store

GENERAL MOTORS

LAN290N

Turn-On Interface for 29-bit LAN General Motors Radios

GMLAN
29

MSRP **\$99.95**

- Powers 29-bit GMLAN radio outside of the vehicle
- Perfect for display or demo use in your store

UNIVERSAL USB

USBCBL

USB Cable with Mounting Bracket

MSRP **\$19.95**

- 6-foot USB extension cable
- Dash mounting bracket
- Can be flush mounted

TONE GENERATOR / POLARITY TESTER

TL-PTG2

PAC Tone Generator

MSRP **\$49.95**

- Check speaker polarity
- Check cross over points
- Verify speaker wiring
- Check RCA cables for continuity

RADIO REMOVAL TOOLS

TL-RRF

Radio Extraction Tools for Ford Radios

MSRP **\$14.95**

- Two Ford radio removal tools

TL-RRG

Radio Extraction Tools for German Radios

MSRP **\$19.95**

- Two radio removal keys with quick disconnect key rings

UPDATER

PAC-UP

USB Firmware Updater Module for use with Select PAC Products

- Update firmware on select PAC interfaces
- Add new feature support
- Add new vehicle support

Bluetooth Connectivity

BLUETOOTH

ISFM21

Bluetooth Enabled Audio Input Module for Audio Streaming (A2DP)

The ISFM21 is a universal, application controlled, Bluetooth audio solution for devices running Android OS. It wirelessly connects your device to your car's audio system for audio streaming (Bluetooth A2DP).

Android App

MSRP **\$119.95**

- Works with any radio by auxiliary audio input or FM
- Provides an audio connection solution with factory-like appearance
- No visible wires in the vehicle
- Auto-reconnect when entering vehicle
- Three selectable FM broadcast frequencies, without app
- Full band FM broadcast selection with free Android application

BLUETOOTH

ISFM22

Bluetooth Enabled Audio Input Module for Audio Streaming (A2DP)

The ISFM22 is a universal, application controlled, Bluetooth audio solution for iPod, iPhone, or iPad. It wirelessly connects your device to your car's audio system for audio streaming (Bluetooth A2DP).

iOS App

MSRP **\$139.95**

- Works with any radio by auxiliary audio input or FM
- Provides an audio connection solution with factory-like appearance
- No visible wires in the vehicle
- Auto-reconnect when entering vehicle
- Three selectable FM broadcast frequencies, without app
- Full band FM broadcast selection with free iOS application

BLUETOOTH FOR GATEWAY

ISBT21

Bluetooth Add-on-Adaptor for GateWay.
Requires GateWay Module (Sold Separately)

MSRP **\$99.95**

- Connect your iPhone 4S, iPhone 4, iPhone 3GS, iPhone 3G, or iPhone via Bluetooth for hands-free operation with caller ID displayed on factory radio
- Supports A2DP audio streaming (except original iPhone)

NOTE: Some Bluetooth equipped devices not listed may support partial or full functionality

GENERAL MOTORS

BLU-GM29

Bluetooth Integration Interface for 29-bit GM LAN Vehicles

MSRP **\$159.95**

- Interfaces aftermarket Bluetooth kit (sold separately) with OnStar controls
- Plug-&-Play installation
 - CK3000
 - EGO Talk
 - Motorola IHF1000, IHF1700
- Control aftermarket Bluetooth kit through the factory steering wheel controls
- Compatible with amplified or non amplified audio systems
- Automatically mutes factory radio when making or receiving a call
- Plays hands free audio through both front speakers

GENERAL MOTORS

BLU-GM11

Bluetooth Integration Interface for 11-bit GM LAN Vehicles

MSRP **\$159.95**

- Interfaces aftermarket Bluetooth kit (sold separately) with OnStar controls
- Plug-&-Play installation
 - CK3000 (Plug-&-Play)
 - EGO Talk (Hardwired)
 - Motorola IHF1000, IHF1700 (Hardwired)
- Control the EGO TALK through the factory steering wheel controls
- Compatible with amplified or non amplified audio systems
- Automatically mutes factory radio when making or receiving a call
- Plays hands free audio through both front speakers

GENERAL MOTORS

GMCSS2

Cell-Site Integration Harness for Select 2000-2006 GM Vehicles with OnStar.

PnP

MSRP **\$65.95**

- T-harness routes phone audio through front factory speakers as OnStar does.
- OnStar retains priority and will not be interrupted by phone use in emergency.
- MOT1000 adapter harness required for plug-n-play with Motorola IHF1000 or T605 Bluetooth kits
- PT3100 adapter harness required for plug-n-play with Parrot CK3100, CK3300 and CK3500
- PT3200 adapter harness required for plug-n-play with Parrot CK3200 and CK3400
- UPA2 adapter harness for any Bluetooth car kit that includes a "MUTE" lead as well as "AUDIO" leads

CHRYSLER

HFKCH1

Hands-Free Integration Kit for Chrysler

PnP

MSRP **\$79.95**

- Plug-and-play into the OEM radio harness, keeping the factory wiring in tact
- Provides audio switching for up to 4 channels
- Phone kit audio plays through the vehicle's front speakers
- Plug-and-play for Motorola IHF1000 and Parrot CK3100, CK3200, CK3300, CK3400, CK3500.

NOTE: Not compatible w/premium amplified system

FORD

HFKFD1

Hands-Free Integration Kit for Ford

PnP

MSRP **\$79.95**

- Plug-and-play into the OEM radio harness, keeping the factory wiring in tact
- Provides audio switching for all audio channels
- Phone kit audio plays through the vehicle's front speakers
- Plug-and-play for Motorola IHF1000 and Parrot CK3100, CK3200, CK3300, CK3400, CK3500.

NOTE: Not compatible w/premium amplified system

FORD

HFKFD1-P

Hands-Free Integration Kit for Ford with Phone Mute

PnP

MSRP **\$49.95**

- Plug-and-play into the OEM radio harness, keeping the factory wiring in tact
- Provides audio switching for all audio channels
- Phone kit audio plays through the vehicle's front speakers
- Plug-and-play for Motorola IHF1000 and Parrot CK3100, CK3200, CK3300, CK3400, CK3500.

NOTE: Radio must have phone button

FORD

HFKFD2-P

Hands-Free Integration Kit for Ford with Phone Mute

PnP

MSRP **\$49.95**

- Plug-and-play into the OEM radio harness, keeping the factory wiring in tact
- Provides audio switching for all audio channels
- Phone kit audio plays through the vehicle's front speakers
- Plug-and-play for Motorola IHF1000 and Parrot CK3100, CK3200, CK3300, CK3400, CK3500.

NOTE: Radio must have phone button. For NON-SYNC Systems

GENERAL MOTORS

HFKGM1
