

Don't be fooled by the Gator™ CX's amazingly convenient size, labor-saving extras and easy operation. It's one true Gator that's capable of doing things golf carts can only imagine. Sure, it has a low-slung cargo bed that's effortless to load up with pansies and tulip bulbs. But the truth is that same bed (made of tough, rustproof polyethelene) can also help lug 400 pounds of bricks or gravel. Or, take the finely tuned two-pedal transmission. It's also made for pulling the same heavy-duty cart as other Gators. (You won't find a rear receiver hitch option on a golf cart, now will you?) Take one home. And, you'll find it can handle quite a bit more than the front walk.

**STANDARD FEATURES:**

- Front and rear spring-over-shock suspension
- Traction assist
- Heavy-duty polyethylene cargo box
- Wet disc brakes

**SELECT OPTIONS:**

- Bucket seats
- High flotation tires
- Glove box
- 12V DC outlet

CX

Sure, it sticks around home. But that doesn't mean it's totally domesticated.

## Look inside, and you'll see what a Gator CX is really made of.

Unlike other vehicles in its class, the CX offers a superior four-wheel suspension system, with more "give" for a smoother ride. Ergonomic bucket seats and a frame that dampens noise and vibration provides outstanding operator comfort.

Underneath, you'll find the same strong robotically welded, tubular frame as other Gators. And like all Gators, it comes with wet disc brakes, sealed bearings and thick rear transaxle. The CX even includes a traction assist system for climbing hills and slogging through rough spots.

Best of all, with a powerful 286 cc (9.5 hp)<sup>†</sup> Kawasaki<sup>®</sup> engine, you'll find the CX is big on working hard.

Extremely maneuverable—only a 19.9-ft. turning radius.

800-lb. payload capacity\* and 600-lb. towing capacity.

Includes comfortable bucket seats, convenient dual cupholders, and precise rack-and-pinion steering.

Tie-down attaching points and handy divider slots make for an easy-to-pack cargo bed.

Easy-to-load low-slung cargo box, tilts for easy dumping.

Robotically welded tubular steel frame is electrostatically coated, and powder painted for maximum rust resistance.

GATOR CX

Long-lasting wet disc brakes are meant for moving and stopping with heavy loads.

Semi-independent, triple-rate, spring-over-shock, pre-load adjustable rear suspension provides unmatched comfort over rough ground.

Independent dual-rate, spring-over-shock preload adjustable front suspension gives a smooth ride no matter what you're hauling.

Tread anywhere, with your choice of Cayman lawn and street tires, or knobby tires (meant for rougher terrain). Both offer great puncture resistance and excellent traction.

### Made to roam far from home

The CX fits easily in a full-size pickup. Just load and head for the wild.

CAPABLE

Up to 400 lb. of mulch, lumber, bricks. You name it, the Gator CX can carry it or tow it. And its low-slung cargo box is a cinch to load.

COMFORTABLE

Twin bucket seats allow plenty of room for two to sit comfortably and provide good ride quality.

SMOOTH

Class-leading four-wheel suspension smoothes out the roughest terrain.

CONVENIENT

Includes easy-to-use, auto-like controls, and conveniences like a DC outlet to power cell phones and more.

\*Includes 200-lb. operator, 200-lb. passenger and maximum box capacity.
