Welcome

A message from Mike

Welcome to the 2012 LINDY catalogue!

Inside you'll find over 2,500 computer and AV connection products from simple patch cables to advanced video converters, extenders and networking solutions.

In today's competitive market getting the best deal is paramount. Here at LINDY we look to work with our customers to provide the best possible solutions to their needs while our helpful staff offer expertise all the way, from ordering to installation.

We look to go that extra mile by offering extended opening hours, next day delivery and great value products. We're constantly expanding and improving our range to offer the best, up to date solutions on the market. For this year's catalogue we've added over 300 new products, just a few of which are highlighted on pages two and three.

We're constantly adding new products throughout the year so remember to check our website regularly. And don't forget to log in to view our trade prices online.

Finally, thank you for your continued valued custom, we look forward to working with you in the coming year.

Mike Baker
LINDY UK Sales Manager

'World leaders'

LINDY is one of the world's leading suppliers of computer and AV connection technologies...

Established in 1932, we have grown from a small family business selling oil lamps and radios into a multinational group of companies. Our offices are located in Great Britain, Germany, Italy, Switzerland, France, the US, Australia, Taiwan and Japan. An international arm, based in the UK, caters for our customers in Eire, Spain, Portugal, Scandinavia, Eastern Europe, Africa and the rest of the world.

We supply IT resellers, businesses, local authorities, schools, colleges and home users with the highest quality connection technology products available.

Meet the team

Why you should choose

A Wide Range of Products

From simple USB cables to the most advanced multi-user, remote access KVM switches. We specialise in networking, audio visual and computer connection technologies. Our massive range of cables provide connection solutions for home, office and industrial use.

Warranties

We back our products with industry leading warranties:

- **25 years** on all LINDY Premium Gold Cables and Adapters
- **10 years** on all LINDY cables and adapters (without electronic components), with the exception of custom made cables
- **3 years** on selected products, look for the warranty logo
- **2 years** on all other LINDY products

Quality Assured

All of our products are manufactured to the highest standards and each must pass a stringent three-tier testing process in accordance with the prestigious Lloyds ISO 9001:2000 quality assurance accreditation, held since 1994 by LINDY UK.

Huge Stocks & Same Day Dispatch

Over 95% of our products are always in stock at all times ready for immediate delivery. Items ordered before the close of business ship the same day!

Free UK Next Day Delivery*

Standard UK orders over £125.00 (ex. VAT) are dispatched free of charge for next day delivery to all mainland UK destinations (excluding Scottish Highlands & Islands)

Free Technical Support

We provide free product support both before and after your purchase. Simply call our Technical Support line to speak to one of our experienced technicians.

Trade Counter

Customers in the North East, or visiting from elsewhere, can call in to our trade counter to collect orders, speak to our staff or take a look at our products.

Custom Cables & Special Make Quotes

If we don't stock it we can probably make it for you! Our Custom Cable department is on hand to create bespoke cables to your requirements. We can also customise network cabinets, switches and more, see page 200 for further information.

Dedicated & Friendly Staff

All members of our enthusiastic and helpful sales team have a really thorough knowledge of the LINDY range. They're always ready to assist with all your product and service enquiries.

Keeping you informed

Our free monthly newsletter and opt-in emails keep you up to date on all our new products and our latest special offers.

*Some restrictions apply, see our website.

HDMI Switches

3 Port Remote Control HDMI Switch

Connects up to three HDMI devices to a single HDMI port on a TV or projector

- Infra-red remote control for easy switching (battery included)
- IR sensor with 1.2m cable for optimal positioning
- HDCP compliant
- Supports Full HD resolutions up to 1080p and 36 bit deep colour
- Supports total combined cable distances of up to 30m (15m in, 15m out)
- Connectors: 3 x HDMI Female (input); 1 x HDMI Female (output)
- Dimensions: 80 x 57 x 18mm (WxDxH)

3 Port Remote Control HDMI Switch Part No. **38033**

4 x 2 Matrix HDMI Switch

4 Port HDMI 1080p Switch that can output to 2 displays

- Features 4 HDMI input ports and 2 HDMI output ports
- Each of the 4 connected sources can be directed to either or both of the displays using the supplied remote control
- HDCP compliant
- Supports Full HD resolutions up to 1080p and 36 bit deep colour
- Supports cable runs of up to 20m (10m in, 10m out)
- Sturdy metal case - ideal for industrial and commercial use
- Connectors: 4 x HDMI Female (input); 2 x HDMI Female (output)
- Dimensions: 170 x 80 x 25mm (WxDxH)

4 x 2 Matrix HDMI Switch Part No. **38053**

4 x 4 & 8 x 8 Matrix HDMI Switches

Versatile solutions for connecting multiple HDMI sources and displays together

- 4 x 4 and 8 x 8 versions available
- Each of the connected sources can be directed to any of the displays using the supplied remote control
- Supports multi-channel audio
- HDCP compliant
- Supports Full HD resolutions up to 1080p and 36 bit deep colour
- Supports cable runs of up to 20m (10m in, 10m out)
- Sturdy metal case - ideal for industrial and commercial use
- RS-232 port for external control, and a USB port for switching via a PC
- Supplied with 19" rack mounting brackets
- Connectors: 4/8 x HDMI Female (input); 4/8 x HDMI Female (output)
- Dimensions (both versions): 440 x 290 x 44mm (WxDxH)

8 x 8 Matrix HDMI Switch front view

8 x 8 rear view

4 x 4 Matrix HDMI Switch Part No. **38046**
8 x 8 Matrix HDMI Switch Part No. **38047**

HDMI Splitters

4 x 2 Switching HDMI Splitter

2012 New

Ideal for HDMI distribution use in retail product demonstration, training and public display applications

- Connects up to 4 HDMI devices to 2 HDTV displays or projectors
- Sources can be directed to both the displays using the supplied remote control (does not support output to individual displays - use our Matrix switches on page 8 for this feature)
- Supports deep colour mode at up to 36 bit, Dolby TrueHD and DTS-HD Master Audio digital audio
- Supports cable distances of up to 20m (10m in, 10m out)
- Supports resolutions of up to 1080p and 1600 x 1200
- HDMI 1.4, and HDCP compliant
- Supports Audio Return Channel, 3D and HEC
- Sturdy metal casing - ideal for industrial use
- Connectors: 4 x HDMI Female (input); 2 x HDMI Female (output); 2 x RJ-45; 2 x SPDIF Coax; Serial Port
- Dimensions: 240 x 104 x 44mm (WxDxH)

4 x 2 Switching HDMI Splitter

Part No. **38054**

HDMI Splitters

Connect multiple High Definition displays to a single source

- 2, 4, 8 and 16 port versions available
- Ideal for use in digital signage, retail, education and AV installations
- Supports resolutions up to 1080p and multi channel digital audio
- HDCP compliant
- When used with computers, supports display resolutions up to 1920 x 1200
- Supports maximum cable distances of up to 20m (10m in & 10m out)
- Bandwidth: 225MHz
- Sturdy metal housing - ideal for industrial use
- Connectors: 1 x HDMI Female (input); 2/4/8/16 x HDMI Female (output)
- Dimensions (WxDxH):
 - 2 port: 83 x 47 x 24mm
 - 4 port: 148 x 63 x 24mm
 - 8 port: 276 x 156 x 24mm
 - 16 port: 436 x 120 x 49mm

Up to 20m!

2 Port HDMI Splitter

Part No. **38026**

4 Port HDMI Splitter

Part No. **38027**

8 Port HDMI Splitter

Part No. **38028**

16 Port HDMI Splitter

Part No. **38041**

Wall Mount 8 Port HDMI Splitter

Ideal for retail, digital signage and industrial use

Up to 30m!

- Supports resolutions up to 1080p and multi channel digital audio
- When used with computers, supports resolutions up to 1920 x 1200
- HDCP compliant
- Supports maximum cable distances of up to 30m (15m in, 15m out)
- Bandwidth: 225MHz • Sturdy metal housing
- Connectors: 1 x HDMI Female (input); 8 x HDMI Female (output)
- Dimensions: 93 x 24 x 220m (WxDxH)

Wall Mount 8 Port HDMI Splitter

Part No. **38040**

Port Saver

Saves wear and tear on HDMI ports

- Ideal for use with our HDMI Splitters in a retail or display environment
- HDMI Female to Male gold plated connectors

HDMI Port Saver

Part No. **41231**

HDMI 360° Port Saver/Adapter

Versatile, adjustable HDMI connector

- Features a clever connector design which allows it to swivel and rotate to almost any angle
- Connectors: HDMI Female to Male

HDMI 360° Port Saver/Adapter

Part No. **41096**

HDMI Extenders

30m Dual CAT5e/6 HDMI Extender

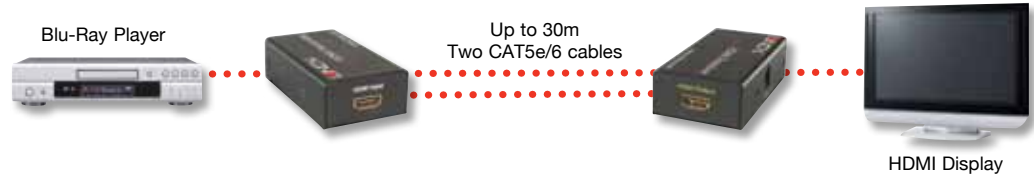

Extends your HDMI signal up to 30m using two CAT5e/6 network cables

- Includes transmitter and receiver units
- Transmits HDMI video and audio signals up to 30m over two CAT5e/6 cables (not included, see page 130)
- HDCP compliant with pass-through function
- Supports HDTV resolutions up to 1080p
- Supports 8 bits per channel (24 bits all channels) deep colour
- Supports uncompressed audio (LPCM) and DTS Digital, Dolby Digital, DTS-HD and Dolby True HD audio
- Sturdy, metal casing
- Dimensions (each unit): 45 x 80 x 25mm (WxDxH)

Up to 30m!

30m Dual CAT5e/6 HDMI Extender Part No. 38023

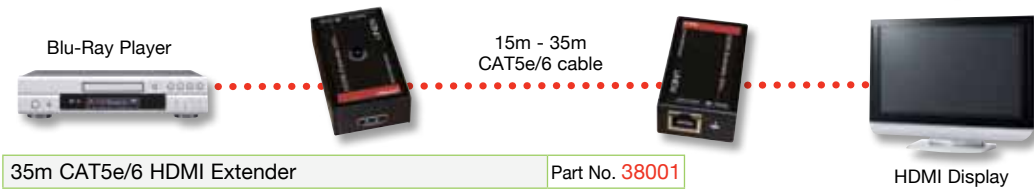

2012 **NEW**

35m CAT5e/6 HDMI Extender

Transmits HDMI signals up to 35m using a single low cost network cable

- Includes transmitter and receiver units
- Transmits HDMI video and audio signals from a minimum 15m to a maximum 35m over a single CAT5e/6 cable (not included, see page 130)
- Supports HD resolutions up to 1080p and multi channel audio
- Tough metal design - ideal for commercial and industrial installations
- HDCP & DVI 1.0 compliant
- Dimensions (each unit): 69 x 39 x 21mm (WxDxH)

BEST SELLER

35m CAT5e/6 HDMI Extender Part No. 38001

Up to 35m!

70m CAT5e 2 Port Switching HDMI Extender

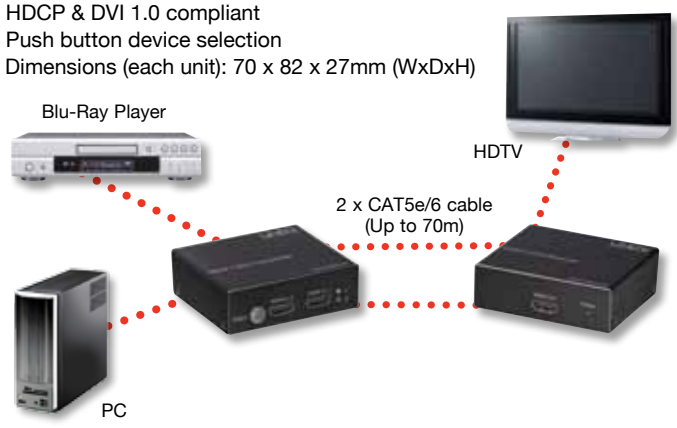

Connects two HDMI devices to a high definition display at distances of up to 70m

- 2 port HDMI switch with long distance extender function
- Extends HDMI video and audio signals up to 70m over two CAT5e/6 cables (not included, see page 130)
- Can also be used with DVI signals (using HDMI to DVI cables, see pages 152-154)
- Supports HD resolutions up to 1080i and multi channel audio
- Tough metal design - ideal for commercial and industrial installations
- HDCP & DVI 1.0 compliant
- Push button device selection
- Dimensions (each unit): 70 x 82 x 27mm (WxDxH)

Up to 70m!

70m CAT5e 2 Port Switching HDMI Extender Part No. 38000

AV & Presentation

HDMI Extenders & Distribution

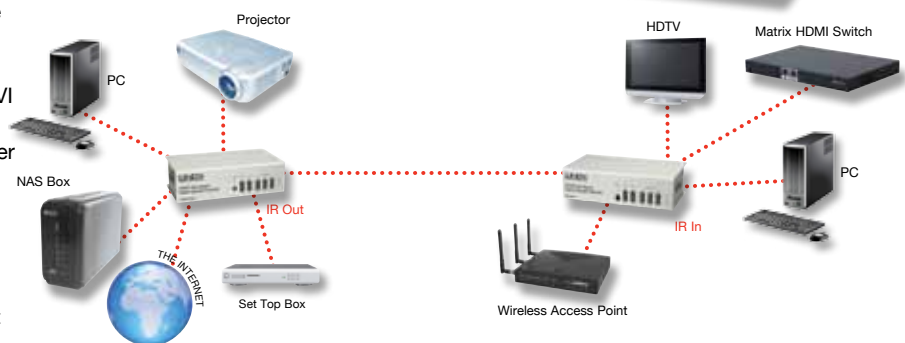

100m CAT6 HDMI High Speed Digital Signage Extender

Sends uncompressed HDMI signals up to 100m using CAT6 network cable

This high quality, professional HDMI Extender transmits Full HD 1080p up to 100m using standard CAT6 cable. Simple to set up and install, it's perfect for high resolution, smooth video playback. Superior design allows it to also function as an RS-232 extender, infra-red over CAT6 extender and as two 3 Port Ethernet hubs, giving it the ability to transmit a whole host of signals. Ideal for use with home cinema and professional 3D/HDTV installations as well as digital signage, computer and multimedia system installs.

- Consists of Transmitter and Receiver units
- Extends uncompressed HDMI or DVI-D signals up to 100m via its 'Gigalink' connection using CAT6, or higher, cable
- HDMI Full HD 1080p, HDCP, HDTV and DVI compatible
- Supports HDTV resolutions up to 1080p with 36 bit colour depth, including 3D
- Supports DVI-D up to 1920 x 1200 using an HDMI to DVI Adapter or cable (see pages 152-154)
- Also functions as an RS-232 extender, infra-red extender and two 3 Port 10/100 Ethernet hubs
- Supports hardware RS-232 link function and Infra-red remote signals
- Supports a local HDMI monitor at the transmitter
- Connectors (Transmitter):
 - 2 x HDMI Female (Input & Output); 3 x RJ-45 Ethernet
 - 1 x RJ-45 Gigalink; 1 x RS-232
- Connectors (Receiver):
 - 1 x HDMI Female (Output); 3 x RJ-45 Ethernet
 - 1 x RJ-45 Gigalink; 1 x RS-232; IR In
- Dimensions (each unit): 250 x 70 x 50mm (WxDxH)

2012 New

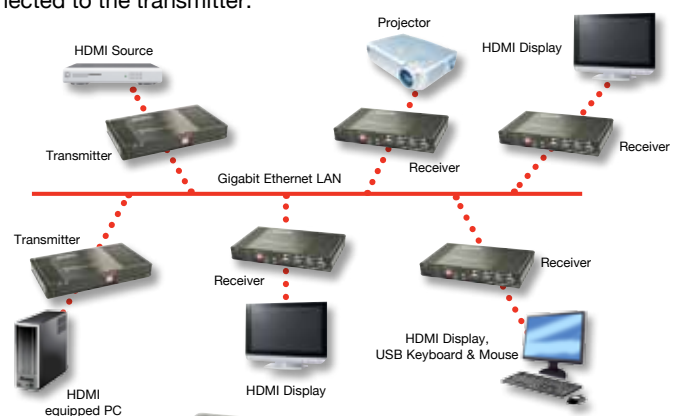

100m HDMI over Gigabit Ethernet Extender, Receiver Part No. **38120**

100m HDMI Gigabit Ethernet Broadcast System

Extend your HDMI signal to multiple receivers over a standard Gigabit network

This Broadcast System sends HDMI signals over a standard CAT6 cable up to 100m in length or via any standard Gigabit Ethernet network. The system consists of transmitter and receiver units which can be purchased according to your requirements. It's possible to use the system either in a 1-to-1 or 1-to-many configuration, or as a matrix with up to 16 transmitters. In addition to HDMI, USB, infra-red remote control and RS-232 signals can also be distributed. To set up a KVM control system, a monitor, USB keyboard and mouse can be connected to a receiver allowing full remote control of a computer connected to the transmitter.

- Designed for use with digital signage, home cinema, professional AV, multimedia and control centre installations
- Extends HDMI and DVI-D signals via 1000Base-T Gigabit Ethernet or a single CAT6 cable (up to 100m, not included)
- Also extends USB, RS-232 and IR remote control signals - it can be used as a KVM extender for remote control of a computer
- Supports Full HD 1080p and DVI-D Single Link up to 1920 x 1080
- Supports infra-red remote signal transmission to the HDMI source - you can control the remote HDMI source (BD/DVD player) using its own IR remote control
- Transmitter and Receiver units sold separately - you can purchase the relevant quantities according to your requirements
- Dimensions (each unit): 180 x 110 x 25mm (WxDxH)

2012 New

HDMI Gigabit Ethernet Broadcast System Transmitter Part No. **38066**

HDMI Gigabit Ethernet Broadcast System Receiver Part No. **38067**

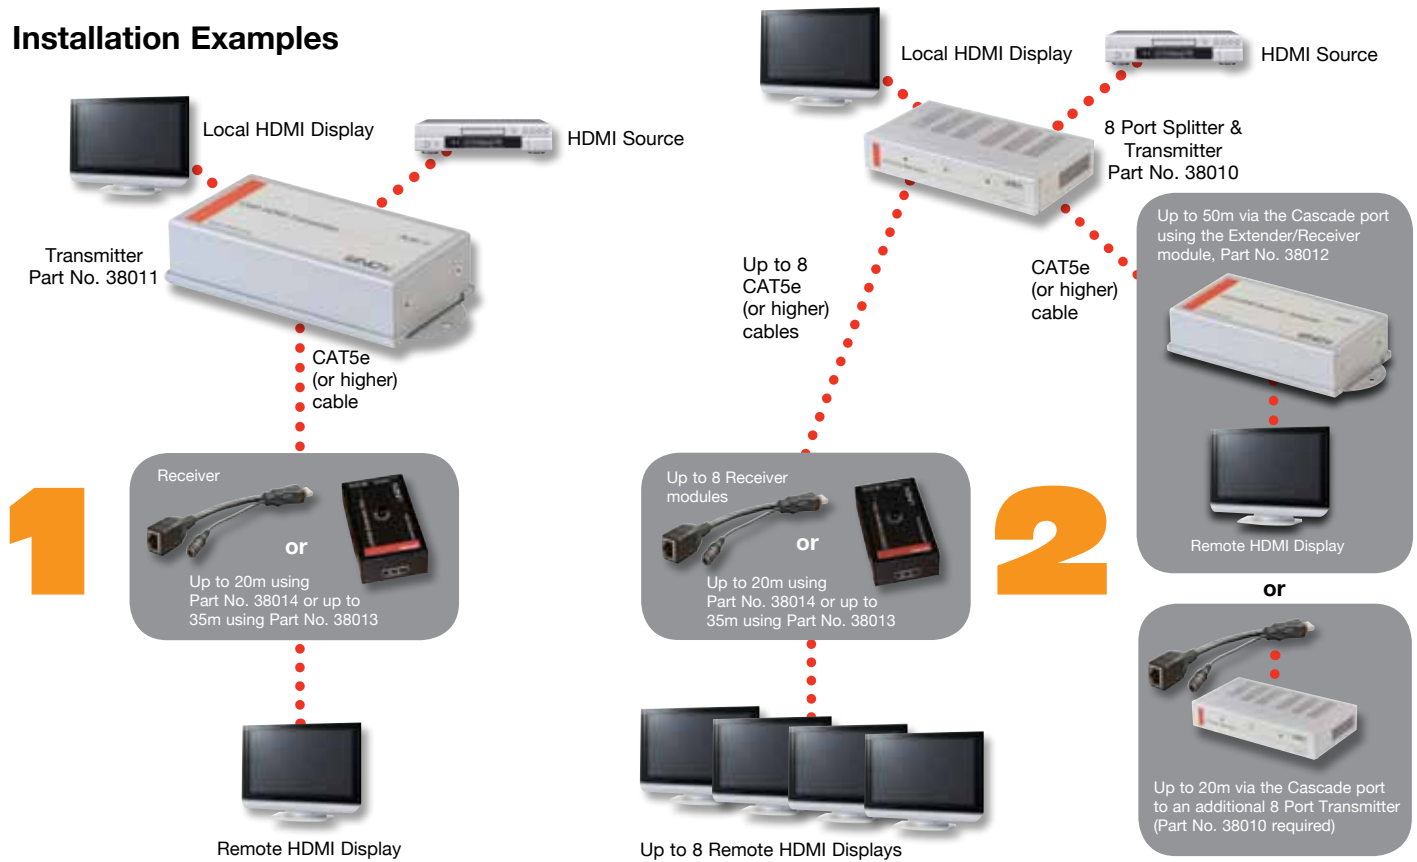

HDMI Distribution

CAT5e HDMI Distribution System

Modular solution for extending & distributing HDMI signals

Our CAT5e HDMI Distribution System allows HDMI signals to be transmitted over incredibly long distances using CAT5e/6 network cable (see page 130). These products bring you almost endless possibilities for digital signage, public display and large scale video distribution. The range consists of single extender kits and an 8 port extender. Receiver units are available to support distances of up to 50m. Video signals of up to 1080p are supported as well as multi channel audio. The range is fully HDCP compliant.

Installation Examples

CAT5e HDMI Transmitter

- CAT5e HDMI Transmitter for use with Receiver units, Part No's 38012, 38013 or 38014 to create a long distance HDMI installation
- Dimensions: 139 x 61 x 29mm (WxDxH)

CAT5e HDMI Transmitter Part No. **38011**

50m CAT5e HDMI Receiver / Extender

- Connects to the LINDY CAT5 HDMI Transmitter (Part No. 38011) or LINDY 8 Port HDMI Extender (Part No. 38010) to provide a cascaded, long distance HDMI installation
- Dedicated cascade port
- Dimensions: 139 x 61 x 29mm (WxDxH)

50m CAT5e HDMI Receiver / Extender Part No. **38012**

CAT5e 8 Port HDMI Splitter & Transmitter

- Allows up to 8 HDMI displays to be connected to a single source via CAT5e or higher cables
- Requires additional Receiver units for each connected output port (see diagram above for connection options)
- Cascade port allows further monitors to be connected using another Splitter & Transmitter unit or Receiver/Extender module (Part No. 38012)
- Dimensions: 240 x 140 x 47mm (WxDxH)

CAT5e 8 Port HDMI Splitter & Transmitter Part No. **38010**

CAT5e HDMI Receivers

- Choose from 20m and 35m versions

20m CAT5e HDMI Receiver Part No. **38014**
35m CAT5e HDMI Receiver Part No. **38013**

HDMI Extenders & Repeaters

Wireless Extender for HDMI

Sends Full HD 1080p up to 30m using a wireless connection

The LINDY Wireless Extender for HDMI extends Full HD 1080p signals up to 30m, without compression or latency, just as if you were using a cable. Using a MIMO 5GHz radio the Wireless Extender provides full support for HD 1080p, HDCP, multi channel audio, CEC and IR remote control and can easily be used with our range of HDMI Switches and Splitters. Installation is simple, just plug and play, no configuration, tuning or adjustment is required.

- Extends HDMI signals at distances of up to 30m (outdoor) / 20m (indoor)
- Compatible with HDCP, multi channel audio, DDC and CEC
- Supports all HDTV and PC resolutions up to 1080p including 1080p24/30/50/60 and 3D
- Supports HDMI deep colour modes with 30/36/48 bit colour depth
- Supports multi-channel digital audio: PCM, DTS, Dolby Digital
- Integrated Infra-Red Extender (cable included)

Wireless Extender for HDMI Part No. **38121**

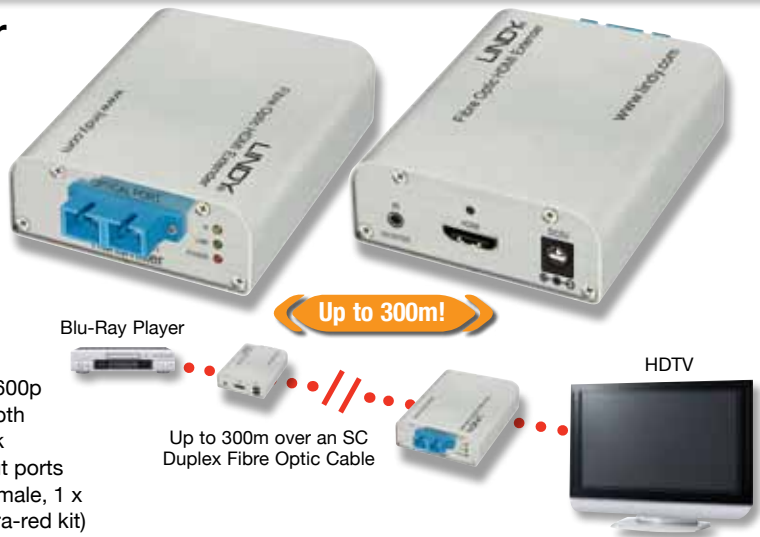

* Distances depend on the construction of adjacent walls and floors

300m Fibre Optic HDMI Extender

Extends HDMI signals up to 300m using a single SC duplex multimode fibre optic cable

The LINDY Fibre Optic HDMI Extender is a high performance solution for sending HDMI signals over incredible distances. Using a standard SC duplex multimode fibre optic cable (not included, see page 128) to make the long distance connection, the HDMI Extender provides full support for HD resolutions up to 2K4K, HDCP, 3D, multi channel audio, CEC and infra-red remote control*.

- Compatible with HDMI specifications; HDCP and 3D compliant
- Supports resolutions up to 2K4K including 1080p, 1440p and 1600p
- Supports HDMI deep colour modes with 30/36/48 bit colour depth
- 7.8Gbps total bandwidth over single 2-core fibre optic cable link
- Supports HDMI cable lengths up to 3m on both input and output ports
- Connectors (each module): 1 x SC Duplex, 1 x HDMI Type A Female, 1 x power supply, 1 x IR Booster socket (for use with the LINDY Infra-red kit)
- Dimensions (each unit): 107 x 75 x 29mm (WxDxH)

300m Fibre Optic HDMI Extender Part No. **38003**

Infra-Red Remote Control Kit Part No. **38006**

*Remote control requires our Infra-red kit (sold separately)

80m HDMI Repeater Transmits HDMI signals up to 80m

- Supports video and audio signals
- Regenerates the digital signal to allow connections of up to 60m from the source (e.g. PC, DVD player) and up to 20m to the display
- Requires Premium Gold HDMI cables (pages 148) and couplers to make the long distance connection
- Supports display resolutions of up to 1920 x 1200 and 1080p
- HDCP compliant
- Dimensions: 53 x 28 x 13mm (WxDxH)

80m HDMI Repeater Part No. **32568**
HDMI Coupler Part No. **41230**

DVI Extenders & Splitters

300m Fibre Optic DVI Extender

2012 New

Up to 300m!

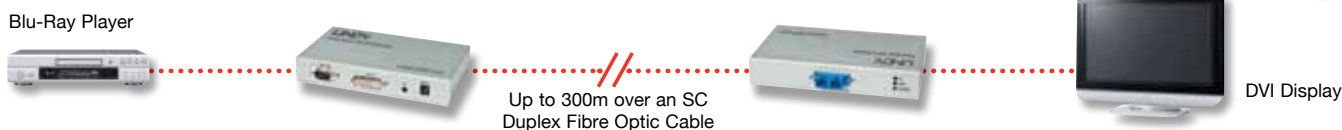

Extends DVI up to 300m using fibre optic cable

Designed for very long distance video distribution, the LINDY Fibre Optic DVI Extender can transmit DVI-D Single Link signals up to 300m using a single SC duplex multimode fibre optic cable (not included, see page 128).

- Compatible with DVI-D 2.0 specifications (Single Link); HDCP compliant
- Supports resolutions up to 1920 x 1200 @ 60Hz / 1080p
- IR remote control support using our Infra-red kit (sold separately)
- RS-232 port for extending remote control signals
- Eye safety function - if the fibre optic cable is broken the laser is automatically disabled
- Supports DVI cable lengths up to 5m on both input and output ports
- Connectors (each module): 1 x SC Duplex, 1 x DVI Female, 1 x power supply, 1 x IR Booster socket (for use with the LINDY Infra-red kit), 1 x RS-232
- Dimensions (each unit): 162 x 120 x 30mm (WxDxH)

300m Fibre Optic DVI Extender	Part No. 38004
Infra-Red Remote Control Kit	Part No. 38006

150m Fibre Optic DVI-D Extender

Extends DVI-D video up to 150m using a single fibre optic cable

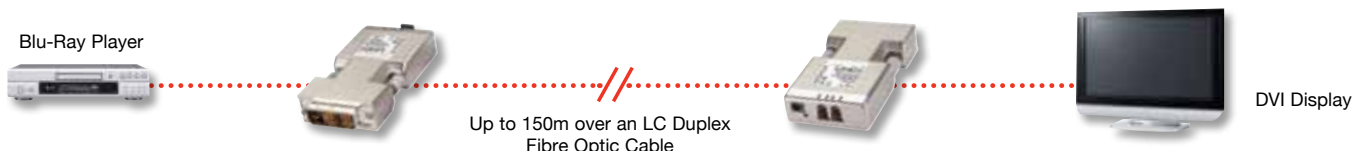

- High quality, cost effective solution
- Send DVI-D over incredible distances, without compression or any degradation, using low cost fibre optic cable
- Easily to set up and install
- Supports resolutions up to 1080p
- HDCP compliant
- Uses standard LC duplex multimode (50/125µm) or LC duplex single mode (9/125µm) fibre optic cable (not included, see page 128)

2012 New

Up to 150m!

150m Fibre Optic DVI-D Extender	Part No. 38113
---------------------------------	-----------------------

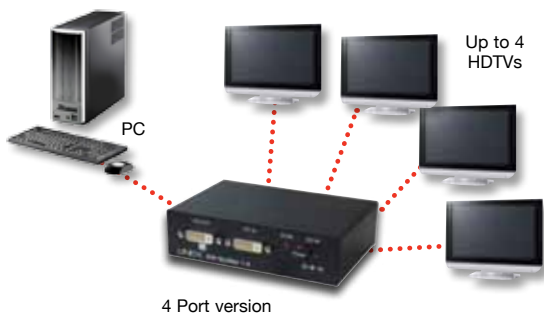

DVI-D Video Splitters

Sends DVI-Digital signals to multiple monitors

- 2, 4 and 8 port models available
- Supports resolutions up to 1920 x 1200
- High video bandwidth up to 165MHz
- Supports cable runs of up to 30m (15m in, 15m out)
- Daisy chain support for adding extra monitors
- Connectors: DVI-I Female (Input); 2/4/8 x DVI-I Female (Output)
- Compact size: 2 Port: 103 x 105 x 25mm (WxDxH)
4 Port: 142 x 105 x 40mm (WxDxH)
8 Port: 240 x 103 x 29mm (WxDxH)

Up to 30m!

2 Port DVI-D Splitter	Part No. 32447
4 Port DVI-D Splitter	Part No. 32446
8 Port DVI-D Splitter	Part No. 38108

AV & Presentation

DVI Splitters, Extenders & Switches

DVI Splitter Cables

- Allows a computer, or other DVI equipped device, to output its signal to two separate displays

2 Way DVI-D Splitter Cable

- DVI-D Male to 2 x DVI-D Female
- Gold plated connectors
- Length: 0.15m

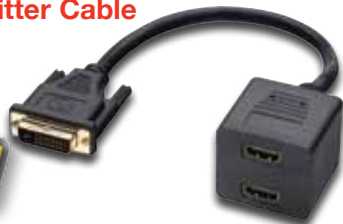

2 Way DVI-D Splitter Cable, 0.15m

Part No. **41215**

DVI-D to 2 Way HDMI Splitter Cable

- DVI-D Male to 2 x HDMI Female
- Gold plated connectors
- Length: 0.20m

DVI-D to 2 Way HDMI Splitter Cable, 0.20m

Part No. **41209**

DVI to 2 Way VGA Splitter Cable

- Allows a DVI-I equipped device to output its signal to two separate VGA displays
- The source device must support analogue VGA signals via DVI-I
- Gold plated connectors
- Length: 0.15m

DVI-I Male to 2 Way VGA Female , 0.15m

Part No. **41051**

DVI-I Male to DVI-D Female + VGA Female Cable

- Allows computers that support simultaneous digital and analogue video output via their DVI-I output ports to be connected to two separate monitors
- Length: 0.2m

DVI-I Male to DVI-D + VGA Female Cable, 0.2m

Part No. **41048**

DVI-I Female to DVI-D Male + VGA Male Cable

- Allows VGA and DVI-D signals to be sent to a display equipped with both DVI and VGA inputs
- Length: 0.25m

DVI-I Female to DVI-D Male + VGA Male Cable, 0.25m

Part No. **41008**

80m DVI Repeater

Transmits digital display signals up to 80m

- Allows connections of up to 60m from the source and up to 20m to the display
- Requires LINDY Male to Male and Male to Female Super Long Distance DVI cables to make the long distance connection (see pages 152-153)
- Supports display resolutions of up to 1920 x 1200 and 1080p

Up to 80m!

80m DVI Repeater

Part No. **32567**

30m CAT6 DVI Extender

Low cost extender that uses Ethernet cable for easy installation

Up to 30m!

- Extends DVI-D single link video signals over CAT6/6a cable (see page 130 for our range)
- Consists of a transmitter and receiver which connect directly to your device's DVI ports
- Supports the following transmission distances and resolutions:
 - 15m @ 1920 x 1200 or 1080p using CAT6a PiMF (S/FTP) cable
 - 20m @ 1280 x 1024 using CAT6 UTP or PiMF (S/FTP) cable
 - 30m @ 1024 x 768 using CAT6a PiMF (S/FTP) Cable

Picture for illustration only, CAT6 cable not included

30m CAT6 DVI Extender

Part No. **32599**

4 Port DVI & Audio Switch

Remote control digital multimedia switch

- Allows up to 4 DVI equipped devices to be connected to one display
- Also supports stereo audio signals via five 3.5mm sockets (20cm audio cables included)
- Supports DVI-D resolutions up to 1920 x 1200 and HD 1080p
- Connectors: DVI-D Female (Output); 4 x DVI-D Female (Input)
- Compact size: 162 x 58 x 28mm (WxDxH)

4 Port DVI & Audio Switch

Part No. **38032**

90m CAT5e/6 DVI Extender

Long distance DVI over low cost network cable

- Extends DVI-D single link video signals over CAT5e or higher cable
- Consists of a local transmitter and a remote receiver unit
- The receiver unit has a metal housing and magnetic base for improved shielding and ease of installation
- Supports the following transmission distances and resolutions:
 - 90m @ 800 x 600
 - 75m @ 1024 x 768
 - 60m @ 1280 x 1024
 - 35m @ 1920 x 1200

Up to 90m!

90m CAT5e/6 DVI Extender

Part No. **32576**

2 Port DisplayPort Switch with Remote Control

2012 New

Connect two DisplayPort devices to a single DisplayPort port on a TV or monitor

- DisplayPort 1.1a HD 1080p compatible
- Full support for high definition video, multi-channel digital audio, DPCP and HDCP
- Infra-red remote control for easy switching (battery included)
- Supports resolutions up to 2560 x 1600
- Supports 8 channel, uncompressed 24bit audio
- Bandwidth: 2.7Gbps per lane (total 10.8Gbps)
- Dimensions: 142 x 65 x 25mm (WxDxH)

2 Port DisplayPort Switch with Remote Control

Part No. **38410**

30m DisplayPort Repeater

Extend a DisplayPort connection by up to 30m

- Allows DisplayPort signals to be transmitted at distances of up to 30m using LINDY DisplayPort long length cables, see page 151
- Supports connections of up to 15m to the display and up to 15m from the source at a resolution of up to 2560 x 1600 (1600p)
- HDCP signal support
- Bus powered
- Includes a 5V DC PSU
- Dimensions: 53 x 55 x 20mm (WxDxH)

30m DisplayPort Repeater

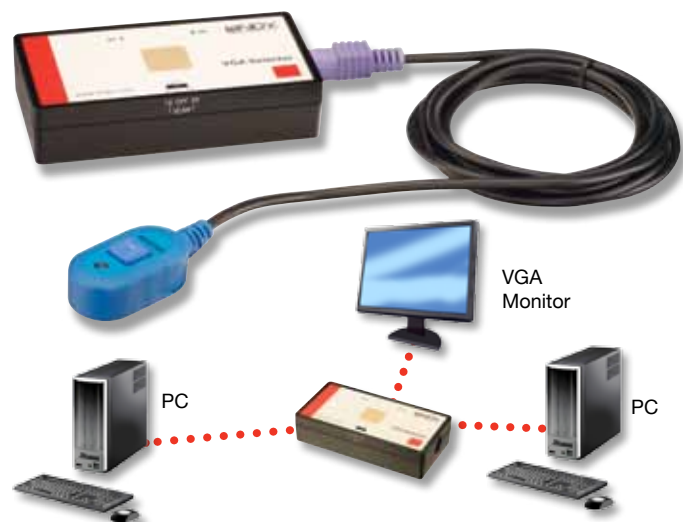

Part No. **38400**

2 Port VGA Auto Switch

Automatic port switching with cable remote control

- Allows you to connect 2 VGA sources to 1 VGA display and then switch between them using a front panel button, cable remote control or auto scan system
- Supports display resolutions of up to 2048 x 1536
- Supports cable lengths of up to 50m using LINDY Premium Gold VGA cables, please see page 156
- Powered via the VGA ports - no separate power supply required
- Auto scan mode with adjustable scan rate (10, 20 seconds and off)
- Remote control with 1.4m cable for convenient operation
- Magnetic base for securing the switch to a metal surface
- Connections: 1 x VGA Female (output); 2 x VGA Male (input)
- Dimensions: 103 x 55 x 23mm (WxDxH)

Magnetic Base!

2 Port VGA Auto Switch

Part No. **32585**

VGA Switches

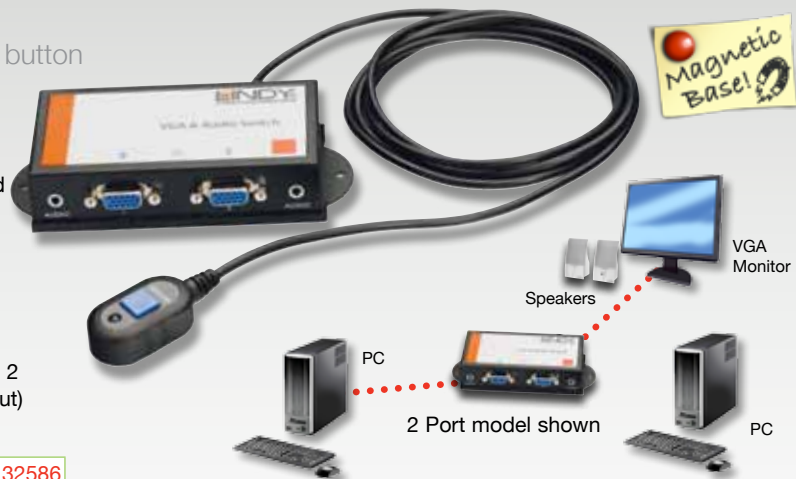

VGA & Audio Switches

Switches audio and video signals at the touch of a button
- available in 2,4 & 8 port versions

2 Port VGA + Audio Switch

- Switches video and audio from two sources to one monitor and set of speakers
- Supports display resolutions of up to 1900 x 1200
- Supports cable lengths of up to 50m using LINDY Premium Gold VGA cables, see page 156 for compatible cables
- Remote control with 1.4m cable for convenient operation
- Magnetic base for securing the switch to a metal surface
- Connections: 1 x VGA Female (output); 2 x VGA Female (input); 2 x 3.5mm jack socket (audio in); 1 x 3.5mm jack socket (audio out)
- Dimensions: 103 x 55 x 23mm (WxDxH)

2 Port VGA & Audio Switch Part No. **32586**

4 Port VGA & Audio Switch

2012 NEW

- Switches video and stereo audio from four sources to one monitor and set of speakers
- Push button operation chooses which input to select
- Supports resolutions up to: 2048 x 1536
- Supports cable lengths of up to 50m using LINDY Premium Gold VGA cables, see page 156
- Power supply included
- Connections: 1 x VGA Female (output); 4 x VGA Male (input); 4 x 3.5mm jack socket (audio in); 4 x 3.5mm jack socket (audio out)
- Dimensions: 194 x 80 x 23mm (WxDxH)

4 Port VGA & Audio Switch Part No. **32647**

8 Port VGA & Audio Switch

2012 NEW

- Switches video and stereo audio from eight sources to one monitor and set of speakers
- IR remote control and push button switching
- Supports resolutions up to: 2048x1536
- Supports cable lengths of up to 70m using LINDY Premium Gold VGA cables, see page 156
- Connections: 1 x VGA Female (output); 8 x VGA Male (input); 8 x 3.5mm jack socket (audio in); 1 x 3.5mm jack socket (audio out)
- Dimensions: 268 x 104 x 42mm (WxDxH)

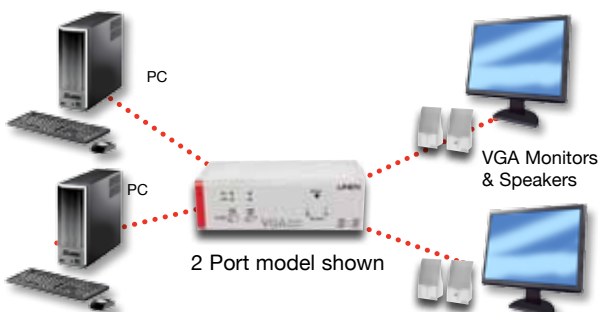

8 Port VGA & Audio Switch Part No. **32584**

Matrix VGA & Audio Switch

Versatile device for switching and splitting video and audio signals

- 2 and 4 port models available
- Connects up to 4 displays depending on model
- Each input can be sent to any of the connected displays
- Infra-red remote control for switching between devices and displays
- Supports cable runs of up to 65m (5m in, 60m out) see page 156 for our range of VGA cables, see page 163 for our audio cables
- Supports resolutions of up to 2048 x 1536
- Connections: 2/4 x VGA Female, 2/4 x 3.5mm socket (input); 2/4 x VGA Female, 2/4 x 3.5mm socket (output)
- Robust metal casing
- Compact size: 2 Port: 140 x 79 x 43mm (WxDxH)
4 Port: 216 x 85 x 43mm (WxDxH)

Up to 65m!

2 Port Matrix VGA & Audio Switch	Part No. 32577
4 Port Matrix VGA & Audio Switch	Part No. 32578
19" Rackmount Kit for the 4 Port Matrix Switch	Part No. 32679

VGA Splitters

VGA Splitter Pro

Effective solution for distributing multiple video signals over long distances

- Duplicates the VGA video signal from your PC to 2, 4 or 8 monitors
- Can be used with CRT monitors, LCD/TFT displays and projectors
- Provides a simultaneous display on all connected monitors
- Maximum cable distances (using Premium Gold cables, page 156):
 - 5m (source to splitter) • 50m (splitter to display)
- Maximum Resolution: 2048 x 1536
- High Bandwidth for each port: 450MHz (4 & 8 Port); 350MHz (2 Port)
- Cascadable - several units may be daisy chained for additional displays
- Connectors: 1 x VGA Male (input) and 2, 4 or 8 x VGA Female (output)
- Dimensions (WxDxH): 127 x 41 x 27mm (2 Port version); 200 x 80 x 45mm (4 & 8 Port versions)

Up to 55m!

2 Port VGA Splitter Pro	Part No. 32569
4 Port VGA Splitter Pro	Part No. 32572
8 Port VGA Splitter Pro	Part No. 32573

2 Port VGA Splitter Lite

Duplicate your PC's video output for long distance transmission to two monitors

- Can be used with CRT and LCD/TFT displays
- Provides a simultaneous display on all connected monitors
- Enhances video signals for long distance broadcasting (up to 50m when using LINDY Premium Gold VGA cables, see page 156)
- Maximum Resolution: 2048 x 1536
- Bandwidth: 350MHz for each port
- Cascadable - up to 5 units may be daisy chained for additional displays
- Magnetic base for securing the splitter on a metal surface
- Connectors: 15 Way VGA Male (input); 2 x 15 Way VGA Female (output)
- Dimensions: 130 x 80 x 45mm (WxDxH)

Up to 50m!

2 Port VGA Splitter Lite	Part No. 32073
--------------------------	-----------------------

19" Rackmount 16 Port VGA & Audio Splitter

High performance video splitter for commercial and industrial applications

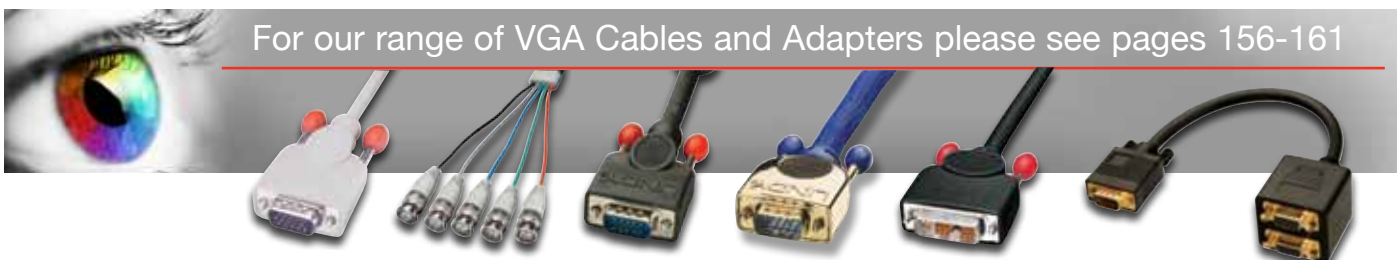

- Duplicates the VGA video and audio signal from your PC to 16 monitors and sets of speakers
- Can be used with CRT monitors, LCD/TFT displays and projectors
- Provides a simultaneous display on all connected monitors
- Maximum cable distances (using Premium Gold cables, page 156)
 - 5m (source to splitter) • 50m (splitter to display)
- Maximum Resolution: up to 2048 x 1536
- Bandwidth: 250MHz for each port
- Audio support via standard 3.5mm stereo jack ports
- Cascadable - several units may be daisy chained for additional displays
- Connectors: 1 x VGA Male (input) and 16 x VGA Female & 3.5mm Stereo Female (output)
- Connectors: 19" brackets included
- Supplied with a 1m VGA & audio combo cable
- Dimensions: 442 x 170 x 44mm (WxDxH)

Up to 55m!

19" Rackmount 16 Port VGA & Audio Splitter	Part No. 32579
--	-----------------------

For our range of VGA Cables and Adapters please see pages 156-161

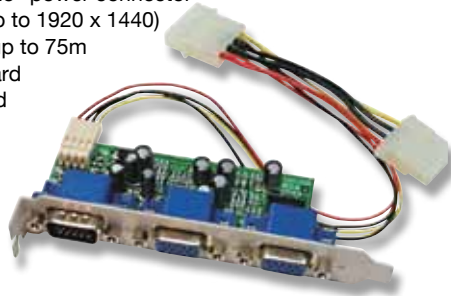

2 Port Internal VGA Video Splitter

Space saving solution

- Easily installs into a spare back-plate slot in your PC (does not use a motherboard's expansion slot)
- Connects to an internal 5.25" power connector
- High resolution support (up to 1920 x 1440)
- Transmission distance of up to 75m
- Internal power and VGA card connection cables included

Up to 75m!

2 Port Internal VGA Video Splitter

Part No. 32407

2 Port VGA Splitter Cable

Low cost alternative to an electronic VGA splitter

- Allows a computer or other VGA equipped device to output its signal to two separate displays
- Gold plated connectors
- Length: 0.15m

2 Port VGA Splitter Cable, 0.15m

Part No. 41214

300m CAT5e/6 VGA Extender

Long distance solution, ideal for commercial installations

- Extends VGA video signals over CAT5e or higher cable
- Consists of local transmitter and remote receiver units
- Adjustable controls to improve signal quality over longer distances
- Supplied with a 1.2m VGA cable for connecting your computer
- Transmitter unit with VGA pass through port for local monitor
- Robust metal housing for reliable EMC shielding
- Dimensions:
 - Transmitter unit: 123 x 75 x 32mm (WxDxH)
 - Receiver unit: 100 x 35 x 26mm (WxDxH)
- Can support the following transmission distances and resolutions:
 - 300m @ 640 x 480
 - 200m @ 800 x 600
 - 100m @ 1280 x 1024
 - 50m @ 2048 x 1536

Up to 300m!

300m CAT5e/6 VGA Extender

Part No. 32537

50m CAT5e/6 VGA Extender

An affordable solution for transmitting VGA signals over long distances

- Extends VGA video signals over CAT5e or higher cable
- Consists of local transmitter and remote receiver units
- No power supply required
- Can support the following transmission distances and resolutions:
 - 50m @ 800 x 600
 - 30m @ 1024 x 768

BEST SELLER

Up to 50m!

50m CAT5e/6 VGA Extender

Part No. 37571

250m CAT5e/6 Infra Red Extender

Allows infra red control of two source devices over very long distances

- Uses CAT5e/6 cable to make the long distance connection at up to 250m, see page 130 for our range
- Allows use of your existing remote controls
- Consists of a transmitter and a receiver unit
- Ideal for use in conjunction with an AV extender
- Dimensions (each unit): 62 x 50 x 23mm (WxDxH)

Up to 250m!

250m CAT5e/6 Infra Red Extender

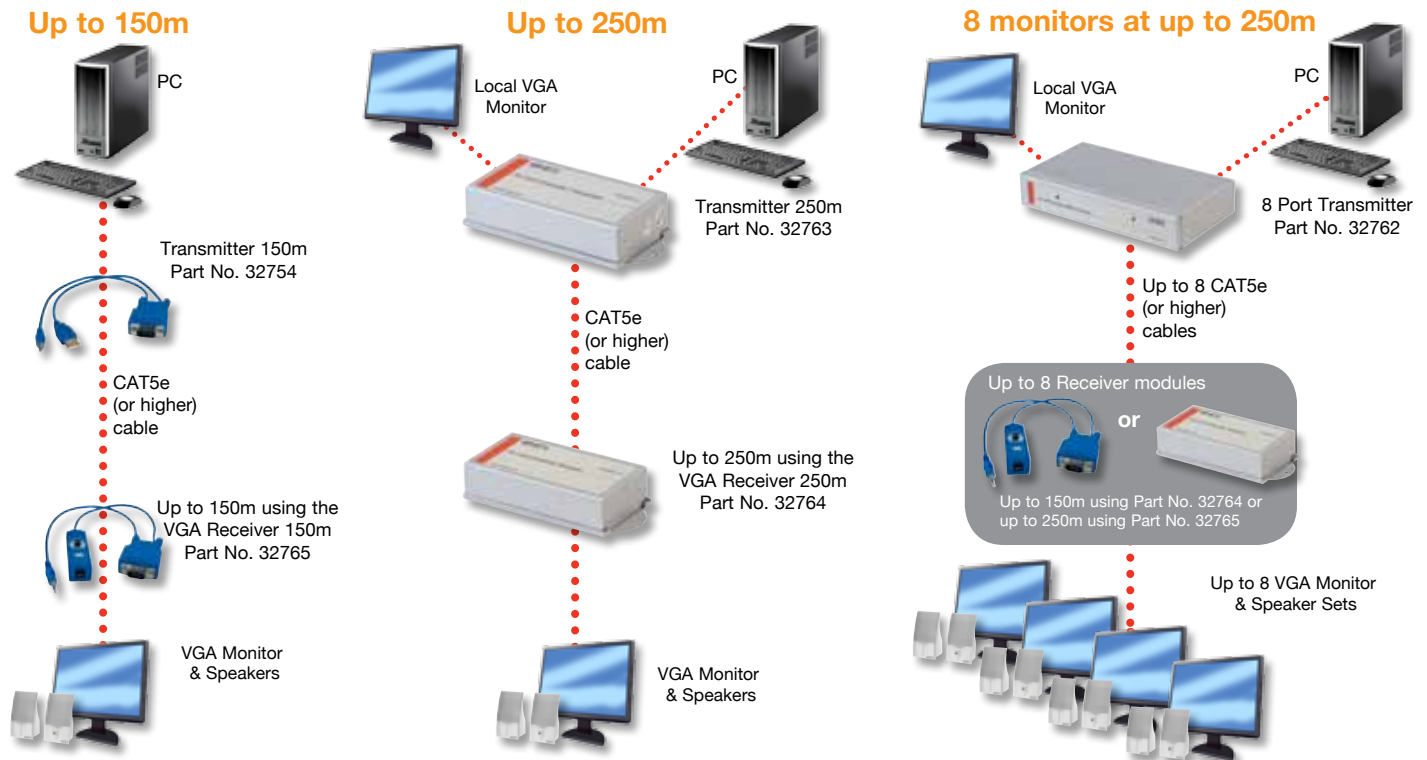

Part No. 38007

VGA Extenders & Distribution

CAT5e VGA Distribution System Modular system for distributing VGA signals

Our VGA Distribution System is a range of modular devices for distributing VGA and mono audio signals over very long distances using CAT5e/6 network cable. The range consists of three transmitter units and two receivers which can be mixed and matched according to your requirements. Depending on the required video resolution, transmission distances of up to 250m are possible making the VGA Distribution System an ideal choice for digital signage, public display and video installations.

CAT5e VGA & Audio Transmitter 150m

- Single port CAT5e VGA Transmitter for use with Receiver unit, Part No 32756 to create a long distance VGA installation of up to 150m
- Powered from a computer's USB port

CAT5e VGA & Audio Transmitter, 150m Part No. **32754**

CAT5e 8 Port VGA & Audio Transmitter 250m

- Allows up to 8 VGA displays to be connected to a single source at distances of up to 250m via CAT5e or higher cables
- Requires additional Receiver units for each connected output port
- Console port for connecting a local monitor and speakers
- External power supply, 1m Male to Female VGA cable and 1.2m audio cable included
- Tough metal housing
- Dimensions: 240 x 140 x 45mm (WxDxH)

CAT5e 8 Port VGA & Audio Transmitter, 250m Part No. **32762**

CAT5e VGA & Audio Transmitter 250m

- Single port CAT5e VGA Transmitter for use with Receiver unit, Part No 32765 to create a long distance VGA installation of up to 250m
- Console port for connecting a local monitor
- Can be powered from a USB port or the included power supply
- Supplied with a 1m combined VGA, USB & Audio cable
- Metal housing and magnetic plate for easy installation
- Dimensions: 139 x 61 x 29mm (WxDxH)

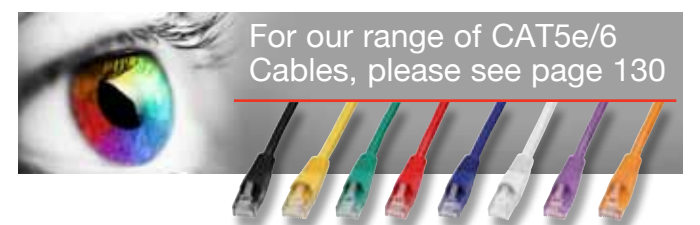

CAT5e VGA & Audio Transmitter, 250m Part No. **32763**

CAT5e VGA & Audio Receivers 150m & 250m

CAT5e VGA Receiver, 150m	Part No. 32764
CAT5e VGA Receiver, 250m	Part No. 32765

For our range of CAT5e/6 Cables, please see page 130

AV Extenders & Converters

150m CAT5e SPDIF Digital Audio Extender

Extend digital audio signals up to 150m using CAT5e cable

- Extend Coaxial or Optical digital audio signals up to 150m, using standard CAT5e/6 cables
- Inputs: Coaxial (SPDIF) & Optical (Toslink), USB Mini-B (power only)
- Outputs: Coaxial (SPDIF) & Optical (Toslink)
- Supports stereo and multi-channel audio (Dolby Digital, DTS, 7.1)
- Sample Rate: 32K/44.1K/48K/88.2K/96K
- Powered via USB port (cable not included) or external PSU (supplied)
- Dimensions (each unit): 70 x 50 x 22mm (WxDxH)

2012 New

Up to 150m!

150m CAT5e SPDIF Digital Audio Extender Part No. **70466**

3G SDI to HDMI Converter View 3G SDI Video on an HDMI Display

- Cost effective alternative to purchasing an expensive dedicated SDI monitor
- Allows SDI, HD-SDI and 3G SDI signals to be displayed on an HDMI display
- Converts broadcast quality SDI input into an HDMI digital 1080p video signal
- SDI Pass-Through feature for viewing, extending or recording
- Dimensions: 137 x 90 x 25mm (WxDxH)

2012 New

3G SDI to HDMI Converter Part No. **38098**

HDMI Audio Extractor

Extract analogue and digital audio from your HDMI signal

- Extracts analogue and digital audio from an HDMI signal so it can be sent to external surround sound speakers or an amp
- Perfect for home cinema and professional AV setups
- Supports HDTV resolutions up to 1080p
- HDMI sample rate: 192kHz • Optical sample rate: 48kHz
- Optical audio supports: PCM2, Dolby 5.1, DTS 5.1
- Analogue audio supports: LPCM2
- Dimensions: 85 x 85 x 35mm (WxDxH)

2012 New

HDMI Audio Extractor Part No. **38090**

Lip Sync Corrector

Easily correct audio delays between audio and video

2012 New

- Ideal for syncing signals that are distributed over long distances through multiple devices like distribution amplifiers and set top boxes
- Adjustable audio delay from 0 – 300ms (8 settings)
- Input Port: 2 x L/R Stereo Phono
- Output Port: 2 x L/R Stereo Phono
- Includes 5V DC multi country power supply
- Dimensions: 46 x 46 x 24mm (WxDxH)

Lip Sync Corrector Part No. **70449**

EDID/DDC Emulators

VGA and DVI-I versions available

- Designed for KVM switches and digital signage systems that require EDID/DDC signals to be continuously provided without interruption
- Push button operation directly clones the EDID/DDC data of any connected monitor
- Uses cloned data or, when this is not available, the stored preset screen resolutions
- Continuously emulates EDID/DDC information (HDCP not supported)
- Supports Dual Page DDC
- DVI-I version supports dual link and single link DVI signals and analogue VGA signals
- Can be powered from the video port, via a built-in USB pass through port, or using an optional external power adapter
- Dimensions (each unit): 80 x 44 x 22mm (WxDxH)

VGA EDID/DDC Emulator Part No. **32107**

DVI-I EDID/DDC Emulator Part No. **32106**

DVI Version

VGA Version

AV Converters & Adapters

VGA to TV Converter

Converts VGA into Composite or S-Video

- Ideal for presentations, playing games, viewing downloaded video etc.
- Supports display resolutions of up to 1024 x 768
- 1.2m pass through VGA cable for connecting your PC and monitor
- Input: VGA (via supplied pass-through cable)
- Output: VGA (via pass-through cable), S-Video and Composite Video
- Dimensions: 145 x 95 x 35mm (WxDxH)

Rear

VGA to TV Converter

Part No. **32566**

Video to VGA Converter

Connects a Composite or S-Video device to a VGA display

- Outputs the picture in one of three resolution modes:
 - XGA: 1024 x 768
 - SXGA: 1280 x 1024
 - WXGA: 1600 x 1200
- Supports PAL and NTSC formats
- Inputs: Composite Video (Phono) & S-Video (4 Pin Mini DIN)
- Output: VGA Female

Video to VGA Converter

Part No. **32629**

DVI-D to VGA/RGB/Component Video Converter

Allows you to view a DVI-D source on an analogue TV, monitor or projector

- Supports HD resolutions up to 1080p and VGA resolutions up to 1600 x 1200 (UXGA)
- Input: DVI-D via standard DVI-I female connector (single link only)
- Output: Analogue RGBHV/Component via VGA Female
- Supplied with a 1m VGA to 3 x Phono adapter cable
- Dimensions: 76 x 105 x 30mm (WxDxH)

DVI-D to VGA/RGB/Component Video Converter

Part No. **32562**

VGA & Audio In-line Adapter

Allows the stereo audio and video signals from your PC to be carried down a VGA cable

- Ideal for connecting your PC to a VGA equipped TV
- Consists of two adapter modules
- Requires VGA Male to Male cables to make the connections from the PC and the link between the modules (see page 156 for our range)
- A 3.5mm stereo audio cable is also required to connect the audio from the PC (see page 163)

VGA & Audio In-line Adapter

Part No. **35500**

DVI-D & SPDIF to HDMI Converter

Allows a device with DVI-D & SPDIF outputs to be connected to an HDMI display

- DVI 1.0, HDMI and HDCP 1.1 compliant
- Supported input resolutions: up to 1920 x 1200
- Supported output resolutions: 480p, 576p, 720p, 1080i and 1080p
- Dimensions: 105 x 76 x 30mm (WxDxH)

Rear

DVI-D & SPDIF to HDMI Converter

Part No. **32559**

HDMI to Composite/S-Video & Stereo Audio Converter

Allows you to connect an HDMI device to a Composite or S-Video display

- Converts HDMI to Composite and S-Video (PAL or NTSC)
- Accepts HDMI resolutions from 480p up to 1080p@60Hz
- Input ports: 1 x HDMI, 1 x SPDIF Coax
- Output ports: 1 x HDMI, 1 x SPDIF Coax, 2 x Stereo L/R Phono, 1 x Composite Video, 1 x S-Video
- Dimensions: 140 x 120 x 39mm (WxDxH)

Rear

HDMI to Composite/S-Video & Stereo Audio Converter

Part No. **32597**

Composite/S-Video to Component Video Converter

Ideal for use with DVD players, set top boxes, media players etc.

- Converts Composite and S-Video signals to Component YCbCr and RGB
- Input connectors: 1 x Composite, 1 x S-Video
- Output connectors: 3 x Phono Female
- Dimensions: 64 x 99 x 24mm (WxDxH)

Composite/S-Video to Component Video Converter Part No. **32625**

SCART to Component Video Converter

Connects a SCART device to a Component Video equipped display

- Compatible with equipment that outputs RGB via SCART
- Enhances picture quality by utilizing the Component YUV input on compatible displays
- Connectors: 21 Pin SCART Female (input); 3 x Phono Female (output)
- Dimensions: 77 x 30 x 146mm (WxDxH)

SCART to Component Video Converter Part No. **38102**

SCART to HDMI Upscaler

Upscales RGB SCART signals to 1080p

- Allows a SCART device to be connected to an HDMI input
- SCART stereo audio signals are incorporated into the HDMI signal
- Features digital noise reduction
- Automatic lip sync (audio delay) ensures audio / video synchronisation
- Supports HDMI 12 bit deep colour
- HDCP and DVI compliant
- Video input: NTSC/PAL/RGB @ 50Hz or 60Hz (auto detection)
- Video output: 576p, 720p, 1080i, 1080p @ 50Hz or 60Hz
- Connectors: 21 Pin SCART Female (input); HDMI Female (output)
- Dimensions: 125 x 151 x 30mm (WxDxH)

SCART to HDMI Upscaler Part No. **38103**

HDMI to Mini DisplayPort Converter

Convert HDMI & DVI signals to DisplayPort or Mini DP

- Connect older HDMI or DVI devices to the latest Apple displays
- Supports HDMI in 1080p & DVI 1920 x 1200
- Plug & Play - simple to install and use
- Built in EDID support
- Multi country power supply included

2012 NEW

HDMI to Mini DisplayPort Converter Part No. **41047**

VGA/Component Video to DVI-I Scaler High Performance HDTV Converter

- Converts VGA signals to DVI-I (digital & analogue RGB)
- A supplied adapter cable allows you to convert and upscale component video signals (YPbPr or YCbCr)
- On-screen display for output resolution and refresh rate selection
- Connectors: 15 Way VGA Female, DVI-I Female
- Supplied with the following cables:
 - 1m VGA Male to 3 x Phono Male adapter cable
 - 1.2m VGA Male to Male cable
 - 1.9m DVI-I Male to DVI-I Male
- Dimensions: 76 x 105 x 30mm (WxDxH)

Rear

VGA/Component Video to DVI-I Scaler Part No. **32563**

VGA to HDMI Upscaler Upscales a PC's VGA output to 1080p HDMI

- Upscales VGA video to a wide range of PC & SD/HDTV resolutions
- Comprehensive on-screen display control
- Automatically detects the factory settings of the connected display
- Can convert analogue audio to digital (TosLink) & digital (TosLink) to analogue
- HDMI output incorporates the audio signal
- Supports PC resolutions up to 1920 x 1200 (WUXGA) & HDTV resolutions up to 1080p
- Input connectors: VGA Female, 3.5mm stereo jack socket, TosLink Female
- Output connectors: HDMI Female, 3.5mm stereo jack socket, TosLink Female
- Dimensions: 100 x 154 x 25mm (WxDxH)

Rear

VGA to HDMI Upscaler Part No. **38099**

SCART Splitters

Connect multiple SCART sources to one input

- RGB support
- 4 Way version with Composite Video / S-Video and Stereo Audio outputs

2 Way Non-Switched SCART Splitter	Part No. 35595
4 Way Switched SCART Splitter	Part No. 35597

VGA/HD Pattern Generator Tests VGA monitors up to HDTV displays

- Capable of outputting VGA (RGBHV) and YPbPr (Component Video)
- Supports a wide range of test patterns, screen resolutions and refresh rates
- Output port: 15 Way VGA Female
- Includes the following cables: 1.1m VGA 15 Way Male to Male Cable; 1m VGA 15 Way Male to 3 x Phono (Red, Green, Blue)
- Dimensions: 77 x 30 x 146mm (WxDxH)

VGA/HD Pattern Generator	Part No. 32626
--------------------------	-----------------------

HDMI Pattern Generator

Ideal for use in testing & calibration, broadcasting and video production applications

- For testing HDMI/DVI-D capable displays and projectors
- Capable of outputting a wide range of test patterns, screen resolutions and refresh rates
- Remote control and control panel push button operation
- Audio output: from internal 1KHz sine wave or external optical input
- Audio format: 8 channel LPCM, 48KHz sampling rate
- Output port: HDMI Female
- Dimensions: 125 x 123 x 30mm (WxDxH)

HDMI Pattern Generator	Part No. 32627
------------------------	-----------------------

5 Port HDMI Switching Scaler

Support for five devices at up to 1080p

- Supports Composite Video, S-Video, VGA, Component Video and HDMI inputs
- Front panel and remote control operation
- Also supports digital and analogue audio signals
- On-screen display for ease of use
- Dimensions: 215 x 154 x 47mm (WxDxH)

5 Port HDMI Switching Scaler	Part No. 32596
------------------------------	-----------------------

Mini HDMI Pattern Generator

Compact pattern generator for testing and calibration

- Capable of outputting a wide range of test patterns, screen resolutions and refresh rates
- Compact and sturdy plastic design
- Output format: HDMI v1 • Dimensions: 120 x 70 x 25mm (WxDxH)

Mini HDMI Pattern Generator	Part No. 32645
-----------------------------	-----------------------

Premium HDMI Pattern Generator

Professional calibration tool for HDMI displays

- Features 39 test patterns with 35 timing settings
- Built-in LCD display for ease of use
- Supplied with comprehensive remote control
- Video output port: 1 x HDMI Female
- Audio inputs: SPDIF TosLink Female; Left & Right Stereo Audio Phono
- Dimensions: 280 x 140 x 45mm (WxDxH)

Premium HDMI Pattern Generator	Part No. 32628
--------------------------------	-----------------------

Audio Switches & Converters

SPDIF Digital / Analogue Converters

Two versions available for converting digital to analogue or analogue to digital

- Part No 70408 converts Toslink or coax SPDIF signals to analogue stereo phono
- Part No 70409 converts analogue stereo phono to Toslink or coax SPDIF signals
- Optical and coaxial cables can both be connected at the same time; a switch control determines which signal is active

The LINDY Digital to Analogue Converter, Part No. 70408 was awarded 4 out of 5 Stars in the May 2011 edition of What Hi-Fi magazine. Here are some of the things they had to say...

'...THERE'S MORE SPACE AND THREE-DIMENSIONALITY... AND MORE DRAMA TO THE DYNAMIC SHIFTS.'

SPDIF Digital to Analogue Stereo Audio Converter	Part No. 70408
Analogue Stereo Audio to SPDIF Digital Converter	Part No. 70409

'...THE BEATS HIT HARDER WITH GREATER WEIGHT AND SOLIDITY BEHIND THEM.'

2 Way TosLink Switch

Connects two TosLink sources to one TosLink input

- Ideal for use with HDTVs, AV amplifiers, Hi-Fi and home cinema systems
- Switch control for selecting devices
- Supports cables distances of up to 5m in (for each input) and 5m out

2 Way TosLink Switch	Part No. 70406
----------------------	-----------------------

4 Way TosLink Switch

Allows you to connect 4 TosLink sources to 1 TosLink input

- Remote control operation
- Supports cable distances of up to 5m on input and output ports

4 Way TosLink Switch	Part No. 70416
----------------------	-----------------------

TosLink Optical / Digital Coax Converter

Converts SPDIF digital coax to optical and vice versa

- Can convert either coax to optical or optical to coax
- Switch control for selecting coax or optical input
- Can output coax and optical signals at the same time
- Repeater function for extended cable distances

TosLink Optical / Digital Coax Converter	Part No. 70411
--	-----------------------

2 Way TosLink Splitter

Connects one TosLink source to two devices

- Ideal for use with HDTVs, AV amplifiers, Hi-Fi and home cinema systems
- Supports cables distances of up to 5m in (for each input) and 5m out
- Includes 5V DC 1A multi-country power supply

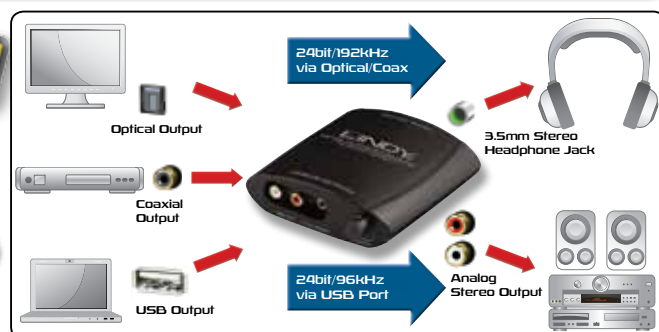

2 Way TosLink Splitter	Part No. 70407
------------------------	-----------------------

Digital to Analog Converter With USB Audio Interface & Headphone Amplifier

Converts USB, TosLink and digital coax to analogue stereo

The perfect upgrade for music lovers who want to improve the sound quality delivered from their PC, HDTV, CD / DVD Player or other audio device to their headphones, amplifier or powered speakers.

- Provides audiophile sound quality up to 24bit/192kHz
- Accepts 2 channel digital audio and works with any PCM stream with Dolby Digital or DTS disabled
- Input selector switch and headphone volume control

- USB 2.0 interface compatible with Windows XP/Vista/7, Linux and Mac OS X
- USB bus powered or via an additional USB power supply
- Input connections: USB Type B, phono digital coaxial, TosLink optical
- Output connections: 3.5mm stereo, analogue phono stereo
- 1m USB Type A to B cable included
- Dimensions: 105 x 111 x 30mm (WxDxH)

DAC with USB Audio Interface & Headphone Amp	Part No. 20376
--	-----------------------

AV & Presentation

AV Extenders & Face Plates

CAT5e/6 AV Extenders

Transmits audio and video signals over incredible distances

- Choose from Composite Video, Component Video & S-Video versions
- All versions support video and audio signals
- Easy to install – simply connect the cables; no power supply required
- Includes transmitter and receiver units
- Perfect for home cinema, presentation, CCTV etc.
- Supports distances of up to 300m*
- Dimensions (each unit): 82 x 67 x 25m (WxDxH)

Up to 300m!

CAT5e/6 Component Video + Digital Coax Audio Extender Part No. **32525**

CAT5e/6 Composite Video + Stereo Audio Extender Part No. **32535**

CAT5e/6 S-Video + Stereo Audio Extender Part No. **32523**

* Maximum transmission distances will depend on the application and the type of twisted pair cable used. These products are designed for use with a single network cable between the transmitter and receiver.

CAT5e/6 CCTV Video Extender

Extend colour or black and white video signals over long distances using CAT5e/6 or higher patch cable

- Pack of two CCTV video baluns
- Maximum distance (using CAT5e or CAT6 cable, see page 130):
 - Colour: 670m
 - Black & White: 762m
- Input connector: 75 Ohm BNC Male
- Output connector: 2 pin IDC

CAT5e/6 CCTV Video Extender Part No. **32533**

AV Face Plate with Built-in Cables

Integrated solution for AV installers

- Ideal for projector and whiteboard installations
- Double face plate assembly which provides the following computer connections:
 - 2 x VGA Female
 - 3 x Phono Female (red, white & yellow)
 - USB Type B Female • 3.5mm stereo audio socket
- Built-in cables, for connecting to a projector, which terminate in the following connections:
 - 2 x VGA Male • 3 x Phono Male (red, white & yellow)
 - 3.5mm stereo audio jack
- 3m USB cable for connecting to a whiteboard
- Supplied on a surface mount back box

AV Extender Face Plates

CAT5e/6 Modular AV Extender Face Plate System

A neat and affordable solution for distributing a range of audio and video signals

- Employs balun technology to extend audio and video signals over CAT5e/6 cable
- Each pack consists of local and remote modules which 'snap-in' to double or single face plates (face plates and back boxes available separately)
- Single face plate accepts two modules, double face plate accepts four modules
- Supports distances of up to 300m (VGA supports up to 50m)
- Simple punch down IDC termination
- Requires a pattress box with a minimum depth of 44mm (see page 28)

AV Mains Conditioner & Cables

▼ LINDY 6 Way Mains Conditioner

Award winning surge protector and mains conditioner for Hi-Fi and home cinema

Even the most hardened sceptic would struggle not to notice the improvements in quality

What Hi-Fi? 2009 Mains Conditioner of the Year!

Don't just take our word for it though! Check out these comments from What Hi-Fi's December 2008 review.....

We were amazed at just how much separation the Lindy gave between instruments and voices

Images lose noise and grain, leaving you with cleaner, sharper visuals

- ▶ Effectively reduces mains interference
- ▶ Provides improved clarity from your audio devices
- ▶ Allows for cleaner, sharper picture quality from your video devices
- ▶ Features 6 sockets - perfect for your Hi-Fi and home cinema installations
- ▶ Surge protection to protect your valuable equipment
- ▶ 2m cable length

For our range of Mains Cables, please see pages 186-194

LINDY 6 Way Mains Conditioner, 2m

Wireless VGA & Audio

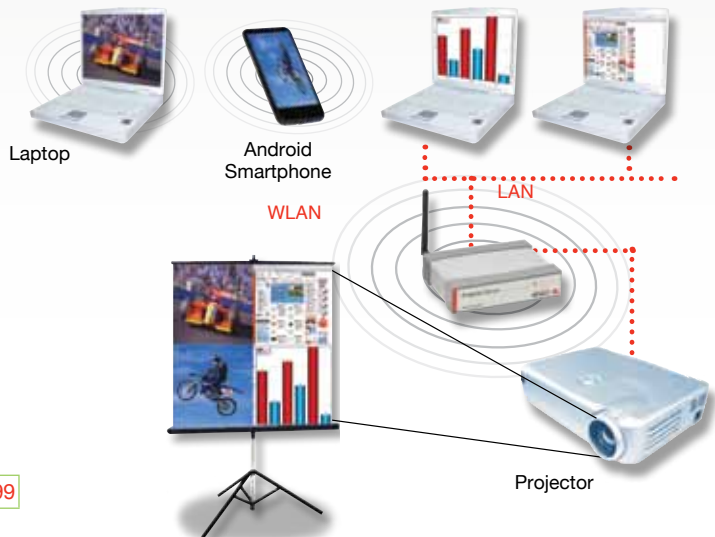

802.11g Wireless VGA & Audio Projector Server Pro

Wirelessly connect to a projector or monitor

The LINDY Wireless Projector Server Pro is an innovative product which allows multiple users to simultaneously connect their computers or Android phones to a projector (or monitor) via a Wireless LAN or Ethernet network connection.

The Wireless Projector Server Pro is an ideal solution for meetings and presentations as it allows you to swap between users without constantly plugging and unplugging cables. Instead, you simply connect to the Projector Server in the same way you would a wireless access point. A split screen function allows 4 users to display their screens in a quad arrangement. It's especially useful for multimedia use as its advanced design supports streaming audio and video.

- Allows connection to a projector or display via a wired or wireless LAN
- Ideal for use with PowerPoint and other presentation applications
- Split screen mode is also supported allowing 4 users to simultaneously display their screens via a projector in a quad arrangement
- Supports wireless connection distances of up to 100m
- Connects to the VGA port on your projector or monitor
- Removes the need to swap VGA cables when in meetings
- Supports audio and MPEG 1,2 & 4 for video playback
- Supported display resolutions: 800 x 600, 1024 x 768 and 1280 x 768 at 16/32 bit colour depth
- IEEE802.11g (DSSS) 2.4GHz wireless connection (54Mbps)
- Supports 64/128bit WEP and WPA security
- 10/100Base-TX RJ-45 interface
- Compatible with Windows 2000/XP, Vista (32 or 64-bit) & 7 (32 or 64-bit) and Mac OS 10.4 and above
- Android Smartphones can also connect using a free app

802.11g Wireless VGA & Audio Projector Server Pro Part No. 32699

USB Portable Wireless Audio System

Neat little device for transmitting audio

This unique device can send and receive audio wirelessly between a PC and a portable, battery powered receiver. The transmitter connects to a PC via USB, the receiver unit can be carried by the user or connected to powered speakers, headphones or a Hi-Fi amplifier. A version with a microphone socket built into the receiver is also available making it also ideal for use with VoIP applications such as Skype.

- Wirelessly transmits stereo audio signals from a computer to powered speakers, headphones or an amplifier
- Portable, battery powered receiver with a typical 10m range (up to 45m line of sight) means you can listen to your music while you're moving around your home or office
- Version available with a microphone port for VoIP applications such as Skype
- Uses 2.4GHz wireless technology
- Supplied with battery and power supply
- Compatible with Windows XP/Vista/7, Mac OS 10 & Linux (tested with Ubuntu 9.10)

USB Wireless Audio System	Part No. 20519
USB Wireless Audio System with Microphone Support	Part No. 20404

Wireless Presenters, Gyro Mouse

Wireless Presenter with Mouse Function & Laser Pointer

4-in-1 presentation tool

- Remotely control your mouse and PowerPoint presentations at distances of up to 30m
- Built-in laser pointer with safety switch (range: 40m)
- Features touchpad and left/right buttons for mouse control
- For presentations, the controller functions in the same way as PowerPoint keyboard shortcuts
- Includes controls for 'Page Up' & 'Page Down', 'Esc' and 'Alt + Tab'
- Multimedia control for controlling Windows Media Player and iTunes
- Easy Plug & Play installation - no special software required
- Transmitter unit uses two AAA batteries (included)
- Compatible with Windows ME/2000/XP/Vista and 7

Features Mouse, Laser Pointer & PowerPoint & Multimedia Control

Up to 30m!

USB Wireless 4-in-1 Presenter Part No. 32829

Wireless Presenter & Laser Pointer with ExpressCard & PCMCIA Docking Feature

Handy device for effective presentations

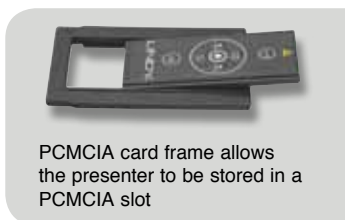

- Allows you to wirelessly control your presentations at up to 20m away from your PC or Mac
- Built-in laser pointer with 30m range
- Controller buttons function as PowerPoint keyboard shortcuts
- Easy to install – no special software required
- The USB wireless receiver clips into the remote control which can then be stored in a notebook's ExpressCard or PCMCIA slot
- Ready to go, CR2032 coin cell battery included
- Compatible with Windows 2000/XP/Vista/7 and Mac OS 10.2 & above

Features Laser Pointer & PowerPoint Controller

Up to 20m!

USB Wireless Presenter & Laser Pointer with ExpressCard & PCMCIA Docking Feature Part No. 51550

Wireless Gyro Mouse

Gyroscopic 'air mouse' for complete freedom and control

- Allows mouse control using 3D gestures in the air
- Motion sensing technology provides full use of the mouse while freely walking around the room
- Also functions as a standard wireless optical mouse
- Compatible with Windows XP/Vista/7, Linux and Mac OS 10.0 & above

2012 New

- Includes reinforced fixed glass shelf and display fixing screws

Supports up to **50kg**

Motorised Mobile Plasma & LCD Trolley	Part No. 40729
---------------------------------------	-----------------------

Mobile Plasma & LCD Trolley Lite

Easily transport and display displays up to 37" in size

2012 NEW

- Mount Plasma or LCD displays to a mobile stand for easy transportation
- Ideal for schools, colleges and business where resources need to be shared
- Consists of four omni-directional, locking wheels
- Universal fit, suitable for most plasma and LCD displays from 27" to 37"
- Heavy gauge steel construction with powder coated black finish
- Adjustable height: from 100cm to 160cm from the ground (measured to the centre of the display bracket)
- Adjustable design allows the screen to be tilted up to 25°
- Supports displays weighing up to 35kg, please check the weight of your display before ordering

Supports up to **35kg**

Mobile Plasma & LCD Trolley Lite	Part No. 40762
----------------------------------	-----------------------

Modular Desktop Mounting System

The LINDY Modular Desktop Mounting System is a selection of poles, arms and brackets that when used together can create customised configurations for mounting laptops, iPads and LCD displays.

Firstly choose a suitable pole then add additional segments to meet your needs!

Desk Poles

450mm & 700mm lengths of Desk Clamp & Grommet poles

- Attaches to a range of brackets and arms from our Modular Desktop Mounting System range (sold separately, see below)
- Create a customised installation
- Desk Clamp Poles offer a sturdy, adjustable C-Clamp for mounting the pole to a desk (30mm to 100mm thickness)
- Desk Grommet Poles sit neatly into a free desk grommet hole
- Robust, lightweight metal construction with a durable, powder coated silver finish

450mm Desk Clamp Pole	Part No. 40692
700mm Desk Clamp Pole	Part No. 40693
450mm Desk Grommet Clamp Pole	Part No. 40962
700mm Desk Grommet Clamp Pole	Part No. 40963

LCD Bracket

Fully adjustable, flexible bracket for monitors up to 6kg

- Holds 14", 15", 17", 19" and 20" LCD monitors
- Supports a maximum weight of 6kg
- For use with a 450mm pole or 700mm pole (not included, see above)
- Conforms to VESA mounting standards (75 x 75mm and 100 x 100mm)

LCD Bracket Part No. 40695

Bracket for iPad

Easily display your iPad 1 or 2

- Mounting your iPad for use in meetings and offices or home
- Supports a maximum weight of 10kg
- Conforms to VESA mounting standards 100 x 100mm
- Must be used in conjunction with an LCD Bracket and a 450mm pole or 700mm pole (not included)

Bracket for iPad Part No. 40691

Adjustable LCD Arm

Fully adjustable, flexible arm for monitors up to 6kg

- Holds 14", 15", 17", 19" and 20" LCD monitors
- Supports a maximum weight of 6kg
- For use with a 450mm pole or 700mm pole (not included, see above)
- Conforms to VESA mounting standards (75 x 75mm and 100 x 100mm)

Adjustable LCD Arm Part No. 40696

Dual Adjustable LCD Arms

Fully adjustable, flexible arm for two monitors up to 6kg

- Hold monitors 2 x 14", 15", 17", 19" and 20" LCD monitors
- Supports a maximum weight of 6kg on each arm
- For use with a 450mm pole or 700mm pole (not included, see above)
- Conforms to VESA mounting standards (75 x 75mm and 100 x 100mm)

Dual Adjustable LCD Arms Part No. 40697

Laptop Arm

Lift your notebook to eye level and free your desk space

- Mount your laptop or notebook above your desk for a more comfortable work environment
- Extends outwards up to 609mm
- Supports a maximum weight of 8kg
- For use with a 450mm pole or 700mm pole (not included, see above)
- Aluminium vented platform helps keep laptop cool
- Retractable holder for external keyboard
- Platform dimensions: 287 x 287mm
- Arm has built in cable management
- The platform can be tilted up to 30°
- Includes 4 anti slip pads

Laptop Arm Part No. 40699

AV & Presentation

Projector Brackets & PC Stands

Custom Projector Brackets **2012 NEW**

This collection of poles and brackets is part of the LINDY Wall Mount Projector System, a range designed to allow users to create customised configurations for mounting their projector. Simply use either a small or large pole in conjunction with a LINDY projector bracket and then attach a projector to either a ceiling or a wall.

Short Wall Mount Projector Pole

Fix a projector up to 41cm away from a ceiling or wall

- For use with either the LINDY Box Type Projector Bracket (40848) or the X-Type Projector Bracket (40849) (not included)
- Hollow pole to allow cable management
- Adjustable from 31cm to 41cm
- Plastic covers create a tidier installation
- Colour: Black
- Includes wall fixing screws/bolts
- Brackets not included

Short Wall Mount Projector Pole Part No. **40847**

Long Wall Mount Projector Pole

Fix a projector up to 123cm away from a ceiling or wall

- For use with either the LINDY Box Type Projector Bracket (40848) or the X-Type Projector Bracket (40849) (not included)
- Hollow pole to allow cable management
- Adjustable from 73cm to 123cm
- Plastic covers create a tidier installation
- Colour: Black
- Includes wall fixing screws/bolts
- Brackets not included

Long Wall Mount Projector Pole Part No. **40846**

Box Type Projector Bracket

Fully adjustable secure box for mounting projectors up to 11.5kg

- Suitable for use with most projectors on the market
- Supports a maximum weight of 11.5kg
- For use with a LINDY Short Wall Mount Projector Pole (40847) or Long Wall Mount Projector Pole (40846) (not included)
- Dimensions:
 - Width: 180mm - 2890mm
 - Height: 50mm - 120mm
 - Depth: 250mm
 - Pole not included
 - Colour: Black

Box Type Projector Bracket Part No. **40848**

X-Type Projector Bracket

Fully adjustable bracket assembly for mounting projectors up to 11.5kg

- Suitable for use with most projectors on the market
- Supports a maximum weight of 11.5kg
- For use with a LINDY Short Wall Mount Projector Pole (40847) or Long Wall Mount Projector Pole (40846) (not included)
- Dimensions:
 - Width: 180mm - 2890mm
 - Depth: 250mm
 - Height: 50mm - 120mm
 - Pole not included
 - Colour: Black

X-Type Projector Bracket Part No. **40849**

Universal Ceiling Mounted Bracket

Fully adjustable design for easy installation

- Rotating mount assembly for projectors or LCD/TFT displays
- Adjustable length: from 645mm to 1045mm
- Fully adjustable projector mount arms
- Tilt and rotate adjustment
- Supplied with fixing screws, cable ties and an allen key

How it works

Supports up to **11.5kg**

Universal Ceiling Mounted Bracket Part No. **40720**

Short Universal Projector Ceiling Mount

Low cost solution for mounting your projector close to the ceiling

- Rotating mount assembly for projectors
- Fully adjustable projector mount arms
- Tilt and rotate adjustment
- For use with most projectors up to a maximum weight of 10kg
- Supplied with fixing screws, cable ties and an allen key

How it works

Supports up to **10kg**

Short Universal Projector Ceiling Mount Part No. **40845**

Mobile CPU Stand Make light work of moving your PC

- For use with computers up to 255mm wide
- Ideal for when cleaning behind your computer or to access rear ports
- Heavy duty plastic construction
- 5 anti-skid castors
- Colour: black

Supports up to **30kg**

2 Port USB Cable Keyboard & Mouse Switch

Simple and affordable method for controlling 2 PCs

- Affordable solution for controlling two PCs using one keyboard and mouse and two monitors
- Unique software allows you to use your mouse to scroll from one screen to the other to switch computer control
- Also supports switching via keyboard hotkeys and mouse buttons
- Compatible with Windows 2000/XP/Vista/7 and Mac OS 10.6 & above
- Cable length: 1.3m

2 Port USB Cable Keyboard & Mouse Switch Part No. 32162

Allows you to scroll between screens to switch control

2 Port KVM Switch Micro, PS/2 & VGA

All-in-one, compact design with remote desktop switching

- Allows control of 2 PS/2 equipped computers from a single PS/2 keyboard, mouse and VGA monitor
- Compact design saves desk space and prevents clutter
- Switch between computers using hotkeys or using a remote switch button on your desk
- Supports display resolutions of up to 2048 x 1536
- Bus powered, no power supply required
- Compatible with all major operating systems

2 Port KVM Switch Micro, PS/2 & VGA Part No. 32817

2 Port KVM Switch Compact USB Audio

All-in-one KVM switch for use with PCs and Macs

Ready to go - Built-in KVM cables!

- 2 port USB KVM switch with built-in 1.4m KVM cables
- Supports USB keyboard/mice connections and VGA monitor connections
- Allows you to plug in a USB hub and share your peripherals between both computers (supports USB 1.1 speeds)
- Monitor, keyboard, mouse, speakers and microphone plug directly into the switch
- Supplied with Windows KVM Switcher software which allows you to customise the hotkey commands
- Supports push button switching for Mac and PC use, hotkey and software switching for Windows PC users
- Supports Windows ME/2000/XP/Vista/7, Linux, Mac OS 10 & above

2 Port KVM Switch Compact USB Audio Part No. 32797

Desktop KVM Switches

2 Port KVM Switch Micro, USB & VGA

Compact switch with remote desktop switching for controlling PCs and Macs

- Allows control of 2 USB equipped computers using just one keyboard, mouse and monitor
- Compact design saves desk space and prevents clutter
- Switch between computers via the desktop switch, keyboard Hotkey, using the System Tray icon (Windows) or the Dock icon (Mac), or using the supplied software
- Supports display resolutions of up to 2048 x 1536
- Perfect for users who want access to both a PC and a Mac
- Compatible with Windows XP/Vista/7, Linux and Mac OS 10.3 and higher

2 Port KVM Switch Micro, USB & VGA	Part No. 32818
------------------------------------	----------------

2 Port PS/2 KVM Switch Pro Audio

Easily control 2 multimedia PS/2 equipped PCs

- For use with PCs with VGA and PS/2 connections
- Audio support with selectable switching function – you can connect your speakers and microphone and optionally exclude them from switching for uninterrupted audio
- Supports VGA display resolutions of up to 2048 x 1536
- 2m KVM + Audio connection cables included
- Auto scan, hotkey and front button switching
- Powered by the PS/2 bus
- Rear mounted connectors for a tidier installation
- Tough, metal housing for excellent EMI shielding
- Compatible with all major PC operating systems

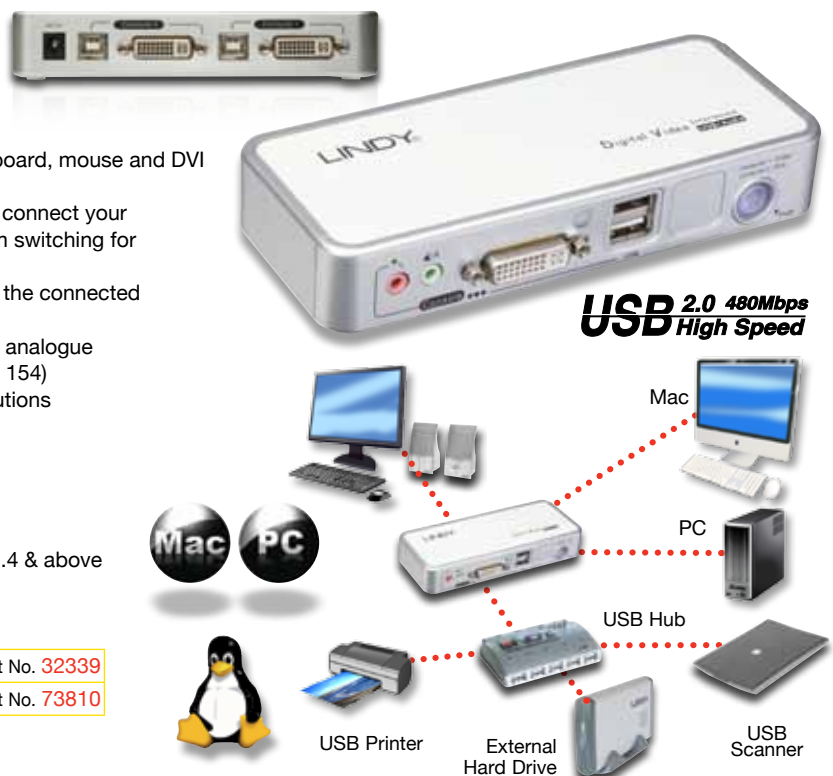

2 Port PS/2 KVM Switch Pro Audio	Part No. 32920
----------------------------------	----------------

2 Port KVM Switch Lite DVI

Compact 2 Port KVM switch for use with PCs, Macs and USB peripherals

- Allows two computers to be controlled using one USB keyboard, mouse and DVI equipped monitor
- Audio support with selectable switching function – you can connect your speakers and microphone and optionally exclude them from switching for uninterrupted audio
- USB 2.0 ports allow you to share your peripherals between the connected computers (requires an additional USB hub, see page 88)
- DVI-I display connections support both DVI digital and VGA analogue signals (VGA support requires DVI to VGA cables, see page 154)
- Supports DVI resolutions up to 1920 x 1200 and VGA resolutions up to 2048 x 1536
- Supplied with two 2m integrated KVM cables (USB & DVI)
- 4 switching methods:
 - Default keyboard hotkeys
 - User defined hotkeys
 - Push button
 - KVM Switcher software (Windows & Mac)
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 10.4 & above and Linux (default hotkeys & push button only)
- Dimensions: 155 x 75 x 28mm (WxDxH)

2 Port KVM Switch Lite DVI	Part No. 32339
Optional Power Adaptor	Part No. 73810

Ready to go - KVM cables included!

KVM Switches & Extenders

Desktop KVM Switches

2 Port KVM Switch Lite HDMI

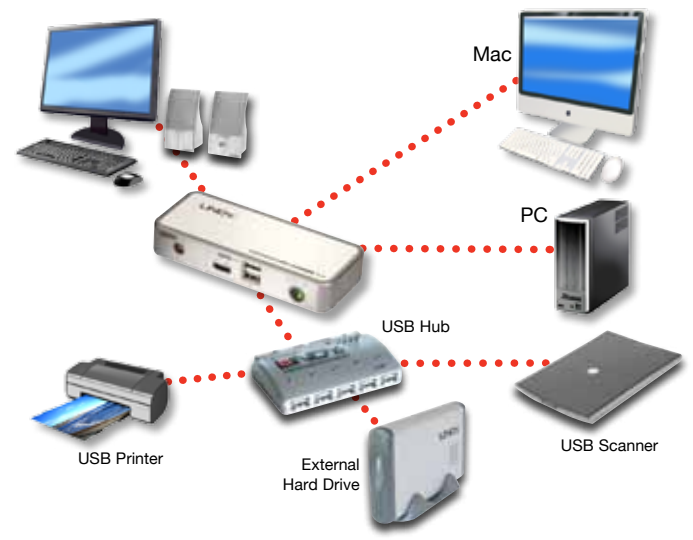

Advanced, remote control 2 Port KVM switch with high definition video and audio support

- Allows two computers to be controlled using one USB keyboard, mouse and HDMI display
- Also supports connection to a PS3
- USB 2.0 ports allow you to share your peripherals between the connected computers (requires an additional USB hub, see page 88)
- Supports resolutions up to 1920 x 1200 and 1080p
- Supports transmission distances of up to 30m (15 in, 15m out)
- HDMI and HDCP compliant for trouble-free operation
- Supplied with two 1.5m HDMI cables and two 1.5m USB cables
- 5 switching methods:
 - Infra-red remote control
 - Default keyboard hotkeys
 - User defined hotkeys
 - Push button on the switch
 - Using the supplied KVM Switcher software (Windows and Mac)
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 10.4 & above and Linux (default hotkeys and push button only)
- Dimensions: 155 x 75 x 28mm (WxDxH)

Ready to go - KVM cables included!

2 Port KVM Switch Lite HDMI	Part No. 42339
-----------------------------	-----------------------

Dual Head DVI-I KVM Switch Pro

Control up to 4 computers, and share USB 2.0 devices, from a single keyboard, monitor and mouse

This advanced KVM Switch allows you to control dual head video equipped PCs using a single keyboard, mouse and two monitors.

The switch features DVI-I Dual Link ports to support both digital and analogue signals at the highest resolutions. Additionally, a built-in USB 2.0 hub allows peripherals to be shared between the connected PCs whilst audio connectivity allows speakers and microphones to be connected too.

- Dual Head DVI-I KVM Switch with built-in 2 port USB 2.0 hub and audio support
- 2 and 4 port versions available
- Compact, space saving design
- Versatile switching functions allow you to switch KVM control independently of the audio and USB hub connections
- Three methods of switching between computers: front panel push button, keyboard hotkeys and auto scan
- Audio can be excluded from switching for uninterrupted audio
- USB devices can be bound to one PC for uninterrupted scanning, printing or external drive access
- Supports DVI-I analogue and digital dual link resolutions:
 - Digital Dual Link resolutions of up to 2560 x 1600
 - Analogue VGA resolutions of up to 1920 x 1200
- Robust metal housing for excellent EMI shielding
- Ready to go - includes 1.8m connection cables for DVI-I, USB, stereo speakers and microphone
- Compatible with all major operating systems in any combination
- Dimensions (WxDxH):
 - 164 x 110 x 68mm (2 Port)
 - 253 x 110 x 68mm (4 Port)

Ready to go - KVM cables included!

USB 2.0 480Mbps High Speed

4 Port Dual Head DVI-I KVM Switch Pro	Part No. 39325

KVM Switches & Extenders

Desktop KVM Switches

KVM Switch Pro USB 2.0 High quality, stylish desktop KVM Switches

Our premium range of KVM Switch Pro USB desktop KVM switches are available with VGA, DVI Single Link and DVI Dual Link connections. All feature a tough metal casing, a built-in USB 2.0 hub for sharing peripherals, and stereo speakers and microphone support for multimedia use.

Features of all models

- Allows control of multiple USB computers using a single keyboard, mouse and monitor set
- Available with VGA, DVI Single Link and DVI Dual Link connections
- Built-in 2 port USB 2.0 hub for sharing peripherals between the connected computers
- Full audio support with connections for stereo speakers and a microphone
- Allows independent switching of KVM, USB and audio ports
- Supports auto-scan, hotkey and push button switching
- Stylish and discreet silver design – ideal for use with modern Macs and PCs
- Tough metal housing with rear mounted connectors for a tidy installation

Ready to go - KVM cables included!

4 Port KVM Switch Pro USB 2.0, VGA

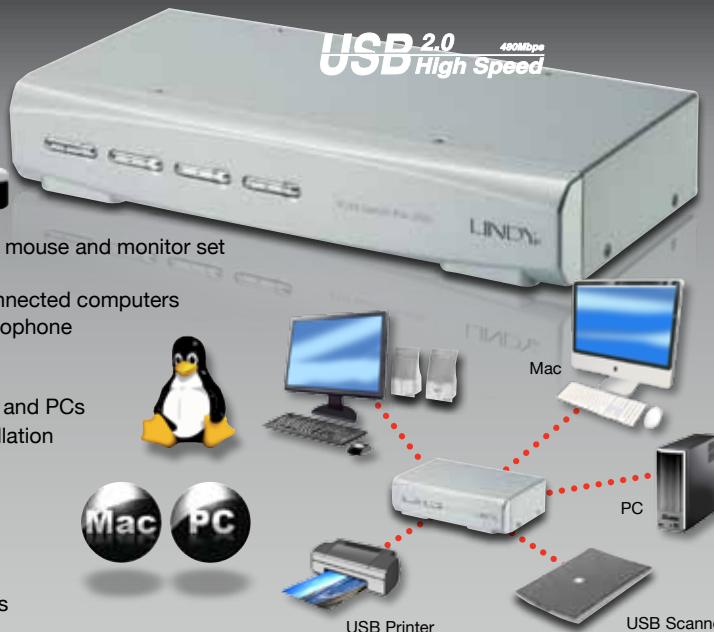

- Features VGA display connections and USB keyboard/mouse ports
- Supports display resolutions of up to 2048 x 1536
- Dimensions: 255 x 124 x 60mm (WxDxH)
- Compatible with Windows 2000/XP/Vista/7, Linux, Mac OS 10.5 & above

KVM Switch Pro USB 2.0, DVI

- 2 and 4 port, DVI Single Link and DVI Dual Link versions available
- Features DVI-I display connections and USB keyboard/mouse ports
- Supports the following DVI-D display resolutions
 - Up to 1920 x 1200 (DVI Single Link models)
 - Up to 2560 x 1600 (DVI Dual Link models)
- Supports analogue VGA display resolutions of up to 2048 x 1536
- 2 port version dimensions: 165 x 114 x 60mm (WxDxH)
- 4 port version dimensions: 255 x 124 x 60mm (WxDxH)
- Compatible with Windows 2000/XP/Vista/7 and Mac OS 10.5 & above

IP Access Switch Classic

Control your servers over the internet or via your LAN

- KVM over IP device which provides administrators with the ability to control their servers from almost anywhere in the world via dial-up or IP access
- PS/2 only or USB & PS/2 Combo versions available
- Integrates into almost any existing KVM configuration that uses standard PS/2 or USB keyboards/mouse and VGA monitor signals
- Provides BIOS level access to the connected servers
- Connection for a local KVM console (USB & PS/2)
- Supports resolutions up to 1600 x 1200
- Includes 1m, 3-in-1 KVM cable, USB and serial cables
- Supplied with a rackmount bracket
- Compatible with Windows ME/XP/2003 Server/Vista/7, Linux and Mac OS 10 & above

2012 New

Mac PC

IP Access Switch Classic USB & PS/2	Part No. 39414
IP Access Switch Classic PS/2	Part No. 39415

HOW DOES IT WORK?

The KVM IP Access Switch Classic can connect to the host system via USB for remote storage support. This allows virtual storage devices to be set up on the client and accessed by the host for remote driver updates and software installation etc.

KVM Switches & Extenders

Rackmount KVM Switches

KVM Switch CAT-32 IP

Multi-format, multi-user KVM over IP 32 port switch that allows computers to be connected at distances of up to 100m

The KVM Switch CAT-32 IP allows administrators to access and control up to 32 computers using a single or remote KVM console connected to one compact, high density control centre.

The switch occupies only a single 1U space in a 19" rack and makes use of CAT5e/6 structured cabling to provide the long distance connections to the computers. An optional KVM over IP Module can be installed which allows the connected computers to be accessed from any remote computer on the LAN or via the internet using a web browser.

Optional KVM over IP Extender Module

KVM Switch CAT-32 IP	Part No. 39631
KVM over IP Extender Module	Part No. 39636
1m Daisy Chain Cable (Male to Female)	Part No. 39637
2m Daisy Chain Cable (Male to Female)	Part No. 39638

HOW DOES IT WORK?

At a glance...

- Supports up to 32 PC, Mac and SUN computers at distances of up to 100m using PS/2 or USB computer modules
- Computer modules feature VGA connectors
- Local KVM Console support via USB, PS/2 & VGA
- Optional remote console control via an additional KVM over IP module
- Provides local and remote BIOS-level access to up to 32 multi platform computers
- Security features with password access, auto log out, SSL security and additional password protection for IP users
- Supports display resolutions up to 1920 x 1200 at the local console and 1280 x 1024 at the remote IP console
- On-screen display for ease of use

More Information

- 32 UTP CAT5e/6 server ports in a compact 1U, 19" rackmount design
- Dual console operation option: local console connected via USB, PS/2 and VGA plus an access slot for an optional KVM over IP module
- Supports USB & VGA and PS/2 & VGA equipped computers using the appropriate computer modules (see opposite)
- Hot plug support allows computers to be added or removed without powering down the switch
- No software required - easy computer selection via the on-screen display or keyboard hot keys
- Each connected computer can be individually named in the on-screen display menu
- Adjustable auto-scan mode between 5 and 104 seconds
- Dedicated daisy chain port allows up to 8 KVM switches to be connected together providing KVM console access to up to 256 computers
- Supplied with 19" rackmount brackets, 20cm daisy chain cable and 1m firmware update cable
- Compatible with all commonly used operating systems

Rackmount KVM Switches

SC5 & SC5-IP 16 Port KVM Switches

Multi-format, single user dual console KVM switch that allows computers to be connected at distances of up to 10m

The SC5 KVM Switch is a 16 port KVM switch which allows a single user to access and control up to 16 different computers from either a local or remote location. Its advanced design makes use of CAT5/5e structured cabling to provide high quality linking for both computers and KVM consoles. This allows greater connection distances than when using standard KVM cables.

Unique CAM (Computer Access Module) technology is used to make the connections to the computers at up to 10m, whilst a remote 'User Station' can be used to connect to another location at distances of up to 300m. The SC5-IP version also allows remote access from almost anywhere in the world via IP access.

Rear

HOW DOES IT WORK?

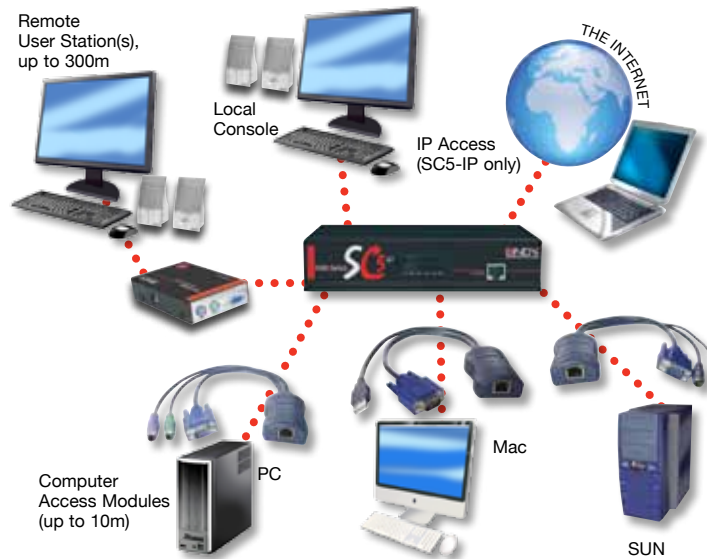

At a glance...

- Supports up to 16 PC, SUN, Mac, RS/6000, Alpha and SGI computers at distances of up to 10m using Computer Access Modules (see below)
- Single user dual console support allows the connected computers to be controlled either locally or at distances of up to 300m using an additional CAT5/5e User Station
- Provides local and remote BIOS-level access to up to 16 multi platform computers
- Local user keyboard, video and mouse console can be connected via USB and VGA ports
- Enterprise grade security features using AES 128 bit encryption and RSA 2048 bit public key authentication
- Supports display resolutions up to 1600 x 1200
- Stereo audio support when using compatible CAM modules

More Information

- On-screen display for easy control and configuration
- 10/100Base-T port for IP access (SC5-IP version only)
- Audio support when using the appropriate Computer Access Module
- Global users (IP) can chose between HTTP or RealVNC for highly secure connections and high performance
- Remote switching control via a dedicated serial port
- 19" 1U rack mountable (brackets included)
- Compatible with all common operating systems: DOS, Windows 98/ME/2000/XP/2003 Server/Vista/7, Linux, Unix, SUN, Mac OS, and NetWare

KVM Switches & Extenders

Rackmount KVM Switches

MC5 & MC5-IP 24 Port KVM Switches

Multi-format KVM switch that allows computers to be connected at distances of up to 50m

Our advanced MC5 and MC5-IP KVM switches make use of CAT5/5e structured cabling to provide high quality linking for both computers and KVM consoles. This allows greater connection distances than when using standard KVM cables. Unique CAM (Computer Access Module) technology is used to make the connections to the computers at up to 50m, whilst remote 'User Stations' are used to connect to the operators at up to 300m. CAM modules (see below) are available to support a variety of different platforms including PCs, Macs and SUN systems.

The MC5-IP variant additionally allows up to four global users to share access to the switch via an IP network/ internet connection using a Real VNC client application. A modem/ISDN port provides a backup connection should the network link suffer a failure.

MC5-IP rear

HOW DOES IT WORK?

At a glance...

- Supports up to 24 PC, SUN (USB & 8-pin style), Mac (USB), RS/6000, Alpha and SGI computers at distances of up to 50m using Computer Access Modules
- Up to four users can be linked via optional CAT5 extenders (the MC5-IP allows two extended users)
- Supports four simultaneous users
- Local user(s) can be connected via PS/2 or USB & VGA
- The MC5-IP features a remote console via an intranet, internet or dial-in IP connection
- Enterprise grade security features using AES 128 bit encryption and RSA 2048 bit public key authentication
- Supports resolutions up to 1900 x 1440

More Information

- Provides 4 concurrent local, remote or global users with BIOS-level access to up to 24 multi platform computers
- On-screen display for easy control and configuration
- Modem and 10/100Base-T ports for dial-up and IP access (MC5-IP only)
- Audio support when using the appropriate Computer Access Module
- Global users (IP) can chose between HTTP or RealVNC for highly secure connections and high performance
- Power control functions are supported via a dedicated serial port
- Dual power inputs for maximum redundancy
- 19" 1U rack mountable (brackets included)
- Compatible with all common operating systems: DOS, Windows 98/ME/2000/XP/2003 Server/Vista/7, Linux, Unix, SUN, Mac OS, and NetWare

KVM Switches & Extenders

LCD KVM Terminals

Complete, integrated control centre for your servers

The LINDY Modular KVM LCD Terminal is a real space saver, available with a high-quality 15" or 17" Active Matrix TFT LCD display, notebook style UK keyboard, separate numeric keypad and mouse touchpad. Optional KVM Switch upgrade modules can be installed to convert the terminal into a fully featured 8 or 16 port KVM switch. The complete drawer can slide in and out of a 19" rack to provide a convenient user console. The Terminals also have a fully featured OSD (On Screen Display), allowing easy set up and management of the console and the optional KVM switch.

- LCD KVM Terminal available with 15" or 17" TFT screens
- Optional 8 or 16 port KVM Switch modules can be plugged into the back of the terminal
- Optional IP Access Module available separately (see page 44)
- Remote mass storage support when the optional remote IP access module is installed
- Fits into a standard 19" 1U rack space and slides in and out for use
- Connects to your computer or KVM switch's VGA, keyboard and mouse ports
- Can be used with USB or PS/2 equipped computers / KVM switches (see page 44 for compatible KVM cables)
- 15" model supports resolutions up to 1024 x 768; 17" models support up to 1280 x 1024
- Key locking mechanism with 2 keys

15" LCD KVM Terminal	Part No. 21603
17" LCD KVM Terminal - Dual Rail	Part No. 21615
8 Port KVM Switch Optional Upgrade Module	Part No. 39530
16 Port KVM Switch Optional Upgrade Module	Part No. 39531

Innovative Dual Rail Design

The 17" model features a dual rail design which allows the screen and keyboard to be slid out independently of each other.

CPU Switch Quad View, 4 Port

Multi-format KVM switch with VGA and DVI support and simultaneous video on a single screen

- 4 Port KVM Switch with simultaneous display feature
- Displays up to 4 video sources on a single monitor
- Supports 3 viewing modes: Quad Screen, Picture-in-Picture (PIP) and Full Screen
- Picture-in-Picture windows are scalable from 3% to 50%
- Supports maximum display resolutions of 1920 x 1200 for DVI, 1600 x 1200 for VGA; also supports HDTV resolutions up to 1080p
- Cascadable with other KVM switches
- Supports computer connection distances of up to 5m
- Computer/Video Source connections:
 - 4 x DVI-I Female (4 x 2m DVI-D Dual Link cables & 4 x 2m DVI-I to 15 Way VGA cables included)
 - 4 x USB Type B Female (4 x 2m USB Type A to B cables included)
 - 4 x PS/2 Female (4 x 2m PS/2 Mouse/keyboard splitter cables supplied)
- Console connections:
 - 1 x DVI-I Female (2m DVI-I to 15 Way VGA Female cable supplied)
 - 2 x USB Type A Female (2 x PS/2 to USB Type A Male adapters included)
- Firmware upgradeable
- Supplied with 19" rackmount kit
- Internal power supply

Ready to go - KVM cables included!

Keyboard, mouse and monitor not included.

CPU Switch Quad View, 4 Port

Part No. **32324**

In **Quad Screen mode**, the screen is split into four fields. Keyboard and mouse operation can be used to select the corresponding computer.

In **PIP mode**, the full screen display of one of the four video sources is accompanied by up to three small images (thumbnails) of the other video sources on the right-hand of the screen.

In **Full Screen mode**, one of the four computers video sources is displayed in full screen size and at maximum resolution.

KVM Extenders

KVM Extender Classic

Convenient, remote control of your PS/2 & VGA enabled PC

- Extends PS/2 & VGA signals up to 300m over a single CAT5, or higher, cable
- Consists of a transmitter and a receiver unit
- Easy to setup, with no software installation required
- Both transmitter and receiver units feature a built-in KVM switch for local and remote operation
- High resolution support: up to 1600 x 1200 / 1680 x 1050 @ 200m; 800 x 600 @ 300m
- Adjustable VGA gain and focus controls
- Dual console support allows control of the local PC from either local or remote locations
- Power supply and two 3-in-1 PS/2 KVM cables included
- Dimensions (each unit): 145 x 78 x 25mm (WxDxH)
- Compatible with all major PC operating systems

KVM Extender Classic	Part No. 39397
----------------------	-----------------------

KVM Extender Junior

KVM Extender with high speed serial support

- Supports distances of up to 200m between local and remote units
- High resolution video: up to 1600 x 1280 @ 75m; 1024 x 768 @ 200m
- Supports PS/2 keyboard/mouse and VGA monitor connections
- High-speed serial RS-232 port – ideal for touch screen applications
- Quick and easy to install – no special software required
- Compatible with all major operating systems
- For connection cables and accessories, see below

KVM Extender Junior	Part No. 32390
KVM Extender Junior (remote unit only)	Part No. 32391
Power Adapter (required when using 5m KVM cable)	Part No. 39290

KVM Extender Plus

Extender with remote KVM switch and local control

- Supports distances of up to 200m between local and remote units
- High resolution support: up to 1600 x 1280 @ 75m; 1024 x 768 @ 200m
- Supports PS/2 keyboard/mouse and VGA monitor connections
- High-speed serial RS-232 port – ideal for touch screen applications
- Dual console support allows control from local or remote locations
- A built-in KVM switch allows the remote operator to switch between remote console control and a connected PC
- Easy to install – no special software required
- Compatible with all major operating systems

KVM Extender Plus	Part No. 32395
KVM Extender Plus (Remote unit only)	Part No. 32396
Power Adapter (required when using 5m KVM cable)	Part No. 39290

PS/2 & VGA KVM Cables

	Length	Part No.
KVM Cable for the KVM Extender Junior/Plus (PS/2 + VGA)	1m	33711
	2m	33712
	3m	33713
	5m	33714

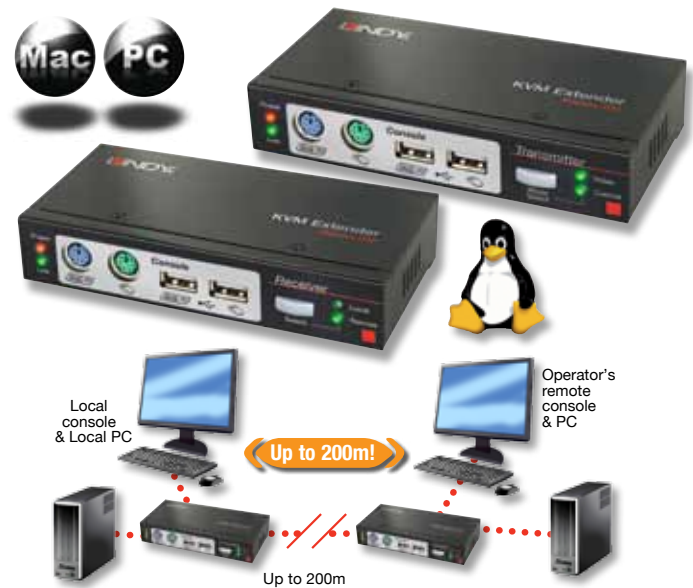

KVM Extenders

KVM Extender Combo

Versatile extender with USB, PS/2 & VGA KVM support

- Extends PS/2, USB & VGA signals up to 200m over a single CAT5, or higher, cable
- Consists of a transmitter and a receiver unit
- Supports PS/2 and USB keyboard and mouse signals in any combination
- Easy to setup, with no software installation required
- Both transmitter and receiver units feature a built-in KVM switch for local and remote operation
- High resolution support: up to 1600 x 1200 / 1680 x 1050 @ 200m
- Includes on-screen display for adjusting VGA gain, focus control and skew compensation
- Power supply and two USB, PS/2 & VGA Combo KVM cables included
- Dimensions (each unit): 130 x 70 x 28mm (WxDxH)
- Compatible with all major operating systems

KVM Extender Combo	Part No. 39398
--------------------	-----------------------

C5 KVM Extender Junior

The space saving extender

The LINDY C5 Junior is a compact KVM extender, ideal for use in high density installations. Using CAT5/5e/6 cable, it allows your PS/2 keyboard, mouse and monitor to be connected at distances of up to 200m away from your computer.

- Supports distances of up to 200m between local and remote units
- High resolution video support: up to 1600 x 1280 @ 75m; 1024 x 768 @ 200m
- Supports PS/2 keyboard / mouse and VGA monitor connections
- Easy to install – no special software required
- Power supply and KVM cable included (with Part No. 39390 only)
- Dimensions (each unit): 125 x 80 x 30mm (WxDxH)
- Compatible with all major operating systems

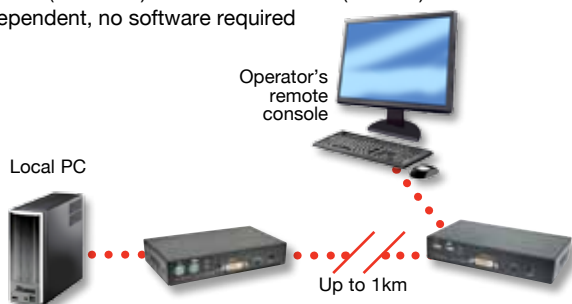

C5 KVM Extender Junior	Part No. 39390
C5 KVM Extender Junior (Remote unit only)	Part No. 39391

1Km Fibre Optic KVM Extender, DVI-D & USB / PS/2

Extends DVI-D, USB Keyboard & Mouse and IR up to 1Km

- Transmits DVI-D signals up to 1000m without any loss or compression
- Uses standard, low cost SC Duplex Fibre Optic Cable (see page 128)
- Extend USB keyboard and mouse functions to control your computer from up to 1Km away
- Supports DVI-D resolutions up to 1920x1200 @ 60Hz, using EDID emulation
- Transfers data rates up to 6Gbps
- Transmitter supports PS/2 & USB keyboard and mouse connections
- Extends IR signals using the optional IR Extender Kit (38006)
- Dimensions (each unit): 165 x 110 x 33mm (WxDxH)
- OS Independent, no software required

1Km Fibre Optic KVM Extender, DVI-D & USB / PS/2	Part No. 39399
Optional IR Extender Kit	Part No. 38006

KVM Switches & Extenders

Extenders, Parallel Switch

100m CAT5 PS/2 Keyboard and Mouse Extender

Long distance keyboard & mouse solution

- Extends PS/2 signals up to 100m using CAT5 or higher cable
- Transmitter unit features two short PS/2 cables for connecting to your computer's keyboard and mouse ports
- Ideal for use with our CAT5e/6 VGA Extender (see below)

Up to 100m!

CAT5 PS/2 Keyboard and Mouse Extender

Part No. 32685

50m CAT5 USB Extender Premium

Extends USB keyboard or mouse signals up to 50m

- Extends a USB port by up to 50m using CAT5/5e/6 cable
- Ideal for use with our CAT5e/6 VGA Extender (see below)

Up to 50m!

50m CAT5 USB Extender Premium

Part No. 42801

50m CAT5e/6 VGA Extender

Transmits VGA signals up to 50m

- Extends VGA video signals over CAT5e or higher cable
- Ideal for use with our PS/2 and USB Extenders
- Supports the following transmission distances and resolutions:
 - 50m @ 800 x 600
 - 30m @ 1024 x 768

Up to 50m!

50m CAT5e/6 VGA Extender

Part No. 37571

300m CAT5e/6 VGA Extender

Long distance solution, ideal for commercial installations

- Extends VGA video signals over CAT5e or higher cable
- Consists of local transmitter and remote receiver units
- Supplied with a 1.2m VGA cable for connecting your computer
- Robust metal housing for reliable EMC shielding
- Dimensions:
 - Transmitter unit: 123 x 75 x 32mm (WxDxH)
 - Receiver unit: 100 x 35 x 26mm (WxDxH)
- Can support the following transmission distances and resolutions:
 - 300m @ 640 x 480
 - 200m @ 800 x 600
 - 100m @ 1280 x 1024
 - 50m @ 2048 x 1536

Up to 300m!

300m CAT5e/6 VGA Extender

Part No. 32537

30m CAT6 DVI Extender

Low cost extender that uses Ethernet cable for easy installation

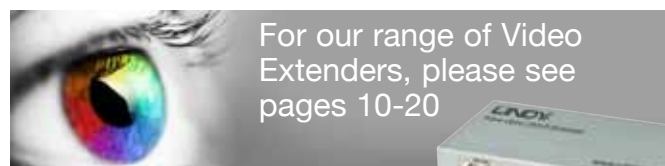

Up to 30m!

- Extends DVI-D single link video signals over CAT6/6a cable (see page 130 for our range)
- Consists of a transmitter and receiver which connect directly to your device's DVI ports
- Supports the following transmission distances and resolutions:
 - 15m @ 1920 x 1200 or 1080p using CAT6a PiMF (S/FTP) cable
 - 20m @ 1280 x 1024 using CAT6 UTP or PiMF (S/FTP) cable
 - 30m @ 1024 x 768 using CAT6a PiMF (S/FTP) Cable

30m CAT6 DVI Extender

Part No. 32599

4>1 Parallel Mini Auto Switch

- Allows 4 computers to be connected to 1 parallel printer or plotter
- Supports bi-directional communication
- Connectors: 5 x 25 Way D Female

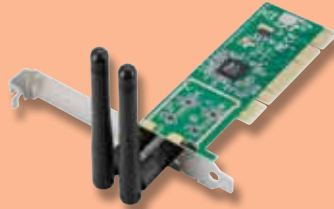

4>1 Parallel Mini Auto Switch

Part No. 32644

Network Switches

5 Port 10/100 Fast Ethernet Desktop Switch

Ideal SOHO and workgroup switch for up to 5 network devices

- Robust metal housing - ideal for industrial use
- Auto MDI/MDI-X on all ports
- 10/100Mbps Auto-Negotiation on all ports
- Full/Half-duplex operation
- Power, Speed and Link/Activity LEDs
- External power supply
- Dimensions: 135 x 85 x 90mm (WxDxH)

5 Port 10/100 Fast Ethernet Switch, Metal Housing Part No. 25041

16 Port 10/100 Fast Ethernet Rackmount Switch

Can be desktop or rack mounted

- Auto MDI/MDI-X on all ports
- 10/100Mbps Auto-Negotiation on all ports
- Full/Half-duplex operation
- Packet Buffer: 160KB
- Mac Addresses: 8K, self learning
- LED Indicators: Power x 1, Link/Activity x 16
- 19" 1U rackmount brackets included
- Internal power supply
- Dimensions: 270 x 170 x 44mm (WxDxH)

16 Port 10/100 Fast Ethernet Switch Part No. 25017

24 Port 10/100 Fast Ethernet Rackmount Switch

Suitable for mounting in a 19" rack

- Auto MDI/MDI-X on all ports
- 10/100Mbps Auto-Negotiation on all ports
- Full/Half-duplex operation
- Packet Buffer: 160KB
- Mac Addresses: 8K, self learning
- LED Indicators: Power x 1, Link/Activity x 24
- 19" 1U rackmount brackets included
- Internal power supply
- Dimensions: 480 x 170 x 44mm (WxDxH)

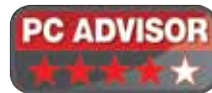

24 Port 10/100 Fast Ethernet Switch Part No. 25009

8 Port Gigabit Desktop Switch

Brings Gigabit networking to your desktop

- Compact desktop size with tough metal case
- Provides 8 x 10/100/1000 Gigabit Ethernet ports
- Auto MDI/MDI-X on all ports
- Auto-Negotiation on all ports
- Packet Buffer: 128KB
- Mac Addresses: 4K
- 9KB jumbo frame support
- LEDs for Power, Speed and Link/Activity
- External power supply
- Dimensions: 130 x 97 x 25mm (WxDxH)

LINDY 8 Port Gigabit Desktop Switch, April 2011

8 Port Gigabit Desktop Switch Part No. 25045

For our range of Network Cables & Adapters, please see pages 130-133

Network Switches

24 Port Gigabit Ethernet Network Switch Great value, high performance network switch

- Provides 24 x 10/100/1000 Gigabit Ethernet ports
- All ports support 10/100/1000 Base-T connections
- Supports Gigabit over copper - RJ-45, CAT5e and higher
- 19" 1U rack design (19" mounting brackets included)
- Realtek chipset
- Supports auto MDI/MDI-X function
- IEEE 802.3x flow control for Full Duplex mode and back pressure for Half Duplex mode
- Store-and-Forward architecture, up to 9KB Jumbo Frame
- 16K MAC Address Table, automatic address learning and ageing
- Dimensions: 440 x 140 x 44mm (WxDxH)

24 Port Gigabit Ethernet Network Switch Part No. 25027

8 Port PoE Gigabit Managed Desktop Switch

High speed networking with Power over Ethernet support

- Compact desktop size
- Provides 8 x 10/100/1000 PoE Gigabit Ethernet ports
- Each port can supply IEEE 802.3af power for use with compatible PoE devices such as wireless access points and IP cameras
- Auto-Negotiation on all ports
- Provides a management function via a web browser or RS-232 terminal port
- Store and Forward architecture
- Full/Half-duplex operation for Fast Ethernet and 10Base-T
- Supports port trunking and port mirroring
- Packet Buffer: 114KB • Mac Addresses: 8K
- 9K jumbo frame support
- LED Indicators: Power x 1, Link/Activity x 8, PoE Status
- Built-in power supply
- 19" rack mount brackets included
- Dimensions: 280 x 210 x 44mm (WxDxH)

8 Port PoE Gigabit Managed Desktop Switch Part No. 25050

8 Port PoE Midspan

Add Power over Ethernet support to your network

- Converts standard 100-240V AC power into low voltage DC that can be run over CAT5 or higher Ethernet cable
- Provides data and power for up to 8 IEEE 802.3af compliant PoE devices such as wireless access points and IP cameras
- Outputs 48V DC at 15.4W (max.) on each port
- 8 'data' input ports compliant with IEEE 802.3 10Base-T and 802.3u 100Base-TX
- 8 'data & power' output ports compliant with IEEE 802.3 10Base-T, 802.3u 10Base-TX and 802.3af PoE
- Each output port has current limited, short circuit protection and complete Power Device (PD) detection and classification
- Compact, metal desktop design can also be 19" rack mounted using the supplied mounting kit
- Built-in power supply
- Dimensions: 265 x 162 x 49mm (WxDxH)

8 Port PoE Midspan Part No. 25058

PoE Accessories 2012 New

PoE Splitter

PoE Injector

PoE Splitter

- Allows a non PoE device to be connected to a PoE installation
- Ideal for use with our PoE Switch or PoE Injector (below)
- Supports devices with a supply voltage of 5V, 9V or 12V DC
- Operating distance: up to 40m

PoE Injector

- Allows a PoE device to be connected to a non PoE switch
- Can also be used in conjunction with our PoE Splitter (above)
- Operating distance: up to 90m

PoE Splitter Part No. 25055

PoE Injector Part No. 25052

PoE Kit

- Low cost kit for running data and power over a single cable
- Consists of an injector and splitter unit
- Supports devices with a supply voltage from 9V to 24V DC
- Operating distance: up to 40m

PoE Kit Part No. 34020

Network Switches

24 Port 10/100 Fast Ethernet + 2 Port Gigabit Rackmount Switch

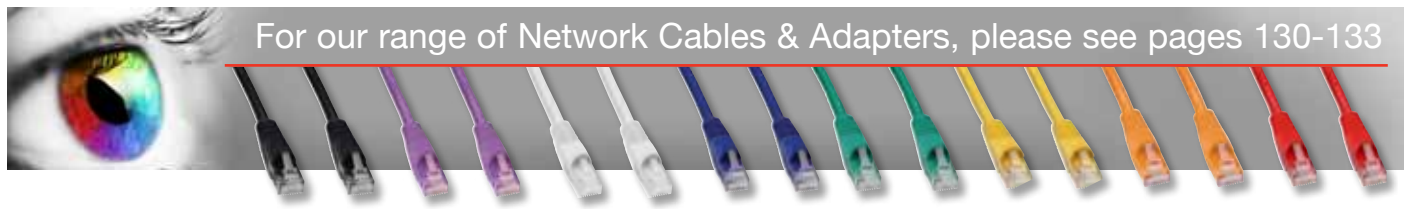

Ideal for high speed backbone connections

- Provides 24 x 10/100 Fast Ethernet ports and 2 x Gigabit Ethernet ports
- Auto MDI/MDI-X on all ports
- Auto-Negotiation on all ports
- Full/Half-duplex operation
- Packet Buffer: 2.5Mb
- Mac Addresses: 8K, self learning
- LEDs for Power, Speed and Link/Activity
- 19" 1U rackmount brackets included
- Internal power supply
- Dimensions: 440 x 135 x 44mm (WxDxH)

24 Port 10/100 Fast Ethernet + 2 Port Gigabit Switch Part No. 25003

For our range of Network Cables & Adapters, please see pages 130-133

24 Port Gigabit + 4 Port Mini GBIC Managed Switch

Gigabit Ethernet switch with web interface management facility

- Fully manageable layer 2 switch with access via an RS-232 console port or IP
- Easy to use browser based management function
- Supports port based and 802.1q (tag-based) VLANs
- Supports port trunking with up to 8 ports
- 24 x 10/100/1000 Gigabit Ethernet ports, 4 are shared with Mini GBIC ports
- 4 x Mini GBIC slots for Gigabit Ethernet LC fibre optic modules (sold separately, see below)
- Auto-negotiation support for each port
- Full/Half-duplex operation
- Up to 8K MAC entries and 4K VLAN entries
- 400KB packet buffer
- LED indicators: Power, Speed, Link/Activity, Diagnostics
- Supplied with RS-232 cable and 19" rackmount brackets
- Internal power supply
- Dimensions: 442 x 214 x 45mm (WxDxH)

24 Port Gigabit + 4 Port Mini GBIC Managed Switch Part No. 25026

Mini GBIC Module

High performance 1000Base-SX Gigabit LC module

- For use in conjunction with our 24 Port Gigabit + 4 Port Mini GBIC Switch, see above
- LC Duplex connectors for fibre connections of up to 500m using either 62.5/125µm or 50/125µm LC duplex fibre

1000Base-SX Gigabit LC Mini GBIC Module Part No. 25015

For our range of Network Cabinets and accessories, please see pages 62-65

Wireless Networking

Wireless-N Broadband Router & Access Point

Share an internet connection via cable or wireless

- High speed 802.11n up to 300Mbps
- Backwards compatible with 802.11g and 802.11b
- Built-in 4 Port Fast Ethernet switch for easy integration into an existing LAN
- WAN Port: 10/100 Fast Ethernet for connection to modem
- LAN Ports: 4 x 10/100 Fast Ethernet
- Easy to use web interface for configuration and management
- MIMO technology for enhanced coverage and throughput
- Switch to change between router and access point modes
- WPS button for easy security set up
- Security features: 64/128 Bit WEP Encryption, WPA, WPA2, WPS, MAC address filtering, firewall, NAT
- Dimensions: 154 x 160 x 30mm (WxDxH)

Please Note: This Router is not compatible with USB modems

Wireless-N Broadband Router & Access Point Part No. 52015

Wireless-N PCI Card

2012 NEW

Supports data rates up to 300Mbps

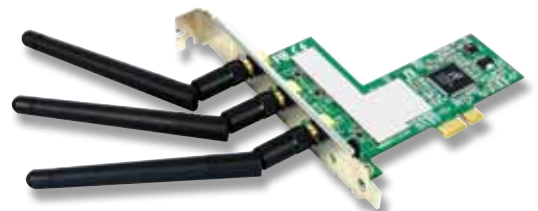

- 32 Bit PCI interface
- 802.11n 2.0 compliant
- Backwards compatible with 802.11g and 802.11b
- MIMO technology for enhanced coverage range and throughput
- Two external antennas
- Advanced security support: 64/128bit WEP, WPA, WPA2 and QoS
- Compatible with Windows 2000/XP/Vista/7

Wireless-N PCI Card Part No. 52053

Wireless-N PCIe Card

Supports data rates up to 300Mbps

- PCI Express x1 (1 Lane)
- 802.11n 2.0 compliant
- Backwards compatible with 802.11g and 802.11b
- MIMO technology for enhanced coverage range and throughput
- Three external antennas
- Advanced security support: WEP, WPA and WPA2
- Compatible with Windows 2000/XP/Vista/7

Wireless-N PCIe Card Part No. 52051

For our full range of Add-on Cards, Please see pages 68-73

Wireless-N Mini USB 2.0 Adapter

Ultra compact design

- USB 2.0 compatible
- 802.11n 2.0 compliant
- Backwards compatible with 802.11g and 802.11b
- MIMO technology for enhanced coverage range and throughput
- Advanced security support: WEP, WPA, WPA2
- Compatible with Windows 2000/XP/Vista/7

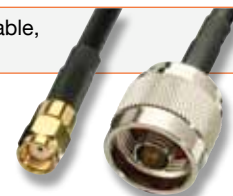

Wireless-N Mini USB 2.0 Adapter Part No. 52056

Outdoor WLAN Antenna Cable

For use with external WLAN antennas

External 50 Ohm Antenna Cable, RP-SMA to N-Type

Length	Part No.

Network Cameras & Print Servers

IP Network Cameras

Standard & Infra-red equipped surveillance cameras

LINDY IP Network Cameras are easy to use network based digital surveillance devices with a built-in web server for remote monitoring and recording. They support standard TCP/IP networking for live video transmissions. Not only are they easy to operate and control via a web browser, they provide comprehensive recording and viewing using the supplied software.

The Infra-red version supports night time and low light operation and includes a built-in microphone for enhanced surveillance.

2012 New

- MPEG4, MJPEG Video Compression
- 10/100Base-T Fast Ethernet connection
- Event-triggered, scheduled and manual recording, with configurable motion detection windows
- Multiple user access levels with password protection
- Control up to 16 network cameras simultaneously
- Supports up to 10 users on-line
- Images may be uploaded via FTP and Email
- Compatible with Windows 98SE/ME/2000/XP/Vista/7

Recording & viewing software
The supplied recording software supports event triggered, scheduled and manual recording with motion detection windows.

Browser based user interface
Easy to use browser interface for camera configuration and management.

IP Network Camera	Part No. 42442
IP Network Camera with Infra-red Night Vision & Audio	Part No. 42443

Print Servers

10/100 Parallel Print Server

- Supports: IPX/SPX, NetBEUI, TCP/IP, AppleTalk, DHCP, SNMP network management (optional web management via web browser)
- Compatible with Windows 98/ME/2000/XP/Vista/7, NetWare & UNIX, Mac OS 10 & above
- Dimensions: 55 x 60 x 22mm (WxDxH)

1 Port 10/100 Parallel Print Server	Part No. 42374
-------------------------------------	----------------

10/100 USB 2.0 Print Server

- Supports: IPX/SPX, NetBEUI, TCP/IP, AppleTalk, DHCP, SNMP network management (optional web management via web browser)
- Compatible with Windows 98/ME/2000/XP/Vista/7 and Mac OS 10.2 & above
- Dimensions: 52 x 52 x 25mm (WxDxH)

1 Port 10/100 USB 2.0 Print Server	Part No. 42394
------------------------------------	----------------

2 Port USB, 1 Port Parallel 10/100 USB 2.0 Print Server

- Printer Connections: 1 x Bi-directional Parallel Port (25 Way D Female); 2 x USB 2.0 ports (Type A USB Female)
- Protocol support: DHCP, IPP, IPX, TCP/IP, NetBEUI, AppleTalk, LPR
- Web browser interface and PC PS-Admin software for print server management and control
- Compatible with Windows 95/98/ME/NT/2000/XP/Vista/7, Mac OS 8.6 to 9.2 & 10, UNIX, Linux
- Dimensions: 165 x 103 x 37mm (WxDxH)

2 Port USB, 1 Port Parallel 10/100 Print Server	Part No. 42392
---	----------------

Network Cards & Attached Storage

Network Cards & Adapters

10/100 Fast Ethernet, PCI

- Compatibility: Win 98SE/ME/2000/XP/ Vista/7, NetWare 3.x/4.x/5.x, Linux

10/100 Fast Ethernet, PCI Part No. **51231**

Gigabit Ethernet, PCI

- Compatibility: Win 98SE/ME/NT/2000/XP/ Server 2003/Vista/7, Netware 5.x, Netware ODI for DOS, Linux, Unix

Gigabit Ethernet, PCI Part No. **51220**

Gigabit Ethernet PCIe x1 (1 Lane) Low Profile Option

- Compatibility: Windows NT4/2000/XP/Vista/Windows 7/Server 2003, Microsoft NDIS2, Netware Server Driver 5.1/6.0, Netware ODI for DOS, Unix, Mac, Linux

Gigabit Ethernet, PCIe Part No. **51191**

ExpressCard/34 Gigabit Ethernet Adapter

- Compatibility: Windows 2000/XP/2003 Server/Vista/7

Gigabit Ethernet, ExpressCard/34 Part No. **51511**

USB 2.0 Gigabit Ethernet Adapter

- For desktop or notebook computers
- Compatible with Windows ME/2000/XP/ Vista/7, Mac OS X

USB 2.0 Gigabit Ethernet Adapter Part No. **42852**

USB 2.0 Fast Ethernet Adapter

- For desktop or notebook computers
- Compatible with Windows 98SE/ME/2000/XP/Vista/7, Mac OS X & Linux

USB 2.0 Fast Ethernet Adapter Part No. **42974**

IDE/SATA Mini NAS Enclosure

Perfectly designed to sit underneath a Mac Mini

- Compact Network Attached Storage solution for PCs and Macs
- For use with IDE or SATA hard drives up to 750GB (not included)
- USB 2.0 port allows it to be used as a standard external hard drive
- RJ-45 10/100 Fast Ethernet network connection
- Low noise fan and aluminium top cover for heat dissipation
- Supplied with USB and Ethernet cables
- Compatible with Windows 98SE/ME/2000/XP/Vista/7 and Mac OS 10 & above
- Dimensions: 162 x 162 x 47mm (WxDxH)

IDE/SATA Mini NAS Enclosure Part No. **42808**

USB 2.0 480Mbps High Speed

IDE/SATA NAS Personal Server

With built-in print server and support for additional external storage

- RJ-45 10/100/1000Mbps Gigabit Ethernet connection
- For use with IDE or SATA hard drives up to 1 Terabyte (not included)
- Two USB 2.0 ports: one for connecting a printer, one for connecting additional external USB storage e.g. pen drive, hard disk
- Provides a web server for easy website hosting
- Built-in FTP server allows users to conveniently transfer files
- Embedded printer server for printer sharing
- Compatible with Windows 98SE/ME/2000/XP/Vista/7 and Mac OS 10 & above
- Dimensions: 75 x 205 x 135mm (WxDxH)

IDE/SATA NAS Personal Server Part No. **32493**

Rear

USB 2.0 480Mbps High Speed

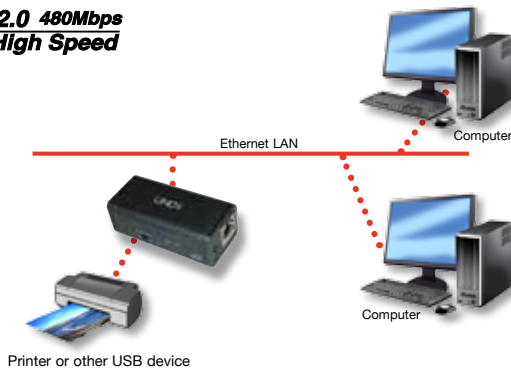

USB & Serial over IP

USB 2.0 over IP Servers Connect two or four USB devices to your network

- Powerful USB Server and Extender over IP
- Allows you to share USB devices on your network
- For use with USB printers, scanners and storage devices
- Features high-speed USB 2.0 support for flexibility and performance
- RJ-45 10/100 network connection
- Supports Windows 2000/XP/Server 2003/Vista and 7

USB 2.0 480Mbps High Speed

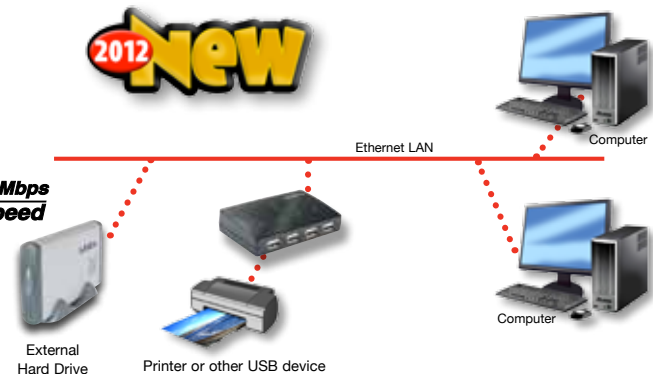

1 Port USB 2.0 over IP Server	Part No. 42890
4 Port USB 2.0 over IP Server	Part No. 42832

4 Port USB 2.0 over Gigabit IP Server Connect 4 USB devices to your Gigabit network

- Share USB storage devices, printers, webcams etc over a Gigabit network
- Four High Speed USB 2.0 ports
- RJ-45 10/100/1000 Network Connection
- Web interface for easy management of devices
- Supplied with a Multi-Country Power Adapter and RJ-45 cable
- Supports Windows XP/Vista and 7

2012 New

USB 2.0 480Mbps High Speed

4 Port USB 2.0 over Gigabit IP Server	Part No. 42632
---------------------------------------	-----------------------

Serial over IP Servers

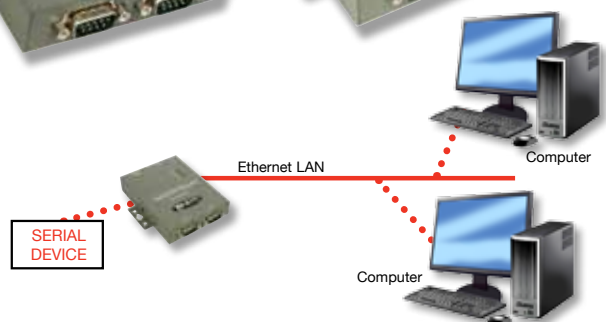

Connect and share two or four serial devices on your network

- Connects two or four serial devices to a local area network
- 9 Way ports which can support RS-232, RS-422 & RS-485 serial devices such as medical apparatus, industrial and manufacturing machinery and EPOS equipment
- RJ-45 10/100 network connection
- Configuration via:
 - IP Server Management Mode for Windows
 - Web Browser
 - Telnet
- Tough metal housing, ideal for industrial use
- Compatible with Windows 98/ME/2000/XP & Vista

2 Port

4 Port

2 Port Serial over IP Server	Part No. 25104
4 Port Serial over IP Server	Part No. 25105

Fibre Optic Media Converters

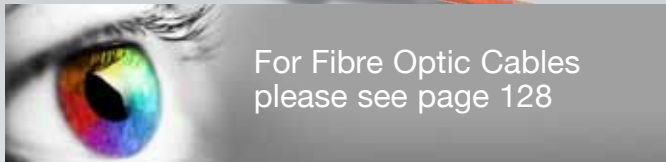

Fast Ethernet Fibre Optic Converters

Extend your Fast Ethernet network up to 30km

These Fast Ethernet Fibre Optic Converters allow you to extend your Fast Ethernet network over incredible distances using fibre optic cable. They are ideal for high speed interconnections of up to 200Mbps (Full-duplex) between buildings and floors.

Features of all versions

- 100Base-FX (fibre) to 10/100Base-TX (copper)
- Standards: IEEE 802.3, 802.3u, 802.3x
- Network data transfer rate: 200Mbps (Full-duplex)
- Auto MDI-X support for RJ-45 port connection
- Status LED for Speed, Link/Activity, Full-duplex, Power
- External power supply included
- Dimensions: 58 x 86 x 23mm (WxDxH)

For Fibre Optic Cables please see page 128

Fast Ethernet Fibre Optic Converter, Multi Mode, SC version

- Connectors: SC duplex (fibre), RJ-45 (copper)
- Fibre Type: Multi Mode
- Maximum fibre cable distance: 2km

Up to 2km!

Fast Ethernet Fibre Optic Converter, Multi Mode, SC Part No. 25110

Fast Ethernet Fibre Optic Converter, Multi Mode, LC version

- Connectors: LC duplex (fibre), RJ-45 (copper)
- Fibre Type: Multi Mode
- Maximum fibre cable distance: 2km

Up to 2km!

Fast Ethernet Fibre Optic Converter, Multi Mode, LC Part No. 25115

Fast Ethernet Fibre Optic Converter, Single Mode*, SC version

- Connectors: SC duplex (fibre), RJ-45 (copper)
- Fibre Type: Single Mode
- Maximum fibre cable distance: 30km

Up to 30km!

Fast Ethernet Fibre Optic Converter, Single Mode, SC Part No. 25113

Gigabit Ethernet Fibre Optic Converters

Extend your Gigabit Ethernet network up to 10km

Our Gigabit Ethernet Fibre Optic Converters allow you to convert and extend the distance of your Gigabit Ethernet network by up to 10km over fibre optic cable. They're ideal for high speed interconnections up to 2000Mbps (Full-duplex) between buildings and floors.

Features of all versions

- 1000Base-T (copper) to 1000Base-SX (fibre)
- Standards: IEEE 802.3ab, 802.3z
- Network data transfer rate: 2000Mbps (Full-duplex)
- Auto MDI/MDI-X support for RJ-45 port connection
- Status LED for Power and Link/Activity
- External power supply included
- Dimensions: 72 x 110 x 23mm (WxDxH)

Gigabit Ethernet Fibre Optic Converter, Multi Mode, LC version

- Connectors: LC duplex (fibre), RJ-45 (copper)
- Fibre Type: Multi Mode
- Maximum fibre cable distance: 550m

Up to 550m!

Gigabit Ethernet Fibre Optic Converter, Multi Mode, LC Part No. 25116

Gigabit Ethernet Fibre Optic Converter, Single Mode*, SC version

- Connectors: SC duplex (fibre), RJ-45 (copper)
- Fibre Type: Single Mode
- Maximum fibre cable distance: 10km

Up to 10km!

Gigabit Ethernet Fibre Optic Converter, Single Mode, SC Part No. 25114

Gigabit Ethernet Fibre Optic Converter, Multi Mode, SC version

- Connectors: SC duplex (fibre), RJ-45 (copper)
- Fibre Type: Multi Mode
- Maximum fibre cable distance: 550m

Up to 550m!

Gigabit Ethernet Fibre Optic Converter, Multi Mode, SC Part No. 25112

*Due to the specialist nature of single mode fibre cable, please contact us to discuss your requirements before purchase

Network Data Cabinets, Server Cabinets & Wall Boxes

Available in a range of sizes to suit most applications

- ▶ Tough, sheet steel construction
- ▶ Lockable doors
- ▶ Available in grey, black and other colours
- ▶ Choose from a large choice of standard sizes, custom sizes also available to order
- ▶ Pre-assembled, for fast installation (also available flat-packed, call for details)
- ▶ Full range of accessories including fan trays, shelves and cable management options are available
- ▶ Most wall boxes held in stock for next day delivery
- ▶ Larger cabinets delivered direct to your door within 7 days of your order
- ▶ Designed and manufactured in the UK

19" Heavy Duty Server Cabinets

Heavy duty design suitable for 19" servers, RAID arrays etc.

19" Heavy Duty Server Cabinets				
Size	Height (mm)	Width (mm)	Depth (mm)	Part No.
15U	795	600	1000	27188

47U	2220	600	1000	27195

- Lockable mesh front and rear doors
- Removable vented, lockable side panels
- Lockable, vented rear door
- Four 19" full-height mounting angles front and rear
- Earth bonding kit included
- "U" position on 19" rails
- Removable top panel to fit 2, 4 or 6 way fan trays
- Jacking feet
- Transportation castors included (heavy duty swivel castors also available, see below left)
- Colour: Goose Grey (black and other colours available by special order, call for details)

19" Network Data Cabinets

Designed for hubs, switches, routers, patch panels and other network devices

- Lockable front and rear doors
- Cabinets under 27U feature perspex doors; cabinets over 27U have glass doors
- Removable vented, lockable side panels
- Vented rear door
- Four 19" full-height mounting angles front and rear
- Earth bonding kit included
- "U" position on 19" rails
- Removable top panel to fit 2, 4 or 6 way fan trays
- Jacking feet
- Transportation castors included (heavy duty swivel castors also available, see below)
- Colour: Goose Grey or Black
- Other colours available to order, call for details

Cabinet Accessories

Screws & Washers

Heavy Duty Castors

4 x Cage Nuts, Screws & Washers (4 pieces of each)	Part No. 66034
50 x Cage Nuts, Screws & Washers (50 pieces of each)	Part No. 66033
4 x Heavy Duty Swivel Castors	Part No. 27175

DELIVERY
Most cabinets and wall boxes are held in stock for immediate delivery. Additional carriage charges may apply. Please call for details.

HEAVY ITEMS
All cabinets, and some of the wall boxes, are very heavy. Assistance may be required on delivery.

Wall Boxes & Cabinet Accessories

19" Wall Boxes

Ideal for smaller network and AV installations allowing, patch panels, hubs, switches etc. to be kept in a tidy, secure environment

- Lockable, reversible front door with smoked acrylic window for extra security
- Easy cable entry options via top, bottom and rear
- Two adjustable 19" mounting angles
- Colour: grey and black available

Metal Power Distribution Units Convenient power inside your 19" enclosure

Features of all models

- Integral On/Off rocker switch
- BS5733 approved
- Cable length: 3m
- Each model is available fitted with either a UK mains plug or an IEC Male plug (for connecting to a UPS)

Choose from UK mains plug or IEC male plug versions

Horizontal Mount PDU with UK Mains Sockets

- UK Mains plug models: 13A fused
- Max. power for UK plug version 3250W (total not to exceed 13A)
- Max. power for IEC plug version 2500W (total not to exceed 10A)

1U, 6 Way, UK Mains Plug	Part No. 73560
1U, 6 Way, IEC Male Plug	Part No. 73561

1U 6 Way PDU

Horizontal Mount PDU with IEC Mains Sockets

- 10A fused
- For models equipped with IEC Male plugs, the total load should not exceed 10A
- Fixing screws included

1U, 8 Way, UK Mains Plug	Part No. 29990
1U, 10 Way, UK Mains Plug	Part No. 29991
1U, 12 Way, UK Mains Plug	Part No. 29992

1U, 10 Way, IEC Male Plug	Part No. 29994
1U, 12 Way, IEC Male Plug	Part No. 29995

Vertical Mount PDU with UK Mains Sockets

- UK Mains plug models: 13A fused
- IEC Male plug models: 10A fuse is built into the PDU
- For models equipped with IEC Male plugs, the total load should not exceed 10A
- Angled sockets for a tidier installation
- Fixing screws included

6 Way, UK Mains Plug	Part No. 29980
8 Way, UK Mains Plug	Part No. 29981
10 Way, UK Mains Plug	Part No. 29982

Networking

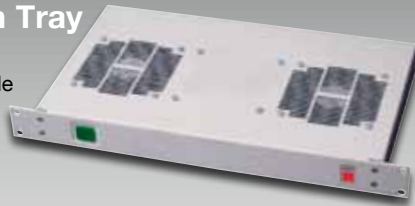

Fan Trays

Keep your equipment cool and efficient

1U Rackmount Fan Tray

- 2 x fans for effective cooling
- Supplied with UK mains cable
- Fixing screws included
- Colour: Grey

1U Rackmount Fan Tray	Part No. 27504
-----------------------	-----------------------

Roof Fan Trays

- 2, 4 and 6 fan versions available
- Supplied with UK mains cable
- Colour: Grey

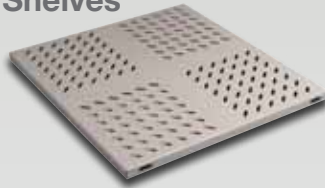

Roof Fan Tray with 4 Fans

Roof Fan Tray with 2 Fans	Part No. 27171
Roof Fan Tray with 4 Fans	Part No. 27172
Roof Fan Tray with 6 Fans	Part No. 27173

Cabinet Shelves

Standard & Heavy Duty Shelves

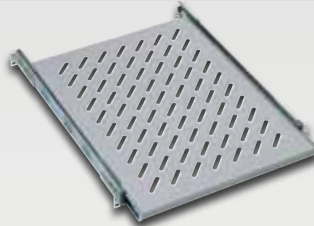

- Standard for loads of up to 35kg
- Heavy Duty for loads of up to 60kg
- Ventilated design ensuring continued airflow through the enclosure
- Colour: Grey

Cabinet Shelf, 490 x 450mm	Part No. 27168
Cabinet Shelf, 490 x 600mm	Part No. 27169
Heavy Duty Cabinet Shelf, 485 x 600mm	Part No. 27196
Heavy Duty Cabinet Shelf, 485 x 750mm	Part No. 27197

Telescopic Shelves

- Ideal for equipment which needs to be accessed regularly
- Fixed between the front and back 19" mounting angles
- Fixing screws included
- Colour: Grey

Telescopic Shelf, 465 x 450mm (WxD)	Part No. 27288
Telescopic Shelf, 465 x 570mm (WxD)	Part No. 27289

Telescopic Keyboard Shelf

- Anti-slip material keeps keyboard in place
- Fixed between the front and back 19" mounting angles
- Fixing screws included
- Colour: Grey

Telescopic Pull-Out Keyboard Shelf, 488 x 750mm (WxD)	Part No. 27292
---	-----------------------

Adjustable Depth Direct Mount Shelf

- Fixed between the front and back 19" mounting angles to support heavier weights
- Supports loads of up to 80kg when closed, 60kg when open
- Depth adjustable: 530mm to 990mm
- Fixing screws included
- Colour: Grey

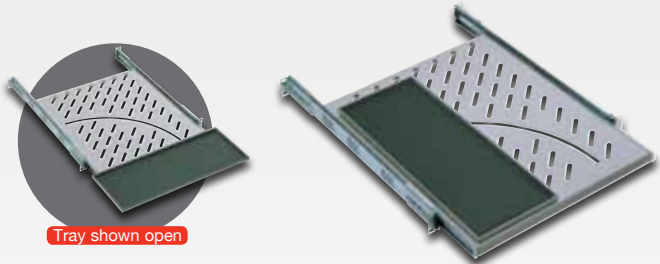

1U Adjustable Shelf, 445 x 530-990mm (WxD)	Part No. 27594
--	-----------------------

Cantilever Shelves

- Ideal for lightweight equipment and accessories
- Fixed between the front 19" mounting angles
- Ventilated design ensuring continued airflow through enclosure
- Fixing screws included
- Colour: Grey

1U, 420 x 200mm (WxD), supports up to 10kg	Part No. 29960
1U, 420 x 300mm (WxD), supports up to 10kg	Part No. 29961
2U, 420 x 400mm (WxD), supports up to 20kg	Part No. 29962

Tray shown open

19" CAT5e & 6 Patch Panels

Available with up to 96 ports

- High quality angled terminal block contacts
- Accepts 22-26 AWG solid core wire
- Dual type terminal blocks
- Dual standard labelling (T568A/T568B colour coding standards)
- Cable tie mounts and cable ties supplied for cable management
- Colour: Black

RJ-45 CAT6 T568A/B Punchdown Keystone, Blue	Part No. 60367
Keystone Snap-in Blanking Plate, White	Part No. 60745

19" LC Fibre Optic Patch Panels

Available with up to 24 ports

- Fully loaded with LC adapters
- Cable management (splice protectors, bunny clips, cable glands and splice bridges) included
- Colour: Black

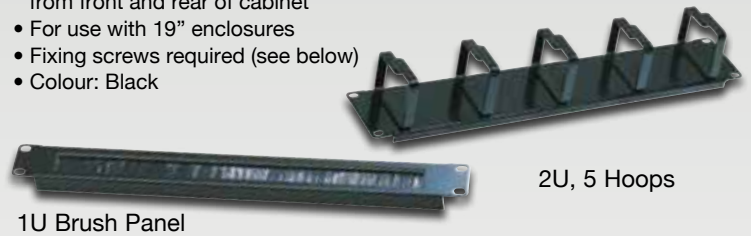

8 Port LC Fibre Optic Patch Panel	Part No. 20795
12 Port LC Fibre Optic Patch Panel	Part No. 20796
16 Port LC Fibre Optic Patch Panel	Part No. 20797
24 Port LC Fibre Optic Patch Panel	Part No. 20798

Cable Management

Keep your network cabinet tidy

- Management panels for neat cable routing across the patching area
- Brush panels prevent dust ingress and allow easy passage of cables from front and rear of cabinet
- For use with 19" enclosures
- Fixing screws required (see below)
- Colour: Black

1U Cable Management Panel with 4 Vertical Hoops	Part No. 20715
1U Cable Management Panel with 9 Vertical Hoops	Part No. 20718
2U Cable Management Panel with 5 Vertical Hoops	Part No. 20719
1U Brush Panel	Part No. 20716

19" CAT6A 0.5U 24 Port RJ-45 Shielded Patch Panel

Premium 10 Gigabit Patch Panel

- With a low profile of 0.5U, two of these panels can be fitted together in a 1U space
- 24 port RJ-45 STP CAT6A / Class E 10 Gigabit compatible, 3P certified
- Accepts 22-26 AWG solid core wire
- Dual type terminal blocks
- Cable ties supplied for cable management
- Fixing screws, cage nuts and washers supplied separately

19" CAT6A 0.5U 24 Port RJ-45 Shielded Patch Panel	Part No. 25880
---	-----------------------

2012 New

LC Pigtail, 2m

- Allows cables to be terminated with pre-polished connectors through splicing (fusion or mechanical) to the main cable within wall boxes or patch panels
- 900µm buffered fibre terminated at one end with an LC connector at the other

LC Pigtail, 2m	Part No. 20799
----------------	-----------------------

1000Base-T LAN Surge Protector

Protects your network devices from power surges

- Plugs into a standard RJ-45 port of each device you wish to protect
- Supports up to 10/100/1000Mbps
- Performance protection line to line: 1000V
- Connectors: RJ-45 Male to RJ-45 Female

1000Base-T LAN Surge Protector	Part No. 60198
--------------------------------	-----------------------

Blank Panels Fill in unused spaces

- Improves appearance and hides unsightly cables
- For use with 19" enclosures
- Fixing screws required (see below)
- Colour: Black

2U Blank Panel

1U Blank Panel	Part No. 70505
2U Blank Panel	Part No. 70506
3U Blank Panel	Part No. 70507
4U Blank Panel	Part No. 70508

Fixing Accessories

4 x Cage Nuts, Screws & Washers (4 pieces of each)	Part No. 66034
50 x Cage Nuts, Screws & Washers (50 pieces of each)	Part No. 66033

Networking

Power Control & Management

IPower Control Modules

Advanced power management switches which can be controlled over IP

- Control power to your devices over LAN/WAN or the internet
- Quick and easy to install and use with a simple browser interface
- Supports DHCP or manual IP address allocation
- Provides user and administrator passwords
- Network connection: RJ-45 10Base-T Ethernet port

IPower Control IEC

- 1 In 1 Out: 1 IEC C14 Male (230V AC); 1 IEC C13 Female (10A max.)
- Supplied with a 2m UK mains cable
- Requires an IEC extension cable for connecting to the device (see table below)
- Dimensions (WxDxH): 63 x 12 x 64mm

IPower Control IEC Part No. **32414**

IEC Extension Cable	Length	Part No.
IEC C14 Plug to IEC C13 Socket, Black	2m	30326
	3m	30327
	5m	30328

IPower Control 8

Easy to use browser interface

- 1 In 8 Out: 1 IEC C20 Male (230V AC); 8 x IEC Female
- Total switching power: 13A using a UK 3 Pin Plug; 16A using 'Commando' to IEC 320 C19 power cables
- Mains cables included:
 - Input: 1 x UK 3 Pin Plug to IEC C19 Female, 2m
 - Output: 8 x IEC C14 Male to IEC C13 Female, 2m
- Ports for optional temperature sensor, RS-232 control, smoke detectors, door contacts etc.
- 19" 1U rackmount design

IPower Control 8 Part No. **32652**

IPower Switch Classic 8

Remote management switch for up to 8 devices

- IP controlled power management switch with 8 ports
- True RMS current meter for real time monitoring of power consumption
- User friendly web browser interface for easy management and configuration
- Supports DHCP or manual IP address allocation
- Sends email and SNMP warnings when overloads occur
- Seven segment display for RMS power monitoring, LED status indicators for each outlet
- Switched power (per port): max. 2400W (10A @240V)
- Switched power (total): max. 3120W (13A@240V) or 3840W (16A@240V) using optional 'Commando' to IEC 320 C19 power cables
- Mains cable included: 2m IEC C19 to UK Mains Plug
- Network connection: RJ-45 10Base-T Ethernet port
- 19" 1U rackmount design

IPower Switch Classic 8 Part No. **32657**

Drive Enclosures

USB 2.0 Mobile Data Tray for 2.5" Drives

Stylish and compact aluminium drive housings for SATA or IDE drives

- Can be used with the LINDY Data Dock (page 91) or connected to a USB port
- Available in silver or black
- Versions for 2.5" IDE/ATA or SATA drives up to 9.5mm in height
- Aluminium design for better heat dissipation
- USB bus powered – the supplied dual USB cable allows for extra power from a second USB port
- Supplied with a protective carry case
- Dimensions: 72 x 130 x 11mm (WxDxH)
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 9.0 & above

USB 2.0 480Mbps High Speed

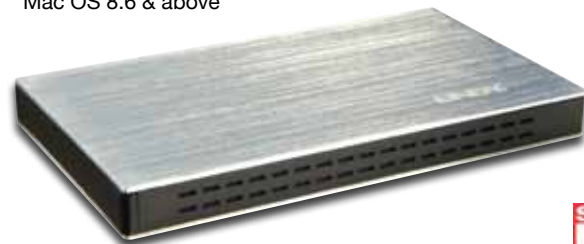

USB 2.0 Data Tray, IDE, Black	Part No. 42979
USB 2.0 Data Tray, SATA, Silver	Part No. 42988
USB 2.0 Data Tray, SATA, Black	Part No. 42989

2.5" Drive Enclosures

2.5" SATA Enclosure, USB 2.0

- For 2.5" SATA drives up to 9.5mm in height
- USB 2.0 interface
- Supplied with dual USB data & power cable
- Aluminium design for better heat dissipation
- Dimensions: 76 x 132 x 14mm (WxDxH)
- Compatible with Windows ME/2000/XP/Vista/7, Linux, Mac OS 8.6 & above

USB 2.0 480Mbps High Speed

Rear

2.5" SATA Enclosure, USB 2.0	Part No. 42831
------------------------------	----------------

2.5" SATA Enclosure, One Push Backup, USB 3.0

- For 2.5" SATA drives up to 9.5mm in height
- One Push Backup function for easy data storage
- USB 3.0 SuperSpeed interface
- Supplied with a USB 3.0 A to Micro B data and USB power cables
- Aluminium design for heat dissipation
- Dimensions: 132 x 76 x 14mm (WxDxH)
- Compatible with Windows XP/Vista/7

USB 3.0 5 Gbit/s SuperSpeed

2.5" SATA Enclosure, One Push Backup, USB 3.0	Part No. 43102
---	----------------

Mobile RAID System for 2.5" SATA Drives

Features USB 2.0 and eSATA connections

Whether it's important data, or simply your music or video collection, easily and securely store files with the LINDY Mobile RAID System. Its compact, portable design makes it perfect for those who regularly need to swap or transport hard drives.

- Supports two 2.5" SATA I or II hard disks
- Connects to a USB 2.0 port (480Mbps) or eSATA (3Gbps) port
- Tool-free installation
- Tray-less design for fast HDD exchanging
- Can be configured as RAID 0 or RAID 1
- Dimensions: 100 x 145 x 25mm (WxDxH)
- Compatible with all common operating systems that support USB 2.0 & eSATA including Windows, XP/Vista/7, Linux and Mac OS X

USB 2.0 480Mbps High Speed

Mobile RAID System for 2.5" SATA Drives	Part No. 20288
---	----------------

IMPORTANT: These products are drive enclosures only, hard drives are not included!

Drive Enclosures

USB 2.0 Hard Drive Mini Enclosure

Extra storage for your Mac or PC

This compact external USB 2.0 hard disk enclosure is ideal for use with both Macs and PCs. Its combo interface design supports 3.5" IDE/ or SATA drives.

- For use with 3.5" IDE/ATA or SATA hard drives of up to 750GB capacity
- USB 2.0 interface
- Aluminium cover for heat dissipation
- Low-noise fan-free design
- Power supply and USB connection cable included
- Dimensions: 162 x 162 x 47mm (WxDxH)
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 9.2 and above

USB 2.0 480Mbps High Speed

In use with a Mac Mini

USB 2.0 Mini Enclosure, 3.5" IDE/ATA or SATA Part No. 42787

3.5" SATA Enclosures

- For use with 3.5" SATA I and II drives of up to 2TB capacity (3TB for USB 3.0 version)
- Available with a choice of external interfaces
- Aluminium design for better heat dissipation
- Power supply and connection cables included
- Dimensions: 190 x 110 x 30mm (WxDxH)
- Compatible with Windows XP/Vista/7, Linux 2.6.21 & above, Mac OS 8.6 & above (USB 3.0 enclosure is not compatible with Macs)

USB 3.0 5 Gbit/s SuperSpeed

USB 2.0 480Mbps High Speed

3.5" SATA Enclosure, USB 2.0

3.5" SATA Enclosure, USB 2.0 Part No. 42840

3.5" SATA Enclosure, USB 2.0 & FireWire

3.5" SATA Enclosure, USB 2.0 & FireWire 400 Part No. 42842

3.5" SATA Enclosure, USB 3.0

3.5" SATA Enclosure, USB 3.0 Part No. 43100

3.5" SATA HDD Quad Enclosure, USB 2.0

Can provide up to 2 Terabytes of storage

- Supports four 3.5" SATA drives up to a total of 2TB (4 x 500GB)
- USB 2.0 interfaces
- Fan for heat dissipation
- Supports JBOD & NRAID (Non-RAID) configurations
- USB connection cable included
- Dimensions: 135 x 250 x 180mm (WxDxH)
- Compatible with Windows 2000/XP/2003 Server/Vista/7, Mac OS 10.3.9 & above

USB 2.0 480Mbps High Speed

3.5" SATA HDD Quad Enclosure, USB 2.0 Part No. 42825

USB 2.0 & FireWire 800 Drive Enclosure **2012 NEW**

Combo interface - ideal for use with both PCs and Macs

- For use with 3.5" SATA I and II drives
- USB 2.0 and FireWire 800/400 external connections
- Aluminium design for better heat dissipation
- PSU, USB, FireWire 400 and 800 cables included
- Dimensions: 125 x 200 x 40mm (WxDxH)
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS X

800

USB 2.0 480Mbps High Speed

USB 2.0 & FireWire 800 Drive Enclosure Part No. 42758

IMPORTANT: These products are drive enclosures only, hard drives are not included!

Drive Enclosures

USB 2.0 & eSATA Quad 3.5" SATA HDD Enclosure

Can provide up to 2 Terabytes of storage

- Supports four 3.5" SATA hard drives up to a total capacity of 2TB (4 x 500GB)
- eSATA and USB 2.0 interfaces
- Compact desktop design with ventilation fan for excellent heat dissipation
- Supports JBOD & RAID (0, 1, 10) configurations
- eSATA and USB connection cables included
- Dimensions: 140 x 230 x 185mm (WxDxH)
- Compatible with Windows 2000/XP/2003/Vista/7, Mac OS 10.3.9 & above

USB 2.0 480Mbps High Speed

USB 3.0 & eSATA Quad 3.5" SATA HDD Enclosure

Connect four SATA hard drives to your computer's USB 3.0 or eSATA port

- External Enclosure for 4 x 3.5" SATA I or II hard drives
- Compact metal housing with integrated power supply
- External Interface: USB 3.0 5Gbps (backwards compatible with USB 2.0) & eSATA II 3Gbps
- Each drive installs as an individual drive/volume on your computer
- 4 HDDs mapped as individual volumes connected via one cable only
- 8cm low noise fan provides cooling
- Advanced Format 3TB support
- Supplied with eSATA and USB 3.0 connection cables
- Dimensions: 135 x 270 x 180mm (WxDxH)
- Compatible with XP/Vista and 7

USB 3.0 5 Gbit/s SuperSpeed

USB 2.0 & eSATA Quad Enclosure for 3.5" SATA Drives Part No. 42824

USB 3.0 & eSATA Quad Enclosure for 3.5" SATA Drives Part No. 43104

SAS / SATA Multilane / Infiniband Quad Drive Enclosure

High Speed SAS interface delivers lightning quick performance

- Supports four 3.5" SATA II hard drives of up to 2TB each (8TB total)
- SAS / SATA Multilane SFF-8470 interface
- Metal housing with built-in 8cm fan
- Provides RAID compatibility when used with a RAID controller
- Dimensions: 135 x 250 x 180mm (WxDxH)
- Compatible with Windows 2000/XP/2003/Vista/7, Mac OS 10.3.9 & above

SAS / SATA Multilane / Infiniband Quad Enclosure Part No. 42818

2.5" SATA Drive Docking Station

Built-in USB 2.0 Hub and Card Reader

- Combines your extra storage and expansion requirements into one handy, desktop design
- Hard drive enclosure for 2.5" SATA drives (hard drive not included)
- 2 Port USB 2.0 Hub
- Card Reader which supports SD (including SDHC, Mini-SD, MMC, RS-MMC), Memory Stick (including Duo and Pro Duo) and Micro-SD/Transflash/Memory Stick M2
- Supplied USB dual power cable allows the drive enclosure to be used with any USB equipped computer
- Supports Windows 2000/XP/Vista/7 and Mac OS 10 & above

USB 2.0 480Mbps High Speed

Docking Station for 2.5" SATA Drives Part No. 42839

IMPORTANT: These products are drive enclosures only, hard drives are not included!

Drive Enclosures & Docking Stations

USB 2.0 & eSATA Hard Drive Docking Station

Handy alternative to a drive enclosure

- Ideal for quickly connecting and disconnecting drives without the need to install then into a drive housing or PC case
- Dual interface - connects to your computer via eSATA or USB 2.0
- Supports 2.5" and 3.5" SATA hard drives (one drive at a time)
- Supplied with 0.9m USB and eSATA cables
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 10.3 & above

USB 2.0 & eSATA Hard Drive Docking Station Part No. 42785

USB 3.0 Hard Drive Docking Station

SuperSpeed alternative to a drive enclosure

- Ideal for quickly connecting and disconnecting drives without the need to install then into a drive housing or PC case
- Connects to your computer via SuperSpeed USB 3.0
- Supports 2.5" and 3.5" SATA hard drives (one drive at a time)
- Supplied with a 1m USB 3.0 cable
- Compatible with Windows XP/Vista/7 and Linux 2.6.31 & above

USB 3.0 Hard Drive Docking Station Part No. 43111

USB 2.0 & eSATA Hard Drive Cloning Station

Dual bay SATA hard drive dock with cloning function

- Allows bare SATA hard drives to be connected to a PC via an eSATA or USB 2.0 connection
- Cloning function allows a bit by bit clone (including operating system and partitions) of a source drive to a target drive
- Drives can be cloned without the need to connect to a PC
- Supports 2.5" and 3.5" SATA hard drives
- Supplied with 1m USB and eSATA cables
- Compatible with Windows ME/2000/XP/Vista/7, Linux, Mac OS 10.3 & above

USB 2.0 & eSATA Hard Drive Cloning Station Part No. 42797

USB 3.0 & eSATA Hard Drive Cloning Station

SuperSpeed hard drive dock with cloning function

- USB 3.0 SuperSpeed 5Gbps interface
- Innovative design accepts either 2.5" or 3.5" SATA disk drives
- Dual bay allows two hard drives to be connected simultaneously
- Ideal for system builders, technicians and IT departments
- Cloning station feature makes bit by bit clones (including Operating System and Partitions) of source HDDs onto target HDDs
- Standalone cloning functionality, no computer required
- Power supply and connection cables included
- Compatible with Windows XP/Vista/7 and Linux 2.6.31 & above

USB 3.0 & eSATA Hard Drive Cloning Station Part No. 43112

USB 2.0 Mini NAS Enclosure, IDE/SATA

Compact storage for your LAN

USB 2.0 Mini NAS Enclosure, IDE/SATA Part No. 42808

- Compact Network Attached Storage solution for PCs and Macs
- For use with IDE/ATA or SATA hard drives up to 750GB (not included)
- USB 2.0 port allows it to be used as a standard external hard drive
- RJ-45 10/100 Fast Ethernet network connection
- Low noise fan and aluminium top cover for heat dissipation
- Supplied with USB and Ethernet cables
- Compatible with Windows ME/2000/XP/Vista/7 & Mac OS X
- Dimensions: 162 x 162 x 47mm (WxDxH)

USB 2.0 480Mbps High Speed

IMPORTANT: These products are drive enclosures only, hard drives are not included!

Drive Enclosures

Personal Server Premium, IDE/SATA

With built-in print server and support for additional external storage

- RJ-45 10/100/1000Mbps Gigabit Ethernet connection
- For use with IDE or SATA hard drives up to 1TB (not included)
- Two USB 2.0 ports: one for connecting a printer, one for connecting additional external USB storage e.g. pen drive, hard disk
- Provides a web server for easy website hosting
- Built-in FTP server allows users to conveniently transfer files
- Embedded printer server for printer sharing
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 10 & above
- Dimensions: 75 x 205 x 135mm (WxDxH)

Personal Server Premium, IDE/SATA Part No. 32493

USB 2.0 480Mbps High Speed

SCSI Drive Enclosure for 3.5" & 5.25" Drives

Provides a versatile solution for mounting various drive types

- External enclosure for use with a variety of SCSI drives:
 - Half height and low profile 3.5" hard drives
 - Half height 5.25" drives • 3.5" tape drives
- External connectors: 2 x 68 Way Half-Pitch D Female (Clip or Screw type)
- Internal Connector: 1 x 68 Way Half-Pitch D Male
- Additional cable to convert to 50 Way Centronics connections
- Dimensions: 101 x 17 x 155 (WxDxH)
- Compatible with Windows ME/2000/XP/Vista, Linux, Mac OS 8.6 & above

SCSI Drive Enclosure for 3.5" & 5.25" Drives Part No. 20655

Heavy Duty DLT Enclosure

For use with a 5.25" full-height DLT drive

- External I/O Connection: 2 x 68 Way Half-Pitch D Female
- Internal Connection: 1 x 68 Way Half-Pitch D Male
- Sturdy metal housing
- Internal SCSI ID Cable
- Internal Cooling Fan
- Dimensions: 230 x 323 x 119mm (WxDxH)

Heavy Duty DLT Enclosure Part No. 20383

1U Rackmount Enclosure for Two Half Height DLT Drives

- Features two slots suitable for half height internal 5.25" DLT drives
- Internal connectors 2 x 68 Way SCSI
- External connectors: 2 x 68 Way SCSI
- 65W PSU and 3 cooling fans
- Rackmount brackets, power cable and installation screws included

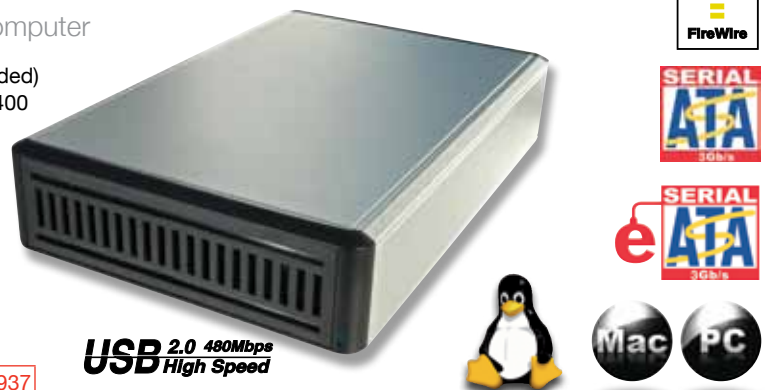

1U Enclosure for 2 DLT Drives Part No. 20811

Blu-Ray / DVD / CD Enclosure, eSATA, USB & FireWire

Easily connect a Blu-Ray, DVD or CD drive to your computer

- For use with 5.25" CD/DVD/Blu-Ray SATA or IDE drives (not included)
- Multi-interface external connections: eSATA, USB 2.0 & FireWire 400
- Aluminium design fan for heat dissipation
- Removable front bezel
- Supplied with an IDE / SATA drive converter
- Includes 0.8m eSATA, USB 2.0 and 6 Pin FireWire cables
- Dimensions: 170 x 270 x 53mm (WxDxH)
- Compatible with Windows 2000/XP/Vista/7, Linux, Mac OS 8.6 & above

Blu-Ray/DVD/CD Enclosure, eSATA, USB 2.0, FireWire Part No. 42937

USB 2.0 480Mbps High Speed

IMPORTANT: These products are drive enclosures only, hard drives are not included!

Drive Enclosures & Caddies

Blu-Ray / DVD / CD Enclosure, USB 3.0 SuperSpeed connection to your optical drive

- For use with 5.25" CD/DVD/Blu-Ray SATA or IDE drives (not included)
- SuperSpeed USB 3.0 connection
- Aluminium design fan for heat dissipation
- Removable front bezel
- Supplied with an IDE / SATA drive converter
- Includes 0.8m USB 3.0 cable
- Dimensions: 170 x 270 x 53mm (WxDxH)
- Compatible with Windows XP/Vista/7 and Linux 2.6.31 or higher

2012 New

USB 3.0 5 Gbit/s
SuperSpeed

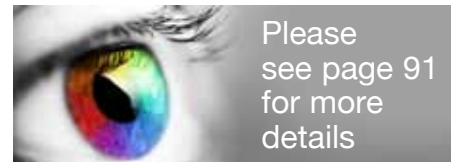

Blu-Ray/DVD/CD Enclosure, USB 3.0 Part No. 43137

USB 2.0 Data Dock

3.5" bay with mobile USB Hub, Card Reader & Hard Drive Trays

- Installs into a standard 3.5" floppy drive bay and connects to the motherboard's USB connection
- Supplied with 3 mobile data trays:
 - 2.5" IDE HDD Tray (drive not included, SATA trays available separately)
 - 4 Port USB 2.0 Hub
 - Multi-format Card Reader
- Two data trays can be used in the Data Dock at one time
- Each tray can also be connected directly to a USB port
- Protective wallet for transporting data trays
- USB Dual Power Cable for powering the data trays when used externally
- Compatible with Windows 98SE/ME/2000/XP/Vista/7, Linux and Mac OS 9.0 & above

Please see page 91 for more details

USB 2.0 480Mbps
High Speed

USB 2.0 Data Dock, IDE Version, Black Part No. 42977

2.5" HDD Data Tray IDE/ATA, Black Part No. 42979

2.5" HDD Data Tray SATA, Silver Part No. 42988

2.5" HDD Data Tray SATA, Black Part No. 42989

USB 2.0 Data Dock, 2 x SATA

3.5" bay with 2 x SATA Hard Drive trays

- Installs into a standard 3.5" floppy drive bay and connects to the motherboard's USB connection
- USB 2.0 interface, backwards compatible with USB 1.1
- Add two 2.5" SATA hard drives to your desktop computer
- Simple insertion/ejection mechanism
- Supplied with 2 SATA HDD trays
- Compatible with Windows 98SE/ME/2000/XP/Vista/7, Mac OS 9.0 & above and Linux

2012 New

USB 2.0 480Mbps
High Speed

USB 2.0 Data Dock, 2 x SATA Part No. 42687

2.5" to 3.5" SATA Drive Adapter

Allows 2.5" drives to be used in 3.5" bays and enclosures

- Simple adapter tray which allows you to populate a 3.5" SATA bay with a 2.5" SATA hard drive
- The 2.5" drive is easily inserted into the adapter tray with no fixing required, the tray is then installed into the 3.5" bay
- Internal 2.5" SATA connector with external 3.5" SATA 22 way connection
- Plastic housing with mechanical eject function

2012 New

2.5" to 3.5" SATA Drive Adapter Part No. 20979

5.25" Drive Bay for 2 x 2.5" SATA Drives

Add convenient removable storage to your PC

- Features removable modules for two 2.5" SATA drives (up to 15mm in height)
- Compatible with SATA I and II drives
- Simple to install and use with tool free hard drive installation
- Hot swap support
- Fits into a standard 5.25" expansion bay

5.25" Bay for 2 x 2.5" SATA Drives Part No. 20968

IMPORTANT: These products are drive enclosures only, hard drives are not included!

RAID Back Plane Systems

Back Plane System for 3.5" SAS / SATA Drives

Provides hot-swap expansion bays for SAS / SATA hard drives

- Two versions available to support three or five 3.5" SAS / SATA 1.0a or II hard drives
- Features 'caddy-less' drive ejection system
- Supports "Hot Swap" function
- LED indicators for power and hard disk drive access
- Cooling fans for efficient ventilation
- Lockable drive trays
- 3 drive version fits into two 5.25" drive bays; 5 drive version fits into three 5.25" bays
- External Connectors (depending on version):
 - 6 or 10 x SATA 7 Pin (primary & secondary data channels)
 - 1 or 2 x 5.25" Power
- Dimensions (WxDxH):
 - 3 drive version: 146 x 85 x 200mm
 - 5 drive version: 146 x 127 x 195mm

2012 New

3 Drive Version

5 Drive Version

RAID Back Plane System for 3 SAS / SATA Drives	Part No. 21974
RAID Back Plane System for 5 SAS / SATA Drives	Part No. 21975

Back Plane System for 2.5" SAS / SATA Drives

Add up to six 2.5" HDDs to a single 5.25" bay

- Two versions available to support four or six 2.5" SAS / SATA 1.0a or II hard drives
- 4 bay version supports drives up to 12.5mm in height; 6 bay supports drives up to 9.5mm
- Fits into a standard 5.25" drive bay
- Supports "Hot Swap" function
- High quality aluminium housing for efficient cooling
- LED indicators for hard disk drive activity
- Cooling fans for effective ventilation
- Supplied with caddies for each drive
- External Connectors (4 drive version): 8 x SATA 7 Pin (primary & secondary data channels); 15 Way SATA Power
- External Connectors (6 drive version): 6 x SATA 7 Pin; 5.25" Power
- Dimensions (WxDxH):
 - 4 drive version: 146 x 173 x 41mm
 - 6 drive version: 146 x 180 x 41mm

2012 New

4 Drive Version

6 Drive Version

Back Plane System for 4 x 2.5" SAS / SATA Drives	Part No. 21981
Back Plane System for 6 x 2.5" SAS / SATA Drives	Part No. 21982

SAS / SATA Back Plane Modules For servers, PCs and external storage systems

- 3.5" and 2 x 2.5" versions available
- 3.5" drive version fits into a 5.25" expansion bay, the 2.5" drive version fits into a 3.5" expansion bay
- SAS and SATA II/1.0a drive support (see table below)
- Hot plug support
- Special 'No-Scratch' connector protects the hard drive contacts
- Silicon rubber mounts to reduce noise and vibration
- 3.5" drive versions features a lockable drive eject handle with automatic drive release system

Drive mounts into the module without the need for a caddy

SATA Back Plane Module, 3.5" Drive Version	Part No. 20971
SATA Back Plane Module, 2 x 2.5" Drive Version	Part No. 42971
SAS / SATA Back Plane Module, 3.5" Drive Version	Part No. 21970

IMPORTANT: These products are drive enclosures only, hard drives are not included!

Drive Storage, Rails, Brackets & Fans

Hard Drive Wallets

Neat carry case for your hard drives

- 2.5" and 3.5" hard drive versions
- Features two compartments - one for the drive and one for a cable or paperwork etc.
- Made from leather effect PVC material
- Dimensions: 130 x 160 x 35mm (WxDxH)

3.5" Hard Drive Wallet	Part No. 40684
2.5" Hard Drive Wallet	Part No. 40683

3.5" HDD Storage Case

Protect your HDD from dust, water and moisture

- Suitable for SATA & IDE 3.5" HDDs
- Antistatic protection
- Foam padding to provide protection from vibration/shock
- Stackable
- Includes stickers for labelling
- Dimensions: 115 x 158 x 35mm

3.5" HDD Storage Case	Part No. 40682
-----------------------	----------------

Universal 2.5" HDD to 3.5" Bay, IDE

Includes data and power adapter

- 2.5" IDE hard disk drive installation kit
- Includes drive bracket and PCB Data+Power adapter

Universal 2.5" HDD to 3.5" Bay, IDE	Part No. 40528
-------------------------------------	----------------

Low Cost Universal 3.5" FDD to 5.25" Bay

One piece plastic frame

- 3.5" floppy disk drive installation kit

Low Cost Universal 3.5" FDD to 5.25" Bay, Black	Part No. 40515
---	----------------

Universal 3.5" HDD to 5.25" Bay

Mount a 3.5" hard disk drive into a standard 5.25" drive bay

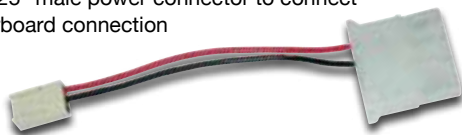

- LED indicator with wiring and 2 pin connector (Female)
- 2 x mounting brackets
- 2 x screw packs
- Colour: black

Universal 3.5" HDD to 5.25" Bay, Black	Part No. 40526
--	----------------

12V Fan Power Adapter Cable

- Allows fans with a 5.25" male power connector to connect to 3 Pin male motherboard connection

12V Fan Power Adapter 5.25" Power Female to 3 Pin IDC Female	Part No. 33052
--	----------------

Cooling Fan, 80mm

Ideal for PC cases!

- Dimensions: 80 x 80 x 25mm
- Bearing type: 2 ball
- Connectors: 5.25" Male, 5.25" Female
- Power rating: 12V DC, 0.15A
- Fan speed: 2500 rpm +/- 10%

Cooling Fan, 80 x 80mm	Part No. 73635
------------------------	----------------

Universal 3.5" HDD to 5.25" Rail

Install 3.5" drives into a 5.25" bay

- Hard disk drive installation kit, short bracket only
- Includes left and right rails and screws

Universal 3.5" HDD to 5.25" Rail	Part No. 40545
----------------------------------	----------------

ATX PSUs & Installation Hardware

ATX Power Supplies

Our range of high quality ATX power supplies are perfect for system builders and PC enthusiasts. The selection ranges from 430W to 750W versions. All are supplied with installation thumbscrews, cable tie wraps and a UK mains cable. They're ideal for replacing faulty units, new systems and upgrading and they're backed by our 2 year warranty and full technical support.

430W ATX PSU

- Input: 230V AC 4.5A 50~60Hz
- 12cm cooling fan (automatically regulated)
- Features the following connectors:
 - 1 x 24 pin (20+4), 1 x 4 pin (P4 CPU) ATX motherboard connectors
 - 3 x SATA power connectors (with 3.3V core)
 - 3 x 5.25" Molex type HDD/DVD power connectors
 - 1 x 3.5" type floppy drive power connector

500W ATX PSU

- Input: 230V AC 5A 50~60Hz
- 12cm cooling fan (automatically regulated)
- Features the following connectors:
 - 1 x 24 pin (20+4), 1 x 4 pin (P4 CPU) ATX motherboard connectors
 - 3 x SATA power connectors (with 3.3V core)
 - 2 x 5.25" Molex type HDD/DVD power connectors
 - 1 x 3.5" type floppy drive power connector

530W ATX PSU

- Input: 230V AC 5A 50~60Hz
- 12cm cooling fan (automatically regulated)
- Features the following connectors:
 - 1 x 24 pin (20+4), 1 x 4 pin (P4 CPU) ATX motherboard connectors
 - 4 x SATA power connectors (with 3.3V core)
 - 4 x 5.25" Molex type HDD/DVD power connectors
 - 1 x 3.5" type floppy drive power connector

650W ATX PSU

- Input: 230V AC 5A 50~60Hz
- 12cm cooling fan (automatically regulated)
- Features the following connectors:
 - 1 x 24 pin (20+4), 1 x 4/8 pin (P4 CPU), 1 x 6+2 pin PCIe ATX motherboard connectors
 - 2 x SATA power connectors (with 3.3V core)
 - 4 x 5.25" Molex type HDD/DVD power connectors
 - 1 x 3.5" type floppy drive power connector

750W ATX PSU

- Input: 230V AC 5A 50~60Hz
- 13.5cm cooling fan (automatically regulated)
- Features the following connectors:
 - 1 x 24 pin (20+4), 1 x 4/8 pin (P4 CPU), 1 x 6+2 pin PCIe ATX, 1 x 6 pin PCIe motherboard connectors
 - 6 x SATA power connectors (with 3.3V core), 6 x 5.25" Molex type HDD/DVD power connectors
 - 2 x 3.5" type floppy drive power connector

430W ATX PSU	Part No. 73260
500W ATX PSU	Part No. 73263
530W ATX PSU	Part No. 73261
650W ATX PSU	Part No. 73265
750W ATX PSU	Part No. 73266

Security Slot Locking Bolt

Secure your notebook or TFT monitor

- Inserts into the security slot found on most notebook computers and TFTs and slides together to close
- Passing a security cable or lock through the bolt fastens it into place
- Supports cables/locks with a maximum diameter of 5mm

Security Slot Locking Bolt Part No. **20909**

PC Installation Screws

For general purpose PC use

- 50 x Screw 6-32 UNC x 6mm
- Supplied in a pack of 50

PC Installation Screws, 50 x Screw 6-32 UNC x 6mm Part No. **66000**

PC Case Security Screws

Replaces your existing case screws for extra security

- 4 security screws and 1 key

PC Case Security Screws Part No. **40258**

Tools & Tool Kits

Network Tool Kit Pro

Compact tool kit for network installers and engineers

- Combo crimp tool with integral cable cutter/stripper for use with 4, 6 and 8 pin RJ series crimp connectors
- Co-axial cable stripper for use with cables of 4-12mm in diameter
- LAN cable tester with a passive module for remote testing of pre-installed cables (battery included)
- 12 x RJ-45 crimp plugs
- 12 x coloured boots
- Supplied in a tough and lightweight carry case

Network Tool Kit Pro Part No. 43048

Cable & Satellite TV Installers Tool Kit

Handy kit for installers and engineers

- Compression crimp tool
- Cable cutting tool
- Co-axial cable stripper suitable for 4-12mm diameter cables
- 8 x F-Type compression plugs supplied (additional packs of 10 also available)
- Supplied in a tough and lightweight carry case

Cable and Satellite TV Installers Tool Kit	Part No. 43055
Pack of 10 F-Type Compression Plugs	Part No. 43056

RJ-45 Crimp Tool

Cuts, crimps and strips

- Crimp tool for 8 Way RJ-45 type connectors
- Integral cable cutter and stripper

RJ-45 Crimp Tool Part No. 43208

Combo Crimp Tool

One tool, many connectors

- For use with RJ-11, RJ-12, RJ-45 and DEC crimp plugs
- Integral cable cutter/stripper

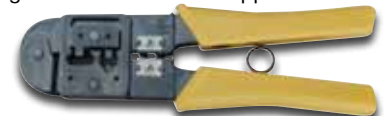

Combo Crimp Tool Part No. 43216

RJ-12/RJ-11/RJ-10 BT Plug Crimp Tool

Cuts, crimps and strips

- Crimp tool for RJ-12, RJ-11, RJ-10 or BT crimp plugs
- Integral cable cutter and stripper

RJ-12/11/10/BT Crimp Tool Part No. 40197

Professional 110 IDC Punchdown Tool

High and low impact adjuster

- Low/high impact settings
- Reversible bit allows wire tails to be cut off
- Heavy duty

Professional 110 IDC Punchdown Tool Part No. 43223

110 IDC Punchdown Tool

Low cost solution

- Built-in cable stripper

110 IDC Punchdown Tool Part No. 43222

Speed-Term Crimp Tool

For use with 90 degree keystone jacks

- Non impact operation
- Terminates and cuts eight conductors in a single operation
- Adjustable insertion, cutting depth via built-in adjuster

Speed-Term Crimp Tool Part No. 43219

Precision Service Kit

An ideal technical engineer's tool kit

- ⊕ 3 x Philips drivers: #00, #0, #1
- ⊖ 3 x Flathead drivers: 2mm, 2.4mm, 3mm
- 4½" Side Cutters
- 5½" Long Nose Pliers
- 5½" Long Nose Pliers with 45° angle
- 5½" Flat Nose Assembly Pliers
- 5½" Needle Nose Pliers
- Supplied in a handy carry case

Precision Service Kit Part No. 43016

Compact Service Kit

Maintenance essentials

- ⊕ 2 x Philips drivers: #0, #1
- ⊖ 2 x Flathead drivers: 3mm, 5mm
- 2 x Nut drivers: 5mm, 7mm
- ★ Driver with T10 + T15 Torx bit
- IC Extractor
- Tweezers
- 3 claw pick-up tool
- Spare parts tube
- Supplied in a handy carry case

Compact Service Kit Part No. 43041

Tools & Tool Kits

Professional Torx Set

Ideal tamper proof Torx set for precision technical work

- ★ 6 x Tamper proof Torx drivers: T7H, T8H, T9H, T10H, T15H, T20H
- Supplied in a compact carry case

Professional Torx Set Part No. 43015

Precision Torx Set

Ideal for close precision Torx work

- ★ 5 x Torx drivers: T6, T7, T8, T9, T10
- Supplied in a compact carry case

Precision Torx Set Part No. 43012

Professional Screwdriver Set

Ideal for precision technical work

- ⊕ 3 x Philips drivers: #00, #0, #1
- ⊖ 4 x Flathead drivers: 1.6mm, 2mm, 2.4mm, 3mm
- Supplied in a compact carry case

Professional Screwdriver Set Part No. 43013

Precision Screwdriver Set

Ideal for close precision work

- ⊕ 3 x Philips drivers: #00, #0, #1
- ⊖ 3 x Flathead drivers: 1.4mm, 1.8mm, 2.4mm
- Supplied in a compact carry case

Precision Screwdriver Set Part No. 43011

Anti-Static Service Kit

For safe handling of electronic components

This lightweight static dissipative mat contains two pockets for storage and folds up neatly for carrying. An elasticated wrist strap connects to the mat via a coiled cord. A 1.95m straight cord terminates in a crocodile clip for connecting to ground.

- Static dissipative mat with two storage pockets
- Mat size: 600 x 600mm
- 1.95m ground cord with crocodile clip
- 1.5m coiled wrist strap cord
- Elasticated wrist strap

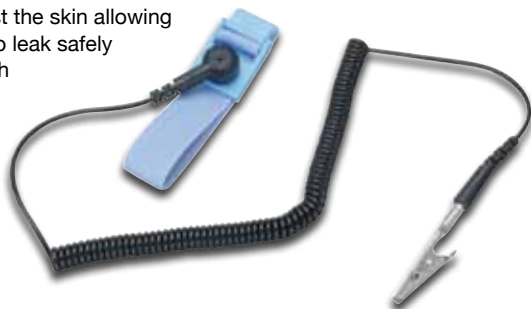

Anti-Static Service Kit Part No. 43080

Anti-Static Wrist Strap

Prevent static blow-outs

- Helps prevent electrostatic charge building up when handling CMOS and other devices prone to electrostatic damage
- Conductive threads in the fabric press against the skin allowing the charge to leak safely away to earth

Anti-Static Wrist Strap Part No. 40165

Anti-Static Bags

Protects static sensitive components

- Available in three different sizes
 - 100 x 150mm
 - 150 x 200mm
 - 255 x 300mm
- Supplied in packs of 50

Anti-Static Bags, 100 x 150mm, Pack of 50	Part No. 00240
Anti-Static Bags, 150 x 200mm, Pack of 50	Part No. 00241
Anti-Static Bags, 255 x 300mm, Pack of 50	Part No. 00242

Tool Kits, Testers & Torches

34 Piece Premium Tool Kit Ideal for field service engineers

Designed for computer engineers and network technicians, this high quality 34 piece tool kit features a wide selection of essential tools. The kit is supplied in a robust vinyl hard case which features both a handle and shoulder strap for easy carrying.

Soldering Equipment

- 30W Soldering iron
- Solder • De-soldering pump
- Soldering iron stand

Screwdrivers

- 3 Flathead - 2mm, 2.4mm, 3.0mm
- 3 Philips - #0, #00, #1
- Flathead (Chrome Vanadium):
3.2mm x 75mm, 5mm x 75mm
- Philips (Chrome Vanadium):
3mm x 75mm #0, 5mm x 75mm #1,
6mm x 100mm #2
- Neon mains tester screwdriver

Miscellaneous

- Anti-static wrist strap with crocodile clip
- 2 Piece alignment tool set (2-in-1)
- Storage box with 6 compartments for storing small components, screws etc.
- IC Extractor • Utility knife
- Vinyl carry-case with handle and shoulder strap
- Case dimensions: 350 x 300 x 110mm (WxDxH)
- Weight (including tools): 3.3kg

Pliers & Spanners

- 8" Wire stripper pliers
- 5" Side cutter pliers
- 5½" Long nose pliers
- 6" Combination pliers
- 8" RJ-45 crimping tool
- 8 Piece mini combination spanner set (5, 5.5, 6, 7, 8, 9, 10, 11mm)

34 Piece Premium Tool Kit	Part No. 43042
---------------------------	----------------

Network Cable Analyser

Quickly analyses your RJ-45 network cables, sockets and patch panels

- Compact cable tester provides automatic identification of cable type, such as straight-through patch cables, crossover cables, token ring cables and many more
- Cable type can be identified even if it is faulty
- Provides fault type identification for all supported cables such as: swapped connections, broken connections and shorted lines
- Includes patch cables for testing network sockets and patch panels
- Displays cable making instructions when not testing cables
- Supports cable lengths of up to 150m
- Supplied in a robust carry case
- Optional sets of 8 coded terminators are available which allow you to identify, analyse and number many cable runs in quick succession

Case contents

Network Cable Analyser	Part No. 43033
Optional Terminators (Coded 1 to 8)	Part No. 43034
Optional Terminators (Coded 9 to 16)	Part No. 43051
Optional Terminators (Coded 17 to 24)	Part No. 43052

ATX Power Supply Tester

Compact and easy to use PSU tester with LCD screen

- Allows you to quickly and easily test a computer's ATX power supply
- LCD screen clearly shows the voltage of the connected inputs
- Accurate voltage indicator (+/- 0.1V) tests:
 - +12V1 / +5V / +3.3V / +5V / 5V Standby / +12V2 / -12V
- Connections:
 - 20 Pin ATX PSU / 24 Pin ATX PSU
 - 4P / 6P / 8P
 - 5.25" type power / 3.5" type power / SATA power
- Compact aluminium case: 126 x 63 x 17mm (WxDxH)

ATX Power Supply Tester	Part No. 43058
-------------------------	----------------

Super Bright LED Torches

Ideal for use in the car, home or office

- 28 super bright LEDs with an expected life of 100,000 hours
- Tough, weatherproof, aluminium alloy design
- Available in silver or black
- Requires 3 x AAA batteries (not included, see table below)

Super Bright LED Torch, Silver	Part No. 43072
Super Bright LED Torch, Black	Part No. 43071
AAA Batteries, Pack of 10	Part No. 84853

Testers

LAN & USB Cable Tester

Quick and easy testing of USB and network cables

- Compact, palm sized unit for testing USB and network cables
- Can be used to read and check the pin-out configuration of cables both before and after installation
- Includes a passive module for remote testing of pre-installed cables
- Auto/manual scan modes
- Separate status LED for each wire
- Carry case included
- Requires 9V PP3 battery (Part No. 84856, see page 195)

Tests these following cables

- USB (Type A/A, Type A/B)
- RJ-45 (UTP/STP)
- BNC
- Co-axial
- RJ-11/ RJ-12 modular cables

LAN & USB Cable Tester

Part No. 43009

Digital Multimeter Handy, pocket size

- 3.5 digit multimeter
- Complete with two probes
- Overload protection
- Battery included

Tests

- DC/AC Voltage
- DC/AC Current
- Resistance
- Diode Test
- Audible Continuity
- hFE Transistor (NPN & PNP)

Digital Multimeter

Part No. 43028

Tester for HDMI Cables

Quick and easy device for testing HDMI Cables!

This HDMI cable tester is a compact, palm sized unit for testing HDMI cables. It can be used to read and check the pin-out configuration of cables before and after installation. A separate passive module is included for remote testing of pre-installed cables.

- Auto/manual scan modes
- Separate status LED for each wire/function
- Requires 9V PP3 battery (Part No. 84844)
- Dimensions: 250 x 140 x 50mm (WxHxD)

Tester for HDMI Cables

Part No. 43062

Universal Cable Tester

Tests most commonly used computer cables

- Allows you to quickly check open, shorted, crossed, miswired and continuity problems
- Tests most combinations of 9/15/25 Way D, 15 Way HD, BNC, RJ-45, 36 Way Centronics (Male), USB and IEEE 1394 FireWire cables
- Auto/manual scan modes
- Requires 9V PP3 battery (Part No. 84856, see page 195)

Universal Cable Tester

Part No. 43054

Multi-Function Cable Tester

Tests and analyses a comprehensive range of connector types and commonly used cables

- Portable design - quick and easy to use
- Checks open, shorted, crossed, miswired and continuity problems
- Supports 18 types of cables (See below for more details)
- Alphanumeric LCD with backlight function
- USB connection allows up to 100 test results to be uploaded to a PC
- Low voltage indicator
- Includes robust carry case
- Requires 9V PP3 battery (Part No. 84856, see page 195)

The following cables are supported

- IDC 40 Pin
- IDC 34 Pin
- SATA
- F-Type
- BNC
- RJ-11/RJ-12
- RJ-45/48
- 6 Pin FireWire
- 4 Pin FireWire
- USB A to B
- 15 Way Male & Female
- 9 Way Male & Female
- RCA Phono
- DVI Male to Male
- HDMI

Multi-Function Cable Tester

USB Hubs

4 Port USB 2.0 Smart Hub

Compact USB hub

- Bus or self-powered; available with or without power supply
- Compatible with USB equipped PCs and Macs
- Dimensions: 40 x 70 x 25mm (WxDxH)
- Cable length: 50cm

USB 2.0 480Mbps High Speed

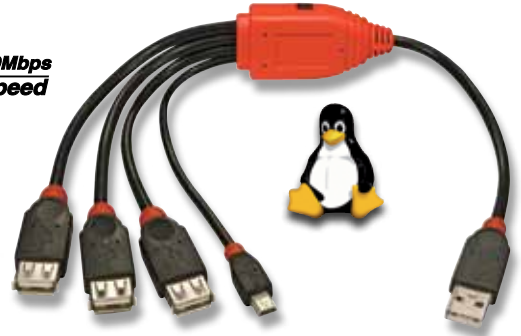

4 Port USB 2.0 Smart Hub (without Power Supply)	Part No. 42998
4 Port USB 2.0 Smart Hub Pro (with Power Supply)	Part No. 42999
Optional Power Supply	Part No. 70229

4 Port USB 2.0 Cable Hub

With 3 USB Type A connections and 1 Type Mini-B

- Adds 4 USB 2.0 ports to your computer, but unlike conventional USB hubs the ports are not fixed into a housing
- Flexible solution - no longer are you limited by the gap between ports when connecting USB accessories to your computer
- A USB Mini-B male connector allows for quick and easy connection to MP3 players, mobile phones and drive housings
- Compatible with USB equipped PCs and Macs
- Length: 35cm

USB 2.0 480Mbps High Speed

4 Port USB 2.0 Cable Hub	Part No. 42836
--------------------------	----------------

7 Port USB 2.0 Hub with Sliding Port Cover

The easy way to connect up to 7 devices to your computer

- 7 High Speed auto-sensing USB 2.0 ports
- USB 1.1 and USB 2.0 compliant
- Integrated 30cm USB cable
- Sliding cover to protect ports from dust
- Compatible with all USB equipped PCs and Macs
- Power supply included
- Dimensions: 160 x 35 x 20mm (WxDxH)

USB 2.0 480Mbps High Speed

7 Port USB 2.0 Hub with Sliding Port Cover	Part No. 42786
--	----------------

USB 2.0 4 Port In-Desk Hub

Convenient, space saving design

- Installs into the cable grommet found on many office desks
- Suitable for 80mm (3") diameter grommets
- Provides 4 High Speed USB 2.0 ports
- Compatible with USB equipped PCs and Macs
- 2m cable length

USB 2.0 480Mbps High Speed

USB 2.0 4 Port In-Desk Hub	Part No. 42966
----------------------------	----------------

Industrial 7 Port USB 2.0 Metal Hub

Hard-wearing, perfect for industrial applications

- USB 2.0 Hub with 7 high speed auto-sensing ports
- USB 1.1 and USB 2.0 compliant
- Shielded metallic construction
- Integrated brackets for mounting
- Compatible with USB equipped PCs and Macs
- Power supply included
- Dimensions: 16.5 x 4.8 x 2.4cm (WxDxH)

USB 2.0 480Mbps High Speed

USB 2.0 7 Port Industrial Hub	Part No. 42794
-------------------------------	----------------

USB & FireWire

Illuminated Mouse Pad with 4 Port USB 2.0 Hub

The perfect work surface for your mouse

- Provides 4 High Speed USB 2.0 ports
- LED mouse pad emits a cool blue glow
- Bus powered, with connection for optional power supply
- Can be used with USB equipped PCs and Macs

USB 2.0 480Mbps High Speed

Illuminated Mouse Pad with USB 2.0 Hub, Black	Part No. 42996
Optional Power Supply	Part No. 70229

Note: Picture for illustration only, mouse not included.

4 Port Internal USB 2.0 Hub

Connects your devices to the front of your PC

- Fits into a 3.5" or 5.25" drive bay (using supplied adapter frame)
- Connects to an internal USB 2.0 port and power supply
- Supplied back plate for routing the internal cables to external ports
- Compatible with all USB equipped PCs

USB 2.0 480Mbps High Speed

4 Port Internal 3.5" USB 2.0 Hub	Part No. 32882
----------------------------------	-----------------------

USB & eSATA Combo Hub

Connects 5 USB devices and an eSATA drive housing to 1 USB port on your PC or Mac

- Combines a 5 port USB 2.0 hub with a USB to eSATA adapter
- USB 2.0 interface
- Bus powered
- Supplied with USB connection cable
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 9.0 & above
- Dimensions: 100 x 11 x 61mm (WxDxH)

USB 2.0 480Mbps High Speed

USB & eSATA Combo Hub	Part No. 42854
-----------------------	-----------------------

4 Port USB 3.0 Desktop Hub SuperSpeed, stylish desktop USB 3.0 hub

This stylish LINDY USB 3.0 Desktop Hub is perfect for use with newer USB 3.0 devices such as drive enclosures. Backwards compatible with USB 1.1 and USB 2.0 peripherals each of the 4 USB 3.0 ports support transfer speeds of up to 5Gbps.

- USB 3.0 SuperSpeed transfer rate up to 5 Gbps
- Backwards compatible with USB 2.0 and USB 1.1
- Provides 4 USB 3.0 A Female downstream ports
- LED indicators for power / link
- Plug & play, hot swap, no extra driver required
- Supplied with a USB 3.0 Type A to B cable
- Includes a 5V 3A Multi-Country PSU
- Compatible with Windows XP/Vista/7, Linux Kernel 2.6.31 and above
- Dimensions: 96 x 63 x 16mm (WxDxH)

4 Port USB 3.0 Desktop Hub	Part No. 43132
----------------------------	-----------------------

2012 New
USB 3.0 5 Gbit/s SuperSpeed

For our range of USB 3.0 Cables, please see page 138

USB 3.0 5 Gbit/s SuperSpeed

USB 2.0 4 Port Sharing Hub

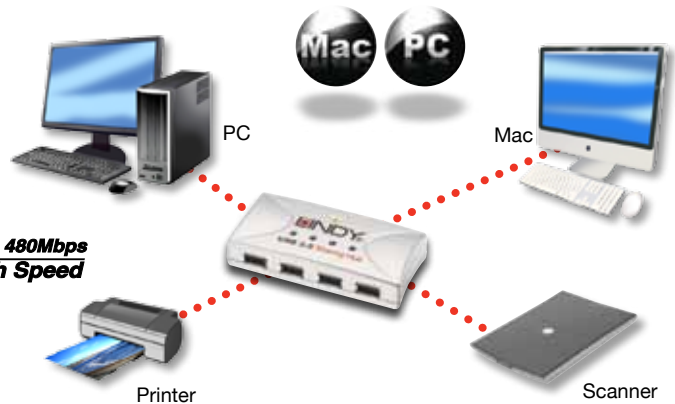

Shares up to 4 USB 2.0 devices between 2 computers

The LINDY USB 2.0 Sharing Hub is a really useful device which combines a USB hub with a USB switch in one compact unit. With this sharing hub two computers can share up to 4 USB devices. A switch allows you to select which computer has access to the hub and the connected devices.

- Easy, cost effective solution for sharing USB scanners, printers and other peripherals between 2 computers
- Supports USB 2.0 and USB 1.1 devices
- Self or bus-powered with external power supply included
- Maximum cable lengths: 2m (input), 2m (output)
- Type A to B USB cable required for each computer (see page 137)
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 8.6 & above
- Dimensions: 105 x 50 x 20mm (WxDxH)

USB 2.0 480Mbps High Speed

USB 2.0 4 Port Sharing Hub

Part No. 42887

2 Port USB 3.0 Switch

Allows 2 computers to share one USB 3.0 device

- Can be combined with a USB 3.0 hub to share multiple devices (see page 89)
- Supports USB 3.0 Super Speed 5Gbps
- Backward compatible with USB 2.0/1.1 devices
- Bus-powered so no external power supply is required
- Connectors: 1 x USB 3.0 Type A Female (USB Device) and 2 x USB 3.0 Type B Female (Computer)
- Push button switching
- A Type A to Type B USB 3.0 cable is required for each computer and device connection, see page 138
- Compatible with all USB 3.0 equipped computers
- Dimensions: 42 x 68 x 21mm (WxDxH)

2012 New

USB 3.0 5 Gbit/s SuperSpeed

2 Port USB 3.0 Switch

Part No. 43140

2 and 4 Port USB 2.0 Switches

Allows up to 4 computers to share one USB 2.0 device

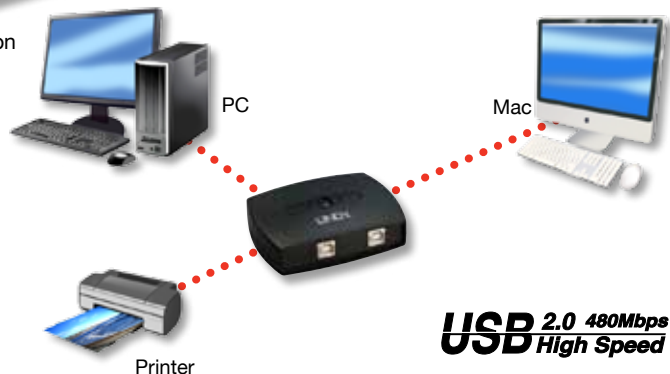

- 2 and 4 port versions available
- Ideal for USB printer and scanner sharing
- Can be combined with a USB hub (see page 88) to share multiple devices, e.g. printers, scanners, etc
- Supports USB 1.1 and USB 2.0 devices
- Bus-powered so no external power supply is required
- Electronic switching via push button or from the PC keyboard hotkeys (not available for Mac and SUN computers)
- A Type A to B USB cable (not included) required for connection (see page 137)
- Compatible with all USB equipped computers including PCs and Macs
- Dimensions: 94 x 63 x 25mm (WxDxH)

2 port version

4 port version

USB 2.0 480Mbps High Speed

USB 2.0 Docking Station for 2.5" SATA Hard Drives

Built-in USB 2.0 Hub and Card Reader

- Combines your extra storage and expansion requirements into one handy, desktop design
- Hard drive enclosure for 2.5" SATA drives (hard drive not included)
- 2 Port USB 2.0 Hub
- Card Reader which supports SD (including SDHC, Mini-SD, MMC, RS-MMC), Memory Stick (including Duo and Pro Duo) and Micro-SD/Transflash/Memory Stick M2
- Supplied USB dual power cable allows the drive enclosure to be used with any USB equipped computer
- Supports Windows 2000/XP/Vista/7 and Mac OS 10 & above

Drive in Dock

USB 2.0 Docking Station for 2.5" SATA Drives Part No. 42839

USB 2.0 Data Dock 3.5" bay with mobile USB Hub, Card Reader & Hard Drive Trays

The USB 2.0 Data Dock is a very compact unit that allows you to add a built-in USB hub, memory card reader and 2.5" hard drive to your desktop computer.

- Installs into a standard 3.5" floppy drive bay and connects to the motherboard's USB connection
- USB 2.0 interface, backwards compatible with USB 1.1
- Supplied with 3 mobile data trays:
 - 2.5" IDE HDD Tray (drive not included, SATA trays available)
 - 4 Port USB 2.0 Hub
 - Multi-format Card Reader
- Two data trays can be used in the Data Dock at one time
- Each tray can also be connected directly to a USB port
- Protective wallet for transporting data trays
- Includes a USB Dual Power Cable for powering the data trays when used with an external USB connection
- Compatible with Windows 2000/XP/Vista/7 and Mac OS 9.0 & above

USB 2.0 Data Dock, IDE Version, Black Part No. 42977

2.5" HDD Data Tray IDE/ATA, Black Part No. 42979

2.5" HDD Data Tray SATA, Silver Part No. 42988

2.5" HDD Data Tray SATA, Black Part No. 42989

Card Reader Slots

- CompactFlash (external connection only)
- MemoryStick, MS Pro, MS ROM, MS Duo
- xD, SmartMedia
- SD, mini-SD, MMC

USB 2.0 Data Dock, 2 x SATA

3.5" bay with 2 x SATA Hard Drive trays

- Installs into a standard 3.5" floppy drive bay and connects to the motherboard's USB connection
- USB 2.0 interface, backwards compatible with USB 1.1
- Add two 2.5" SATA hard drives to your desktop computer
- Simple insertion/ejection mechanism
- Supplied with 2 SATA HDD trays
- Compatible with Windows 98SE/ME/2000/XP/Vista/7, Mac OS 9.0 & above and Linux

USB 2.0 Data Dock, 2 x SATA Part No. 42687

IMPORTANT: These products are drive enclosures only, hard drives are not included!

USB Docking Stations

USB 2.0 Docking Station DVI-I

Connect a monitor and USB peripherals to a notebook using one cable

- Eliminates the need for constant plugging and unplugging of cables
- DVI-I Interface: Supports DVI-D and VGA monitors
- Max Resolution: 1920 x 1200
- Supports Extend and Mirror
- USB Interface:
- USB 2.0 Upstream Port for connection to notebook (USB Type B Female)
- 4 Port USB 2.0 Hub (2 Front/2 Back)
- USB 1.1 and USB 2.0 compatible
- Audio In/Out
- Fast Ethernet Port (RJ-45 10/100Mbps)
- Power supply and USB Type A Cable and DVI/VGA Adapter included
- Compatible with Windows 2000/XP/Vista & 7
- Dimensions: 35 x 87 x 155mm (WxDxH)

USB 2.0 480Mbps High Speed

USB 2.0 Docking Station, DVI-I

Part No. 42620

USB 3.0 Data & Charging Dock

Make your SuperSpeed USB 3.0 port twice as useful

- Create two ports from a single USB 3.0 connection
- One port supports SuperSpeed 5Gbps data transfer, the other supports 5V 900mA (max) high powered charging
- Perfect for use with an iPad, Tablet PC or Smartphone etc.
- Integrated 1.8m cable with USB 3.0 Type A connector
- Compatible with all USB 3.0 enabled computers

USB 3.0 Data & Charging Dock

Part No. 43129

USB 3.0 5 Gbit/s SuperSpeed

USB 2.0 Docking Station VGA

Connects your devices to your notebook using a single cable

- Expansion unit designed to connect your notebook computer to desktop accessories
- Includes VGA in/out ports for connecting a monitor
- Connects to your notebook using a single USB + VGA combo cable (included)
- 3 USB 2.0 Type A Female ports
- Serial RS-232 Port (9 Way D Male)
- Parallel Printer Port (25 Way D Female)
- PS/2 Keyboard and Mouse Ports
- Fast Ethernet Port (RJ-45 10/100Mbps)
- Power supply and USB + VGA combo cable included
- Compatible with Windows ME/2000/XP/Vista and 7
- Dimensions: 23 x 56 x 28mm (WxDxH)

USB 2.0 480Mbps High Speed

USB 2.0 Docking Station VGA

Part No. 42984

USB 2.0 Mini Docking Station

Connects multiple peripherals to your computer using a single USB connection

- 2 port USB 2.0 hub (USB Type A Female), backwards compatible with USB 1.1
- High-speed serial RS-232 port (9 Way D Male)
- Bi-directional parallel printer port (25 Way D Female)
- Bus powered - no external power supply required
- 1.2m USB Type A to B cable included
- Compact size: 59 x 72 x 24mm (WxDxH)
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 8.6 and above (USB hub and serial port support)

USB 2.0 480Mbps High Speed

USB 2.0 Mini Docking Station

Part No. 42975

USB 2.0 & eSATA Docking Station for 2.5" & 3.5" SATA Hard Drives

The versatile alternative to an external drive housing

- Connect and disconnect hard drives without the hassle of installing them into external drive housings
- Innovative design accepts either 2.5" or 3.5" SATA disk drives (only accepts one drive at a time)
- High speed USB 2.0 and eSATA interfaces
- Power supply and connection cables included
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 10 & above

USB 2.0 480Mbps High Speed

SERIAL eSATA 3Gbit/s

USB 2.0 & eSATA Docking Station

Part No. 42785

Please note: Serial port and parallel port security dongles are not supported by these docking stations

USB & FireWire

USB Cloning & Docking Stations

USB 3.0 Cloning Adapter for 2.5" & 3.5" SATA Hard Drives

Connect two SATA HDDs to your computer via SuperSpeed USB 3.0

- Dual Bay design allows two 2.5"/3.5" SATA drives to be connected simultaneously
- Makes bit by bit clones (including operating system and partitions) of source HDDs onto target HDDs
- Perfect for when upgrading to larger capacity HDDs
- Standalone cloning station, no computer required
- Accepts bare HDDs up to 2TB in capacity
- SuperSpeed USB 3.0 (5Gbps) interface
- Integrated USB 3.0 Cable approx. 50cm
- Power supply cable included
- Compatible with Windows ME/2000/XP/Vista/7 & Linux 2.6.31 or higher

USB 3.0 Cloning Adapter
for 2.5" & 3.5" SATA Hard Drives

Part No. 43160

USB 2.0 & eSATA Cloning Adapter for 2.5" & 3.5" SATA Hard Drives

Connect two SATA HDDs to your computer via either USB or eSATA

- Dual Bay design accepts either 2.5" or 3.5" SATA disk drives
- Makes bit by bit clones (including Operating System and Partitions) of source HDDs onto target HDDs
- Perfect for when upgrading to larger capacity HDDs
- Standalone cloning station, no computer required
- Accepts bare HDDs up to 2TB in capacity
- eSATA (3Gbps) and high speed USB 2.0 (480Mbps) interfaces
- Handy design allows two hard drives to be connected simultaneously
- Power supply and connection cables included
- Compatible with Windows ME/2000/XP/Vista/7, Linux and Mac OS X & above

USB 2.0 & eSATA Cloning Adapter
for 2.5" & 3.5" SATA HDDs

Part No. 42618

USB 2.0 480Mbps
High Speed

USB 3.0 Docking & Cloning Station for 2.5" & 3.5" SATA Hard Drives

SuperSpeed docking station with stand-alone cloning feature

- USB 3.0 SuperSpeed 5Gbps Interface
- Accepts bare HDDs up to 2TB
- Innovative design accepts either 2.5" or 3.5" SATA disk drives
- Dual bay design allows two hard drives to be connected simultaneously
- Cloning station feature makes bit by bit clones (including Operating System and Partitions) of source HDDs onto target HDDs
- Standalone cloning functionality, no computer required
- Perfect for upgrading to larger capacity HDDs
- Power supply and connection cables included
- Compatible with Windows XP/Vista/7 and Linux 2.6.31 & above

USB 3.0 5 Gbit/s
SuperSpeed

USB 3.0 Docking & Cloning Station
for 2.5" & 3.5" SATA Hard Drives

Part No. 43112

USB 3.0 Docking Station for 2.5" & 3.5" SATA Hard Drives

Versatile, SuperSpeed, alternative to an external drive housing

- SuperSpeed USB 3.0 transfer speeds of up to 5Gbps
- Innovative design accepts either 2.5" or 3.5" SATA disk drives (only accepts one drive at a time)
- Ideal for maintenance and installation of operating systems, data back up and removal
- Power supply and connection cables included
- USB 3.0 and 2.0 compatible
- Compatible with Windows XP/Vista/7 and Linux 2.6.31 & above

USB 3.0 Docking Station for 2.5" & 3.5" SATA HDDs

Part No. 43111

USB & FireWire

USB Docking Stations & Card Readers

USB 2.0 & eSATA Hard Drive Cloning Station

Dual bay SATA hard drive dock with cloning function

- Allows bare SATA hard drives to be connected to a PC via an eSATA or USB 2.0 connection
- Cloning function allows a bit by bit clone (including operating system and partitions) of a source drive to a target drive
- Drives can be cloned without the need to connect to a PC
- Supports 2.5" and 3.5" SATA hard drives
- Supplied with 1m USB and eSATA cables
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 10.3 & above

USB 2.0 480Mbps High Speed

USB 2.0 & eSATA Hard Drive Cloning Station

Part No. 42797

USB Smart Card Reader

Easily read and edit information stored on a Smart Card

- Slimline, desktop USB Smart Card Reader
- Comes with a 1.5m USB cable type A male
- Compliant with EMV 4.1 specification
- Supports PC smart card industry standard PC/SC 1.0, PC/SC 2.0
- Supports asynchronous cards: protocols T0, T1
- Supports synchronous cards: 2-wire, 3-wire, I2C Memory Cards: SLE4418/28, SLE4432/42, AT88sc1608/153, AT24c128/256, ST M14C16/M14C04
- Supports 1.8V/3V/5V cards
- Supported by Windows 2000/XP/Vista/7, Mac OS 10.4 and above

USB 2.0 480Mbps High Speed

USB Smart Card Reader

Part No. 42768

USB 2.0 43-in-1 Card Reader

Neat and compact multi-format card reader

- Reads most popular card formats
- Small enough to hang around your neck using the supplied lanyard
- USB bus powered
- USB 1.1 and 2.0 compatible
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 10

Supports most popular card formats including:

M2, MicroSD, TF, Memory Stick, SD, Mini SD, SDHC, MMC, RS MMC & more

USB 2.0 480Mbps High Speed

USB 2.0 43-in-1 Card Reader

Part No. 42788

USB 2.0 Multi Card Reader Pro

Reads and writes to memory cards and SIM cards

- Reads most card memory formats and mobile phone SIM cards
- Supplied with SIM editor software for Windows PCs
- Built in rotating USB connection and 90cm USB extension cable
- Compatible with Windows 2000/XP/Vista/7, Mac OS 9.2.2 & above

Supports most popular card formats including:

Smart Media (SM), Compact Flash (CF), MultiMediaCard (MMC), Secure Digital (SD), SDHC, Micro Drive (MD), Memory Stick (MS) & more

USB 2.0 480Mbps High Speed

USB 2.0 Multi Card Reader Pro with SIM Card Support

Part No. 42982

USB 3.0 Multi-Card Reader

SuperSpeed, high capacity memory Card Reader

- SuperSpeed access to a range of memory cards
- Supports the latest, high speed cards including CF UDMA or SDHC, SDXC up to 64GB
- 1m USB 3.0 cable included
- Backwards compatible with USB 2.0 and USB 1.1
- Compatible with Windows XP/Vista/7 and Linux 2.6.31 & above

Supports cards including:

Compact Flash (CF), CF UDMA, SDXC, Memory Stick, SD, Mini SD, Micro SD, TransFlash, xD

USB 3.0 5 Gbit/s SuperSpeed

USB 3.0 Multi-Card Reader

Part No. 43150

USB & FireWire

USB Card Readers & Wireless

5.25" USB 2.0 Card Reader Panel with USB & FireWire Ports

Multi-format internal card reader

- Fits into a 5.25" bay
- Features two USB 2.0 and one FireWire front mounted ports
- Black, silver and blue removable bezels
- Powered by the USB bus, no internal power connection required
- Compatible with Windows ME/2000/XP/Vista/7

USB 2.0 480Mbps High Speed

Support for most popular card types including:

USB & FireWire

USB Converters

USB to Serial RS-232 Converter

Connect a serial device to your PC via USB

- Supports most standard serial RS-232 devices
- Connectors: 9 or 25 Way D Male to USB A Male
- Length: 1.5m
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 10 & above

9 Way D Male

25 Way D Male

USB to Serial RS-232 Converter, 25 Way D Male, 1.5m Part No. **42812**

USB to Serial RS-232 Converter, 9 Way D Male, 1.5m Part No. **42855**

USB to 2 Port Serial RS-232 Converter

Connects two serial devices via USB

- Supports most standard serial RS-232 devices
- Connectors: 2 x 9 Way D Male
- High quality FTDI chipset
- Integrated 60cm USB cable with Type A connector
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 9.0 & above

USB to 2 Port Serial RS-232 Converter Part No. **42889**

USB to 4 Port Serial RS-232 Converter

Connect up to 4 serial devices to a single USB port

- Provides 4 separate RS-232 serial ports (4 x 9 Way D Male)
- Ideal for use with notebooks or as an alternative to installing an internal serial card in your desktop PC
- High quality FTDI chipset
- Supports most standard RS-232 serial devices such as modems, PDAs, barcode readers, label printers, EPOS devices etc
- Powered from the USB bus, no separate power supply required
- Supplied with 80cm USB Type A to B connection cable
- Compatible with Windows 98SE/ME/2000/XP/Vista/7, Mac OS 8.6 & above

USB to 4 Port Serial RS-232 Converter Part No. **42858**

USB 2.0 to Serial RS-422 Converter

Connect to any standard RS-422 device via USB

- Allows RS-422 equipment to be connected to a USB enabled PC
- Connectors: 9 Way D Male to USB B Female
- Length: 1m
- Supports Windows ME/2000/XP/Vista/7, Linux and Mac OS 9.0 & above

USB to Serial RS-422 Converter Part No. **42844**

USB 2.0 to Serial RS-485 Converter

Ideal for use with RS-485 EPoS equipment

- Allows RS-485 equipment to be connected to a modern USB PC
- Connectors: 9 Way D Male to USB B Female
- Length: 1m
- Supports Windows ME/2000/XP/Vista/7, Linux, Mac OS 9.0 & above

USB to Serial RS-485 Converter Part No. **42845**

USB to 2 Port Serial RS-422/RS-485 Converter

Ideal for use in industrial applications

- Provides two separate RS-422/RS-485 ports (2 x 9 Way D Male)
- Ideal for connecting EPOS and industrial control equipment to the latest generation desktop PCs and notebooks
- Powered from the USB bus – no separate power supply required
- Integrated 60cm USB cable with Type A connector
- Supports Windows ME/2000/XP/Vista/7, Linux, Mac OS 8.6 & above

USB to 2 Port Serial RS-422/RS-485 Converter Part No. **42859**

USB Converters & Adapters

2 & 4 Port USB to 9 Way Serial Converter Lite

Simultaneously connect two/four RS-232 serial devices to your USB port

- Supports standard serial devices
- Bus powered, plug and play installation
- Connectors: USB A Male to 2/4 x 9 Way D Serial Male
- Supports remote wake up and power management
- Data buffers for upstream and downstream on each port
- Compatible with Windows ME/2000/XP/Vista/7 (32 & 64 Bit), Mac OS 10.4 & higher and Linux

2 Port USB to 9 Way Serial Converter Lite	Part No. 42689
4 Port USB to 9 Way Serial Converter Lite	Part No. 42690

USB to 25 Way Parallel Printer Port Converter

Converts your USB port to a 25 Way Parallel Printer Port

- Connectors: USB Type A Male to 25 Way D Female
- Cable length: 1.5m
- Connects to a parallel cable from your printer
- Supports parallel printer connections only
- Compatible with Windows ME/2000/XP/Vista and 7

USB to 25 Way Parallel Converter Cable, 1.5m	Part No. 42882
--	----------------

USB to 36 Way Parallel Converter

Print from a USB ready PC to a parallel printer

- Connectors: USB Type A Male to 36 Way Centronics Male
- Cable length: 1.5m
- Supports most printer status monitoring software
- Compatible with Windows ME/2000/XP/Vista and 7

USB to 36 Way Parallel Converter Cable, 1.5m	Part No. 42864
--	----------------

USB to 9 Way Serial and 25 Way Parallel Adapter

Connect to any standard serial device via USB

- Connectors: USB A Male to 9 Way D Male & 25 Way D Female
- Cable length: 0.7m
- USB port adapter which supports all standard serial and parallel devices
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 8.6 & above

USB to Serial and Parallel Adapter	Part No. 42838
------------------------------------	----------------

USB 2.0 to SATA & IDE Adapter

Versatile alternative to an external drive housing

- Allows you to connect to a SATA or IDE/ATA drive via USB
- Ideal for computer technicians who need to quickly connect and disconnect drives for testing and data transfer
- Can be used with 2.5" & 3.5" hard drives and 5.25" CD/DVD drives
- High speed USB 2.0 interface, backwards compatible with USB 1.1
- Power supply and connection cables included
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 8.6 & above

USB 2.0 to SATA & IDE Adapter	Part No. 42868
-------------------------------	----------------

USB 2.0 to eSATA Adapter

Easy connection to eSATA devices

- Compact adapter which plugs directly into a computer's USB port
- Designed for use with eSATA external storage devices
- Supplied with a 50cm eSATA cable
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 10 & above

USB 2.0 to eSATA Adapter	Part No. 42891
--------------------------	----------------

USB Converters & Adapters

USB 3.0 to SATA II Adapter

Easily connect SATA hard drives to your computer

- SuperSpeed transfer rates of up to 5Gbps
- Suitable for 2.5" and 3.5" SATA II HDDs/SSDs and 5.25" ODD drives
- Backwards compatible with USB 2.0 and USB 1.1 devices
- One Touch Backup Function (using supplied software)
- Compatible with Windows XP/Vista/7 and Linux

USB 3.0 to SATA II Adapter

Part No. 43118

USB 3.0 to SATA III Adapter

Versatile SuperSpeed alternative to an external drive housing

- Back up, restore and transfer data from your SATA III hard drive using SuperSpeed USB 3.0 5Gbps transfer speeds
- USB 2.0 and 1.1 compatible
- SATA I/II/III compatible
- Suitable for 2.5" and 3.5" SATA III HDDs/SSDs and 5.25" ODD drives
- Compatible with Windows XP/Vista/7 and Linux

Compatible with Windows XP/Vista/7 and Linux

USB 3.0 to SATA III Adapter

Part No. 43119

USB 2.0 to Fast Ethernet Adapter

Converts a USB 2.0 port into a 10/100 Fast Ethernet port

- High speed USB 2.0 compliant up to 480Mbps
- Backwards compatible with USB 1.1 host controllers
- LED for network activity
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS X & Linux

USB 2.0 to Fast Ethernet Adapter

Part No. 42974

USB 2.0 Gigabit Ethernet Adapter

Easily connect your USB 2.0 computer to a Gigabit network

- High Speed USB 2.0 with speeds of up to 480Mbps
- Backwards compatible with USB 1.1 and 1.0 host controllers
- Activity LED shows network activity
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS X

USB 2.0 Gigabit Ethernet Adapter

Part No. 42852

USB to PS/2 Converter

Connects your PS/2 keyboard & mouse via USB

- Connectors: USB Type A Male to PS/2 mouse port (6 Pin Female) and PS/2 keyboard port (6 Pin Female)
- Compatible with Windows ME/2000/XP/Vista/7, Mac OS 9.0 & above

USB to PS/2 Converter Cable

Part No. 42866

USB 2.0 ExpressCard Adapter

Allows you to use an ExpressCard via a USB port

- Supports USB 2.0 based ExpressCard/34 & /54 cards only (PCI Express based cards are not supported)
- Compatible with USB 2.0 specifications
- Supports data rates up to 480 Mbps
- Plug and Play

USB 2.0 ExpressCard Adapter

Part No. 51351

USB to PS/2 Converter

Connects your PS/2 keyboard & mouse via USB

- Connectors: USB Type A Male to PS/2 mouse/keyboard port (6 Pin Female)
- Compatible with Windows ME/2000/XP/Vista/7 & Mac OS 9.0 & above

USB to PS/2 Converter

Part No. 70000

USB & FireWire

USB Video & Audio Adapters

USB 2.0 Video & Audio Grabber

Capture, edit and convert video and audio using your PC

- Allows you to connect your camcorder or VCR to your PC for video storage, copying and editing
- High speed USB 2.0 for superior performance (no USB 1.1 support)
- Captures video at up to 30fps @ 720 x 480
- Composite video & S-Video inputs
- Supplied with ULead Video Studio software
- Compatible with Windows 2000/XP/Vista/7

USB 2.0 480Mbps High Speed

USB 2.0 Video & Audio Grabber

Part No. 42886

USB 2.0 to VGA Adapter

Connect a monitor to your PC's USB 2.0 port

- Allows you to connect any VGA equipped monitor or projector to a USB 2.0 port on your PC
- Can be used as a primary display or to mirror or extend your desktop
- Up to 6 adapters can be connected to one PC for multiple displays
- Supports screen resolutions up to 1920 x 1080
- Supplied with a 1m USB A to Mini-B cable
- Compatible with Windows 2000/XP/Vista & 7

USB 2.0 480Mbps High Speed

USB 2.0 to VGA Adapter

Part No. 42744

USB 2.0 to HDMI Adapter

Connect an HDTV or Monitor to your PC's USB 2.0 port

- Supports resolutions up to full HD 1080p
- Can be used to extend or mirror your desktop or even as the primary viewing screen
- HDCP Compliant
- Supports stereo audio over HDMI
- Supplied with a 90cm USB A to Mini-B cable
- Compatible with Windows XP/Vista/7 and Mac OS 10.4.11 & above

USB 2.0 480Mbps High Speed

USB to HDMI Adapter

Part No. 42698

USB 2.0 to DVI-I Adapter Supports DVI-D and VGA signals

- Allows you to connect to a monitor via a desktop PC, notebook or netbook's USB 2.0 port
- USB 2.0 compatible (does not support USB 1.1 connection)
- Can be used as a primary display or to mirror or extend your desktop
- Up to 6 adapters can be connected to one PC for multiple displays
- Can be connected to a DVI-D or VGA equipped monitor (using a DVI to VGA adapter cable, page 154)
- Supports resolutions up to 1680 x 1050
- Compatible with Windows 2000/XP/Vista & 7

USB 2.0 480Mbps High Speed

USB 2.0 to DVI-I Adapter

Part No. 42798

USB 2.0 Audio Adapter Plug & Play sound for your notebook or desktop

- USB 2.0 and USB 1.1 compatible
- Ideal for use with Skype or other Voice over IP applications
- Supplied with 1m USB extension cable
- Can be used to connect a non-USB headset to a PS3
- 2 x 3.5mm jack sockets for headphone/speaker and microphone connections
- Microphone mute button
- Compatible with Windows 98SE/ME/2000/XP/Vista/7 and Mac OS 9.0 & above

USB 2.0 480Mbps High Speed

USB 2.0 Audio Adapter

Part No. 42961

USB Audio Adapters

USB 2.0 Audio Adapter Pro

Plug & Play sound with analogue and SPDIF digital audio support

The USB 2.0 Audio Adapter Pro provides either an analogue or optical audio output, via your computer's USB port.

- USB 2.0 and USB 1.1 compatible
- Perfect for gaming, watching movies, listening to music
- Ideal for use with Skype or other Voice over IP applications
- 2 x 3.5mm jack sockets for headphone/speaker and microphone connections
- Includes adapter for connecting a TosLink cable
- Dedicated buttons to adjust the volume or mute headphone or microphone
- Compatible with: Windows XP/Vista/7 and Mac OS 10.4.11

USB 2.0 Audio Adapter Pro

Part No. 42775

USB 2.0 5.1 Audio Adapter

Plug & Play 5.1 audio for your PC or Mac

The USB 5.1 Channel Audio Adapter combines high quality audio recording and playback capabilities as well as allowing the connection of microphones, home stereos, musical instruments, and powered speakers to your computer. A unique driver supports Xear 3D™ to make your audio experience even better!

- USB 2.0 and USB 1.1 compatible
- Ideal for use movies, music, gaming and Voice over IP applications such as Skype
- Supplied with 1m USB extension cable
- 4 x 3.5mm jack output sockets and 1 x 3.5mm stereo line-in
- Volume up and down buttons
- Compatible with Windows XP/Vista/7 and Mac OS X & above

USB 2.0 5.1 Audio Adapter

Part No. 42767

USB Portable Wireless Audio System

Neat little device for transmitting audio

- Wirelessly transmits stereo audio signals from a computer to powered speakers, headphones or an amplifier
- Portable, battery powered receiver with a typical 10m range (up to 45m line of sight) means you can listen to your music while you're moving around your home or office
- Version available with a microphone port for VoIP applications
- Uses 2.4GHz wireless technology
- Supplied with AAA battery and power supply
- Compatible with Windows XP/Vista/7, Mac OS 10 & Linux (tested with Ubuntu 9.10)
- Dimensions: 58 x 55 x 15mm (WxDxH)

USB Wireless Audio System with Microphone Support	Part No. 20404
USB Wireless Audio System	Part No. 20519

AVAILABLE WITH OR WITHOUT MICROPHONE SUPPORT

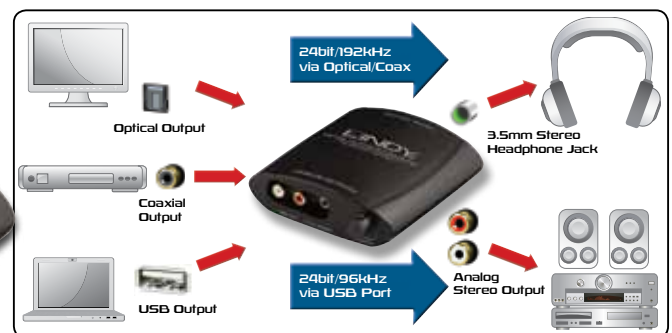

20404 version

Digital to Analogue Converter with USB Audio Interface & Headphone Amplifier

Converts USB, TosLink and digital coax to analogue stereo!

The perfect upgrade for music lovers who want to improve the sound quality delivered from their PC, HDTV, CD / DVD Player or other audio device to their headphones, amplifier or powered speakers.

- Provides audiophile sound quality up to 24bit/192kHz

- USB 1.1 and 2.0 compatible
- Compatible with Windows 2000/XP/Vista and 7 (PC only version)
- Compatible with Windows 2000/XP/Vista & 7 and Mac OS 10.4 & above (PC & Mac version)
- Length: 1.8m

USB 2.0 480Mbps High Speed

1.8m USB 2.0 Transfer Cable Pro, PC only version Part No. 42615
1.8m USB 2.0 Transfer Cable Pro, PC & Mac version Part No. 42616

USB 2.0 Smart Data Transfer Cable + 2 Port KM Switch

Transfer data and control 2 PCs using Picture in Picture control

This useful cable allows a user to connect two PCs together for data transfer. It provides a unique keyboard and mouse control function which allows both connected computers to be controlled from one PC. The remote computer's display is visible using a 'picture-in-picture' function.

- Affordable solution for controlling two PCs from one keyboard and mouse
- Unique built in software allows you to switch mouse and keyboard control between the connected computers
- Picture in Picture (PIP) function
- Compatible with Windows 2000/XP/Vista/7
- Length: 1.5m

USB 2.0 Smart Data Transfer Cable + 2 Port KM Switch Part No. 42617

USB 2.0 480Mbps High Speed

USB Extension Cables

20m USB 2.0 Extension Cable

Extend USB connections up to an incredible 20m

- Built-in active electronics allow a USB 2.0 device to be extended by an additional 20m
- Easy to use, Plug & Play solution
- Perfect for use with printers, scanners, cameras etc
- Backwards compatible with USB 1.1
- Supports transfer rates up to 480 Mbps
- Two extensions can be connected together to reach 40m
- Bus powered
- Connectors: Type A USB Male to Type A USB Female
- Compatible with USB equipped PCs and Macs

2012 NEW
USB 2.0 480Mbps High Speed

20m USB 2.0 Extension Cable

Part No. **42631**

10m USB 2.0 Active Extension 4 Port Hub

Easily extend the length of up to four USB 2.0 devices by 10m

- Perfect for use with USB peripherals such as printers, scanners and storage devices
- Compatible with both USB 2.0 and USB 1.1 devices
- Bus powered from the computer or self powered using an additional power supply (not included)
- Compatible with USB equipped PCs and Macs
- Length: 10m

USB 2.0 480Mbps High Speed

10m USB 2.0 Active Extension 4 Port Hub

Part No. **42630**

Optional Multi-Country Power Supply

Part No. **73810**

5m USB 2.0 Slimline Active Extension Cable

Uses built-in active electronics to extend the cable length of a USB 2.0 device by an additional 5m

- Unique, slimline design allows the active electronics to be fitted into a standard USB connector - an advantage over other active USB cables which use special, bulky connectors
- Plug & Play - no special software installation required
- Compatible with both USB 2.0 and USB 1.1 devices
- Connectors: Type A USB Male to Type A USB Female
- For even greater distances of up to 25m you can connect up to 5 of these cables in series
- Compatible with Windows 2000/XP/Vista/7, Linux, Mac OS 9.0 & above
- Length: 5m

USB 2.0 480Mbps High Speed

5m USB 2.0 Slimline Active Extension Cable

USB Extension System

USB 2.0 Active Extension System Pro

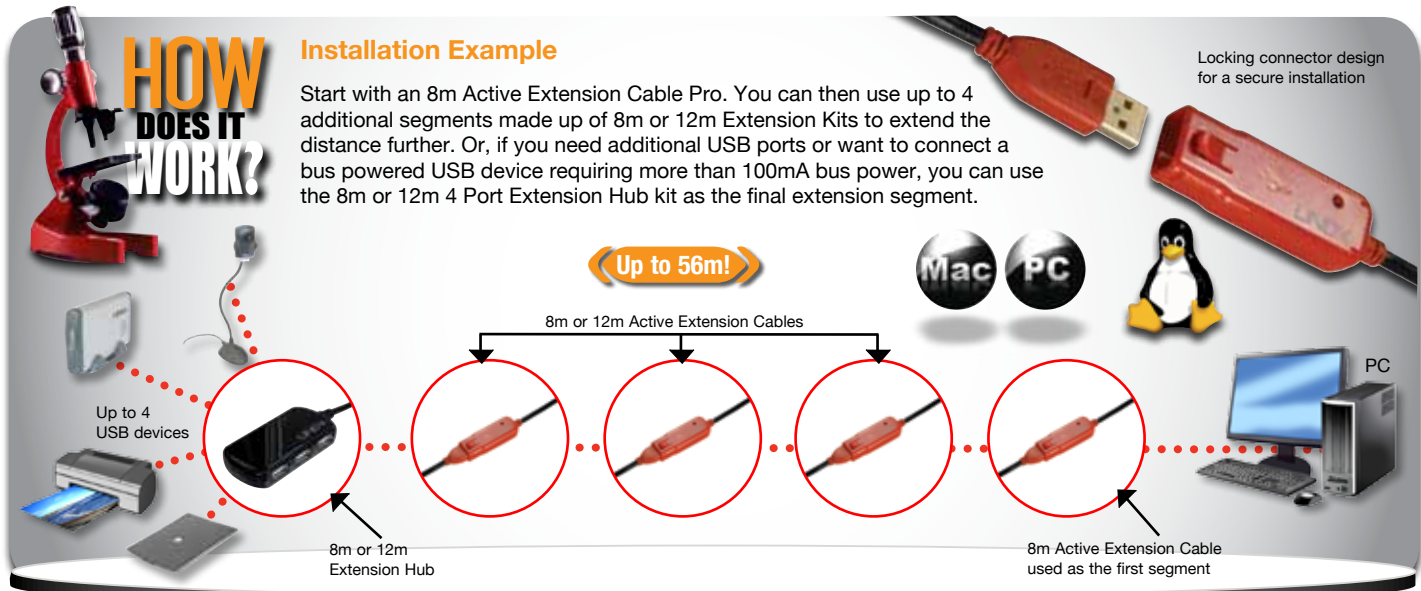

Extend High Speed USB 2.0 connections up to 56m

The USB 2.0 Active Extension System Pro is a range of products which can be combined together to extend and distribute USB 2.0 signals over incredibly long distances. The advantage of the Extension System Pro is that it is able to support higher transfer speeds of up to 480Mbps – a distinct performance advantage over other available USB extension solutions which typically max out at USB 1.1 transfer rates of 11Mbps.

- USB 2.0 and USB 1.1 compatible
- Supports transfer speeds of up to 480Mbps
- Cables are USB bus powered; the hub versions include a multi-country power supply
- Locking connectors for a secure installation
- Compatible with Windows ME/2000/XP/Vista/7, Linux and Mac OS 10 & above

The Extension system Pro range consists of 8m and 12m extension cables and hubs. See below for a typical installation example.

USB 2.0 480Mbps High Speed

8m USB 2.0 Active Extension Cable Pro

- Connects directly to your computer's USB 2.0 port
- Can be used as the starting segment in a long distance USB Active Extension System Pro installation
- Latching connector for a secure installation
- Connectors: USB Type A Male to USB Type A Female
- USB bus powered

8m USB 2.0 Active Extension Cable Pro

Part No. 42780

8m USB 2.0 Active Extension Pro 4 Port Hub

- Can be directly connected to a computer's USB 2.0 port
- Can also be connected as the final segment in a long distance USB Active Extension System Pro installation
- Connectors: USB Type A Male to 4 x USB Type A Female
- Can be bus powered or used with the included power supply

8m USB 2.0 Active Extension Pro 4 Port Hub

Part No. 42781

12m USB 2.0 Active Extension Cable Pro

- Can be used as the middle and final segments in a long distance USB Active Extension System Pro installation
- Latching connector for a secure installation
- Can not be connected directly to a computer's USB port
- Connectors: USB Type A Male to USB Type A Female
- USB bus powered

12m USB 2.0 Active Extension Cable Pro

Part No. 42782

12m USB 2.0 Active Extension Pro 4 Port Hub

- Can be used as the final segment in a long distance USB Active Extension System Pro installation
- Can not be connected to a computer's USB port as the first segment
- Connectors: USB Type A Male to 4 x USB Type A Female
- Can be bus powered or used with the included power supply

12m USB 2.0 Active Extension Pro 4 Port Hub

Part No. 42783

USB & FireWire

CAT5 USB Extender Premium

Advanced chipset design - ideal for multimedia applications

- Extends a USB port by up to 50m using CAT5/5e/6 cable
- Features an advanced chipset design which makes it suitable for use with USB 1.1 multimedia devices such as webcams and whiteboards
- USB 1.1 compliant
- USB bus powered - no extra power supply is required
- Compatible with USB equipped computers including PCs & Macs

CAT5 USB Extender Premium Part No. 42801

CAT5 USB Extender

Locate your USB device up to 50m from your computer

- Extends a USB port by up to 50m using CAT5/5e/6 cable
- Ideal for use with keyboards, mice, printers, card readers etc.
- USB 1.1 compliant
- Powered by the USB bus from the computer – an optional power supply is available for use with high current USB devices
- Compatible with USB equipped computers including PCs & Macs

CAT5 USB Extender Part No. 42805
Optional Power Supply Part No. 70229

CAT5 USB Extender with 4 Port USB 1.1 Hub

Extends the distance between your computer and your USB peripherals by up to 50m

Please note: Standard CAT5e or 6 network cable can be used with the USB Extenders on this page, but is not included and must be purchased separately. Please see page 130 for our range.

CAT5 USB Extender with 4 Port USB 1.1 Hub Part No. 42802

USB Extenders & USB over IP

CAT5 USB 2.0 Extender with 4 Port USB 2.0 Hub

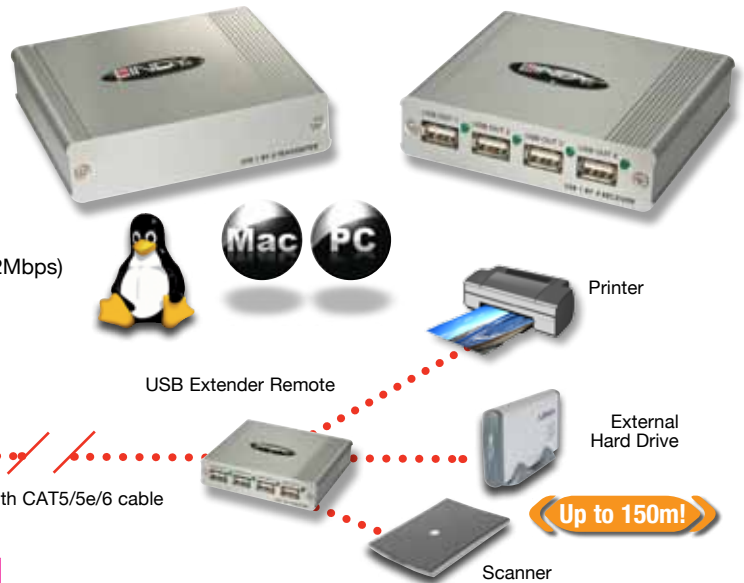

Extend 4 USB devices up to 150m

This useful device is perfect for extending the distance between your USB 2.0 peripherals and your computer by up to 150m, using inexpensive CAT5 or higher cable.

It comprises a local unit, which must be connected directly (not via a hub) to a USB 2.0 port on your computer, and a remote unit with a built-in bus-powered USB 2.0 hub for connecting up to 4 peripherals. CAT5 or higher network patch cable (not included) is then required to connect the two units together.

- Supports USB 2.0 High Speed (480Mbps) and USB 1.1 Full Speed (12Mbps)
- Plug & Play – no additional drivers required
- OS independent, will work with any USB enabled computer

USB 2.0 480Mbps
High Speed

CAT5 USB Extender with 4 Port USB 2.0 Hub Part No. 42791

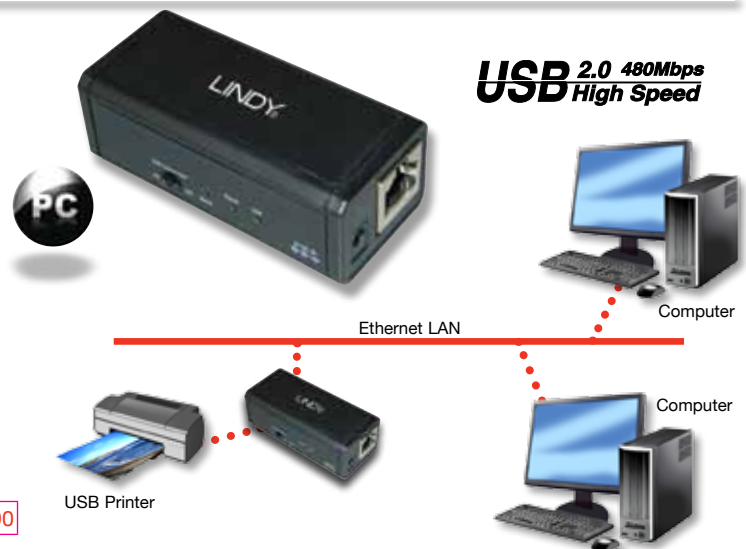

Single Port USB 2.0 over IP Server

Connect a printer or storage device to your network

The single port LINDY USB 2.0 over IP Server transforms your standard USB printer or storage device into a shared network peripheral. Installation and operation is quick and easy via a user friendly web interface.

- USB IP server for storage and printers
- Hi-Speed USB 2.0 port for fast and flexible performance
- Allows you to add USB storage or a printer to your network
- RJ-45 10/100 Network connection
- Network Protocols: TCP / IP, WSD, UPnP
- Compatible with Windows 2000/XP/Vista and 7
- Dimensions: 70 x 32 x 25mm (WxDxH)

USB 2.0 480Mbps
High Speed

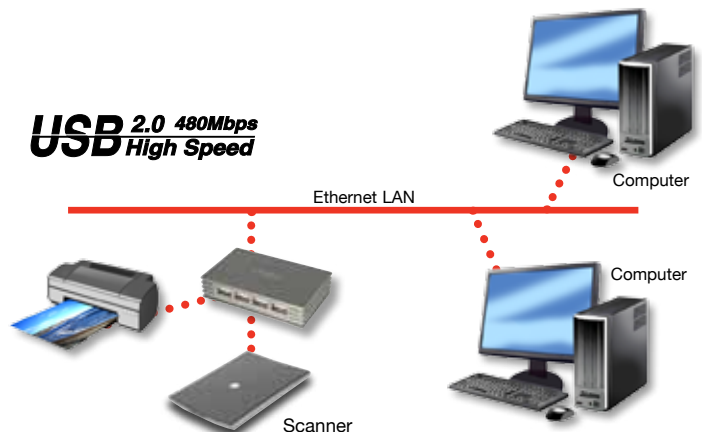

Single Port USB 2.0 over IP Server Part No. 42890

4 Port USB 2.0 over IP Server

Connect to 4 USB devices from anywhere on your network

- Powerful USB 2.0 Server and Extender over IP
- Multifunction USB server to share four USB devices over a network
- For use with USB multifunction printers, scanners and storage devices
- Features four high-speed USB 2.0 ports
- RJ-45 10/100 network connection
- Network Protocols: TCP / IP, WSD, UPnP
- Supports Windows 2000/XP/Server 2003/Vista/7

USB 2.0 480Mbps
High Speed

4 Port USB 2.0 over IP Server Part No. 42832

USB & FireWire

USB User Client for Windows MultiPoint Server

- ▶ **Affordable and reliable USB workstation designed to work in combination with Windows Multipoint Server**
- ▶ **Provides a cost effective solution for classrooms, call centres and offices**
- ▶ **Cheaper to buy and consumes 95% less power than a standard PC**
- ▶ **Simple to install - the User Client connects to the host computer over a single USB connection**

2012 NEW
USB 2.0 480Mbps High Speed

USB User Client for Windows MultiPoint Server Part No. **42660**

More info...

- VGA port for connecting to a monitor (supports resolutions up to 1600 x 1200)
- 4 USB 2.0 ports for connecting a keyboard, mouse and other USB peripherals, such as a pen drive or printer
- Microphone and stereo speaker sockets for full audio support
- Compact design which can be placed flat, stood vertically using the supplied stand, or fixed to the VESA mounting points on the back of a monitor
- Supplied with a multi-country power supply, 1.9m USB connection cable and desk stand / VESA bracket
- Dimensions: 97 x 97 x 20mm (WxDxH)

About Windows MultiPoint Server...

Windows MultiPoint Server allows a single host computer to be simultaneously accessed by up to 10 User Client workstations. Each workstation is provided with the full Windows desktop experience. It's the perfect solution in terms of both install cost and total cost of ownership as each client is considerably cheaper to purchase than a regular PC and has, on average, a 95% power reduction compared to a conventional computer.

Up to 10 User Clients can each be connected to the host using a single USB cable

4 Port USB 2.0 over Gigabit IP Server

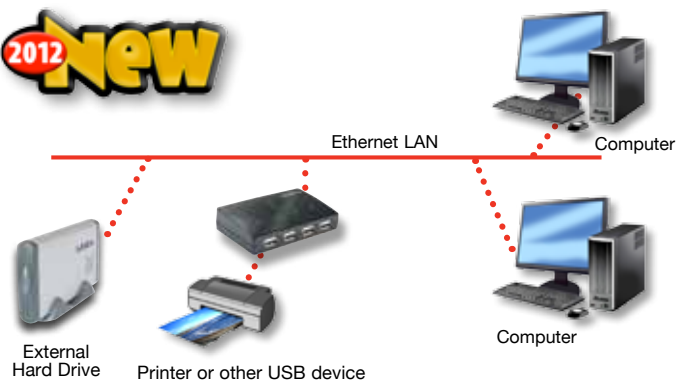

Connect 4 USB devices to your Gigabit network

- Share USB storage devices, printers, webcams etc over a Gigabit network
- Four High Speed USB 2.0 ports
- RJ-45 10/100/1000 Network Connection
- Web interface for easy management of devices
- Network protocol: TCP / IP
- Supplied with a Multi-Country Power Adapter and RJ-45 cable
- Supports Windows XP/Vista and 7

2012 NEW

USB 2.0 480Mbps High Speed

4 Port USB 2.0 over Gigabit IP Server Part No. **42632**

USB & FireWire

FireWire Extension

FireWire Active Extension Cable

4.5m and 10m Lengths!

Up to 50m!

4.5m and 10m lengths available

- FireWire repeater cable for extending the cable length between FireWire devices over distances greater than the IEEE 1394a specified limit of 4.5m
- Choose from 4.5m or 10m versions
- Cables can be daisy chained together to a maximum 50m
- Supports IEEE 1394a devices at speeds of up to 400Mbps
- Ideal for use with DV Camcorders, FireWire printers, scanners, digital cameras etc.
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 8.6 & above

4.5m FireWire Active Extension Cable	Part No. 32908
10m FireWire Active Extension Cable	Part No. 32958

FireWire 800 Active Extension Cable

Extend the cable length of your FireWire 800 device by 5 or 10m

Up to 50m!

The LINDY FireWire 800 Active Extension Cable uses active electronics to extend the cable length of your FireWire 800 devices. Available in 5m or 10m versions, simply plug one end into a FireWire 800 port on your computer and then plug the cable from your device into the other. For longer distances you can connect multiple Extension Cables together to a maximum length of 50m.

- FireWire Repeater Cable for extending the cable length between FireWire devices over distances greater than the IEEE 1394b specified limit of 4.5m
- 5m and 10m versions available
- Cables can be daisy chained together to a maximum 50m
- Supports IEEE 1394b devices at speeds of up to 800Mbps
- Ideal for use with DV Camcorders, FireWire printers, scanners, digital cameras etc.
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 8.6 & above

5m and 10m Lengths!

5m FireWire 800 Active Extension Cable	Part No. 32918
10m FireWire 800 Active Extension Cable	Part No. 32957

CAT5e/6 FireWire Extender

Connect to a FireWire device at up to 75m

The LINDY CAT5e/6 FireWire Extender can be used to extend the distance between two FireWire devices by up to 75m. Consisting of a local unit and a remote unit the Extender can be used to connect FireWire 800 or FireWire 400 equipment. Standard, low cost CAT5e/6 cable (not included, see page 130) is used to connect the two units together.

- Extends FireWire peripheral devices up to 75m via CAT5e/6 cable
- Local unit connects to your computer and is bus powered; the remote unit connects to your device and is powered using the included power supply
- Both units feature 9 Pin FireWire 800 connectors; two adapter cables are provided for use with 6 Pin FireWire 400 ports
- Tough aluminium design
- Compatible with all FireWire equipment

CAT5e/6 FireWire Extender	Part No. 32917
---------------------------	-----------------------

USB & FireWire

FireWire Hubs & Adapters

6 Port FireWire Repeater Hub

Connect up to 6 devices & extend your cable signals

- Features 6 ports: one for connecting to a computer, five for connecting to your devices
- Supports data transfer rates of up to 400Mbps
- Supplied with 1.8m FireWire cable
- Compatible with all FireWire equipped PCs & Macs

3 Port FireWire 800 Repeater Hub

Extend & expand your FireWire 800 interface

- Connects to a FireWire 400 or 800 port on any PC or Mac
- Features 3 ports: one for connecting to a computer, two for connecting to your devices
- Supports speeds of up to 800Mbps
- Supports transfer distances of up to 4.5m
- 1m FireWire 800 9 Pin Beta cable included
- Compatible with all FireWire equipped PCs & Macs

6 Port FireWire Repeater Hub Part No. 32916

3 Port FireWire 800 Repeater Hub Part No. 32911

FireWire 360° Adapter

Versatile, adjustable FireWire adapter

- Adjustable 360° adapter for use with FireWire cables and peripherals
- Swivel and rotate action allows you to connect to devices without obstructing adjacent ports
- 6 Pin to 4 Pin and 6 Pin to 6 Pin versions available
- Supports FireWire 400 devices

FireWire 360° Adapter, 6 Pin to 4 Pin Part No. 70400

FireWire 360° Adapter, 6 Pin to 6 Pin Part No. 70399

FireWire Mini Adapter

- 4 Pin FireWire Male (Camcorder, etc.) to 6 Pin FireWire Female
- IEEE 1394a compliant

6 Pin Male to 4 Pin Female FireWire Adapter Part No. 70395

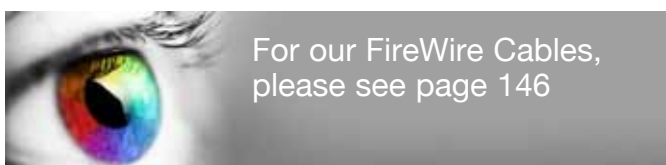

FireWire 800 Adapters

- Allow legacy FireWire devices to be connected to FireWire 800 ports
- IEEE 1394a/b compliant • Length: 20cm
- Colour: Black

6 Pin FireWire Female to 9 Pin Bilingual (FireWire 800) Male Part No. 70397

4 Pin FireWire Female to 9 Pin Bilingual (FireWire 800) Male Part No. 70398

USB 2.0 Docking Station VGA

Connects your devices to your notebook using a single cable

- Expansion unit designed to connect your notebook computer to desktop accessories
- Includes VGA in/out ports for connecting a monitor
- Connects to your notebook using a single USB + VGA combo cable (included)
- 3 USB 2.0 Type A Female ports
- Serial RS-232 Port (9 Way D Male)
- Parallel Printer Port (25 Way D Female)
- PS/2 Keyboard and Mouse Ports
- Fast Ethernet Port (RJ-45 10/100Mbps)
- Power supply and USB + VGA combo cable included
- Compatible with Windows ME/2000/XP/Vista and 7
- Dimensions: 23 x 56 x 28mm (WxDxH)

USB 2.0 480Mbps High Speed

USB 2.0 Docking Station VGA

Part No. 42984

USB 2.0 Mini Docking Station

Connects multiple peripherals to your computer using a single USB connection

- 2 port USB 2.0 hub (USB Type A Female),
- High-speed serial RS-232 port (9 Way D Male)
- Bi-directional parallel printer port (25 Way D Female)
- Bus powered - no external power supply required
- 1.2m USB Type A to B cable included
- Compact size: 59 x 72 x 24mm (WxDxH)
- Compatible with Windows ME/2000/XP and Mac OS 8.6 and above (USB hub and serial port support)

USB 2.0 480Mbps High Speed

Note: Serial port and parallel port security dongles are not supported!

USB 2.0 Mini Docking Station

Part No. 42975

USB 2.0 Docking Station DVI-I

Connect a monitor and USB peripherals to a notebook using one cable

- Eliminates the need for constant plugging and unplugging of cables
- DVI-I Interface: Supports DVI-D and VGA monitors
- Max Resolution: 1920 x 1200
- Supports Extend and Mirror
- USB Interface:
- USB 2.0 Upstream Port for connection to notebook (USB Type B Female)
- 4 Port USB 2.0 Hub (2 Front/2 Back)
- USB 1.1 and USB 2.0 compatible
- Audio In/Out
- Fast Ethernet Port (RJ-45 10/100Mbps)
- Power supply and USB Type A Cable and DVI/VGA Adapter included
- Compatible with Windows 2000/XP/Vista & 7
- Dimensions: 35 x 87 x 155mm (WxDxH)

USB 2.0 480Mbps High Speed

USB 2.0 DVI-I Docking Station

Part No. 42620

Universal Notebook Power Adapter

Ideal for replacing lost or damaged AC adapters

This lightweight universal AC/DC Adapter is available in 90W and 120W power ratings and is supplied with 11 different DC plugs for compatibility with a multitude of laptops. Output voltage can be adjusted by selecting the appropriate adapter tip for your computer.

- Fully regulated power adapter (100-240V, 50/60Hz)
- Can supply up to 5 Amps (90W version) or 8 Amps (120W version)
- Adapter tips for use with different notebook types
- Cable length: 1.9m

Compatible with notebooks from :-

- HP • Acer • Lenovo • Toshiba • Compaq
 - IBM • Fujitsu • Sony • Samsung • Panasonic • Dell
- Please see our website for more details

90W Universal Notebook Power Adapter

Part No. 70256

120W Universal Notebook Power Adapter

Notebook Microphone

Neat, adjustable design

- Ideal for replacing low quality, built-in microphones
- Stylish and sturdy metal design
- Swivelling design allows for optimal positioning
- Connector: 3.5mm Stereo Jack Male

Notebook Microphone Part No. 20409

PC Desktop Microphone

Ideal for video conferencing, voice recognition and multimedia

- Neat and stylish design
- Simply plugs into your soundcard microphone input
- 1.8m cable with 3.5mm stereo jack
- Free standing design

PC Desktop Microphone Part No. 20382

USB Portable Wireless Audio System

Available with or without microphone support

2012 New

Up to 10m!

- Wirelessly transmits stereo audio signals from a computer to powered speakers, headphones or an amplifier
- Typical 10m range - listen to music while you're moving around your home or office
- Uses 2.4GHz wireless technology
- Supplied with AAA battery and power supply
- Compatible with Windows XP/Vista/7, Mac OS 10 & Linux (tested with Ubuntu 9.10)

USB Wireless Audio System with Microphone Support Part No. 20519
USB Wireless Audio System Part No. 20404

USB Powered Speakers

Slimline, high quality speakers for your PC or Mac

- Listen clearly to music, movies and more
- Easy access to volume and power controls
- Good performing set of speakers at an affordable price
- No external power supply required

USB Powered Speakers Part No. 73128

Stereo Headphones with Microphone

Ideal for gaming & VoIP

- Adjustable headband with foam ear pads
- Adjustable omni-directional condenser microphone
- Connectors: 2 x Stereo Jack Male
- Cable length: 1.8m

Stereo Headphones with Microphone Part No. 20398

USB Neckband Stereo Headset with Microphone

Perfect for gaming, messaging and VoIP

- Simple to install and use
- Comfortable design
- In-line volume control
- Cable length: 2.1m

USB Neckband Stereo Headset with Microphone Part No. 20429

Headphones

Active Noise Cancelling Headphones Enjoy your music without disturbance

These superb headphones are perfect for in-flight use, train travel or simply relaxing at home. Using active electronics they effectively 'cancel out' unwanted background noise to provide a superior listening experience.

- Perfect for in-flight use
- 16dB active noise reduction
- Neat, folding design for portability
- Supplied with battery, carry bag, in-flight adapter, detachable cable & 6.3mm stereo adapter

Comparing them very favourably to much more expensive models What Hi-Fi magazine awarded them 4 out of 5 stars and described them as...

'...available at a tempting price...smaller and lighter than most...while also being comfortable on the head.'

'the noise cancellation proves decent...they have decent bass weight and punch...these are a solid effort.'

Active Noise Cancelling Headphones Part No. **20425**

Noise Isolating Earphones

Superb sound quality earphones for your MP3 player

These comfortable earphones fit snugly into your ears to reduce the amount of annoying background noise you hear when listening to your audio, resulting in a more enjoyable listening experience. Listen to music, movies and more with less distraction from ambient sounds from noisy offices, homes or busy public transport. They also come supplied with 3 different sizes of earbuds to ensure the most comfortable fit.

- Noise isolating design reduces the effect of ambient noise
- In-ear design provides powerful base response
- Supplied with small, medium and large ear buds for a comfortable fit
- 1m cable with 3.5mm stereo jack

Noise Isolating Earphones Part No. **20380**

Premium Hi-Fi Headphones Perfect for Hi-Fi and studio use!

These What Hi-Fi Award Winning headphones have been specially designed for users who require superb audio performance at an incredibly affordable price. Matching the specifications and performance of headphones costing many times more, they feature very high quality drivers which provide the most accurate response - perfect for recording and Hi-Fi use.

- Exceptionally accurate acoustic performance for the most natural sound
- High quality 42mm drivers with Neodymium Magnets and Copper Clad Aluminium Wire (CCAW) voice coils provide increased sensitivity for accurate mid and high tone reproduction as well as a powerful, defined bass
- Supplied with two sets of removable breathable, soft cushion, protein leather ear pads for a secure fit and maximum listening comfort over extended periods
- Ergonomic, adjustable lightweight design with stylish soft touch coating

When featured in a group test in What Hi-Fi magazine they compared very favourably to headphones costing up to 10 times more! Here are some of the comments from the review...

'Unfamously comfortable...solid, expansive...lots of bass punch to go with decent amounts of midrange and treble insight'

'Open, exciting and dynamic: if you insist on spending less than £100, audition these.'

Screw-on 6.3mm adapter

Protective, padded carry bag included

Premium Hi-Fi Headphones Part No. **20378**

Miscellaneous Accessories

Capacitive Touchscreen Stylus

Accurately navigate your touchscreen device

- Compact, stylish and comfortable stylus
- For use with any capacitive touchscreen devices such as smartphones, game consoles, tablet computers including iPads
- Allows your screen to remain smear, scratch and finger print free
- Length: 108mm

Capacitive Touchscreen Stylus	Part No. 40253
-------------------------------	----------------

Automatic LED Nightlight

Ideal safety light for use in the home

- Plugs into a 13A power socket
- Low power consumption
- Long life LED light
- Double insulated
- 2.5 Watt, 250 Volts

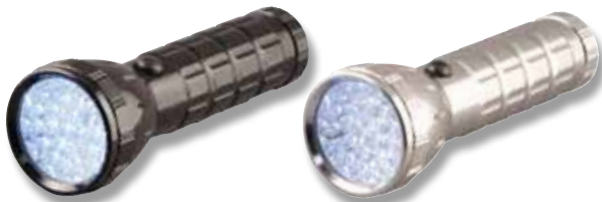

Automatic LED Nightlight	Part No. 43073
--------------------------	----------------

Super Bright LED Torches

Ideal for use in the car, home or office

- 28 super bright LEDs with an expected life of 100,000 hours
- Tough, weatherproof, aluminium alloy design
- Available in silver or black
- Requires 3 x AAA batteries (not included, see table below)

Super Bright LED Torch, Silver	Part No. 43072
Super Bright LED Torch, Black	Part No. 43071
AAA Batteries, Pack of 10	Part No. 84853

Cable Grip, 6 Pack

The neat and convenient way to secure your cables

Now you'll never lose your cables down the back of your desk! The Cable Grips stick to almost any work surface and gently grasp your cables preventing them from falling when you unplug them.

- Muted colours to match your office furniture
- Can be stuck to desk tops, walls, furniture legs etc.
- Cables can be easily removed and extended

Cable Grip, 6 Pack	Part No. 40799
--------------------	----------------

Smartphone Stand

Ultra portable Smartphone stand

- The perfect travelling companion
- Credit card size - easily fits in a wallet or purse
- Folding design
- Adjustable viewing angle
- Suitable for all Smartphone's up to 4.3" display
- Durable white plastic design

Folds flat to fit in your wallet

Smartphone Stand	Part No. 40507
------------------	----------------

Portable Power Pack

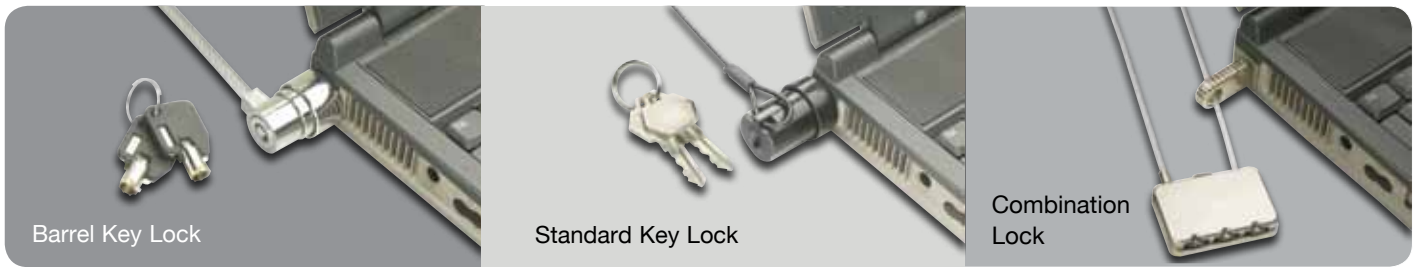

Give extra life to your mobile device

- Instant extra life to your mobile device
- Recharge mobile devices including a iPhone, iPod, Digital Camera, Mobile Phone or MP3 Player
- Charge by connecting your device to the power pack using the USB charging cable
- To recharge the power pack just connect it to a computer's USB port
- Dimensions: 2.13cm diameter x 12.9cm long

Portable Power Pack	Part No. 84881
---------------------	----------------

Notebook Security Cables Available with barrel, key or combination locks

- Protects your laptop or other computer accessories which have a suitable security slot fitted, e.g. TFTs, projectors etc.
- Plastic covered steel cable
- Length: 1.6m

Barrel Key Lock Security Cable	Part No. 20945
Standard Key Lock Security Cable	Part No. 20944
Combination Lock Security Cable	Part No. 20903

Retractable Security Cable

Retractable design extends to 1.3m

- Attaches to the security slot found on most notebook computers
- Key operated barrel lock with 2 keys
- Plastic covered steel cable

Retractable Security Cable Part No. **20975**

Twin Lock Security Cable

Secures two devices at the same time

- Features two barrel keylocks for securing two devices at the same time e.g. a laptop and a TFT screen
- Attaches to the security slots found on most notebooks and many other devices
- Plastic covered steel cable
- Supplied with 3 keys
- Length: 1.7m

Twin Lock Security Cable Part No. **20946**

Camera Security Cable

Attaches to a camera's tripod mounting thread

- 4 wheel combination lock
- Plastic covered steel cable
- Length: 2m

Camera Security Cable Part No. **20973**

Multi-Purpose Security Cable

Secures your notebook and other items

- 3 wheel combination lock design
- Attaches to the security slot found on most notebook computers
- Can also be used to secure other items, e.g. bicycles, suitcases etc.
- Plastic covered steel cable
- Length: 2m

Multi-Purpose Security Cable Part No. **20907**

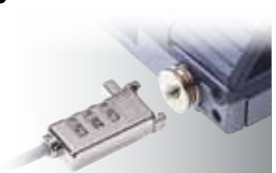

VGA/Serial Port Security Cable

Ideal for use with laptops and monitors which don't have a security slot

- Combination lock and cable securely clamps to the adapter
- Plastic covered heavy duty steel cable
- Length: 2m

VGA/Serial Port Security Cable Part No. **20976**

Computer Security Kit

Fast and easy installation with no tools required

- Heavy duty 2m steel-coated cable
- 3 permanent, self-adhesive mounting plates, and a padlock with 2 keys

Computer Security Kit

Part No. **20275**

USB Combination Lock

Multi-function USB lock

- Ideal for use with pen drives
- 3 digit wheel user definable combination code
- Prevents unauthorised access to devices and files
- Information can remain safely protected
- Can also be used as a more traditional padlock

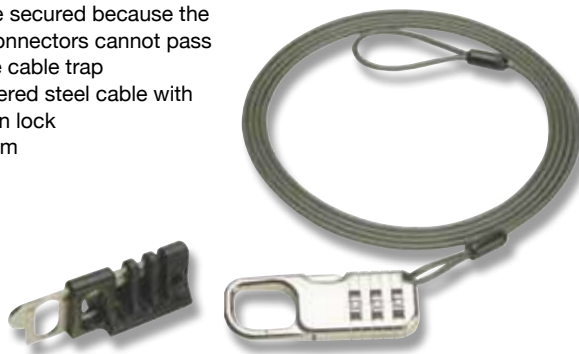

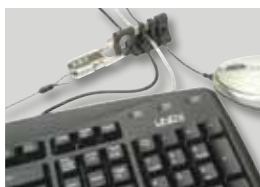

USB Combination Lock

Part No. **40449**

Security Cable with Device Cable Trap

Protects your monitor, keyboard, mouse and other devices

- Secures 3 or more devices, depending on cable thickness
- Devices are secured because the moulded connectors cannot pass through the cable trap
- Plastic covered steel cable with combination lock
- Length: 1.5m

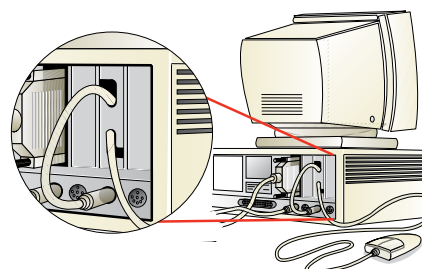

Security Cable with Device Cable Trap

Part No. **20978**

Monitor, Keyboard & Mouse Security Bracket

Replaces a PC's standard blanking plate

- One bracket can secure several devices at the same time
- Moulded connectors on the end of each cable prevent the devices from being taken away from the PC
- Maximum cable diameter: 7mm

Monitor, Keyboard & Mouse Security Bracket

Part No. **40167**

USB Port Blocker

Simple and effective tool for blocking a USB port

- Prevent users from connecting pen drives, MP3 players and other devices to their computers to copy data, introduce viruses etc.
- 5 colour coded versions available: Pink, Green, Blue, Orange & White
- Includes 4 locks and 1 key
- Each key only works with a lock of the same colour

	Colour Code	Part No.
USB Port Blocker (4 locks & 1 key)	Pink	40450
	Green	40451
	Blue	40452
	Orange	40453
	White	40454
Additional Lock Pack (10 locks without key)	Pink	40460
	Green	40461
	Blue	40462
	Orange	40463
	White	40464

LCD & Plasma Screen Cleaners

Small and large screen versions

- Effective cleaning kits for LCD, Plasma and CRT displays
- Can also be used to clean CDs and DVDs
- Specially formulated cleaning solution reduces static electricity which can attract dust
- Soft, micro-fibre cleaning pad effectively cleans without scratching or streaking
- Compact, ergonomic design - the cleaning fluid is neatly stored in the pad handle
- Small version is ideal for screens up to 20"; large kit is designed for larger LCD and Plasma displays over 20"
- Large kit also includes a soft brush for cleaning keyboards and other devices
- Cleaning solution does not contain IPA (isopropyl alcohol) or other harmful additives

Small Screen Cleaning Kit

Large Screen Cleaning Kit

Small Screen Cleaning Kit	Part No. 40445
Large Screen Cleaning Kit with Brush	Part No. 40446
100ml Refill Bottle	Part No. 40447

TFT/LCD Screen Cleaner

Ideal for flat panels & notebook screens

- Antistatic pump spray cleaner for TFT/LCD monitors and all other screens
- Contains no alcohol and so is non-flammable
- Use in conjunction with LINDY Dry Cleaning Tissues (Part No. 40416, see below)
- Biodegradable
- 250ml

TFT/LCD Screen Cleaner	Part No. 40433
------------------------	----------------

Cleaning Tissues

Use with LINDY TFT/LCD Screen Cleaner pump spray

- 25 dry cleaning tissues

Cleaning Tissues, Pack of 25	Part No. 40416
------------------------------	----------------

Wet Wipes

Ideal for computers and other office equipment

- 100 general purpose moist cleaning tissues in a refillable plastic tub

Wet Wipes	Part No. 40162
-----------	----------------

Compressed Air Cleaner

Ozone friendly dust blaster

- Pure compressed gas air for cleaning delicate or inaccessible areas
- 100% ozone friendly
- CFC free
- Detachable nozzle extension
- 300ml

Compressed Air Cleaner

Part No. 40430

Multi-format DVD/CD Lens Cleaner

Keep your optical lens free from lint and dust

- Cleans and cares for the laser lens in your CD or DVD drive
- Features a special cleaning brush which gently removes dirt and dust in one controlled process
- Compatible with PCs, Macs, games consoles and CD, LD, VCD and DVD players

Multi-format DVD/CD Lens Cleaner

Part No. 40424

Fire, Water & Rodent resistant

Armoured CST Loose Tube Fibre Optic Cable

Suitable for external applications in ducts or direct burial

LINDY single loose tube corrugated steel tape armoured cables are constructed of 250µm fibres held in a gel filled central loose tube, surrounded by water-blocking tape and corrugated, polyethylene laminated steel tape. The cable features two parallel steel wire strength members embedded in the PE outer jacket.

- Open ended bare cable
- Loose tube, LS0H
- Corrugated steel tape armour for direct burial
- E-Glass/Aramid yarn strength members
- Primary buffer diameter, 250µm
- Crush resistance: 2000N
- Colour coded fibres
- Water blocking tape
- Operating temp: -40° to 60°C

ST to ST, Simplex	Multi mode	Ceramic	Metal	3/8" 'D' Hole	70455
SC to SC, Duplex	Multi mode	Metal	Plastic	Snap-in	70464
SC to SC, Duplex	Single mode	Ceramic	Plastic	Snap-in	70496
LC to LC, Duplex	Multi mode	Metal	Plastic	Snap-in	70487

Twisted Pair Cabling

Network Patch Cables

- Choose from the following types:
 - CAT6 UTP • CAT6 FTP • CAT6a SSTP • CAT5e UTP • CAT5e FTP
- Available in Unshielded Twisted-Pair (UTP), Foil Twisted-Pair (FTP) and Screened/Shielded Twisted-Pair (SSTP) - the extra shielding protects against Electromagnetic Interference (EMI) and Radio Frequency Interference (RFI)

Up to 100m!

UTP CAT5e, Crimp Type	10	60406
UTP CAT6, Crimp Type	10	62430
STP CAT6, Crimp Type	10	62435

RJ-45 Strain Relief Boots

Colour code your CAT5e/6 connectors

- Pre-assembly boots must be used before crimping the RJ-45 connector onto the cable
- Fits cable diameters up to 6mm
- Pack of 10

Colour	Red	Green	Blue	Black	White	Beige
Part No.	62350	62351	62352	62353	62354	62355

RJ-45 Crossover Adapter

Converts a standard patch cable into a crossover cable

- CAT5e, STP
- 10/100/1000Base-T

RJ-45 Crossover Adapter	Part No. 60194
-------------------------	----------------

Serial/RJ-45 Modular Adapters

Suitable for use with our stranded core bulk cables

RJ-45 Female to 25 Way D Male

	Qty	Part No.
RJ-45 Female to 9 Way D Male	1	70246
RJ-45 Female to 9 Way D Female	1	70247
RJ-45 Female to 25 Way D Male	1	70244
RJ-45 Female to 25 Way D Female	1	70245

Twisted Pair Cabling

CAT5e/6 Face Plates

- Flat and angled versions available
- Unshielded
- High quality angled terminal block contacts
- Accepts 22-26 AWG solid core wire
- Dual type terminal blocks
- Dual standard labelling (T568A/T568B colour coding standards)
- Shuttered sockets to protect against dust
- Easy attach ID labels with protective cover
- Screws supplied

CAT5e Flat Face Plates

Single Face Plate with 1 x RJ-45 Flat Socket	Part No. 60585
Single Face Plate with 2 x RJ-45 Flat Socket	Part No. 60586
Double Face Wall Plate with 4 x RJ-45 Flat Socket	Part No. 60587

CAT5e Angled Face Plates

Single Face Plate with 1 x RJ-45 Angled Socket	Part No. 60568
Single Face Plate with 2 x RJ-45 Angled Socket	Part No. 60569

CAT6 Flat Face Plates

Single Face Plate with 1 x RJ-45 Flat Socket	Part No. 60565
Single Face Plate with 2 x RJ-45 Flat Socket	Part No. 60566
Double Face Plate with 4 x RJ-45 Flat Socket	Part No. 60567

CAT6 Angled Face Plates

Single Face Plate with 1 x RJ-45 Angled Socket	Part No. 60571
Single Face Plate with 2 x RJ-45 Angled Socket	Part No. 60572
Double Face Plate with 4 x RJ-45 Angled Socket	Part No. 60573

What are T568A & T568B & how do they differ?

They perform exactly the same function, the only difference is the colours used to identify each pin.

To prevent confusion take care to purchase the same colour-coded system with all relevant components. Many LINDY structured cabling products now come with both wiring standards combined, simplifying your purchase.

RJ-45	T568A	T568B		
Pin 1	White/Green	White/Orange	— PAIR	
Pin 2	Green	Orange	— ONE	
Pin 3	White/Orange	White/Green		
Pin 4	Blue	Blue	— PAIR	PAIR
Pin 5	White/Blue	White/Blue	— TWO	THREE
Pin 6	Orange	Green		
Pin 7	White/Brown	White/Brown	— PAIR	
Pin 8	Brown	Brown	— FOUR	

Pattress Boxes

Surface Mount Pattress Box, Single, depth 32mm	Part No. 73088
Surface Mount Pattress Box, Single, depth 44mm	Part No. 73114
Surface Mount Pattress Box, Double, depth 32mm	Part No. 73089
Surface Mount Pattress Box, Double, depth 44mm	Part No. 73115

Brush Face Plates

2012 NEW

- Give cable installations a clean, clutter free appearance
- Dimensions: 86 x 86mm

Single Gang Brush Face Plate	Part No. 60237
Double Gang Brush face Plate	Part No. 60238

IDC Termination Blocks

IDC Termination Block, Unshielded (joins solid core UTP cable)	Part No. 34008
--	-----------------------

CAT6

IDC Termination Block, Unshielded (joins solid core UTP cable)	Part No. 34010
--	-----------------------

CAT6 Surface Mount Wall Boxes

CAT6 (for both T568A or T568B wiring systems)

Single RJ-45 Surface Mount Wall Box, Unshielded	Part No. 60575
Double RJ-45 Surface Mount Wall Box, Unshielded	Part No. 60576
Four Way RJ-45 Surface Mount Wall Box, Unshielded	Part No. 60577
Six Way RJ-45 Surface Mount Wall Box, Unshielded	Part No. 60578
Eight Way RJ-45 Surface Mount Wall Box, Unshielded	Part No. 60579

Port Doublers & Line Adapters

Port Doublers Run 2 connections over one cable

Port Doublers allow two devices to be connected using only one port of a structured cabling system. They must be used in pairs by connecting one to the patch panel and the other to the wall outlet. Please note: sold as single units, not pairs.

- Existing installations can be easily expanded allowing additional computers/telephones to be added temporarily or permanently
- Ideal for installations where additional cables cannot be installed easily

Port Doublers (sold as single units - not pairs)	UTP	STP
2 x 10Base-T devices to 1 Port	Part No. 34002	-
1 x 10Base-T device & 1 x Voice or Token Ring Device to 1 Port	Part No. 34003	Part No. 34013
2 x Voice or Token Ring devices to 1 Port	Part No. 34004	-
2 x 10/100Base-TX devices to 1 Port	Part No. 34006	-

RJ-45 Analogue Telephone Line Port Multiplier

Allows 4 UTP/RJ-45 connections to be connected to 1 UTP port of a structured cabling system

- For analogue telephone lines only (not VoIP or LAN connections)
- Allows existing installations to be quickly expanded
- Must be used in pairs by connecting one to a patch panel and the other to a wall outlet
- Please note: sold as single units, not pairs

RJ-45 Analogue Telephone Line Port Multiplier Part No. **34015**

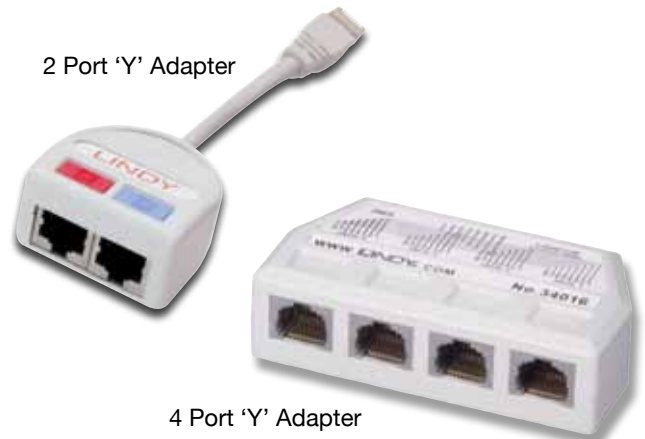

RJ-45 Analogue Telephone Line 'Y' Adapter

2 and 4 port versions available

'Y' Adapters allow up to four telephones to be connected in parallel at different locations. Please note: 'Y' Adapters do not give additional individual lines but allow multiple connection points to share one line.

- Allows multiple parallel telephones at different locations to be connected to the same line enabling them to all ring simultaneously etc.
- Existing installations can be easily expanded allowing additional computers/telephones to be added temporarily or permanently

'Y' Adapter - Bridges all pairs (sold as single units - not pairs)	UTP	STP
Connects 2 telecoms devices in parallel	Part No. 34001	Part No. 34011
Connects 4 telecoms devices in parallel	Part No. 34016	-

Telephone Line Adapters

Connect your telephones to a CAT5e/6 structured cabling system

These adapters allow telephones with BT connectors to be used in a structured cabling system with RJ-45 connectors. Three versions are available:

Full Master

Includes surge protector and a capacitor to generate a ring.

PABX Master

Includes capacitor to generate ring, surge protection is not required as this is already provided by most PABX systems.

Secondary

Used for secondary extensions or on a PABX system when the equipment connected has it's own ring detection circuit and a capacitor is not required. Many modems have this.

RJ-45 Male to BT Female Full Master, length: 0.25m	Part No. 75140
RJ-45 Male to BT Female PABX Master, length: 0.25m	Part No. 75141
RJ-45 Male to BT Female Secondary, length: 0.25m	Part No. 75142

Bulk Cables, Connectors & Adapters

Premium Gold Phono Connectors, Pack of 6

premium
GOLD

With unique locking feature

- 24K gold plated connectors
- Ideal for use with our Premium Phono Bulk Cable (see below)
- Twisting hood compresses the connector to hold it tightly
- 6 different coloured ID rings: red, blue, white, green, yellow & orange

Premium Gold Phono Connectors, Pack of 6 Part No. **37572**

Premium Phono Cable, 100m

Make your own high quality AV cable

- Ideal for use with our Premium Gold Phono Connectors (see above)
- 75 Ohm Pure Crystal Oxygen Free Copper (PC-OFC) coaxial conductor
- OFC braid with Aluminium Mylar foil wrap
- Supplied on a 100m reel • Colour: Blue

100m Reel

Premium Phono Cable, 100m Reel Part No. **37573**

RG-59U 75 Ohm Coax Cable, 100m

- Ideal for use with TV aerial installations, CCTV etc.
- Single copper inner conductor (1/0.65, strands/mm)
- Stranded copper braided screen (64/0.12, strands/mm)
- Colour: Black

100m Reel

RG-59U 75 Ohm Coaxial Cable, 100m Reel Part No. **35598**

RG6U 75 Ohm Coax Cable, 100m

- Ideal for use with TV aerial installations, CCTV etc.

1.8m USB 2.0 Transfer Cable Pro, PC & Mac version	Part No. 42616

USB 2.0 Smart Data Transfer Cable + 2 Port KM Switch

Transfer data and control 2 PCs using Picture in Picture control

This useful cable allows a user to connect two PCs together for data transfer. It provides a unique keyboard and mouse control function which allows both connected computers to be controlled from one PC. The remote computer's display is visible using a 'picture-in-picture' function.

- Affordable solution for controlling two PCs from one keyboard and mouse
- Unique built in software allows you to switch mouse and keyboard control between the connected computers
- Picture in Picture (PIP) function
- Compatible with Windows 2000/XP/Vista/7
- Length: 1.5m

USB 2.0 Smart Data Transfer Cable + 2 Port KM Switch	Part No. 42617
--	----------------

USB 2.0 480Mbps High Speed

USB Extension Cables

5m USB 2.0 Slimline Active Extension Cable

USB 2.0 480Mbps
High Speed

Uses built-in active electronics to extend the cable length of a USB 2.0 device by an additional 5m

5m USB 2.0 Slimline Active Extension Cable

Part No. 42817

- Unique, slimline design allows the active electronics to be fitted into a standard USB connector - an advantage over other active USB cables which use special, bulky connectors
- Plug & Play - no special software installation required
- Compatible with both USB 2.0 and USB 1.1 devices
- Connectors: Type A USB Male to Type A USB Female
- For even greater distances of up to 25m you can connect up to 5 of these cables in series
- Compatible with Windows 2000/XP/Vista/7, Linux, Mac OS 9.0 & above
- Length: 5m

20m USB 2.0 Extension Cable

Extend USB connections up to an incredible 20m

- Built-in active electronics allow USB 2.0 device to be extended by an additional 20m
- Easy to use, Plug & Play solution
- Perfect for use with printers, scanners, cameras etc
- Backwards compatible with USB 1.1
- Supports transfer rates up to 480 Mbps
- Two extensions can be connected together to reach 40m
- Bus powered
- Connectors: Type A USB Male to Type A USB Female
- Compatible with USB equipped PCs and Macs

2012 NEW
USB 2.0 480Mbps
High Speed

20m USB 2.0 Extension Cable

Part No. 42631

10m USB 2.0 Active Extension 4 Port Hub

Easily extend the length of up to four USB 2.0 devices by 10m

- Perfect for use with USB peripherals such as printers, scanners and storage devices
- Compatible with both USB 2.0 and USB 1.1 devices
- Bus powered from the computer or self powered using an additional power supply (not included)
- Compatible with USB equipped PCs and Macs
- Length: 10m

USB 2.0 480Mbps

USB Extension System

USB 2.0 Active Extension System Pro

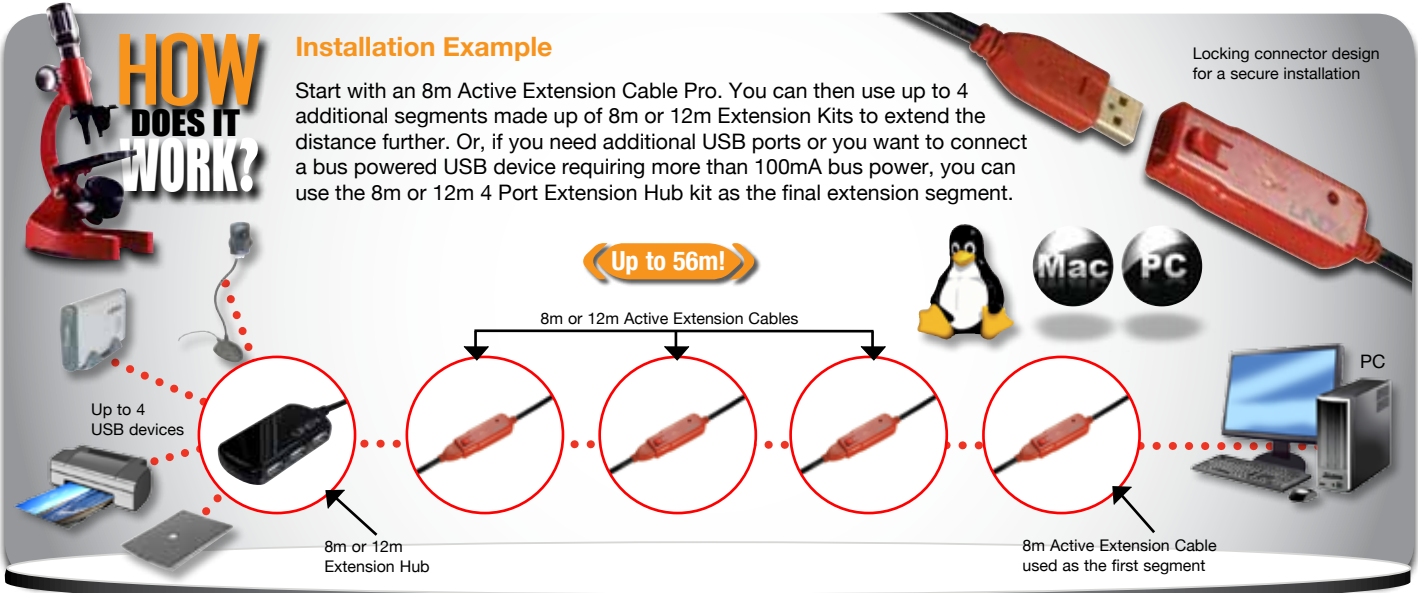

Extend High Speed USB 2.0 connections up to 56m

The USB 2.0 Active Extension System Pro is a range of products which can be combined together to extend and distribute USB 2.0 signals over incredibly long distances. The advantage of the Extension System Pro is that it is able to support higher transfer speeds of up to 480Mbps – a distinct performance advantage over other available USB extension solutions which typically max out at USB 1.1 transfer rates of 11Mbps.

- USB 2.0 and USB 1.1 compatible
- Supports transfer speeds of up to 480Mbps
- Cables are USB bus powered; the hub versions include a multi-country power supply
- Locking connectors for a secure installation
- Compatible with Windows ME/2000/XP/Vista/7, Linux and Mac OS 10 & above

The Extension system Pro range consists of 8m and 12m extension cables and hubs. See below for a typical installation example.

USB 2.0 480Mbps
High Speed

8m USB 2.0 Active Extension Cable Pro

- Connects directly to your computer's USB 2.0 port
- Can be used as the starting segment in a long distance USB Active Extension System Pro installation
- Latching connector for a secure installation
- Connectors: USB Type A Male to USB Type A Female
- USB bus powered

8m USB 2.0 Active Extension Cable Pro Part No. 42780

8m USB 2.0 Active Extension Pro 4 Port Hub

- Can be directly connected to a computer's USB 2.0 port
- Can also be connected as the final segment in a long distance USB Active Extension System Pro installation
- Connectors: USB Type A Male to 4 x USB Type A Female
- Can be bus powered or used with the included power supply

8m USB 2.0 Active Extension Pro 4 Port Hub Part No. 42781

12m USB 2.0 Active Extension Cable Pro

- Can be used as the middle and final segments in a long distance USB Active Extension System Pro installation
- Latching connector for a secure installation
- Can not be connected directly to a computer's USB port
- Connectors: USB Type A Male to USB Type A Female
- USB bus powered

12m USB 2.0 Active Extension Cable Pro Part No. 42782

12m USB 2.0 Active Extension Pro 4 Port Hub

- Can be used as the final segment in a long distance USB Active Extension System Pro installation
- Can not be connected to a computer's USB port as the first segment
- Connectors: USB Type A Male to 4 x USB Type A Female
- Can be bus powered or used with the included power supply

12m USB 2.0 Active Extension Pro 4 Port Hub Part No. 42783

FireWire Cables

Premium FireWire Cables

- High quality IEEE 1394a compliant cables
- Supports high speed data transmissions of up to 400Mbps

- Choose from 4.5m or 10m versions
- Cables can be daisy chained together to a maximum 50m
- Supports IEEE 1394a devices at speeds of up to 400Mbps
- Ideal for use with DV Camcorders, FireWire printers, scanners, digital cameras etc.
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 8.6 & above

4.5m FireWire Active Extension Cable	Part No. 32908
10m FireWire Active Extension Cable	Part No. 32958

4.5m and 10m Lengths!

Up to 50m!

FireWire 800 Active Extension Cable

Extend the cable length of your FireWire 800 device by 5 or 10m

- FireWire Repeater Cable for extending the cable length between FireWire devices over distances greater than the IEEE 1394b specified limit of 4.5m
- 5m and 10m versions available
- Cables can be daisy chained together to a maximum 50m
- Supports IEEE 1394b devices at speeds of up to 800Mbps
- Ideal for use with DV Camcorders, FireWire printers, scanners, digital cameras etc.
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 8.6 & above

5m and 10m Lengths!

5m FireWire 800 Active Extension Cable	Part No. 32918
10m FireWire 800 Active Extension Cable	Part No. 32957

Cables, Adapters & Connectors

HDMI Cables

Premium Gold High Speed HDMI Cables with Ethernet

premium
GOLD

Superb quality cable for the latest HDMI devices

Fully HDMI compliant HDMI ATC (Authorised Test Centre) certified

Metal Shielded

Patented all metal connector design results in superior 360° shielding, low resistance and extremely high reliability without the need for ferrite cores, making the cable less stressed and more flexible

24K Gold Plated Connectors

Unlike non-gold connectors which tarnish and corrode over time, these 24K gold plated connectors ensure that the electrical conductive ability of the Premium Gold HDMI cables remains unaltered, providing long term performance and reliability

Up to 20m!

Low Attenuation Cable Design

Advanced, low attenuation cable uses the highest quality 100 Ohm PC-OFC copper and triple shielded construction for perfect image and sound reproduction at longer transmission distances

- 4k support for resolutions up to 1440p
- 1080p 3D over HDMI ready
- Full support for HEC, ARC and CEC compliant devices
- Ethernet support allows IP devices to connect to the internet via a compatible HDTV
- Audio Return Channel supports bi-directional audio
- Deep Colour capable, supports over 1 billion colours, x.v.Colour™ and xvYYC ready
- Supports all HDMI audio formats including 5.1, 7.1, 8.1 and 13.1 channel high definition digital audio
- High Speed lengths available up to 5m (Standard from 7.5m to 20m)

Premium Gold Standard Cable with Ethernet

Premium Gold HDMI Connector Locks & Face Plates

The Premium Gold HDMI Connector Lock is a flexible plastic hood which fits over the connectors on our Premium Gold HDMI cables for a secure connection to LINDY HDMI face plates or suitably equipped HDMI devices.

Our stylish, brushed steel HDMI wall plates are available with HDMI alone or HDMI & DVI connections. They can be used with or without the HDMI Connector Lock. At the rear, the wall plates feature right angled connectors for easy cable routing.

Cables, Adapters & Connectors

HDMI Cables

Premium High Speed HDMI Cables with Ethernet

Advanced, high quality cable with Ethernet support

- 24K gold plated contacts with stylish chrome plated connector hoods, fully shielded cable and additional strain relief
- 1080p 3D over HDMI ready
- Ethernet support allows IP devices to connect to the internet via a compatible HDTV
- Supports resolutions up to 1440p
- Fully HEC, ARC and CEC compliant
- Deep Colour support
- Very compact connector size - ideal for use with recessed HDMI sockets
- High Speed lengths available up to 5m (Standard available in 7.5m and 10m lengths)

Up to 10m!

Mini DisplayPort to DisplayPort Adapter Cable, 1.5m

Connect a Mini DisplayPort /Thunderbolt device to a DisplayPort device

- Compliant with DisplayPort 1.1 specification for 1.62 and 2.7Gbps
- Supports resolutions up to 2560 x 1600
- Overall length: 1.5m
- Colour: Grey cable with white hoods and gold plated connectors

Mini DisplayPort to DisplayPort Adapter Cable, 1.5m	Part No. 41045
---	----------------

Mini DisplayPort Cable

High quality male to male cable with 24K gold plated contacts

- DisplayPort 1.1a HD 1080p compatible
- Full support for high definition video, multi-channel digital audio
- Supports resolutions up to 2560x1600 and 1080p
- Overall length: 1.5m
- 24K gold plated connector pins
- Supports 8 channel, uncompressed 24bit audio
- Bandwidth: 2.7Gbps per lane (total 10.8Gbps)
- Colour: Grey cable with white hoods and gold plated connectors

Mini DisplayPort Cable, 1.5m	Part No. 41065
------------------------------	----------------

Mini DisplayPort Extension Cable

Extend your Mini DisplayPort connection by 1.5m

- Compliant with DisplayPort 1.1 specification for 1.62 and 2.7Gbps
- Up to 2560x1600 resolution
- Overall length: 1.5m
- Colour: Grey cable with white connectors

Mini DisplayPort Extension Cable, 1.5m	Part No. 41036
--	----------------

Premium Gold DVI-D Cables

- 24K gold plated connectors with 360° EMC shielding
- Low attenuation cable for superior results over longer distances
- Supports DVI resolutions of up to 2560 x 1600 and HDTV resolutions up to 1080p

In-Wall AV Cable System

Easy to use modular system for professional cable installations

The LINDY In-Wall AV Cable System allows installers to easily install long distance cable runs in walls and through conduit. The modular design consists of digital and analogue cable runs which are equipped with DIN style plugs. A selection of HDMI, DVI and VGA fly leads can then be connected to the DIN plugs at each end of the cable to give installers a high, quality, durable, long distance cable installation that is easy to install and maintain.

In-Wall Digital AV Cable Run

- 9.5m and 14.5m cables for long distance HDMI & DVI cable installations
- 15 Pin DIN Male to 15 Pin DIN Male
- Simply connect a set of HDMI, DVI Female or DVI Male Fly Leads to each end
- Fly Leads have to match at each end of the cable run

In-Wall Digital AV Cable Run	Length	Part No.
	9.5m	37314
	14.5m	37315

HDMI Fly Lead

- Connect an HDMI Fly Lead to each end of an In-Wall Digital AV Cable Run
- Cannot be connected to an In-Wall Analogue AV Cable Run
- 15 Pin DIN Female to HDMI Male
- Length: 0.25cm

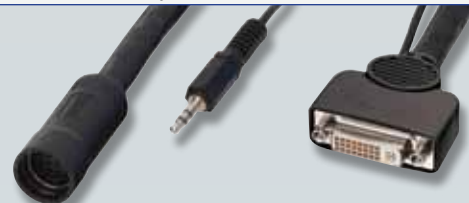

HDMI Fly Lead	Part No.
	37316

DVI Female & Audio Fly Lead

- DVI-D Single Link Female & 3.5mm Stereo Audio Jack Fly Lead
- Connect a DVI Female & Audio Fly Lead to each end of an In-Wall Digital AV Cable Run
- Cannot be connected to an In-Wall Analogue AV Cable Run
- 15 Pin DIN Female to DVI-D Single Link Female & 3.5mm Stereo Audio
- Length: 0.25cm

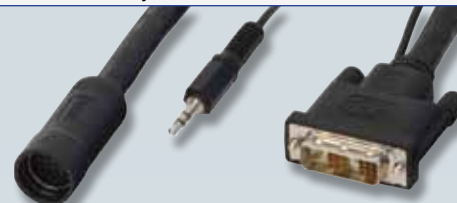

DVI Female & Audio Fly Lead	Part No.
	37317

DVI Male & Audio Fly Lead

- DVI-D Single Link Male & 3.5mm Stereo Audio Jack Fly Lead
- Connect a DVI Male & Audio Fly Lead to each end of an In-Wall Digital AV Cable Run
- Cannot be connected to an In-Wall Analogue AV Cable Run
- 15 Pin DIN Female to DVI-D Single Link Male & 3.5mm Stereo Audio
- Length: 0.25cm

DVI Male & Audio Fly Lead	Part No.
	37318

In-Wall Analogue AV Cable Run

- 9.5m, 19.5m, 29.5m, 39.5m and 49.5m cables for long distance VGA installations
- 15 Pin DIN Male to 15 Pin DIN Male
- Simply connect a set of VGA Fly Leads to each end
- A VGA Fly Lead is required for each end of the cable run

In-Wall Analogue AV Cable Run	Length	Part No.

- VGA Male & 3.5mm Stereo Audio Jack Fly Lead
- Connect a VGA Male & Audio Fly Lead to each end of an In-Wall Analogue AV Cable Run
- Cannot be connected to an In-Wall Digital AV Cable Run
- 15 Pin DIN Female to 15 Pin VGA Male & 3.5mm Stereo Jack Male
- Length: 0.25cm

VGA Male & Audio Fly Lead	Part No.
	37324

Premium Gold VGA Cables

When only the best is good enough!

Our Premium Gold VGA cables have been designed for users who demand maximum reliability and the best possible performance. No compromises have been made in design or construction to ensure that these cables provide superb picture quality at the highest resolutions, even over very long distances.

Available in lengths of up to 50m and backed by a 25 year warranty, they're the perfect choice for home cinema, presentation, CAD, DTP and AV installations.

Triple-shielded 'low loss' coaxial cable with secondary internal screening to reduce interference

	Length	Part No.
DVI-I Male to DVI-D Single Link Female + VGA Female	0.20m	41048

DVI-I Female to DVI-D Male* + VGA Male

- Allows VGA and DVI-D signals to be sent to a display equipped with both DVI and VGA inputs

	Length	Part No.
DVI-I Female to DVI-D Male + VGA Male	0.20m	41008

DMS 59 Male to 2 x DVI-I Female

- Allows a computer with a DMS 59 connector to output its signal to two separate DVI equipped displays

	Length	Part No.
DMS 59 Male to 2 x DVI-I Female	1.6m	41009

DMS 59 Male to 2 x VGA Female

- Allows a computer with a DMS 59 connector to output its signal to two separate VGA equipped displays

	Length	Part No.
DMS 59 Male to 2 x VGA Female	1.6m	41010

Mini DVI Male to DVI-D Female & HDMI Female Splitter Cable

- Splitter cable allows DVI and HDMI displays to be connected to an Apple notebook's Mini DVI port

	Length	Part No.
Mini DVI Male to DVI-D Female & HDMI Female	0.20m	41003

DisplayPort & Mini DVI Adapter Cables

DisplayPort Male to HDMI Female

- Allows an HDMI display to be connected to a PC's DisplayPort connection
- Gold plated connectors

DisplayPort Male to HDMI Female	Length	Part No.
	0.17m	41018

DisplayPort Male to VGA Female

- Allows a VGA monitor to be connected to a PC's DisplayPort connection
- Gold plated connectors

DisplayPort Male to VGA Female	Length	Part No.
	0.30m	41017

DisplayPort Male to DVI-D Female

- Allows a DVI monitor to be connected to a PC's DisplayPort connection
- Gold plated connectors

DisplayPort Male to DVI-D Female	Length	Part No.
	0.17m	41019

Mini DVI Male to VGA Female

- Allows a VGA display to be connected to an Apple notebook's Mini DVI port

Mini DVI Male to VGA Female	Length	Part No.
	0.20m	41002

Mini DVI Male to DVI-D Female

- Allows a DVI-D display to be connected to an Apple notebook's Mini DVI port

Mini DVI Male to DVI-D Female	Length	Part No.
	0.20m	41000

Mini DVI Male to HDMI Female

- Allows an HDMI display to be connected to an Apple notebook's Mini DVI port

Mini DVI Male to HDMI Female	Length	Part No.
	0.20m	41001

Cables, Adapters & Connectors

Mini DisplayPort Adapter Cables

Mini DisplayPort Male to VGA Female

- Allows a VGA display to be connected to an Apple notebook's Mini DisplayPort

Mini DisplayPort Male to VGA Female	Length	Part No.
	0.20m	41025

Mini DisplayPort Male to DVI-D Female

- Allows a DVI-D display to be connected to an Apple notebook's Mini DisplayPort

Mini DisplayPort Male to DVI-D Female	Length	Part No.
	0.20m	41023

Mini DisplayPort Male to HDMI Female

- Allows an HDMI display to be connected to an Apple notebook's Mini DisplayPort

Mini DisplayPort Male to HDMI Female	Length	Part No.
	0.20m	41024

Mini DisplayPort & DisplayPort to DVI-D Dual Link Adapter

Convert Displayport & Mini DisplayPort signals to DVI

- Converts a DisplayPort signal into a DVI-D Dual link signal
- DVI-D output video resolution up to 2560 x 1600
- Includes, DP Male to Mini DP Female adapter
- Connectors Mini DisplayPort Male, DisplayPort Male, DVI-D Female

Mini DisplayPort & DisplayPort to DVI-D Dual Link Adapter	Length	Part No.
	0.60m	41027

Mini DisplayPort & USB to HDMI Adapter

Connects your Mini DisplayPort equipped Mac to an HDTV

- Supports resolutions up to 1080p and 36 bit deep colour
- Built-in external USB audio adapter to allow audio playback over HDMI
- Connectors: Mini DisplayPort Male, USB 2.0 Type A Male, HDMI Female

Mini DisplayPort & USB to HDMI Adapter	Length	Part No.
	0.70m	41026

Mini DisplayPort Male to DisplayPort Female

- Allows a DisplayPort display to be connected to an Apple notebook's Mini DisplayPort

Mini DisplayPort Male to DisplayPort Female	Part No.
	41022

DisplayPort Male to Mini DisplayPort Female

- Allows a DisplayPort device to connect to a Mini DisplayPort connector

DisplayPort Male to Mini DisplayPort Female	Length	Part No.
	0.15m	41060

Mini DisplayPort Male to HDMI/DVI/DisplayPort

- Connect a DVI, HDMI or DisplayPort monitor to a Mini DisplayPort device

Mini DisplayPort Male to HDMI/DVI/DisplayPort Female	Length	Part No.
	0.15m	41049

DVI Adapters and Couplers

DVI-A Male to VGA Female

- Connects a device with a DVI-A analogue output to a VGA display

DVI-A Male to VGA Female Adapter	Part No.
	71244

DVI-I Female to DVI-I Female Coupler

- Connects two DVI cables together
- Supports digital and analogue signals
- Gold plated connectors

DVI Coupler	Part No.
	41233

DVI-D Male to DVI-I Female Adapter

- Connects two DVI cables together
- Gold plated connectors

DVI-D Male to DVI-I Female Adapter	Part No.
	41098

Video Adapters

90° DVI-I
Male to
DVI-I
Female

- Ideal for use in trunking to achieve right angled bends by joining two cables together
- Gold plated connectors

90° DVI-I Male to DVI-I Female Part No. **41253**

90° DVI-I
Female to
DVI-I Female

- Ideal for use with a wall plate

90° DVI-I Female to DVI-I Female Part No. **60516**

90° DVI-I
Female to
DVI-I Male

- Ideal for use with a wall plate

90° DVI-I Female to DVI-I Male Part No. **60514**

HDMI Adapters & Couplers

HDMI
Female to
HDMI Male
Port Saver

- Protects HDMI ports from frequent plugging and unplugging of devices
- Gold plated connectors

HDMI Port Saver Part No. **41231**

HDMI
Female to
HDMI
Female
Coupler

- Connects two HDMI cables together
- Gold plated connectors

HDMI Coupler Part No. **41230**

HDMI
Male to
Female 360°
Adapter

- Swivel and rotate movement allows you to connect HDMI cables without obstructing adjacent HDMI ports

HDMI 360° Adapter Part No. **41096**

HDMI
Female to
Mini HDMI
Male

- Connects a Mini HDMI equipped device to a standard HDMI cable
- Gold plated connectors

HDMI Female to Mini HDMI Male Part No. **41235**

Mini HDMI
Female to
HDMI Male

- Connects a Mini HDMI cable to a standard HDMI device
- Gold plated connectors

Mini HDMI Female to HDMI Male Part No. **41236**

90° Down
HDMI
Male to
HDMI
Female

- Allows easier access to awkwardly placed HDMI ports
- Gold plated connectors

90° Down HDMI Adapter Part No. **41085**

90° Up HDMI
Male to
HDMI
Female

- Allows easier access to awkwardly placed HDMI ports
- Gold plated connectors

90° Up HDMI Adapter Part No. **41086**

90° Right HDMI Male to
HDMI Female

- Allows easier access to awkwardly placed HDMI ports
- Gold plated connectors

90° Right HDMI Adapter Part No. **41092**

90° Left HDMI
Male to
HDMI Female

- Allows easier access to awkwardly placed HDMI ports
- Gold plated connectors

90° Left HDMI Adapter Part No. **41093**

HDMI
Female to
DVI-D Male

- Connects a device with an HDMI output to a display with a DVI-D input

HDMI Female to DVI-D Male Part No. **41228**

DVI-D
Female to
HDMI Male

- Connects a device with a DVI-D output to a display with an HDMI input

DVI-D Female to HDMI Male Part No. **41217**

DisplayPort
Female to
DisplayPort
Female
Coupler

- Connects two DisplayPort cables together
- Gold plated connectors

DisplayPort Coupler Part No. **41020**

Video Adapters & SCART Cables

VGA Adapters & Couplers

VGA Couplers

- Connects two VGA cables together

VGA Male to VGA Male	Part No. 70092
VGA Female to VGA Female	Part No. 70094

VGA Male to VGA Female Port Saver

- Protects VGA ports from frequent plugging and unplugging of cables

VGA Male to VGA Female	Part No. 70093
------------------------	-----------------------

VGA Female to VGA Female Coupler

- Ideal for extending a recessed VGA port
- Can be used to connect two VGA Male to Male cables together

VGA Female to Female Coupler	Part No. 71242
------------------------------	-----------------------

VGA Male to VGA Male Coupler

- Ideal for extending a recessed VGA port
- Can be used to connect two VGA Female cables together

VGA Male to VGA Male Coupler	Part No. 71240
------------------------------	-----------------------

VGA Male to VGA Female Adapter

- Ideal for extending a recessed VGA port

VGA Male to Female Adapter	Part No. 71241
----------------------------	-----------------------

VGA Male to DVI-A Female Adapter

- Connects a device with a VGA output to a DVI-I equipped display

VGA Male to DVI-A Female Adapter	Part No. 71245
----------------------------------	-----------------------

90° VGA Female to VGA Male 'Up'

- Ideal for use with a wall plate
- Cable direction is 'up' when fitted to a VGA port (depending on the orientation of the port)
- Gold plated connectors

90° VGA Female to Male 'Up'	Part No. 70318
-----------------------------	-----------------------

90° VGA Female to VGA Male 'Down'

- Ideal for use with a wall plate
- Cable direction is 'down' when fitted to a VGA port (depending on the orientation of the port)
- Gold plated connectors

90° VGA Female to Male 'Down'	Part No. 70387
-------------------------------	-----------------------

Sun Sparc to VGA Adapter

Sun Sparc Male to VGA Female	Part No. 70127
------------------------------	-----------------------

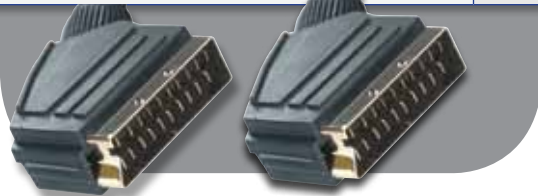

SCART Cable

High quality cable with gold plated connectors

Length	Part No.
0.5m	35559
1m	35560
2m	35561
3m	35562
5m	35563
10m	35564

SCART Male to SCART Male
Gold Plated Connectors
All pins wired

Up to 10m!

SCART Splitters

Connect multiple SCART sources to one input

- Switched and non-switched versions
- RGB signal support
- Switched version features push buttons for selecting the source
- 4 Way version also features Composite Video / S-Video and Stereo Audio outputs

2 Way Non-Switched SCART Splitter	Part No. 35595
4 Way Switched SCART Splitter	Part No. 35597

SCART Adapter

- Connects Composite or S-video and stereo audio to SCART

SCART Adapter	Part No. 35570

Premium Aerial, Satellite & Cable TV Cables

These high quality cables can replace and upgrade low cost cables used in most TV installations. Robust, gold plated connectors with stylish hoods give a more secure, reliable installation while 75 Ohm double screened OFC coaxial copper conductors provide optimal signal transfer and reduced interference for a more clear, consistent image. UHF/RF cables can connect TVs and aerials while F-Type cables are ideal for use with Sky, Virgin or FreeSat digital setups.

Microphone Cable for iPhone

Add a microphone to your iPhone headphones

- Volume control key and Answer/Reject button
- Compatible with iPhone and iPad
- Length: 85cm approx.
- Colour: Black

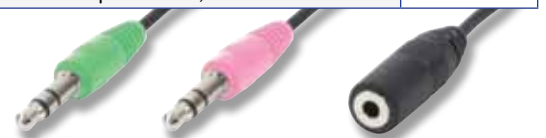

iPhone Microphone Adapter Cable, 0.85m	Part No. 35521
--	----------------

iPhone to PC Audio Adapter Cable

Connect your iPhone or iPad headset to your PC or Mac

- Use your 3.5mm iPhone headset and microphone with your PC
- Length: 12cm approx.
- Works with iPhone & iPod headsets

iPhone to PC Audio Adapter Cable, 0.12m	Part No. 35522
---	----------------

Guitar Cable for iPhone & iPad

Plug your guitar into your iPod Touch, iPad or iPhone

- Designed for use with guitar recording and amp simulation apps
- 3.5mm Stereo Jack Male to 3.5mm & 6.3mm Stereo Socket Female
- Length: 0.5m
- Colour: black

Guitar Cable for iPod & iPad, 0.5m	Part No. 35519
------------------------------------	----------------

AV Cable for iPod & iPhone

Connect your iPod or iPhone to your TV

- Can be used with any TV, monitor or projector with composite video connections
- USB connector for charging and data sync
- Cable length: 1.5m (approx)
- Compatible with iPhone, iPod Touch and iPod Nano

Composite Video AV Cable for iPod & iPhone, 1.5m	Part No. 73349
--	----------------

AV Adapters & Couplers

360 Degree Right Angled TosLink Adapter

Rotate and swivel your cable to almost any angle

360 Degree Right Angled TosLink Adapter	Part No. 70421
---	-----------------------

S-Video Female to Female Coupler

- 24K gold plated
- Can be used as a coupler or gender changer
- For use with 50/75 Ohm cables

S-Video Female to Female Coupler	Part No. 37576

BNC Male to Phono Female Adapters (Pack of 3)	Part No. 35537
Phono Female to Female Coupler	Part No. 37574
Phono Female to Female Couplers (Pack of 10)	Part No. 37575

Component Video & Stereo Audio Cable for PS3

High quality cable for your PlayStation 3

- Premium shielded cable design
- Ferrite core for reduced electromagnetic interference
- 24K gold plated connectors
- Connectors: PS3 Multi-Connector to 5 x Phono Male (Component Video & Stereo Audio)
- Length: 1.8m

Component Video & Stereo Audio Cable for PS3	Length	Part No.
	1.8m	35000

Component Video & Stereo Audio Cable for Wii

High quality cable for your Nintendo Wii

- Premium shielded cable design
- Ferrite core for reduced electromagnetic interference
- 24K gold plated connectors
- Connectors: Wii Multi-Connector to 5 x Phono Male (Component Video & Stereo Audio)
- Length: 1.8m

Component Video & Stereo Audio Cable for Nintendo Wii	Length	Part No.
	1.8m	35011

VGA & Stereo Audio Cable for Xbox 360

High quality cable for your Xbox 360

- Premium shielded cable design
- Ferrite core for reduced electromagnetic interference
- 24K gold plated connectors
- Xbox 360 Multi-Connector to VGA and 2 Phono Male
- Toslink Port for digital optical audio
- Length: 1.8m

VGA & Stereo Audio Cable for Xbox 360	Length	Part No.
	1.8m	35017

Component Video & Stereo Audio Cable for Xbox 360

High quality cable for your Xbox 360

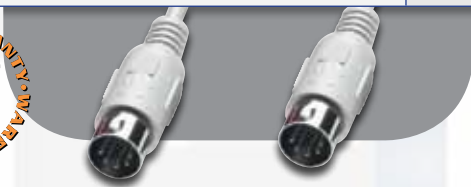

- Premium shielded cable design
- Ferrite core for reduced electromagnetic interference
- 24K gold plated connectors
- Connectors: Xbox Multi-Connector to 5 x Phono Male (Component Video & Stereo Audio)
- Toslink Port for digital optical audio
- Length: 1.8m

Component Video & Stereo Audio Cable for Xbox 360	Length	Part No.
	1.8m	35016

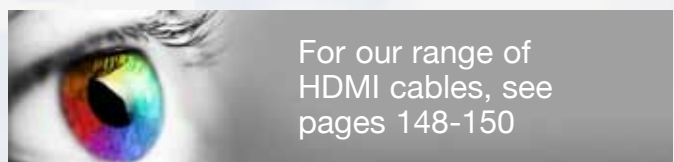

MIDI Cables

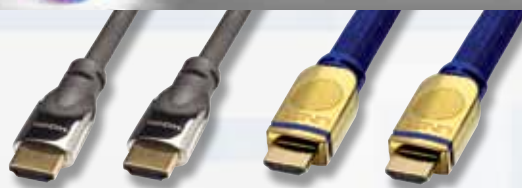

5 Pin DIN Male to 5 Pin DIN Male, Moulded	Length	Part No.
	2m	31511

5 Pin DIN Male to 5 Pin DIN Female, Moulded	Length	Part No.
	2m	31501

For our range of HDMI cables, see pages 148-150

Guitar Leads

High quality mono cable for guitars, keyboards & other electric musical instruments

- Heavy duty metal jack plugs with gold plated inner conductor tips
- Professional grade 6mm cable with Oxygen Free Copper conductor and flexible steel spring cable relief

Up to 10m!

XLR Cable

Affordable, professional microphone cable

- For use with microphones and other devices with XLR connections
- Heavy duty metal jack plugs with rubber strain relief
- Professional grade, flexible 7mm diameter, balanced cable with twin Oxygen Free Copper conductors

XLR Cable	Length	Part No.
Male to Female, Black	1.5m	6052
	3m	6053
	6m	6056
	10m	6059

Up to 10m!

XLR Cable	Length	Part No.
Male to Female, Red	1.5m	6042
	3m	6043
	6m	6046
	10m	6049

Up to 10m!

Mini-XLR Cable

- Professional grade, flexible 7mm diameter, balanced cable with twin Oxygen Free Copper conductors

Mini-XLR Cable	Length	Part No.
Male to Female, Black	1m	6091
	2m	6092
	3m	6093
	5m	6095

XLR Jack to 6.3mm Socket Adapter

- Tough, metal construction
- Converts an XLR connection to a 6.3mm mono socket

XLR Jack to 6.3mm Socket Adapter	Part No.
	6060

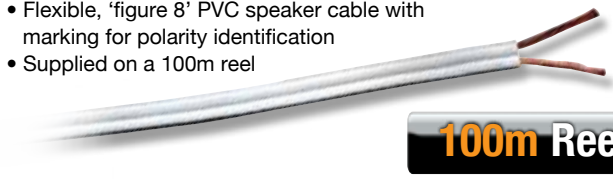

6.3mm Stereo Jack to 2 x Phono Cable

Stereo Audio Adapter Cable	Length	Part No.
6.3mm Stereo Jack to 2 x Phono Male, Black	0.5m	6080
	2m	6082
	3m	6083
	5m	6085

Bulk AV Cables & Connectors

Speaker Cable, 100m Reel

- Flexible, 'figure 8' PVC speaker cable with marking for polarity identification
- Supplied on a 100m reel

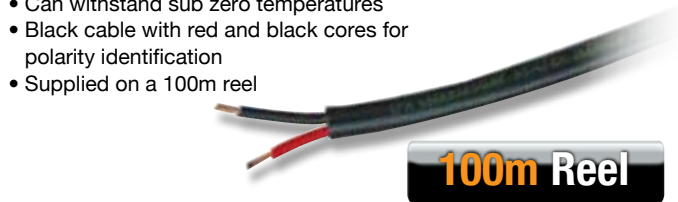

100m Reel

Speaker Cable, 100m Reel

Part No. **35390**

High Flex Speaker Cable, 100m Reel

- Highly flexible 'rubberized' speaker cable
- Can withstand sub zero temperatures
- Black cable with red and black cores for polarity identification
- Supplied on a 100m reel

100m Reel

High Flex Speaker Cable, 100m Reel

Part No. **35391**

RG6U 75 Ohm Coax Cable, 100m Reel

- Ideal for use with TV aerial installations, CCTV etc.
- Single inner conductor (1/1, strands/mm)

2012 NEW

100m Reel

RG6U 75 Ohm Coaxial Cable, 100m

Part No. **35599**

Expandable Braided Sleeving, 10m

- Lightweight, self-fitting, flexible sleeving that provides protection for bundles of cables up to a maximum diameter of 38mm
- Length: 10m

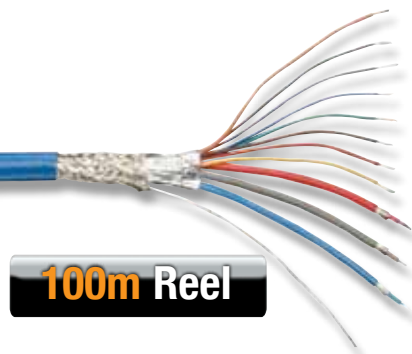

Expandable Braided Sleeving, 10m

Part No. **40287**

High Quality Tri-Coax Bulk VGA Cable, 100m Reel

- 3 x 75Ω 28 AWG individually shielded coaxial cores (RGB) and 8 x 24 AWG cores, double overall shield
- Ideal for use with our Premium Gold VGA Connectors (see right)
- Supplied on a 100m reel
- Colour: Blue

100m Reel

premium GOLD

High Quality Tri-Coax VGA Cable, 100m Reel

Part No. **37244**

Premium Phono Cable, Bulk, 100m Reel

Make your own high quality AV cable

- Designed for use with our Premium Gold Phono Connectors (below)
- 75 Ohm Pure Crystal Oxygen Free Copper (PC-OFC) coaxial conductor
- OFC braid with Aluminium Mylar foil wrap provides improved shielding
- Supplied on a 100m reel

100m Reel

Premium Gold Phono Cable, 100m Reel

Part No. **37573**

Premium Gold Phono Connectors

24K gold plated

- Use with our Premium Phono Bulk Cable (see above) to make your own high quality interconnects
- Allows you to make secure connections to your devices - a twist on the hood compresses the connector to hold it tightly in place
- Pack contains 6 adapters
- Includes 6 different coloured ID rings: red, blue, white, green, yellow & orange

premium GOLD

Premium Gold Phono Connectors (Pack of 6)

Part No. **37572**

TV Aerial Coaxial Plugs

Aluminium coaxial plug with aluminium clasp, heavy knurled for easy grip when tightening

- Male coaxial in-line plug
- Integrated claw cable grip
- Pack of 10
- Connector type: TV, Coaxial
- Coaxial Connector type: TV
- Impedance: 75 Ohm
- Maximum Cable Diameter: 8.25mm
- Material: Aluminium

2012 NEW

TV Aerial Coaxial Plugs, Pack of 10

Part No. **35430**

Premium Gold VGA Connector

- 15 Way Hi-Density Male
- Gold plated connector contacts & housing
- Gold plated thumb screws
- Ideal for use with our Tri-Coax bulk VGA cable, Part No. 37244, (see left)
- Supplied in a pack of 5

premium GOLD

Premium Gold VGA Connector (Pack of 5)

Part No. **60292**

AV Face Plates & Connectors

AV Face Plate with Built-in Cables Integrated solution for AV installers

- Ideal for projector and whiteboard installations
- Double face plate assembly which provides the following computer connections:
 - 2 x VGA Female
 - 3 x Phono Female (red, white & yellow)
 - USB Type B Female
 - 3.5mm stereo audio socket
- Built-in cables, for connecting to a projector, which terminate in the following connections:
 - 2 x VGA Male
 - 3 x Phono Male (red, white & yellow)
 - 3.5mm stereo audio jack
- 3m USB cable for connecting to a whiteboard
- Supplied on a surface mount back box

Up to 20m!

For Modular AV Face Plates see pages 28-29

	Length	Part No.
AV Face Plate with Built-in Cables (USB cable length: 3m)	5m	60255
	10m	60256
	15m	60257
	20m	60258

VGA Snap-in Block

- Designed for use with LINDY Modular AV Face Plates (pages 27-29), Premium Gold VGA Cables (page 156) and LINDY Holding Posts & Nuts (see below)
- See our website for full details of how to assemble a VGA face plate

VGA Connector Snap-in Block, Pack of 4 Part No. 60527

VGA Holding Posts & Nuts

- Available in packs of 10 or 50
- See our website for full details on how to assemble the LINDY VGA face plate

VGA Holding Posts & Nuts, Pack of 10 Part No. 66026

VGA Holding Posts & Nuts, Pack of 50 Part No. 66025

VGA Solder Buckets, 10 pack

- 15 Way Hi-Density Female
- Can be combined with Part No's 60527 and 66025/6 to build your own VGA wall plate

VGA Solder Buckets, (Pack of 10) Part No. 60297

Multimedia Face Plates

Metal and plastic versions available

- Single AV faceplate suitable for VGA and audio installations or interactive whiteboards
- Fits a standard mains backbox
- Fixing screws supplied
- Face plate front connectors:
 - 15 Way VGA Female
 - 3 x Phono Female (red, white & yellow)
 - USB Type B Female
 - 3.5mm stereo audio socket
- Rear connectors: screw terminals
- Colour: White

Multimedia Face Plate, Plastic Part No. 60221

Multimedia Face Plate, Metal Part No. 60222

Premium AV Face Plates

Stylish brushed steel finish

- Right angled connector for easy cable routing
- HDMI connectors feature a holding post for use with our Premium Gold HDMI cables and connector locks (see page 148)

Premium DVI-D Face Plate Part No. 60218

Premium HDMI Face Plate Part No. 60219

Premium DVI & HDMI Face Plate Part No. 60525

Pattress Boxes

Surface Mount Pattress Box, Single, depth 32mm Part No. 73088

Surface Mount Pattress Box, Single, depth 44mm Part No. 73114

Surface Mount Pattress Box, Double, depth 32mm Part No. 73089

Surface Mount Pattress Box, Double, depth 44mm Part No. 73115

Cables, Adapters & Connectors

KVM Cables

3-in-1 KVM Cables

Combined cables for a neater installation

For general keyboard, monitor & mouse extension

	Length	Part No.
2 x PS/2 Female/Male & 15 Way VGA Female/Male, Moulded	2m	33732

	10m	33465
	15m	33466
20m	33467	

Keyboard & Mouse Adapters

PS/2 Mouse to Serial Port

USB to PS/2 Adapter

PS/2 Mouse to Serial Port For autosensing Microsoft or Logitech compatible mice (9 Way D Female to 6 Pin Mini DIN Female)	Part No. 70058
USB to PS/2 Adapter (USB Type A Female to 6 Pin Mini DIN Male)	Part No. 70000

Multi-Platform KVM Converter Cable

Adds multi-platform supports to a PS/2 KVM switch

Allows any KVM switch with standard PS/2 keyboard/mouse and VGA video ports to be connected to Mac or SUN computers with USB keyboard/mouse and VGA video ports.

- Moulded cable with miniature conversion circuit neatly moulded into the centre
- DDC support for Plug & Play monitors
- Flash upgradeable for future enhancements

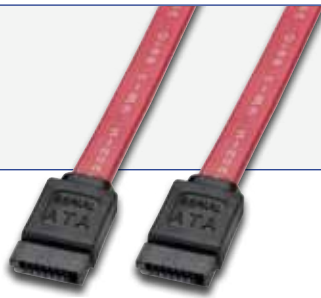

Multi Platform KVM Converter Cable USB Type A Male & 15 Way VGA Male to 2 x PS/2 Male & 15 Way VGA Male	Length	Part No.
	2m	42867
	5m	42869

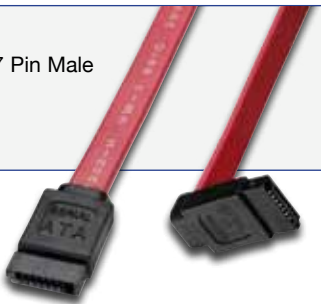

SATA Cable

- Available with straight and right angled plugs

	Length	Part No.
SATA 7 Pin Male to SATA 7 Pin Male	0.2m	33369
	0.5m	33370
	0.7m	33371
	1m	33372

	Length	Part No.

	0.5m	33443
	0.7m	33444
	1m	33445

Latching SATA Cable

- Features latch type SATA plugs which lock into place when used with compatible latching controller or device ports
- Can also be used with standard non-latching SATA ports
- Available with straight and right angled plugs

	Length	Part No.
SATA 7 Pin Male to SATA 7 Pin Male, Latching	0.2m	33449
	0.5m	33450
	0.7m	33451
	1m	33452

	Length	Part No.
SATA 7 Pin Male to Right Angled SATA 7 Pin Male, Latching	0.2m	33454
	0.5m	33456
	0.7m	33457
	1m	33458

Low Profile Latching SATA Cable

- Features latch type, low profile SATA plugs which lock into place when used with compatible latching controller or device ports
- Can also be used with standard non-latching SATA ports

	Length	Part No.
SATA 7 Pin Male to SATA 7 Pin Male, Low Profile, Latching	0.2m	33559
	0.5m	33560
	0.7m	33561
	1m	33562

SATA Data & Power Cable

22 Way SATA Male Power + Data Connector to 7 Way SATA Male & 5.25" Male Power	Length	Part No.
	0.3m	33364
	0.5m	33365
	0.7m	33366
	1m	33367

Slimline SATA Cables

- All-in-one solutions for small form factor drives

Slimline SATA Cable with 5.25" Power Connection

	Length	Part No.
SATA 7 Pin Male Data + 6 Pin Slimline SATA Male Power to SATA 7 Pin Male Data + 5.25" Male Power	0.3m	33607
	0.5m	33608
	1m	33609

Slimline SATA Extension Cable (Data & Power)

	Length	Part No.
SATA 7 Pin Male Data + 6 Pin Slimline SATA Male Power to SATA 7 Pin Female Data + 6 Pin Slimline SATA Female Power	0.3m	33649
	0.5m	33650
	1m	33651

SATA Extension/Splitter Cable

- All-in-one solution for SATA drive connections
- Allows you to adapt or change the data and power connections on your SATA hard drive
- Can also be used to adapt SATA docking and cloning stations
- SATA 22 Pin Data & Power Female to:
 - SATA 15 Pin Power Male
 - SATA 7 Pin Data Male
 - 5.25" Power Female
 - 5.25" Power Male
 - 3.5" Power Female

SATA Extension/Splitter Cable Combined Data & Power	Length	Part No.
	0.3m	33440

For our SATA /controller Cards, see pages 69-70

eSATA & eSATAp Cables

eSATA Cables

- Connects an external eSATA equipped device to an eSATA controller

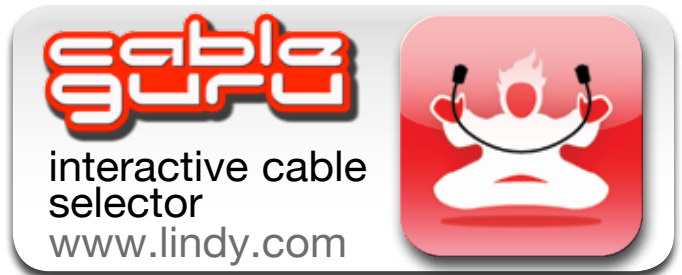

eSATA 7 Pin Male to eSATA 7 Pin Male	Length	Part No.
	0.5m	33479
	1m	33480
	2m	33481

eSATA to SATA Cables

- Connects an external eSATA equipped device to a SATA controller

eSATA 7 Pin Male to SATA 7 Pin Male	Length	Part No.
	0.5m	33487
	1m	33488

eSATAp Cables

- Connects an eSATAp device to an eSATAp controller
- 5V only and 5V & 12V combined versions available

eSATAp to eSATA, 5V only

eSATAp Male to eSATAp Male (5V)	Length	Part No.
	1m	33680
	2m	33681

eSATAp & USB Cables

- Connects an external eSATA device to an eSATAp controller
- USB connection can power the external device and can also support data transfer

eSATAp to eSATA & USB Mini-B Male

eSATAp Male to eSATA 7 Pin Male & USB Mini B Male	Length	Part No.
	1m	33690
	2m	33691

eSATAp to eSATA, 5V & 12V

eSATAp Male to eSATAp Male (5V & 12V)	Length	Part No.
	0.5m	33682
	1m	33683
	2m	33684

eSATAp to eSATA & USB Type A Female

eSATAp Male to eSATA 7 Pin Male & USB Type A Female	Length	Part No.
	1m	33685
	2m	33686

eSATAp to 22 Way SATA Cable (5V/12V)

- Allows a bare SATA hard drive to be connected to a computer's eSATAp port
- Can connect to 2.5" or 3.5" drives as it provides both 5V and 12V DC power

eSATAp 7 Pin Male to SATA 22 Way Male	Length	Part No.
	0.5m	33625
	1m	33626
	2m	33627

eSATAp to eSATA, USB Mini-B & 5V DC Mini Jack

eSATAp Male to eSATA 7 Pin Male, USB Type A Female & 1.3mm 5V DC Power Jack	Length	Part No.
	0.5m	33654
	1m	33655

Micro SATA Cables

Micro SATA Cable (Data & Power)

- For use with 1.8" form factor hard drives and solid state drives (SSD)

	Length	Part No.
Micro SATA 7 Pin Male Data + 9 Pin Male Power to	0.3m	33636
Micro SATA 7 Pin SATA Female Data + 15 Pin SATA Male Power	0.5m	33637
	1m	33638

Micro SATA Extension Cable (Data & Power)

- For use with 1.8" form factor hard drives and solid state drives (SSD)

	Length	Part No.
Micro SATA 7 Pin Male Data + 9 Pin Male Power to	0.3m	33670
Micro SATA 7 Pin SATA Female Data + 9 Pin Female Power	0.5m	33671
	1m	33672

for the latest prices and special offers

Slim SATA to SATA Adapter

- Allows you to connect a hard drive or CD/DVD-ROM drive equipped with a Slim SATA Data + Power connector to a standard 22 Pin SATA Data + Power cable

Slim SATA to SATA Adapter

Part No. **33503**

Micro SATA to SATA Data & Power Adapter, 3.3/5V

- Allows a Micro SATA equipped hard disk equipped to be used in a SATA backplane or drive housing
- Can not be connected to a standard SATA 22 Pin cable
- Micro SATA 16 Pin Male (Data & Power) to SATA 22 Pin Female (Data & Power)
- Voltage regulator allows it to be used with devices requiring 3.3V or 5V DC

Micro SATA to SATA Data & Power Adapter, 3.3/5V

Part No. **33502**

Micro SATA to SATA Data & Power Adapter, 5V

- Allows a Micro SATA equipped hard disk equipped to be used in a SATA backplane or drive housing
- Can not be connected to a standard SATA 22 Pin cable
- Micro SATA 16 Pin Male (Data & Power) to SATA 22 Pin Female (Data & Power)
- For use with devices requiring 5V DC

Micro SATA to SATA Data & Power Adapter, 5V

Part No. **33500**

SATA to SAS Internal Cables

- Features latching SATA connectors for a secure installation
- Supports primary and secondary data channels

2 x SATA (Host) to SAS SFF-8482 + 5.25" Power (Target)

	Length	Part No.
2 x 7 Way Latching SATA Male to SAS SFF-8482 + 5.25" Power Female	0.5m	33540
	1m	33541

2 x SATA (Host) to SAS SFF-8482 + SATA Power (Target)

	Length	Part No.
2 x 7 Way Latching SATA Male to SAS SFF-8482 + 15 Way SATA Power Female	0.5m	33545
	1m	33546

SAS / SATA Multilane Internal Cables

SAS / SATA Multilane SFF-8484 (Host) to 4 x SATA (Target)

- Connects an SFF-8484 host controller to 4 SATA hard drives
- Available with latching SATA connectors for a secure installation

SFF-8484 (Host) to 4 x 7 Way SATA Male (Target)	Length	Part No.
	0.5m	33330
	1m	33331
SFF-8484 (Host) to 4 x 7 Way Latching SATA Male (Target)	Length	Part No.
	0.5m	33342
	1m	33343

SAS / SATA Multilane SFF-8484 (Host) to 4 x SAS SFF-8482 + SATA Power (Target)

- Connects an SFF-8484 host controller to 4 SAS hard drives
- Features SATA power supply connectors for drive power

SFF-8484 (Host) to 4 x SAS SFF-8482 + 15 Way Sata Power Female (Target)	Length	Part No.
	0.5m	33525
	1m	33526

SAS / SATA Multilane SFF-8484 (Host) to 4 x SAS SFF-8482 + 5.25" Power (Target)

- Connects an SFF-8484 host controller to 4 SAS hard drives
- Features 5.25" Molex type power supply connectors for drive power

SFF-8484 (Host) to 4 x SAS SFF-8482 + 5.25" Power Female (Target)	Length	Part No.
	0.5m	33490
	1m	33491

SAS / SATA Multilane SFF-8484 (Host) to SFF-8484 (Target)

- Connects an SFF-8484 host controller to a SAS backplane
- Sideband function support

SFF-8484 (Host) to SFF-8484 (Target)	Length	Part No.
	0.5m	33515
	1m	33516

Mini SAS Internal Cables

Mini SAS SFF-8087 to SFF-8087

SFF-8087 to SFF-8087	Length	Part No.
	0.5m	33495
	1m	33496

SAS / SATA Multilane SFF-8484 to Mini SAS SFF-8087

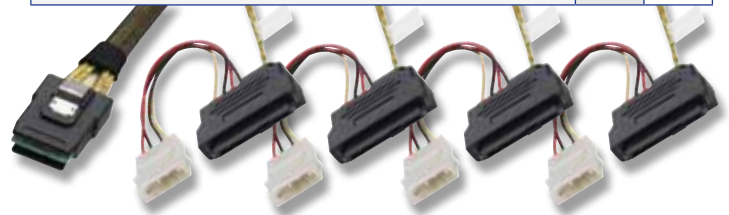

SFF-8484 to SFF-8087	Length	Part No.
	0.5m	33535
	1m	33536

Mini SAS SFF-8087 (Host) to 4 x SAS SFF-8482 + 5.25" Power (Target)

- Allows you to connect a Mini SAS controller to 4 SAS hard drives
- Features 5.25" Molex type power supply connectors for drive power

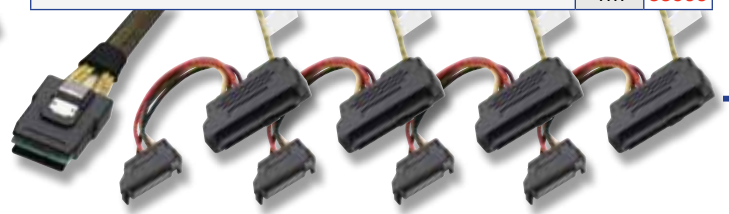

SFF-8087 (Host) to 4 x SAS SFF-8482 + 5.25" Power Female (Target)	Length	Part No.
	0.5m	33476
	1m	33477

Mini SAS SFF-8087 (Host) to 4 x SAS SFF-8482 + SATA Power (Target)

- Allows you to connect a Mini SAS controller to 4 SATA hard drives
- Features SATA power supply connectors for drive power

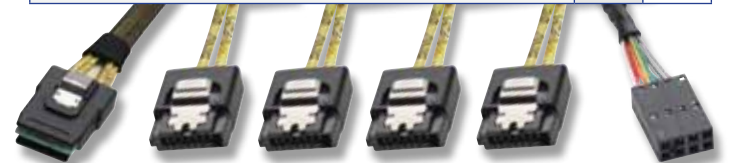

SFF-8087 (Host) to 4 x SAS SFF-8482 + 15 Way Sata Power Female (Target)	Length	Part No.
	0.5m	33565
	1m	33566

Mini SAS SFF-8087 (Host) to 4 x SATA (Target)

- Allows you to connect a Mini SAS controller to 4 SATA hard drives
- Features latching SATA connectors for a secure installation

SFF-8087 (Host) to 4 x 7 Way Latching SATA Male (Target)	Length	Part No.
	0.5m	33505
	1m	33506

SAS/SATA Multilane x4 Infiniband External Cables

- For use with SAS/SATA HBAs (Host Board Adapters) and external drive housings
- SAS (Serial Attached SCSI) and SATA II compliant
- Full duplex communication; up to 3Gb each direction/channel
- Available with thumbscrew and ejector style connectors

SFF-8470 (Thumbscrew) to SFF-8470 (Thumbscrew)

SFF-8470 Thumbscrew Male to SFF-8470 Thumbscrew Male	Length	Part No.
	0.5m	33227
	1m	33226
	2m	33225
	3m	33224
	5m	33212

SFF-8470 (Thumbscrew) to 4 x eSATA

SFF-8470 Thumbscrew Male to 4 x eSATA Male	Length	Part No.
	1m	33850
	2m	33851

Mini SAS SFF-8088 to 4 x eSATA

26 Way Mini SAS SFF-8088 Male to 4 x eSATA Male	Length	Part No.
	1m	33840
	2m	33841

SFF-8470 (Thumbscrew) to SFF-8470 (Ejector)

SFF-8470 Thumbscrew Male to SFF-8470 Ejector Male	Length	Part No.
	0.5m	33590
	1m	33591
	2m	33592
	3m	33593
	5m	33594

SFF-8470 (Latch Type) to 4 x eSATA

SFF-8470 Latch Type Male to 4 x eSATA Male	Length	Part No.
	1m	33855
	2m	33856

SFF-8470 (Ejector) to SFF-8470 (Ejector)

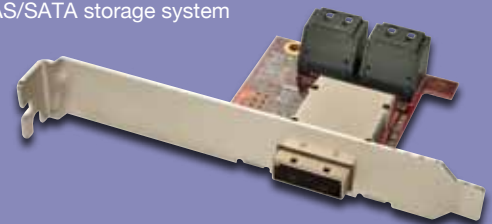

SFF-8470 Ejector Male to SFF-8470 Ejector Male	Length	Part No.
	0.5m	33580
	1m	33581
	2m	33582
	3m	33583
	5m	33584

SATA/SAS Multilane Bridge Boards

Internal 4 Way SATA / SAS Multilane Bridge Board

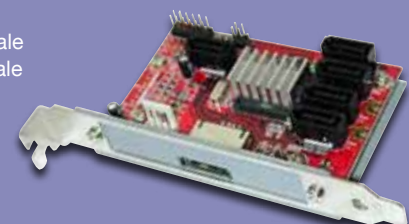

- Converts 4 internal SATA ports to 1 external multilane connector
- Supports transfer speeds of up to 6Gbps
- Supplied with standard and low profile mounting brackets
- External multilane Mini-SAS SFF-8088 connector for connecting to an external SAS/SATA storage system

Internal 4 Way SATA / SAS Multilane Bridge Board	Part No. 70551
--	----------------

5 Way SATA II Port Multiplier Bridge Board (Enclosure Mount)

- When used in conjunction with an external drive enclosure allows you to create a SATA RAID array with 5 drives
- Connectors: eSATA Female (external); 5 x SATA Female (internal)
- Supplied with a standard back plate and enclosure bracket

SATA II Port Multiplier Bridge Board (Enclosure Mount)	Part No. 51156
--	----------------

SFF-8470 (Thumbscrew) to Mini SAS SFF-8088

SFF-8470 Thumbscrew Male to 26 Way Mini SAS SFF-8088 Male	Length	Part No.
	0.5m	33630
	1m	33631
	2m	33632
	3m	33633
	5m	33634

Mini SAS SFF-8088 to Mini SAS SFF-8088

26 Way Mini SAS SFF-8088 Male to 26 Way Mini SAS SFF-8088 Male	Length	Part No.
	0.5m	33640

Cable Ties & Bridging

Standard Cable Ties

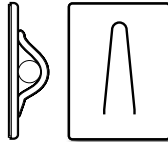

- Available in a range of different sizes
- Pack contents: 100 pieces

Standard Cable Tie, 100mm x 2.5mm	Part No. 40770
Standard Cable Tie, 150mm x 3.6mm	Part No. 40771
Standard Cable Tie, 200mm x 4.8mm	Part No. 40772

Self Adhesive Cable Clips

- Pack contents: 10 pieces
- Supports cables up to 8mm in diameter
- Dimensions: 35 x 25mm

Self Adhesive Cable Clips, Pack of 10	Part No. 40780
---------------------------------------	-----------------------

Hook & Loop Cable Ties

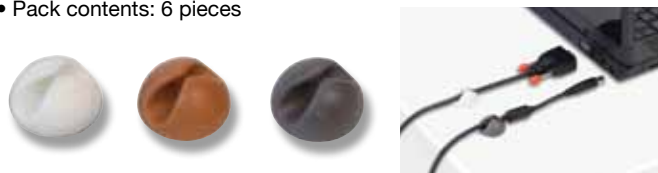

- Will not pinch or abrade delicate cables
- Pack contents: 10 pieces

Colour	Length	Part No.
Black	20cm	40791
	30cm	40795

Cable Grip, 6 Pack

- Ideal for use with peripheral cables from your camera, printer, monitor etc
- Strong, adhesive base sticks securely to almost any work surface
- Each pack contains 2 white, 2 brown and 2 black
- Pack contents: 6 pieces

Cable Grip, 6 Pack	Part No. 40799
--------------------	-----------------------

Cable Bridging

- Helps prevent tripping over loose cables
- Ribbed base grips almost any surface
- Allows wheeled traffic to pass over with minimum interference

AV Mains Conditioner & Cables

▼ LINDY 6 Way Mains Conditioner

Award winning surge protector and mains conditioner for Hi-Fi and home cinema

Even the most hardened sceptic would struggle not to notice the improvements in quality

What Hi-Fi? 2009 Mains Conditioner of the Year!

Don't just take our word for it though!
Check out these comments from What Hi-Fi's December 2008 review.....

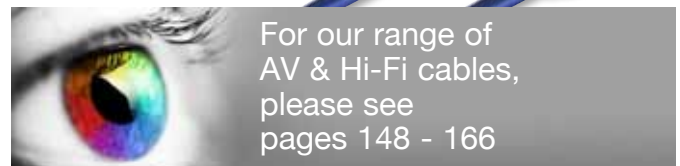

We were amazed at just how much separation the Lindy gave between instruments and voices

Images lose noise and grain, leaving you with cleaner, sharper visuals

LINDY 6 Way Mains Conditioner, 2m

Part No. 30087

- ▶ Effectively reduces mains interference
- ▶ Provides improved clarity from your audio devices
- ▶ Allows for cleaner, sharper picture quality from your video devices
- ▶ Features 6 sockets - perfect for your Hi-Fi and home cinema installations
- ▶ Surge protection to protect your valuable equipment
- ▶ 2m cable length

For our range of AV & Hi-Fi cables, please see pages 148 - 166

◀ Professional Hi-Fi & AV Mains Cable

Reduces interference for better sound and picture quality

The LINDY Professional Hi-Fi & AV Mains Cable has been specially designed for the serious Hi-Fi and home cinema enthusiast. This super quality 1.5 metre cable helps reduce mains interference to provide an enhanced visual and listening experience.

The ultra high grade IEC connector used incorporates an innovative Void Loop™ Conditioner which helps to clean the mains of RFI by means of a special addition in the IEC chamber.

- Professional cable for Hi-Fi and home cinema installations
- UK mains plug to IEC C15 socket
- Double screened design with Void Loop Conditioner
- 10A fuse fitted
- Length: 1.5m

Professional Hi-Fi & AV Mains Cable, 1.5m

Part No. 30086

INCORPORATING
VOID LOOP
CONDITIONER

▶ Premium Mains Cable High grade power cable

This premium screened mains power cable is ideal for use with Hi-Fi and AV equipment. The double-screened cable with tinned cross hatch copper braiding laid over aluminium foil and poly-layering is fitted with a high quality 10A IEC socket and an MK-646CHA 13A plug.

- Professional cable for Hi-Fi and home cinema installations
- UK mains plug to IEC C15 socket
- Double screened design
- 10A fuse fitted
- Length: 1.5m

Premium Mains Cable, 1.5m

---	------------------------------

Travel Power Adapters

In Car Mains Power Inverter, 175W

Connects to a car's cigarette lighter / utility socket

- Charges and powers your home electronics and mobile office equipment on the move
- Powers phones, camcorders and camera chargers, portable lights, music equipment, laptops and TVs etc.
- Input: 12V DC 15A
- Output: 240V AC ~ 50Hz
- Load: 140W continuous, 75W for 5 minutes

In-Car Mains Power Inverter Part No. **70278**

USB Car Adapter

Charge & power USB devices in your car

- Connects to a car's accessory outlet/ cigarette lighter
- USB Type A socket for connecting your devices
- 12V DC Input
- 5V DC Output @ 500mA

USB Car Adapter Part No. **73339**

In-Car Device Mains Adapter

Charges and powers your in-car devices at home

- Can be used with almost any device which is powered or charges via a car's accessory outlet/cigarette lighter
- Output: 12V DC • Max. current rating: 800mA
- Built-in UK 3 pin mains plug

In-Car Device Mains Power Adapter Part No. **73108**

USB Travel Adapter

Worldwide power for your USB devices

- For use with MP3 players, PDAs, mobile phones etc.
- USB Type A socket for connecting your device
- Unique 'snap-in' plug adapters

For use in the following countries :

- Europe • UK, Hong Kong, Singapore • United States, Canada • Japan, Taiwan, • China, Australia, New Zealand

USB Travel Adapter Part No. **73093**

4 Port USB Mains Charger

Charge 4 USB devices using a single power supply

- Charges and powers your USB devices
- Features 4 USB Type A Female socket for connecting your devices
- For use with iPods, MP3 Players, PDAs, mobile phones etc.
- Ratings for switch mode PSU:
 - Input: 100-240V AC, 50-60Hz 0.3A
 - Output: 5V DC, 1.0A

4 Port USB UK Mains Charger - Black Part No. **73353**
4 Port USB UK Mains Charger - White Part No. **73354**

1 Port USB Mains Charger

Universal USB power supply

- Charges and powers your USB device
- Features a USB Type A Female socket for connecting your device
- Perfect for use with iPods, MP3 Players, PDAs, mobile phones etc.
- Ratings for switch mode PSU:
 - Input: 100-240V AC, 50-60Hz 0.3A
 - Output: 5V DC, 1.0A

1 Port USB Mains Charger Part No. **73351**

Travel Power Adapters

Portable Power Pack

Give extra life to your mobile device

- The perfect partner for your mobile device
- Instant extra life to your battery
- For use with mobile devices such as an iPhone, iPod, Digital Camera, Mobile Phone or MP3 Player
- Charge by connecting your device to the power pack using the USB charging cable
- To recharge the power pack just connect it to a computer's USB port
- Handy LED power status display
- Dimensions: 2.13cm diameter x 12.9cm long

Portable Power Pack Part No. **84881**

Universal Power Adapter

- 8 voltage selection modules: 5V, 6V, 7V, 8V, 9V, 10V, 11V, 12V
- 8 different sized jack plugs to suit a wide variety of devices
- Supplied with a 2m UK mains cable
- Reverse polarity option

Universal Power Adapter Part No. **71304**

Multi Country Switching Power Adapters 5V, 9V and 12V versions available

- Practical power pack for home and abroad
- Input: 100-240V AC, 50-60Hz
- Cable length: approx. 1.4m

For use in the following countries :

- Europe • UK, Hong Kong, Singapore • United States, Canada • Japan, Taiwan, • China, Australia, New Zealand

5V Multi Country Switching Power Adapters

	Output voltage DC	Output voltage A	DC plug size	Part Number
5V Multi Country Switching Power Adapter	5V	2.6A	2.5/5.5mm	73810
	5V	3A	2.5/5.5mm	73812
	5V	2.6A	5.5/2.1mm	73841
	5V	2A	4.75/1.7mm	73842
	5V	2.6A	3.5/1.35mm	73843
	5V	1.2A	3.5/1.35mm	73845

9V Multi Country Switching Power Adapters

9V Multi Country Switching Power Adapter	Output voltage DC	Output voltage A	DC plug size	Part Number
	9V	0.5A	2.5/5.5mm	73800
	9V	0.5A	5.5/2.1mm	73840

12V Multi Country Switching Power Adapters

12V Multi Country Switching Power Adapter	Output voltage DC	Output voltage A	DC plug size	Part Number
	12V	1.25A	2.5/5.5mm	73802
	12V	1.25A	2.1/5.5mm	73803
	12V	2.5A	5.5/2.1mm	73844

Universal Notebook Power Adapter Ideal for replacing lost or damaged AC adapters

This lightweight universal AC/DC Adapter is available in 90W and 120W power ratings and is supplied with different DC plugs for compatibility with a multitude of laptops. Output voltage can be adjusted by selecting the appropriate adapter tip for your computer.

- Fully regulated power adapter (100-240V, 50/60Hz)
- Can supply up to 5 Amps (90W version) or 8 Amps (120W version)
- Adapter tips for use with different notebook types
- Cable length: 1.9m

Compatible with notebooks from :-

- HP • Acer • Lenovo • Toshiba • Compaq
 - IBM • Fujitsu • Sony • Samsung • Panasonic • Dell
- Please see our website for more details

90W Universal Notebook Power Adapter	Part No. 70256
120W Universal Notebook Power Adapter	Part No. 70279

Power Adapter for LINDY CPU Switches

- For use with the following LINDY CPU Switches only: CPU Switch Smart, CPU Switch Junior, CPU Switch Junior OSD, CPU Switch Dual/Quad Pro, CPU Switch Multiscreen
- Input: 100-240V AC
- Output: 5V DC, 2.4A

Power Adapter for LINDY CPU Switches Part No. 39290

Power Adapter for LINDY 2.5" Drive Housings

- For optional use with LINDY 2.5" External Drive Housings (Part No's 42905 & 42831)
- Output connector: round type, 1.5mm outer diameter
- Input: 200-240V AC
- Output: 5V DC, 2.6A

Power Adapter for LINDY 2.5" Drive Housings Part No. 70229

IEC C13 Switching PSU

- Input: 100-240V AC ~ 47Hz-63Hz
- Output: 5V DC - 4A/20 Watts
- Standard DC round plug 2.5/5.5mm
- Cable length to DC plug: 1.5m

IEC C13 Switching PSU Part No. 73818

Free UK Delivery

on all orders over £125_(ex.VAT)

Some exceptions apply, see delivery terms & conditions on our website

UK 3 Pin Mains Extension Leads

For those hard to reach places

- 3 core white flex
- 13A extension socket complies to BS 1363/A and plug to BS 1363

Up to 10m!

	Length	Part No.
UK 3 Pin Mains Extension Leads	5m	33311
	10m	33312

UK 6m Cable Extension Reel

Handy portable extension with twin sockets

- Twin 13A socket outlets
- Maximum capacity extended 13A
- Maximum capacity wound 6A
- Complies to BS 5733

	Length	Part No.
UK Cable Extension Reel	6m	30056

Power Strips & Surge Protection

UK 3 Way Mains Adapter

- With 13A fuse
- Complies to BS 1363
- BS safety style sleeved pins

UK 3 Way Mains Adapter Part No. **70144**

4 Way Power Strip, Black

Additional sockets for mains powered devices

- Stylish black design with 2m cable
- Maximum load: 13 Amps, 250V, 3000W
- Complies with BS 1363/A

4 Way Power Strip, Black, 2m Part No. **73026**

4 & 6 Way Power Strips

Extra sockets for your mains powered devices

- Choose from 4 or 6 way versions with either 2m or 5m cables
- Maximum load: 13 Amps, 250V, 3000W
- Complies with BS 1363

	Length	Part No.
4 Way Power Strip	2m	70145
	5m	73073
6 Way Power Strip	2m	30145
	5m	73074

10 Way Vertical Surge Protector

Unique, space-saving power extension with surge protection

- Suitable for use with audio, video and computer equipment
- Vertical design for a tidier, safer installation
- Built-in surge protector
- Surge protection and power indicators
- Maximum load: 13 Amps, 250V, 3000W
- 2m cable with cable tidy in the base of the unit

Power for up to 10 devices!

10 Way Surge Protector, 2m Part No. **73077**

4 & 6 Way Surge Protectors

Protects your devices

- 4 and 6 way versions
- 6 way version also provides in line surge protection for your fax/modem via 2 standard BT sockets (3m BT style telephone cable included)
- Maximum load: 13 Amps, 250V, 3000W
- Can be floor or wall mounted
- Cable length: 2m

4 Way Surge Protector, 2m	Part No. 73076
6 Way Surge Protector with Fax/Modem Protection, 2m	Part No. 30147

Individually Switched UK Mains Power Strips

4 and 6 Way individually switched mains power strips

- Eco friendly individually switched designs
- Green power "ON" indicators for each socket
- Fitted with a 13A fuse
- Can be floor or wall mounted
- Maximum load: 13 Amps, 250V, 3000W
- Complies with BS 1363/A
- Cable length: 2m

4 Way Individually Switched Power Strip, 2m	Part No. 73036
6 Way Individually Switched Power Strip, 2m	Part No. 73037

Eco Friendly Power Devices

Save energy, the environment and money with our new eco-friendly power saving devices!

5 Way Automatic Shutdown Power Strips

Switched & Infra-Red controlled strips ideal for computer & AV setups

- Power strip detects when either a computer or television is in stand-by mode and cuts off power to connected devices such as printers, DVD players etc to save wasted energy and money
- IR remote controlled design, perfect for AV setups
- Desktop switch controlled design, ideal for computer setups
- Each version has one always 'ON' socket, suitable for devices that always need to be connected to the internet

Desktop switch design

73118

Infra-Red remote controlled model

73119

5 Way Auto Shutdown Power Strip, Switched, 1.5m	Part No. 73118
5 Way Auto Shutdown Power Strip, IR Remote, 1.5m	Part No. 73119

Remote Controlled Power Sockets

Save energy by remotely turning off connected mains power

- 3 pack of individual sockets ideal for use with domestic equipment
- 4 Way Power Strip, perfect for IT and AV device setups
- Ideal for use with equipment left on stand-by or in hard to reach places

Sockets

Power Strip

Remote Controlled Sockets (3 pack)	Part No. 73113
4 Way Remote Controlled Power Strip, 1.8m	Part No. 73122

Automatic Shutdown Sockets

Infra-Red & Timer operated devices

- The Infra-Red Automatic Shut Down Socket learns the power 'ON/OFF' function of the connected equipment. It can then automatically switch the power supply ON or OFF accordingly
- The Count Down Timer Socket turns off power supply to connected equipment after approximately 30 minutes when easily activated by a push button

IR Socket

Count Down Socket

Infra-Red Automatic Shut Down Socket	Part No. 73116
Count Down Timer Socket	Part No. 73012

Energy Saving Power Meter

Calculate how much energy and money it takes to run electrical equipment

Energy Saving Power Meter	Part No. 73117
---------------------------	-----------------------

- Discover how much energy and money is needed to power equipment and appliances
- Measures voltage, current, power and calculates overall cost
- An easy way to help save energy and money

Intelligent Automatic Power Switches

Energy saving power for your computer & peripherals

The 3 Way Intelliplug and 8 Way Intelligent Mains Panel are cost effective, power saving adapters which automatically switch power to connected devices when your computer is switched on or off.

- Designed for use with computer, Hi-Fi and AV equipment
- Built-in surge protection
- 8 Way Mains Panel features a telephone/modem splitter with surge protection and a 2m mains cable
- Can save an average of 35 watts per hour depending on the number of connected peripherals
- Maximum power: 13A

8 Way

3 Way

3 Way Intelliplug	Part No. 73079
8 Way Intelligent Mains Panel, 2m	Part No. 73069

Note: These products are not designed for use with notebook computers.

Battery Charger & Batteries

NiMH (Nickel Metal Hydride) Rechargeable Batteries

High power rechargeable batteries

- Type AA, 1.2V - high 2400mAh energy capacity
- Type AAA, 1.2V - high 800mAh energy capacity
- Overcomes 'memory effect' problems associated with Ni-CD batteries
- Ideal for toys, digital cameras, clocks, radios, portable CD-Players/MP3 Players and torches etc.
- Complete with handy plastic storage case

	Type	Qty	Part No.
NiMH Rechargeable Batteries	AA, 1.2V	4	84864
	AAA, 1.2V	4	84862

Battery Charger/Discharger

For use with Ni-CD and NiMH rechargeable AA, AAA and 9V batteries

- Dual charging circuit for charging 2 pairs of AA/AAA batteries or a single 9V battery
- Built-in discharge function to eliminate the 'memory effect' of Ni-CD batteries (AA and AAA only)
- Automatically switches to charging mode after discharging has completed
- Audio signal indicates completion of the charging cycle
- Mains cable included

Batteries not included
(see left for our range)

Battery Charger/Discharger	Part No. 84871
----------------------------	----------------

Duracell Procell Alkaline Batteries

Duracell's range of Procell alkaline batteries are manufactured to the highest standards and feature a new improved formula which offers longer life performance. All Duracell Procell batteries are sold in packs of 10.

Ideal for use with toys, portable tape and CD players, clocks and radios, remote controls, electronic games, smoke alarms, PDAs and torches.

	Type	Part No.
Duracell Alkaline Batteries (Sold in packs of 10)	AA, 1.5V	84852
	AAA, 1.5V	84853
	C, 1.5V	84854
	D, 1.5V	84855
	PP3, 9V	84856

Lithium Coin Cell Battery, CR2032

- Ideal for computer memory backup, organisers, cameras and car security
- Twin pack

Panasonic Lithium Coin Cell CR2032 3V, 2 Pack	Part No. 84850
---	----------------

Lithium Coin Cell Battery, CR2025

- Perfect for use with remote controls, toys, electronic organisers, etc
- Twin pack

Panasonic Lithium Coin Cell CR2025 3V, 2 Pack	Part No. 84809
---	----------------

Access Point Connects wireless users together on a network and serves as a connection point between a wireless and wired network.

ACPI Power Management (Advanced Configuration and Power Interface) A standard developed by Microsoft, Toshiba and Intel for power management and configuration.

ADB (Apple Desktop Bus) A port found on older Apple Macintosh computers, typically used for mice and keyboards.

ADC (Apple Display Connector) A connector for Apple Macintosh monitors, which carries analogue and digital video signals, USB data, and power.

ADSL (Asymmetric Digital Subscriber Line) ADSL uses standard telephone lines to deliver high-speed internet access.

AES (Advanced Encryption Standard) a method of encrypting data which supersedes DES (Data Encryption Standard).

AGP (Accelerated Graphics Port) A high speed graphics interface.

AppleTalk A network protocol for communication between Apple computers and other network devices.

ATAPI (Advanced Technology Attachment Packet Interface) Interface used to connect hard drives, CD-ROM drives, tape drives and optical disks.

Auto MDI/MDI-X A feature which allows an Ethernet port to switch its Receive and Transmit connections, allowing it to function as an uplink port and eliminate the need for crossover cables.

Auto Negotiation A function on a network port which automatically detects the speed of a connected device and configures the port accordingly.

Bandwidth A measure of the maximum amount of data that can be transferred over a connection at any one time.

BIOS (Basic Input Output System) Built-in software required to control keyboard, screen, disk drives, etc.

Bit A single unit of data grouped into eight to form a single data Byte.

Bluetooth A specification for short range wireless personal area networks (up to 100m). Commonly used with mobile phones, PDA's, notebook computers, etc.

BNC Connector A bayonet type, coaxial cable connector. Commonly used in 10Base2 Ethernet installations.

Broadband High bandwidth internet connections, such as ADSL, Cable, etc.

Bus Electrical pathways inside a computer, which allow the CPU to communicate with hardware, common types being ISA, PCI and AGP.

Bus-powered operation Allows connected devices to take the power from the computer, rather than relying on an external power supply.

Byte Usually denotes 8 data bits that the computer treats as a single unit.

CardBus A 32 Bit high performance version of the popular PCMCIA card interface.

CCD (Charged-coupled Device) An integrated circuit used as a light sensitive device in digital cameras, scanners, etc.

CD-R (Compact Disc Recordable) Blank CD's onto which data can be stored. May only be used once.

CD-RW (Compact Disc ReWriteable) Compact disc that can be reused over and over again.

Composite Video Is an analogue video format - it is a combination of source signals representing colour, brightness and synchronising pulses.

CPI (Counts per inch) Relating to computer mice, this defines the number of measurements made per inch covered. The higher the number, the better the speed, reaction and accuracy of the mouse.

Crossover cable A cable which allows devices which are normally connected via a hub or switch to be directly connected together

CRT (Cathode Ray Tube) Type of display commonly found on TV's and monitors.

Daisy chain A method of connecting devices together in series i.e. one after the other.

DDC (Display Data Channel) A standard for communication between a monitor and a graphics adapter, which enables the correct monitor resolutions and settings to be configured by the adapter.

DHCP (Dynamic Host Configuration Protocol) A protocol for assigning IP addresses to network devices.

DisplayPort A digital display interface designed primarily to connect a computer to a monitor. It can support resolutions of up to 2560 x 1600.

Diversity Patch Antenna An antenna, which is often integrated into CardBus/PCMCIA Wireless cards.

DMA (Direct Memory Access) A method of transferring data between devices and memory, without passing through the computers CPU.

Docking Station External add on units that can be attached to your portable computer to provide extra ports, such as USB, Serial and Parallel.

Driver The software required by an operating system to communicate with a device or add-on card.

Dual Console Dual Console operation allows two keyboards, mice and video sets to access a single computer or KVM Switch.

DV (Digital Video) A method of capturing video in a digital format.

DVD (Digital Versatile Disc) Optical storage discs which can hold huge amounts of data, up to 17GB, the equivalent of more than 26 CDs.

DVI (Digital Video Interface) Latest video interface as used on graphics cards and TFT monitors.

ECP (Extended Capabilities Port) Improved parallel port, which provides higher speed, and bi-directional function.

EIDE (Enhanced Integrated Device Electronics) Improved interface allows larger drives, faster access and up to 4 devices to be connected.

EPP (Enhanced Parallel Port) Parallel port, which provides higher speed, and bi-directional function.

eSATA (External Serial ATA) A version of the SATA interface for use with external devices.

Ethernet An Ethernet LAN typically uses coaxial or twisted-pairs to allow computers to communicate at speeds of up to 10Mbps also referred to as 10Base-T.

Fast Ethernet Similar to Ethernet but is capable of transferring data at up to 100Mbps, also called 100Base-TX.

FAT (File Allocation Table) A table entry (or index) on a drive which contains the size and location of files and directories on that drive.

FDD (Floppy Disk Drive)

Firewall A firewall is a system which helps prevent unauthorised access to a computer over a network. Firewalls are frequently used to stop unauthorised internet users from gaining access to an individuals or company's network or intranet.

FireWire Extremely fast data link between computers and peripherals, such as digital camcorders and hard disks. Operates at up to 400Mbps.

Flash memory/upgrade Flash memory is a special type of electrically erasable programmable read-only memory (EEPROM) which can be used to store information, which is retained, even when a device is switched off. Flash memory can be easily upgraded with new information making it ideal for use in a computer BIOS and other peripherals.

Format The process used to prepare hard disks and floppies for use in your computer.

FTP Cable (Shielded Twisted-Pair) A foil shielded network cable where every two conductors are twisted as a pair.

Full/half-duplex Full-duplex refers to the simultaneous transmission of data in two different directions. Half-duplex refers to transmission of data in only one direction at one time.

Gateway A gateway is a software/hardware device on a network that acts as an entry point to another connected network. It allows two different networks to communicate with each other.

GHz (Gigahertz) A measure of how fast the microprocessor in your computer runs.

Gigabit Ethernet A term used to describe a very fast Ethernet network capable of transferring data up to 1000Mbps, also called 1000Base-T.

Gbps Gigabits per second.

Half-duplex See Full/Half-Duplex.

HCRP (Hardcopy Cable Replacement Profile) Bluetooth printing specification which is designed to improve the way in which documents are printed over a Bluetooth wireless connection.

HDCP (High-bandwidth Digital Content Protection) The standard developed by Intel for protecting digital entertainment material when used with DVI/HDMI enabled digital displays and DVD players, etc.

HDD (Hard Disk Drive)

HDMI (High Definition Multimedia Interface) A digital connection standard that supports high quality audio, video and control functions. Used on digital displays, projectors, DVD players, Plasma TVs, etc.

HomePlug Powerline A computer network which uses standard AC mains power lines as a medium for transferring data.

Hot Plug A way of connecting and disconnecting devices such as hard drives, USB peripherals, without the need to power down the computer or the device.

Hotkey A key combination, used by KVM switches and other devices to switch between computers, or access menus or other features.

HTML (Hyper Text Mark-up Language) HTML code is a standard for defining documents with formatting and hypertext links which can be read by a web browser.

Hub A network hub acts as a common connection point for devices on a network. It joins together the workstations, printers and servers on a network so they can communicate with each other. See also USB Hub.

I/O Address An I/O address is a location in the computers memory which allows devices to communicate with the main board. Each device has a different I/O address which is used to identify it.

IDC Connector (Insulation Displacement Connector) A 40-Way connector used on IDE hard disks.

IDE (Integrated Drive Electronics) Standard interface for connecting devices such as hard disks, etc.

IRDA (Infrared Port) Many portable computers are supplied with an infrared communications port which allows data transfer between portable devices such as PDA's and mobile phones.

ISA (Industry Standard Architecture) An 8 Bit or 16 Bit internal bus used to connect add-on cards.

JBOD Just a Bunch of Discs.

Jumper A small on/off switch used to alter hardware configurations, often found on hard disks and motherboards.

Kbps (Kilobits per second) A measure of data transfer speed. A Kilobit is 1,000 bits of computer data.

Kilobyte Computer term for a thousand, however it actually contains 1,024 bytes.
KVM (Keyboard, Video, Mouse) A term used to describe keyboard, video and mouse switches or combined cables.

LAN (Local Area Network) A group of computers connected by Ethernet cables and hubs.

LCD (Liquid Crystal Display) A type of display, often found on mobile phones and personal organisers.

LED (Light Emitting Diode)

Low Profile Card An add-on card for use in small form factor computers.

MAC address The physical address assigned to a network device during manufacture.

Mbps (Megabits per second) The measure of data transfer speed. A megabit is one million bits of computer data.

Mini GBIC (Mini Gigabit Interface Converter) An interface module for use with network switches, which converts a fibre optic signal into an electrical signal.

Modem (Modulator/Demodulator) An internal or external device, which converts analogue data signals into digital data signals.

MPEG Stands for Moving Picture Experts Group, and refers to the set of digital video compression standards and file formats.

MT-RJ A connector used with fibre-optic cables.

Multisync A type of monitor that automatically adjusts to the frequency rate of the display adapter to which it is connected.

NAS (Network Attached Storage) Data storage which can be directly connected to a network

NDIS (Network Device Interface Specification) A device driver used by Windows, which allows multiple network protocols to be used with one adaptor card.

NIC (Network Interface Card) An adaptor card for connecting your computer to a local area network.

Ni-CD (Nickel Cadmium) Rechargeable battery which can be susceptible to 'memory effect', if not correctly discharged.

NiMH (Nickel-Metal Hydride) A type of rechargeable battery which can store up to 50% more power, and does not suffer from the 'memory effect' associated with Ni-CD batteries.

Null Modem Cable A specially wired cable, which allows two computers to connect via their serial ports. Useful for file transfer.

NVRAM (Non-Volatile Random Access Memory) A type of computer memory which does not lose its information, even when power is switched off.

OSD (On-Screen Display) A means of displaying text on a video display, a feature commonly found on KVM switches and monitors.

Packet The basic unit of information transmitted over a computer network.

PAN (Personal Area Network) A short range network used for communication among devices. Typically implemented using Bluetooth, Wireless and Infrared technologies.

Parallel Port A standard connector found on computers typically used for connecting printers and scanners.

PCI (Peripheral Component Interconnect) A high performance local bus designed to connect add-on cards inside computers.

PCI-e (PCI Express) An advanced serial expansion bus designed to replace PCI and PCI-X.

PCI-X (PCI Extended) An enhancement to the PCI standard. It provides improved performance of up to 1 Gbps.

PCMCIA (Personal Computer Memory Card International Association) The standard for credit card sized accessories, which can be plugged into a portable computer.

PDU (Power Distribution Unit) Mains power strips comprising three pin sockets, used inside network cabinets and enclosures to distribute power.

"Plug & Play" Many devices are now "Plug & Play" and can be installed and configured automatically.

POST (Power On Self Test) The initial hardware checks carried out by a computer during boot-up.

Power over Ethernet A system which can transmit electrical power, as well as data, to remote devices over standard Ethernet cable.

PS/2 Port A standard PC keyboard or mouse port using a 6 Pin Mini DIN connector.

PSTN (Public Switch Telephone Network) An analogue network supporting telecommunications.

PSU (Power Supply Unit)

QXGA (Quantum Extended Graphics Array) A display resolution of 2048 x 1536 pixels.

RAID (Redundant Array of Independent Disks) A method of providing increased/more reliable data storage. There are several different levels of RAID, providing different redundancy and capacity options.

RAM (Random Access Memory) The most common type of computer memory. It allows data to be accessed randomly (i.e. in any order). It is used to store program code and data during operation.

RCA Connectors Often called a Phono connector, usually found on AV equipment

RJ-11 Standard four wire connector found on many telephone handsets.

RJ-45 Standard 8 wire connector used for connecting to local area networks and PBX systems.

ROM (Read Only Memory) A type of computer memory in which data can be

read only. Unlike RAM, ROM memory retains it's data even when the computer is turned off.

Router A simple way to network computers and allow them to access the internet through a single connection (IP Address). Some Routers also provide Firewall and print server capabilities.

SATA A computer bus designed primarily for the transfer of data between the computer and a hard disk. It's advantages over standard ATA includes increased speed and hot-swap support.

SCSI (Small Computer System Interface) There are many versions of the SCSI standard. SCSI is used to connect a wide range of peripherals to computers including Hard Drives, Tape Backup Drives, Scanners and Printers, etc.

Serial Port Standard connector found on computers, also known as a COM port.

Server A computer on a network which stores shared information, such as web pages, etc.

SoHo (Small Office, Home Office) Refers to networking/computer solutions that are ideal for smaller offices and home businesses.

SPDIF (Sony-Philips Digital Interface Format) Is a standard for transmitting digital audio signals between devices.

STP Cable (Shielded Twisted-Pair) A foil+braided shielded network cable where every two conductors are twisted as a pair.

S-VGA (Super Video Graphics Array) Typically an S-VGA display defines a screen resolution of 800 x 600 pixels and above.

S-Video A video connection that carries brightness and colour information separately for improved quality.

TCP/IP (Transmission Control Protocol/internet Protocol) A collection of protocols or communication standards that govern the way information travels across networks.

TFT (Thin Film Transistor) A technology used in the construction of flat panel displays.

Token Ring A type of computer network in which the network devices are arranged in a circle or ring. A 'token' travels around the circle. The computer or network device attaches data to the token as it moves around.

TosLink An SPDIF compatible, optical digital audio cable, developed by Toshiba

USB (Universal Serial Bus) A simple connection method which supports up to 127 devices, all of which may be installed and configured automatically. It's also possible to insert and remove (hot swap) devices without having to reboot your computer.

USB OTG (USB On-The-Go) A development of the USB 2.0 interface which allows direct connection between devices without the need for a computer.

UTP Cable (Unshielded Twisted-Pair) An unshielded network cable where every two conductors are twisted as a pair.

UXGA (Ultra Extended Graphics Array) A screen resolution which supports up to 1600 x 1200.

VDU (Visual Display Unit) A more technical term for computer monitors or display panels.

VGA (Video Graphics Array) Standard video interface found on modern computers.

VLAN (Virtual Local Area Network) A type of network in which the computers are located on different LAN segments, but are configured using software to behave as though they are connected on the same wire.

VNC (Virtual Network Computing) Is software which allows one computer to remotely control another.

WAN (Wide Area Network) A network of computers connected over a long distance using telephone lines.

Web Cam A digital camera that connects to your computer, used for video conferencing and image capture.

Web Server A computer connected to the internet and used to host World Wide Web documents that can be viewed by a Web browser from anywhere in the world.

Wi-Fi Another name for Wireless networking standard.

WLAN Wireless Local Area Network.

WxDxH Width x Depth x Height.

XGA (Extended Graphics Array) Typically an XGA display defines a screen resolution of 1024 x 768 pixels and supports 65,536 colours.

Custom Cables & more

If you can't find the part you need, or you require something completely bespoke we will custom make a solution for you!

Custom cables are our speciality

Audio • Video • Networking
Data • Power & more!

Unparalleled customer support

At LINDY, we strive to provide you with unparalleled customer service whether it's technical support for our products or designing and building your custom cables.

Rapid response

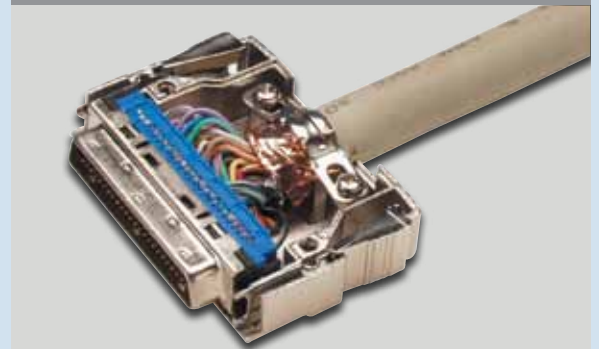

Our custom cable department will ensure a rapid response to your requirements. Our stringent quality control and inspection procedures maintain the highest product standards.

Your designs & drawings

Working from your designs and drawings, we can accommodate a wide range of cable and wire preparation for both single and multi-core cables.

We have Custom solutions for ...

- AV Installers (video cabling, power cables, optical audio converters)
- System Integrators (power cables in a variety of types and colours)
- OEMs (bespoke data cables)
- Broadcasting (extremely long distance fibre optic HD video cables)
- Corporates (Flash drives with company logo)
- Hotels (in-room TV/games switchers)
- Entertainment & Leisure industry (multi-screen video distribution units)

And we can custom more than just cables!

- Switches
- Extenders
- Cabinets etc.
