KOOL COVERS

CHROME NUT AND BOLT HEAD COVERS

- Unique finished alternative to rusty nut and bolt head covers
- Covers all visibly apparent nut and bolt heads that weren't chrome plated at the factory
- Easier and less expensive than disassembling your bike and taking all those nuts and bolts to the plater
- Made from chrome plated aerospace GFP polymer
- Interior grooves grip the length of bolt heads and nuts
- Quick installation – just press them on

LED, INTEGRATED AND SEQUENTIAL INTEGRATED TAILLIGHTS

- Clear or colored lens taillights that add a distinct look to any cruiser
- Available in three styles

LED TAILLIGHT KITS

- Complete units; include two 2" round clusters with 50 LED taillights on a circuit board and a clear taillight lens
- Cluster is mounted inside the taillight housing assembly and connected to an 1157 or 3057 bulb adapter plug that installs directly into the factory wiring harness
- When brake lights are off, 100% of LED red is eliminated for a true clear taillight look
- Superbright LED bulbs are rated for 100,000 hours of continuous use and require less power than standard 1157 bulbs
- Some clusters are lens and bulb kits (no housing assembly); these include a 1.5" round cluster with 30 LEDs on an 1157 circuit-board-type bulb
- No wire cutting or other modifications needed for installation
- DOT approved

INTEGRATED LED TAILLIGHT KITS

- When turn signals are activated, half of the taillight is cancelled and blinks with amber LEDs
- Use over 100 red and amber LED lights
- Complete units; require no modification or lens removal

SEQUENTIAL INTEGRATED LED TAILLIGHT KITS

- The next generation of customized taillights, these kits feature the clean, compact style of the Integrated LED kits with a unique light effect
- Each row of LEDs lights up in succession toward the direction of the turn

LED, INTEGRATED AND SEQUENTIAL INTEGRATED TAILLIGHTS continued on next page.

eCADDY LITE AND eCADDY DELUXE

FOR ALL GOLD WING MODELS

- All Leader hardware is machined aluminum and chrome-plated
- Leader hardware features a patented slot-and-lug design that makes all parts interchangeable (including RoadRunner drink holder)
- eCaddy Lite is ideal for mounting most items with standard belt clips, including cell phones, satellite radios, MP3 players, CBs and lighter GPS units; plate area measures 1³/₈" x 2⁷/₈" x 5¹/₁₆"
- eCaddy Deluxe is ideal for mounting larger GPS units and XM satellite; plate area measures 1¹³/₁₆" x 1¹/₂" x 5¹/₁₆"
- Two-piece kits mount on the left hand or right hand handlebar control
- Multi-faceted lugs offer secure mounting at six different angles
- eCaddy Deluxe works with the standard four-hole "AMPS" pattern (1¹/₂" x 1¹/₄")
- eCaddy Deluxe also works with diamond shaped "RAM" pattern (plate area: 1¹³/₁₆" x 1¹/₂" x 5¹/₁₆"), however some units will require a cradle between component and eCaddy
- Made in the U.S.A.

SR-i900 RFID MOTORCYCLE SECURITY SYSTEM

- The SR-i900R is a new generation two-way FM security system offering hands-free RFID technology
- Simply walk towards or away from your bike, and the remote transceiver will automatically communicate an arm or disarm command using its proximity recognition system
- This unique auto-arm and hands-free disarm operation provides the highest standard of security and convenience
- Standard features include:
 - RF-ID for hands-free operation
 - Programmable auto or manual arming and disarming
 - Long-range FM transceiver (up to a 1/2 mile)
 - Range and signal status display
 - Compact design (3 1/16" x 2 3/4" x 7/8")
 - Dual-axis accelerometer for detecting impact/inclination
 - Built-in 120 dB multi-tone siren with soft chirp
 - Sensor violation display
 - Audible/vibrating alert
 - Remote motorcycle finder/panic alarm
 - Programmable perimeter sensor with warn away that detects motion around the bike, protecting saddlebags, luggage and accessories
 - Built-in battery backup system allows the pager to operate even if wires are cut or circumvented
 - Ignition disable feature allows the user to remotely cut off the engine in case of hijack
 - Includes charging cord for remote receiver
 - Factory connector kits allow the alarm system to be integrated into the OEM-style harness without any cutting or splicing (sold separately, see page 514)

NOTE: Includes module, mounting kit and hardwire kit (not shown)

SUG. RETAIL.....**\$439.95**

PART # **4020-0052**

SR-i800 RFID MOTORCYCLE SECURITY SYSTEM

- The SR-i800R is a new generation two-way FM security system offering hands-free RFID technology
- Simply walk towards or away from your bike, and the remote transceiver will automatically communicate an arm or disarm command using its proximity recognition system
- This unique auto-arm and hands-free disarm operation provides the highest standard of security and convenience
- Standard features include:
 - Passive arm disarm
 - Built in G sensor
 - Programmable perimeter sensor
 - Back up battery
 - Flash loadable MCU (enables future software upgrades)
 - RS232 data output for additional option (GPS tracking, external lights, saddle bags/trunk locking, air horn)
- Factory connector kits allow the alarm system to be integrated into the OEM-style harness without any cutting or splicing (sold separately, see page 514)

NOTE: Includes module, mounting kit and hardwire kit (not shown)

SUG. RETAIL.....**\$219.95**

PART # **4020-0065**

SR-i600 SERIES TWO-WAY FM TRANSCEIVER – CONTROLLED MOTORCYCLE ALARMS

- Ultra-compact two-way FM security system with waterproof remote
- Include a handheld LCD transceiver that features both pager and remote functions
- Transceiver constantly monitors and displays the current alarm status and confirms all commands with easy-to-understand icons and text
- From up to 1/2 mile away, the two-way remote allows the user to control all of the alarm functions as well as receiver detailed information on the motorcycle's status
- Two-axis digital accelerometer detects both impacts and inclination; module can be placed in any position or mounting angle and requires no adjustments
- Include a built-in 120 dB programmable multi-tone siren with soft chirp arm/disarm feature
- Other standard features include: audible/vibrating alert, smart battery safeguard, sensor violation display, range and signal status display, clock with alarm, motorcycle battery condition display, rolling codes, ignition sensor, flashing light with memory, key lock and remote motorcycle finder
- PART # 4020-0049 also features a programmable perimeter sensor that detects motion around the bike, protecting saddlebags, luggage, etc., and a built-in battery backup system that allows alarm to function even if battery wires are cut
- PART # 4020-0050 also features a anti-hijack/ignition disable module that allows the user to remotely cut off the engine in case of a hijack situation
- Factory connector kits allow the alarm system to be integrated into the OEM-style harness without any cutting or splicing (sold separately, see page 514)

NOTE: Includes module, mounting kit and hardware kit (not shown).

SR-i600 two-way FM alarm w/ silver/orange remote	4020-0049	\$319.95
SR-i600SE two-way FM alarm w/ silver/orange remote, anti-hijack/ignition disable module, perimeter sensor module, and battery back-up	4020-0050	399.95

SR-C400 SECURITY SYSTEM

- All new SR-c400 offers two-way FM technology incorporating a small LED transceiver and an ultra-compact module, offering a perfect solution for limited-space vehicles
- Standard features include a long-range FM transceiver with a range of up to 1/2 mile
- Built-in 120 dB siren with soft chirp
- Dual-axis accelerometer for detecting impact/inclination
- Sensor violation notification
- Range confirmation status
- Audible/vibrating alert
- Remote motorcycle finder/panic alarm
- Smart battery safeguard with motorcycle battery condition display
- Built-in battery backup system that allows the pager and siren to operate even if wires are cut or circumvented
- Main control module measures 23/16" L x 37/16" W x 15/16" H
- Optional programmable perimeter sensor available (sold separately, see below)
- Factory connector kits allow the alarm system to be integrated into the OEM-style harness without any cutting or splicing (sold separately, see page 514)

NOTE: Includes module, mounting kit and hardware kit (not shown).

SUG. RETAIL.....**\$329.95** PART # **4020-0031**

OEM 500i FACTORY-STYLE PLUG-IN SECURITY SYSTEM

- State-of-the-art factory-style security system
- Incorporates the analog-devices dual-axis acceleration sensor
- Two-axis digital accelerometer detects both impact and inclination with an extremely high degree of accuracy; module can be placed in any position or mounting angle and requires no adjustments
- Loud 120 dB programmable multi-tone siren with soft-chirp arm/disarm feature
- Waterproof three-button remote transmitter with rolling-code feature
- Flashing lights with memory display
- Manual- and auto-arming feature
- Optional anti-hijack kit and perimeter sensor available (sold separately, see below)
- Optional OEM-style factory connector kits allow the alarm system to be integrated into the factory wiring without any cutting or splicing (sold separately, see page 514)

NOTE: Includes module, mounting kit and hardware kit (not shown).

SUG. RETAIL.....**\$139.95** PART # **4020-0003**

CYCLE ALARM WITH REMOTE TRANSMITTER

- Powerful five-tone 120 dB piezo siren
- Remote transmitter operation
- Adjustable shock sensor with seven levels of sensitivity to match your surroundings
- Programmable five-tone siren allows you to pick the siren tone you want
- Warn-away mode sounds warning prior to full alarm activation
- 100% waterproof
- Panic feature enables you to activate the alarm siren from up to 100' away
- Includes everything needed for a simple under-20-minute installation

SUG. RETAIL..... **\$114.95**

PART # **4020-0019**

RADAR DETECTOR MOUNT KIT

- Mount kit allows most radar detectors to be mounted to 7/8" or 1" diameter handlebars
- Black anodized aluminum with a 3/16" clear-acrylic mounting plate
- Measures 4 1/4" L x 3 1/4" W

DESCRIPTION	PART #	SUG. RETAIL
For 7/8" dia. handlebars	RM	\$38.95
For 1" dia. handlebars	RM-1	34.95

**ROADLOK® DEFENDER™ DISC LOCK
FOR VICTORY 03-09 (ALL EXCEPT VISION)**

- Unique motorcycle locking system which prevents the motorcycle from moving and cannot cause damage if you forget to unlock it before trying to ride
- Permanently mounts to the left side front fork of your motorcycle
- Billet aluminum construction
- BrakeBolt™ hardened stainless steel locking pin
- ABLOY™ EXEC locking mechanism
- Two RoadLoK® specific keys (prevents unauthorized duplication)
- ReKey™ secure key replacement program
- Features theft-deterrent lanyard, dome decal, all necessary mounting hardware and installation instructions
- 100% made in the U.S.A.

ULTRA-MAX SUPER STRENGTH U-LOCKS

- Ultra-Max 90 maximum-security lock features hardened chromoly construction with an oversize 16mm shackle; Max 80 is ideal for most motorcycle or bicycle applications and uses a 14mm shackle
- Ultra-Max 90 is constructed from hardened chromoly steel and features an exclusive dual shear plate locking mechanism
- Dual case bolt lock withstands more than 6.5 tons of pull force; shackle can withstand more than 8,000 lb. of expansion force
- Shackle length and width specifically designed for motorcycles; hardened chromoly lock body
- Max 80 features a hardened lock body
- Both feature locking mechanisms placed in the center of a hardened chromoly crossbar for maximum strength, seven-pin tubular pick-and-drill-resistant lock cylinders and ballistic-grade polymer lock body housings to resist hammer strikes and scratching of painted surfaces
- Shackles have protective PVC skins

2 7/8" solid steel body padlock	4010-0025	32.95

GERMAN  ENGINEERED

DETECTO 7000 RS SERIES LOCKS

- Combines electric and mechanic lock technology into one great lock
- The lock is directly bolted in one go when mounted on the brake disk
- Separate locking is no longer necessary
- Lock body and the square bolt are made from hardened steel
- In case of an attack a vibration sensor triggers a 110 decibel strong signal
- RS 2 functions are supported by optic signals (LED)

DSR-1003G DIGITAL RECORDER AND CAMERA SYSTEM

- Complete system lets you record your ride
- Now features 3GP technology – saves videos in 3GP format
- Improved video color and detail
- Built-in MP3 player allows you to listen to music, now includes Thumper helmet speakers
- Can be used as an active rearview camera system
- Weatherproof, bullet-style camera has a rugged aluminum housing and weatherproof connectors
- Digital recorder/playback unit has full-color display, records video and audio from camera and remote-mount microphone
- Records using standard compression and file formats
- Saves videos in 320x240 resolution at 30 frames/second
- Accepts SD cards up to 4GB in size (1 GB SD card equals four hours of video/audio recording)
- Color LCD and built-in speaker for on-the-go playback or rearview use
- Helmet speakers included
- Uses USB connection for transfer of video/audio files to a computer
- Analog RCA video/audio output allows you to play videos direct to TV
- Includes multiple camera mounts, all necessary hardware and adapters for battery-powered operation and 12V DC power cable for operation off of the vehicle battery
- All cables and accessories included in convenient carrying case
- Replacement bike camera mount and helmet camera mounts available separately
- DSR DC5 power adapter cable powers and charges the DSR-100 recorder from the vehicle's battery or any other 12V DC power supply
- Regulates and filters the DC voltage
- Power cable measures approximately 6'

SUG. RETAIL.....\$24.95 PART # 4403-0043

All part numbers in **BOLD MAGENTA** are new this year.

N-COM COMMUNICATION SYSTEM

- Nolan's N-COM system allows the freedom to talk on a mobile phone, listen to music on an MP3 player, get directions from a GPS navigation system, connect to a bike-to-bike radio, connect to some bikes' existing audio systems or talk to a passenger via intercom
- N-COM is for use with Nolan N-COM-ready helmets (like the N42/E, N84, N102/S and N103) and offers multiple configurations

N-COM MOBILE

- Utilizes the N-COM Basic Kit to connect to a mobile phone using a model-specific mobile wire accessory (not available from Drag Specialties) or to a multimedia source (MP3, CD, GPS, etc.) using a multimedia wire accessory (sold separately)
- Requires Basic Kit only

N-COM INTERCOM

- Allows all the features of N-COM MOBILE but adds the ability to speak with their passenger (passenger must also have N-COM Basic Kit installed)
- Can also be connected to some bikes' existing audio systems using motorcycle audio wire accessory
- Requires Basic Kit and Intercom E-Box

N-COM BLUETOOTH®

- Allows all the features of N-COM MOBILE but adds the ability to connect to a Bluetooth mobile phone, GPS unit or another N-COM BLUETOOTH helmet within range
- Can also be connected to some bikes' existing audio systems using motorcycle audio wire accessory
- Requires Basic Kit and Bluetooth E-Box

N-COM COMPONENTS

- Basic Kit includes earphones, microphone and leads for connecting devices and charger; installs easily in minutes without tools or modification
- Intercom E-Box fits in the side of an N-COM helmet and includes a 110V charger, a rechargeable lithium battery and an intercom wire; allows rider to answer phone and control volume directly from their helmet
- Bluetooth E-Box fits in the side of an N-COM helmet and includes a 110V charger and a rechargeable lithium battery; allows rider to answer phone, connect/disconnect with other N-COM BLUETOOTH helmet and control volume directly from their helmet

ACCESSORIES

- Standard multimedia wire "S" connects any device with a 3.5mm, 4-pole audio port
- GPS multimedia wire "T" connects Garmin Quest and Quest 2
- GPS multimedia wire "U" connects TomTom Rider and Garmin 2610, 2720 and 2820
- GPS multimedia wire "V" connects Garmin 2820, Zumo 400, Zumo 450, Zumo 500 and Zumo 550
- Bike-to-bike multimedia wire "K" includes push-to-talk button and connects Alan 445 and BT and Midland GXT600, GXT600VP4, GXT650VP1, GXT650VP4, LXT420, LXT420VP3, LXT320, LXT320VP3, GXT500, GXT550VP1, GXT500VP4, GXT550VP4, LXT410, LXT410VP3, GXT400, GXT450VP1, GXT450VP4, LXT300, LXT300VP3, LXT315VP3, G300, GXT300, GXT300VP3, LXT310, LXT210, LXT210VP, G225, GXT250, GXT550, LXT310 and LXT350
- Bike-to-bike multimedia wire "W" includes push-to-talk button and connects Alan 777, K1 and 421 and Midland G5
- Motorcycle audio wire allows rider to plug into the bike's existing audio system; helmet must be equipped with Basic Kit and either Intercom E-Box or Bluetooth E-Box
- 12V motorcycle charger allows rider to charge N-COM system without a power outlet; includes cigarette-lighter-style plug that can be hard-wired to a motorcycle battery and a cable to connect the N-COM system

NOTE: Only authorized dealers can purchase N-COM products.

HOW TO BECOME AN AUTHORIZED N-COM DEALER

- Purchase one N-COM starter package; see Partsnetweb, Dragnetweb or ask your sales representative for details
- Dealer must be informed about the product, be able to perform installations in helmets and understand basic troubleshooting
- Dealer's name will be added to the authorized N-COM dealer list and referred to by his/her region
- Authorized dealers can then buy N-COM products on an as needed basis
- Contact your sales representative for full details

HS-ECD584 SERIES HEADSETS

- Utilizes the new AeroMike® III miniature boom microphone with Dual Mode™ technology that allows one headset to function with any factory-installed motorcycle audio system ever built just by interchanging the lower-section hook-up cord
- Feature fidelity-enhanced DynaPort® speakers for open-face helmets
- Upper section of two-piece hook-up cord included with headset; lower section sold separately

MRC-11X RADIO COMMUNICATOR

- The newly redesigned MRC-11X allows you to speak to another rider up to 7 miles away – several times the range of other communicators
- Bike-to-bike communication can either be push-to-talk or automatically voice activated
- Special noise-cancelling/wind-blocking headset for maximum clarity and freedom with no shouting necessary, even in noisiest conditions
- Simultaneous driver/passenger conversations
- 22 FRS/GMRS channels and 38 privacy codes
- Large LCD with 16-function readout helps monitor the selected channels and codes, including battery condition and transmit/receiver status
- Auxiliary input allows you to listen to CDs or other external music sources
- MHS-11XO premium open-face helmet-mount headset and push-to-talk switch included
- Sold each

SUG. RETAIL.....\$128.95

PART # 4402-0018

PMC-2X DRIVER/PASSENGER INTERCOM

- Includes one communicator and two headsets for communication from driver to passenger on one vehicle
- Optional adapter cables let you communicate with other bikes by plugging any FRS/GMRS or PMR 2-way radio with VOX into the added jack
- Full duplex – driver and passenger talk simultaneously as though on telephones
- Electronic touch controls – no knobs
- Noise-cancelling unidirectional microphones for clear conversation, even at higher speeds
- Small (4" W x 2.75" L x .65" D), rugged, lightweight case weighs just 4.1 oz. and mounts on belt, or the clip can be removed and inserted in pocket
- AUX IN jack for listening to CD players
- No cumbersome handlebar or helmet mount – and no theft worries
- Includes two MO-type headsets for driver and passenger
- Fits all helmets; no drilling or cutting required
- Powered by three AAA batteries (included) or by vehicle battery with optional Battery Eliminator

SUG. RETAIL.....\$92.95 **PART # 4402-0016**

PMC-3X DRIVER/PASSENGER INTERCOM

- All the features of the PMC-2X plus a powerful built-in FM receiver for on-the-road entertainment

4402-0040

4402-0039

THROAT-MIC COMMUNICATORS

- No more yelling over loud pipes with the finest, full-duplex throat-mic intercom systems on the market
- Designed specifically for noisy environments
- Throat-mic picks up voice signals from vibrations in the neck, not the air, so background noise does not register

4402-0027

Route 66 and Vanquish storage case

FOX TALK RIDER/PASSENGER INTERCOM

- Fox Talk system includes an intercom unit, a neck-ring with throat-mic for each the rider and the passenger and D-ring earpieces that can be placed in a helmet if desired
- Intercom unit has 3.5mm receptor that may be used to plug in an MP3 player
- Includes a Fox Sox carrying case

ROUTE 66 RIDER/PASSENGER INTERCOM AND VANQUISH THROAT-MIC

- The next generation of throat-mic transponders offer better quality sound, requiring only one mic
- Neck rings are 50% larger with a soft rubber covering; include an extension to allow a perfect fit on almost any neck size
- Ear bud speakers have a higher max volume than previous models and feature comfortable silicone tips
- Both systems allow the rider to connect any headphones, ear buds or helmet speakers with standard 3.5mm plug
- Vanquish includes one neck ring with throat-mic, one set of ear bud speakers and coiled, waterproof PTT button (extends to 5'); simply plug the Vanquish into an intercom unit or any radio (Motorola, Cobra, Garmin, AudioVox, Uniden, etc.) that accepts a standard 3.5mm plug and be heard clearly
- Route 66 includes a full duplex intercom unit, two neck rings with throat-mics and two sets of ear bud speakers

ACCESSORIES

- Cobra two-pin adapter allows the headset to be connected to older, two-pin radios by Cobra, Midland and more
- Fox Sox neoprene carrying case will protect your throat-mic system from everyday damage

150W 4 OHM (5.25")	4405-0127	59.95

IN-LINE VOLUME CONTROLLER

- An economic alternative to MH Instruments custom-designed CrankCase™ volume controller/power switch
- Provides remote sound-level adjustment of personal stereos equipped with a 1/8" stereophone jack
- Includes a pocket/belt clip for storage and security

SUG. RETAIL.....	\$9.95
PART #	4405-0163

CRANKCASE™ AUDIO CONTROLLER/POWER SWITCH

- Keep your gloves on while controlling the volume; oversize knob makes it easy
- On/off switch can be heard and felt with an audible click
- High-visibility blue LED and chrome plating for superior design and function
- Precision-machined billet aluminum; 1.7" W x 1.8" H x 1.3" D
- 1" mounting clamp can be placed anywhere on the tube, even next to the brake or throttle controls
- Comes with removable two-piece clamp for handlebars other than 1" standard; mount using your own hardware
- Universal line-level input with 1/8" stereo plug
- Built-in fuse (5A) for internal/external power
- Compatible with standard electrical hardware
- Surface-mounted electronics and weather resistant

SUG. RETAIL.....	\$179.95	PART #	4405-0070
------------------	-----------------	--------	-----------

ROUND ACOUSTIC Baffles

- Protect your speakers from water, rust, dust and electrical problems
- Foam basket forms a protective layer between speaker and enclosure, reducing resonance and other distortion
- Available in round 5.25" sizing
- Sold in pairs

SUG. RETAIL.....	\$14.95	PART #	4405-0076
------------------	----------------	--------	-----------

ELECTRICAL NOISE FILTER

- Greatly reduces electrical noise or whine produced by some motorcycle electrical/ignition systems
- One filter is good for powering both Rumble Road™ speakers in the system

SUG. RETAIL.....	\$9.95	PART #	4405-0007
------------------	---------------	--------	-----------

GROUND LOOP ISOLATOR

- Suppresses any resulting noise in the audio line for those who use their bike's battery to operate a personal stereo
- Breaks the ground loop that would otherwise occur between a personal stereo and amplified speakers
- A necessary accessory for some satellite radio systems

SUG. RETAIL.....	\$12.95	PART #	4405-0008
------------------	----------------	--------	-----------

UNIVERSAL STEREO MOUNTING KIT

- Clamps are perfect for mounting speakers on handlebars or engine crash bars – clamps separate to slip easily over the bar to the desired mounting location
- Designed for 1" handlebars
- Kit and stereo are easily removable with only three points of attachment
- Black hardware and clear Lucite® tray safely hold your personal stereo

JMCB-2003 HANDLEBAR-MOUNTED CB AUDIO SYSTEM

- This exciting product from J&M features a 40-channel CB radio, NOAA weather band, rider/passenger intercom and stereo music amplification from any Walkman®-type music device
- Mount it to your left handlebar with the proper bracket kit, connect the headset/power harness to your bike's electrical system (choose below between solo or rider/passenger kits), install a J&M license-plate mounted CB antenna (or any other properly tuned CB antenna, sold separately), plug in your favorite J&M dual-mode helmet headset/headsets and you are ready to go
- No other hidden black boxes to mount or clutter up your bike; complete system is on your handlebar (your Walkman-source music device is plugged into the system as a separate item)
- All knobs and controls have been designed for ease of use while riding, even with gloves on; water-resistant unit so you won't have to worry about getting caught out in the rain
- Audio performance is superb, even at high speeds
- Mounting bracket and lower-section hook-up cord sold separately

NOTE: The JMCB-2003 is a J&M 6-pin audio system that requires the pre-amplified microphone signal provided by the J&M dual-mode (ECD/ICD/BCD/CD prefixed) helmet headsets along with the lower section hook-up cord PART #4402-0047.

DESCRIPTION	PART #	SUG. RETAIL
JMCB-2003 kit for solo (driver only) headset operation	4402-0005	\$299.95

REPLACEMENT FAIRING/REAR SPEAKERS FOR GL1500 AND GL1800 01-06

- Manufactured as exact replacements for the stock units, both front and rear, as installed on the GL1800 and front and rear for the GL1500
- Designed for the specific power levels of the Gold Wing's audio system to deliver maximum output and fidelity
- 3 ohms impedance and 100+ watts power
- Mylar/aluminum waterproof cone construction makes them impervious to the weather and repeated trips to the carwash
- Complete kit includes wiring harness that plugs into the factory wiring harness plug located under the seat
- Sold in pairs

LICENSE PLATE-MOUNT CB ANTENNA KITS

- These license plate-mount CB antenna kits include a black powder-coated mounting bracket, 2', 3' or 4' antenna staff, mounting stud, frame attachment grounding strap, antenna connection cable, right-angle adapter, cable ties, mounting hardware and complete installation instructions

GUARDIAN® EZ ZIP MOTORCYCLE COVER

• ELITE SERIES •

- Eliminates hassles associated with putting a cover on a bike or removing it
- A zipper located at the rear of the cover makes cover installation and removal fast, easy and convenient
- Constructed of heavy-duty polyester material for long-lasting durability
- ClimaShield™ Plus fabric coatings ensure water repellency and UV stability and retard the growth of mildew
- Exclusive Moisture-Guard™ venting system prevents the accumulation of unwanted moisture under the cover
- Scorch-resistant aluminized heat shield panel allows the cover to be put on the bike before the pipes have cooled
- Unique locking grommets facilitate the use of a cable lock to secure your motorcycle
- Elastic cord sewn into the hem of the cover ensures a snug fit
- Special soft cover liner in the area of the motorcycle windshield protects against possible scratching
- EZ On and EZ Off zipper to make the installation and removal of the cover hassle-free
- Includes convenient storage bag

GUARDIAN® WEATHERALL™ MOTORCYCLE COVER

- Specifically designed to fit sportbikes
- Medium-weight polyester construction provides excellent protection and durability, while offering a cover light enough for easy use
- ClimaShield™ fabric coatings ensure water repellency, UV stability and retard the growth of mildew
- Exclusive Moisture-Guard™ venting system prevents the accumulation of moisture under the cover
- Unique locking grommets facilitate the use of a cable lock to secure your motorcycle
- Scorch-resistant aluminized heat shield panel allows the cover to be put on the bike before the pipes have cooled
- Elastic cord sewn into the hem of the cover to ensure a snug fit
- Special soft cover liner on windshield
- Includes a convenient storage bag

SUG. RETAIL.....\$84.95 **PART # 50007-00**

DOWCO®

GUARDIAN® ULTRALITE™ PLUS MOTORCYCLE COVER

- Small, compact design is ideal for longer rides; stores easily anywhere
- Lightweight ripstop polyester fabric construction for enhanced tear and abrasion resistance
- Combined UV and water-repellant coating provides protection from dirt, pollution and harsh sunlight; two vent flaps expel moisture
- Sewn-in storage bag on the cover's interior is a place for storing gloves, sunglasses and other small items
- Features full-perimeter elastic on bottom, underbelly straps for a secure fit, soft interior lining to protect windshields and lockable grommets for added security

FORM-FIT MOTORCYCLE COVERS

- Body-hugging polyester knit outer shell is made with spandex to provide stretch and recovery
- Inside the shell is a 100% cotton terry loop that is sheared to a luxurious fleece finish so it won't mar painted or finished surfaces
- Follow every curve of your bike for a truly custom fit
- For indoor use only
- Available in black

FITS MODEL

For full-dress touring bikes w/ fairing or windshield, saddlebags, backrest/sissy bar and/or top trunk
For large sport bikes w/ or w/o saddlebags

READY-FIT MOTORCYCLE COVERS

- Waterproof silver urethane-coated polyester fabric efficiently reflects heat; soft fabric inner liner protects against scratches in the windshield area
- Overlapping double-stitched seams give strength and durability; aluminized liner protects cover from hot bike parts
- Elastic hem front and rear holds cover in place
- Steel cable reinforced fastening grommets help discourage theft; will accept any long hasp bike lock or Covercraft ZCML lock/cable kit
- Protects against sun, rain, snow, bird and tree droppings, industrial pollutants and salt air
- Includes sewn-in storage bag

SUG. RETAIL.....\$49.95
PART # 3920-0177

CYCLE JAWS®

- Easy one-person operation
- Stabilizes the front wheel of a motorcycle for trailer transportation
- Maximum tire contact for maximum security; adjusts to the exact size of the tire
- Effortless motorcycle removal, with no bulky hardware to roll over
- No pinch points to wear and deform the tire's sidewalls
- Smooth, easy clamping motion on tire sizes from 3" to 6 1/2" W
- Can quickly and easily be removed from the truck or trailer; tie-downs recommended
- Adjustable tire locator prevents damage to valuable rotors and rims
- Heavy-duty thick-wall yellow zinc-plated steel construction so Cycle Jaws will withstand the test of time
- Can be used free-standing for use on garage floors, driveways and racetrack pits
- Made in the U.S.A.

WARNING: Do not ride motorcycle on ramp at any time.
SUG. RETAIL.....\$289.95 PART # 4101-0059

DS390095

REMOVABLE WHEEL CHOCKS

- Stabilize the front wheel of a motorcycle for trailer transportation
- Wheel chocks can easily be removed when not in use
- Chocks are made of thick-wall steel tube construction and feature a chrome finish
- 6 1/2" wheel chock has clearance for motorcycles with large rotors and is designed with a three-bend radius that will keep any width tire centered in the chocks
- Mounting brackets remain fastened while the chocks are easily removed by unscrewing the T-bolt hold-down screw
- Additional mounting kits may be purchased separately, enabling you to move the chock from one surface to another without removing the mounting brackets
- Wheel chock mounting brackets are patented
- If it doesn't say "Pingel®," it isn't the real thing
- Made in the U.S.A.

BAR-HARNESS II

- New and improved bar-harness has a glass-filled injection molded polycarbonate "cup" to replace the old handlebar "cuff"
- Eliminates possible damage to soft grips and holds the cross straps farther away from the switchgear
- Sized to fit the widest grips on the market
- Uses a heavier thread with more stitches to provide greater strength
- Available in four black sizes: short, standard, X-wide and XX-wide

SUG. RETAIL..... **\$29.95**

DESCRIPTION	PART #
Short (fits bars up to 28" W)	3920-0150
