Cools Rooms Up To 700 square feet

Cooling your home is always a priority in the hot, humid days of summer. This can easily be done with this progressive 14,000 BTU air conditioner as it's been made to cool down rooms up to approximately 700 square feet in size. This portable model features a single-hose design and its continuous-use, direct-drain system can handle a capacity of 54 pints every 24 hours.

Comfort Has Never Felt So Good You want a little power with your air. We prefer the strong, silent type — in our air conditioners, of course. This one has 14,000 BTUs, and is strong enough to cool your room and dehumidify it. Control your Air Conditioner via WiFi using the LG Smart app on any compatible Android or iOS smartphone. Adjust your temperature and settings, and save your favourites.
