Crystal Clear Reception  
for the best picture quality  
and the purest sound.

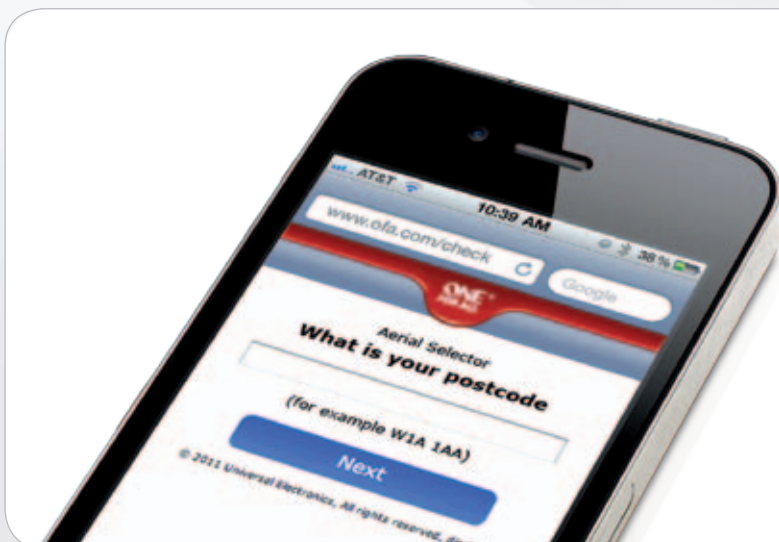

Interference Free  
**4G Filter** 

**Product selector tool**

For a quick and easy search,  
we offer you the perfect antennae selector tool:  
[www.ofa.com/check](http://www.ofa.com/check)

At One For All® we take pride in combining the latest technology, functionality and design (into one product). When designing antennas our priority is to ensure the best possible reception of Terrestrial Digital Video Broadcast (DVB-T/DVB-T2).

In anticipation of 4G LTE deployment, One For All® has done in-depth analysis of the implication that 4G technology will have on the reception of digital TV.

As a result of the work carried out by our R&D team, One For All® has a complete new range of indoor and outdoor antennas available for viewers who want to protect their current antenna installation against 4G LTE interference. Both our indoor and outdoor antennas have a unique built-in 4G LTE block filter to ensure Crystal Clear Reception now and in the future!

**If you live in a built up area you need to purchase a stronger antennne to receive a good reception.**

Where you live makes a big difference to the type of antennne you need. The further away from a transmitter you live, the weaker TV reception becomes. If you live in a weaker signal area it is essential to use a amplified model.

The specialist in universal audio-video accessories.

As the specialist in universal audio-video accessories we do not only worry about developing best-in-class products with consumer-driven innovations. We also understand that we have an obligation to help our retail partners in helping their customers in finding the right product that fulfills their needs. With our Smart Selector Program we do just that. We help the shopper to find the right remote control that operates their brand of TV, cable box or DVD, we help him finding the right antenna that works in his zip code area, and we help her to find the right wall mount that fits their flat screen TV. As we understand that the world gets more complex, we know we have deliver just a little more of our expertise and help. Just scan the QR code or type in our mobile website and you have direct access to our database filled with specialist know-how.

Enjoy your new  
viewing experience.

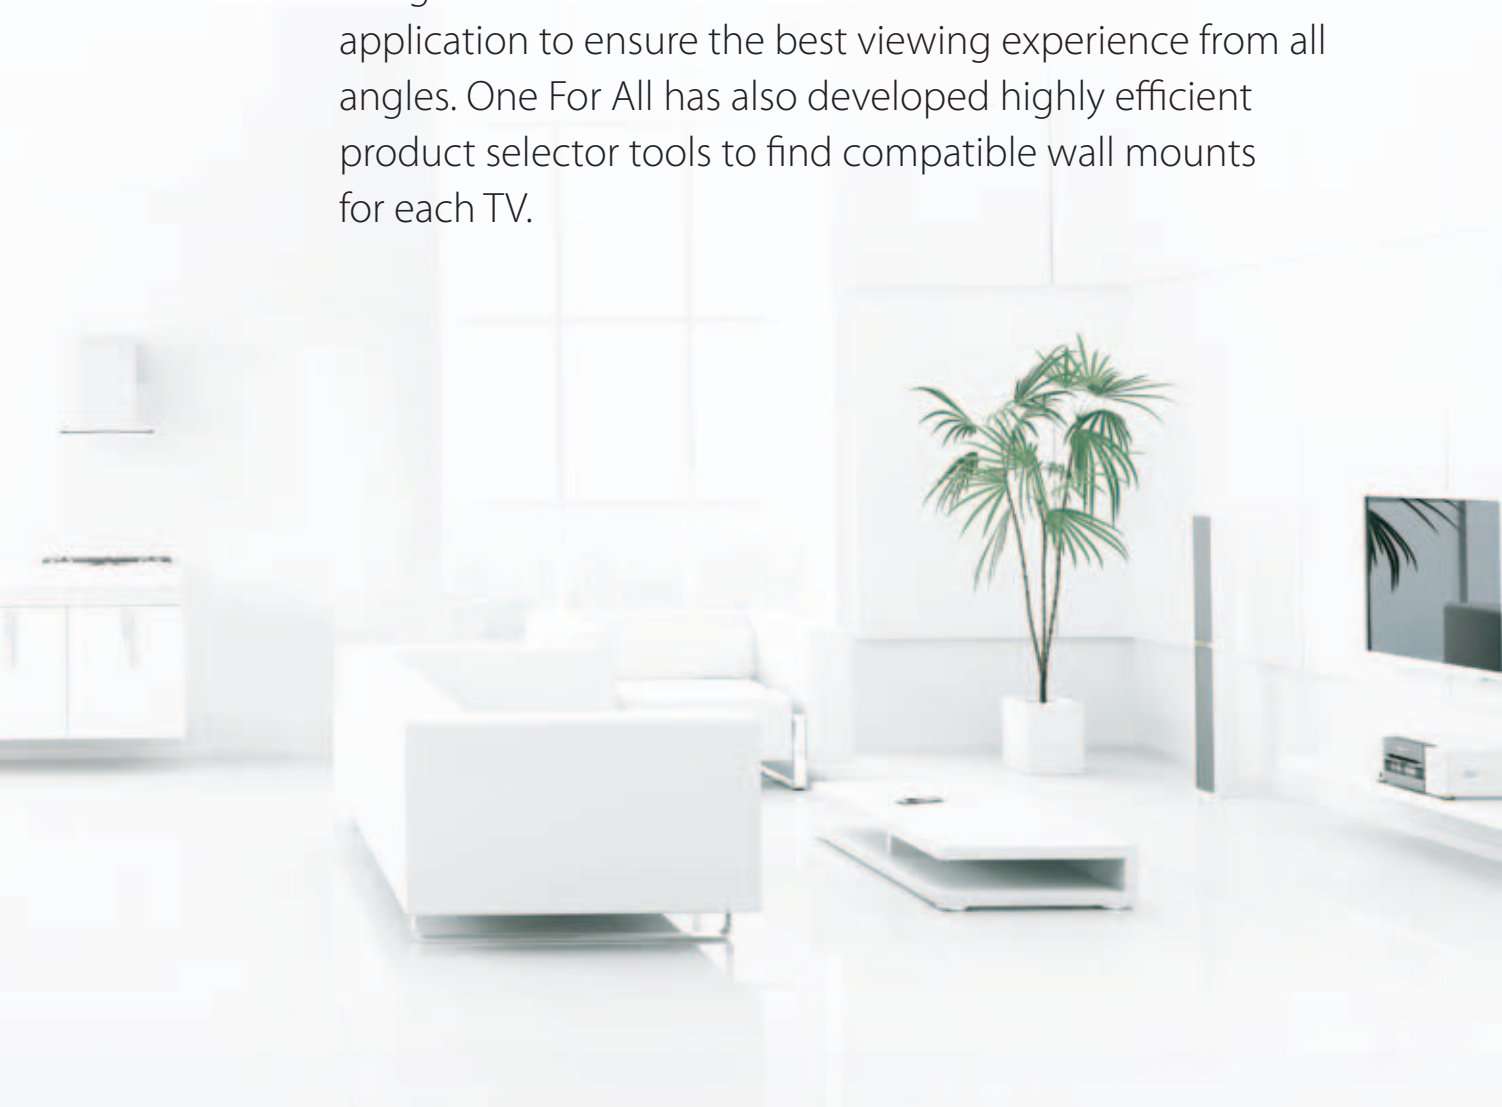

### Product selector tool

For a quick and easy search,  
we offer you the perfect wall mount selector tool:  
[www.ofa.com/tvbrackets](http://www.ofa.com/tvbrackets)

At One For All we are totally focused on enhancing your home entertainment experiences. One of those is a perfect view of your TV. All One For All® wall mount designs are inspired by the latest trends to complement ultra slim TV designs. There are solutions for all screen sizes and for each application to ensure the best viewing experience from all angles. One For All has also developed highly efficient product selector tools to find compatible wall mounts for each TV.

## One For All® Smart TV Accessories

Ever since the day television was invented, the technology has continued to evolve into generations of increasingly smart devices. New technologies are changing the way people watch TV and consume other media. Flat screens and a range of audio/video peripherals now offer features that create intense entertainment experiences. One For All® Smart TV accessories are designed to get the most out of your devices. They simplify their use, add smart features and maximize performance.
