**NEW** FOR

**2008**

**NITRO**

**ROBOTIC POOL CLEANER**

**NITRO™ Robotic Pool Cleaner for Inground Pools**

**#NC31**

**What Makes NITRO Better Than Any Other Robotic Cleaner?**

**NEW TECHNOLOGY**

*NITRO has so many technological advancements that more patents have been written for it than on ALL robotic pool cleaners combined over the last 20 years! Cleans any type of pool - vinyl liner, concrete, fiberglass!*

**TWICE THE FILTER AREA**

*NITRO's extra-large filter bag offers more than double the capacity of any other pool cleaner in the world.*

**CLEANS WHERE THE DIRT IS**

*The patented location of NITRO's intake ports gets into corners, ridges and angles to clean the entire floor - where the dirt is!*

**LIGHTWEIGHT & EASY TO LIFT**

*With its "Rapid Drain System", debris remains trapped in the filter while clean water quickly flows back into the pool, immediately lightening the cleaner for easy removal.*

**ANTI-TWIST CABLE**

*Another outstanding feature is NITRO's power cable with Super-Cord™ technology. Unlike other robotic pool cleaners, the cable is both twist-resistant and delamination-proof, using a patented design.*

**SIMPLE TO SERVICE AND REPAIR**

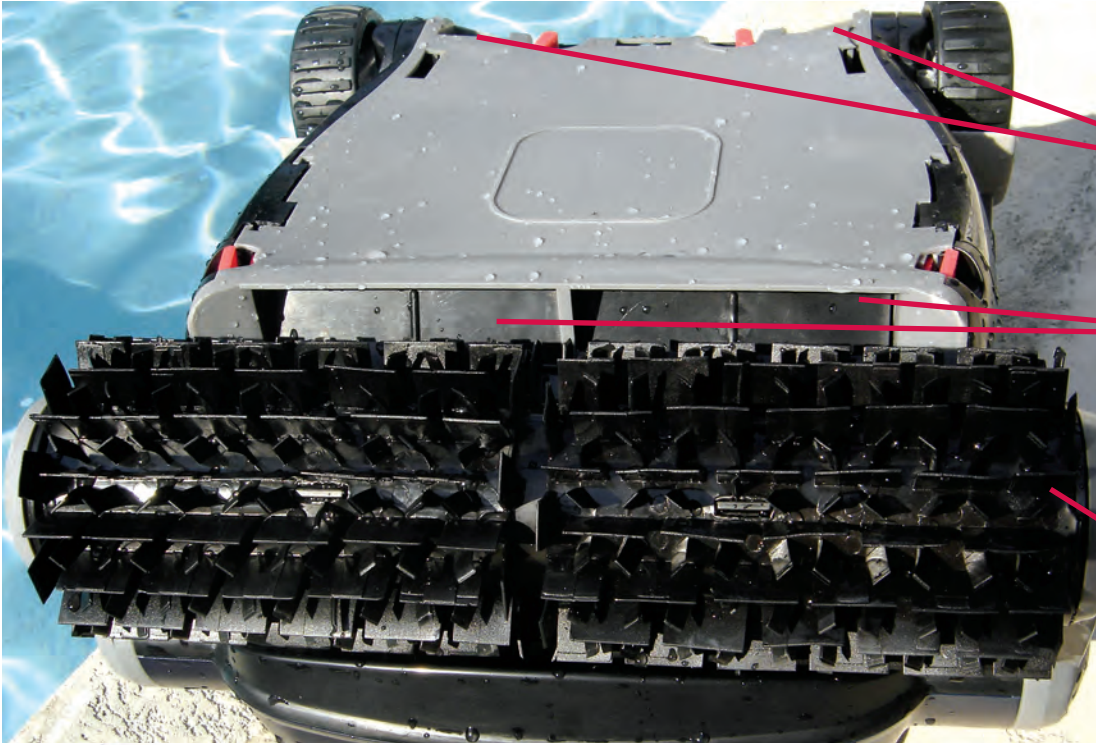

*NITRO's modular construction allows for easy servicing. The only tool required is a screwdriver. Parts are readily available and can be sold at the retail level.*

**GREAT FOR ALL POOL SURFACES**

*NITRO is gentle enough for vinyl liner pools, but rugged enough to clean the dirtiest of concrete and fiberglass pools as well!*

- Recommended for Pools up to 20' x 40'
- Scrubs and Vacuums Entire Pool Floor from Wall to Wall
- Built-in Pool Pump and Filter - No Wear and Tear on Pool's Pump and Filter
- Microfilters Water - Like Adding Another Filter to Pool
- Saves up to 50% on Electricity and Backwashing Costs
- Saves up to 30% on Chemical Costs
- No Installation Required
- Includes Convenient Carry Caddy
- Machine-Washable Filter Bag
- Automatic Shutoff
- 50 ft. Cable
- ETL-Listed to UL Standard
- Manufactured in an ISO 9000 Facility
- One year Full/Two Year Limited Warranty

# NITRO

Two of the intake ports are placed near the outer corners of the cleaner, making the robot's cleaning path the largest in the industry.

Two of the NITRO's extra-large intake ports are placed directly behind the cleaning brush, which sweeps the debris right into them.

Motor contained in brush housing, freeing up interior space for extra-large filter capacity.

**CADDY INCLUDED!**

Another of NITRO's many innovations is its "NITRO rapid-drain system". When removing the cleaner from the pool, the debris remains trapped in the filter while clean water quickly flows back into the pool, immediately lightening the cleaner for easy removal.

# ROBO-KLEEN™

## ROBOTIC POOL CLEANER

**R**obo-Kleen's advanced microprocessor and powerful motors combine to thoroughly clean your pool's floor of leaves, acorns, dirt and debris.

Robo-Kleen™ outperforms water-powered cleaners - it features a built-in pump and filter system, which eliminates the additional wear and tear on your pool pump caused by water-powered cleaners. In fact, Robo-Kleen™ costs just pennies to operate, saving you up to 50% on your electrical and backwashing costs compared to water-powered cleaners.

<b>Robo-Kleen™ Outperforms Water-Powered Cleaners</b>	<b>Robo-Kleen™</b>	<b>Water-Powered Cleaners</b>
<i>Hose assembly Required?</i>	No	Yes
<i>Computerized Cleaning Coverage?</i>	Yes	No
<i>Independent Pump and Filter System?</i>	Yes	No
<i>Extends Life of Pool Filter and Pump?</i>	Yes	Reduces Life of both
<i>Drastically Reduces Electricity Use?</i>	Yes	Increases Electricity Use
<i>Drastically Reduces Backwashing?</i>	Yes	Increases Backwashing

## ROBOTIC POOL CLEANER

Robo-Kleen™ Robotic Pool Cleaner for Aboveground Pools

#RK01A

### What Makes Robo-Kleen Better

- *The Most Affordable Robotic Aboveground Pool Cleaner Available.*
- *Separate Drive And Pump Motors For Efficient Operation And Maneuverability*
- *The Drive Motor Is Direct-Drive, Eliminating The Need For Belts, Which Can Stretch And Break.*

- for Aboveground Pools up to 31' Round or 41' x 21' Oval
- Thoroughly Vacuums Pool Floor
- Operates Independently of Pool Pump and Filter
- Microfilters Water - Like Adding Another Filter to Pool
- Saves up to 50% on Electricity and Backwashing Costs

- Saves up to 30% on Chemical Costs
- No Installation Required
- Uses Low Voltage Pump Motor - Costs Pennies to Operate
- Machine Washable Filter Bag
- Manufactured in an ISO 9000 Facility

- Automatic Shut-Off After 2 Hours
- Self-Contained, Reusable Filter Bag - Filters Most Algae and Bacteria
- One Year Full Warranty
- Certified to CE Standards
- 40' Cable
- Transformer, 27.5 V, 160 Watts in Weatherproof Casing

UNIT WEIGHT: 18 lbs Without Transformer

CARTON WEIGHT: 31

CARTON SIZE: 22" x 20" x 15" (UPS-able)

UNITS/PALLET: 24

### Robo-Kleen™ & Robo-Kleen Plus Filter Bag #RKF99

Robo-Kleen™ filter bags trap all the dirt and microfilter the pool water - It's like adding another filter to a pool.
