Getting started

Assembly

Before you start using your phone, you need to insert a Subscriber Identity Module (SIM) card and the battery.

To remove the battery cover

- Use the slots to detach cover.

To insert the SIM card

- 1 Remove the battery cover.

- 2 Slide the SIM card into its holder with the gold-colored contacts facing down. Always turn off your phone and detach the charger before you insert or remove the SIM card.

To insert the battery

- 1 Insert the battery with the label side up and the connectors facing each other.
- 2 Slide the battery cover into place.

To attach the battery cover

- 1 Align the tabs on the back of the battery cover with the phone slots.
- 2 Snap the cover into place on both sides.

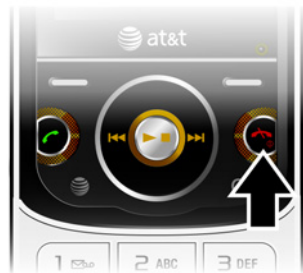

To remove the SIM card

- 1 Remove the battery cover.
- 2 Remove the SIM card from its holder.

Turning on the phone

To turn on the phone

- 1 Press and hold down .
 - 2 Enter your SIM card Personal Identification Number (PIN), if requested and select **OK**.
 - 3 Select a language.
 - 4 Follow the prompts.
-  *If you want to correct a mistake when you enter your PIN, press .*
-  *Before turning the phone off, you must return to standby.*

SIM card

The SIM card, which you get from AT&T, contains information about your subscription.

- You can save contacts on the SIM card before you remove it from your phone. See *To copy names and numbers to the SIM card on page 24*.

PIN

You may need a PIN to activate the services in your phone. Your PIN is supplied by AT&T. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 911 or 112. You can see and call an emergency number without entering a PIN.

- ! If you enter the wrong PIN three times in a row, the SIM card is blocked. See *SIM card lock on page 57*.

Standby

After you have turned your phone on and entered your PIN, the name of the network operator appears. This view is called standby.

Help

In addition to this User guide, Getting started guides and more information are available at www.sonyericsson.com/support.

Help in your phone

Help and information are available in your phone. See *Navigation on page 13*.

To view tips and tricks

- 1 From standby select **Menu** > **Settings** > the **General** tab > **Setup wizard**.
- 2 Select **Tips and tricks**.

To view information about functions

- Scroll to a function and select **Info**, if available. In some cases, **Info** appears under **Options**.

To view status information

- From standby select **Menu** > **Settings** > the **General** tab > **Phone status**.

Charging the battery

The phone battery is partly charged when you buy it.

To charge the battery

- 1 Connect the charger to the phone. It takes approximately 2.5 hours to fully charge the battery. Press a key to view the screen.
- 2 Remove the charger by tilting the plug upwards.

 *You can use your phone while it is charging. You can charge the battery at any time and for more or less than 2.5 hours. You can interrupt the charging without damaging the battery.*

Walkman® and music

You can listen to music, audio books and podcasts. Use *Sony Ericsson Media Manager* to transfer content to your phone. For more information go to the Getting started section at www.sonyericsson.com/support.

- ! *Sony Ericsson Media Manager software is available for download at www.sonyericsson.com/support.*

Transferring content to and from a computer

With *Sony Ericsson Media Manager* or *Windows® Explorer*, you can transfer music from CDs, music on your computer, or music that you have purchased online to the phone memory or a memory card.

For more information on using the phone with a USB cable, see *Using the USB cable* on page 48.

To use the phone with Windows® Explorer

- 1 Connect a USB cable to the phone and the computer.
- 2 **On your phone:** Depending on the phone setup:

- The phone may switch to **Media transfer** and be ready to use.
- If prompted with a **USB mode** menu, select **Media transfer**.

 *Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card or the phone memory.*

3 On your computer:

- Wait until the phone memory and memory card appear as external disks in *Windows Explorer*.
- Drag and drop selected files between the phone and the computer.

Before using Media Manager

You need one of these operating systems to use *Media Manager* on your computer:

- Windows Vista™ (32 bit and 64 bit versions of: Ultimate, Enterprise, Business, Home Premium, Home Basic)
- Windows XP (Pro or Home)

 *Sony Ericsson Media Manager software is available for download at www.sonyericsson.com/support.*

To install Media Manager

- 1 Turn on your computer.

- 2 Download the Media Manager software from www.sonyericsson.com/support.
- 3 Follow the instructions on the Web site to install.
- 4 Select a language and click **OK**.
- 5 Click *Install Sony Ericsson Media Manager* and follow the instructions.

To use Media Manager

- 1 Connect a USB cable to the phone and the computer.
- 2 **On your phone:** Depending on the phone setup:
 - The phone may switch to **Media transfer**. If so, disconnect the cable and change the USB default mode to **Mass storage**. See *USB default mode* on page 49.
 - If prompted with a **USB mode** menu, select **Mass storage**. The phone will shut down in this mode but will restart again when it is disconnected from the USB cable.

 *Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card or the phone memory.*

- 3 **On your computer:** Drag and drop selected files between the phone and the computer.

- 4 For safe disconnection of the USB cable, see *Disconnect the USB* on page 49.
For details on transferring music, refer to *Media Manager Help*. Click (?) in the top right corner of the *Media Manager* window.

Stereo portable handsfree

To use the handsfree

- Connect the portable handsfree. Music stops when you receive a call and resumes when the call has ended.

! *If headphones are not included with the phone, you may purchase them separately.*

AT&T Music

Go to Music to access your Walkman® player, purchase ringtones or to access other music applications.

To access Music

From standby select **Menu > AT&T Music** and select an option:

- **WALKMAN** – a music and video player all in one.
- **Shop Music** – purchase music tones.

- ! To create playlists by mood, your music tracks must be transferred to your phone using Media Manager. For information on how to analyze your music, see Media Manager Help.

- 1 From standby select [Menu](#) > [Entertainment](#) > [Music](#) > [SensMe™](#) and select [Open](#).
- 2 Press the navigation [Up](#), [Down](#), [Left](#) or [Right](#) to preview different tracks.

- 3 Select **Add** > **Create** > **Options** > **Save playlist**.
- 4 Enter a name and select **OK**.

To add files to a playlist

- 1 From standby select **Menu** > **Entertainment** > **Music** > **Playlists**.
- 2 Select a playlist.
- 3 Scroll to **Add music** and select **Add**.
- 4 For each track you want to add, scroll to the track and select **Mark**.
- 5 Select **Add** to add the tracks to the playlist.

To remove tracks from a playlist

- 1 From standby select **Menu** > **Entertainment** > **Music** > **Playlists**.
- 2 Select a playlist.
- 3 Scroll to the track and press **(C)**.

To view information about a track

- Scroll to a track and select **Options** > **Information**.

Audio books

You can listen to audio books that you have transferred to your phone from a computer using Media Manager.

- ! *It may take a few minutes before a transferred audio book appears in the list of available audio books.*

To play audio books

- 1 From standby select **Menu** > **Entertainment** > **Music** > **Audio books**.
- 2 Select an audio book.
- 3 Scroll to a chapter and select **Play**.

- ! *Audio books in other formats than M4B or audio books that do not have ID3v2 chapter tags can be found in the **Tracks** folder.*

While listening to a song using the built-in FM radio, you can search for title, artist and album names using TrackID.

- ! *Data transmission charges may apply.*

- 💡 *For best results, use TrackID™ in a quiet environment.*

To search for song information

- When the radio is playing select **Options** > **TrackID™**.

Calling

Address book

You can save names, phone numbers and personal information in [Address Book](#). Information can be saved in the phone memory or on the SIM card.

Default contacts

You can choose which contact information is shown as default. If [Phone contacts](#) is selected as default, your contacts show all the information saved in [Address Book](#). If you select [SIM contacts](#) as default, your contacts show names and numbers saved on the SIM card.

To select default contacts

- 1 From standby select [Menu](#) > [Address Book](#).
- 2 Scroll to [New contact](#) and select [Options](#) > [Advanced](#) > [Default contacts](#).
- 3 Select an option.

Phone contacts

Phone contacts can contain names, phone numbers and personal information. They are saved in the phone memory.

To add a phone contact

- 1 From standby select [Menu](#) > [Address Book](#).
- 2 Scroll to [New contact](#) and select [Add](#).
- 3 Enter the name and select [OK](#).
- 4 Scroll to [New number:](#) and select [Add](#).
- 5 Enter the number and select [OK](#).

Connectivity

Phone name

You can enter a name for your phone that is shown to other devices when using, for example, Bluetooth™ wireless technology.

To enter a phone name

- 1 From standby select **Menu > Settings > the Connectivity tab > Phone name.**
- 2 Enter the phone name and select **OK.**

Bluetooth™ wireless technology

The Bluetooth function makes wireless connection to other Bluetooth devices possible. You can, for example:

- Connect to handsfree devices.
- Connect to several devices at the same time.
- Connect to computers and access the Internet.
- Exchange items and play multiplayer games.

 *We recommend a range within 10 metres (33 feet), with no solid objects in between, for Bluetooth communication.*

Before you use Bluetooth wireless technology

You must turn on the Bluetooth function to communicate with other devices. You may also have to pair your phone with other Bluetooth devices.

To turn the Bluetooth function on

- From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Turn on.**

 *Make sure that the device you want to pair your phone with has the Bluetooth function activated and Bluetooth visibility set to on.*

To receive an item

- 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > Turn on.**
- 2 When you receive an item, follow the instructions that appear.

To pair the phone with a device

- 1 From standby select **Menu > Settings > the Connectivity tab > Bluetooth > My devices.**
- 2 Scroll to **New device** and select **Add** to search for available devices.
- 3 Select a device.
- 4 Enter a passcode, if required.

To allow connection to the phone

- 1 From standby select **Menu** > **Settings** > the **Connectivity** tab > **Bluetooth** > **My devices**.
- 2 Select a device from the list.
- 3 Select **Options** > **Allow connection**.
- 4 Select **Always ask** or **Always allow**.

! *This is only possible with devices that require access to a secure service.*

To pair the phone with a Bluetooth handsfree for the first time

- 1 From standby select **Menu** > **Settings** > the **Connectivity** tab > **Bluetooth** > **Handsfree**.
- 2 Scroll to a device and select **Yes**.
- 3 Enter a passcode, if required.

To pair the phone with more than one Bluetooth handsfree

- 1 From standby select **Menu** > **Settings** > the **Connectivity** tab > **Bluetooth** > **Handsfree** > **My handsfree** > **New handsfree**.
- 2 Select a device from the list.
- 3 Enter a passcode, if required.

Power saving

You can save battery power with the Power save function. You can only connect with one Bluetooth device at a time when using Power save. You

must turn this function off if you want to connect with more than one Bluetooth device at the same time.

To turn powersave on

- From standby select **Menu** > **Settings** > the **Connectivity** tab > **Bluetooth** > **Powersave** > **On**.

Transferring sound to and from a Bluetooth handsfree

You can transfer the sound to and from a Bluetooth handsfree using a phone key or the handsfree key.

To transfer sound

- 1 From standby select **Menu** > **Settings** > the **Connectivity** tab > **Bluetooth** > **Handsfree** > **Incoming call**.
- 2 Select an option. **In phone** transfers sound to the phone. **In handsfree** transfers sound to the handsfree.

To transfer sound during a call

- 1 During a call, select **Sound**.
- 2 Select from the list.

Using the USB cable

You can connect your phone to a computer with a USB cable to transfer files.

Before you use the USB cable

You need one of these operating systems on your computer to transfer files using a USB cable:

- Windows® 2000
- Windows XP (Pro and Home)

- Windows Vista (32 bit and 64 bit versions of: Ultimate, Enterprise, Business, Home Premium, Home Basic)

! *Only use a USB cable supported by your phone. Do not remove the USB cable from your phone or computer during file transfer as this may corrupt the phone memory or the memory card.*

PC software

You may use Windows® Explorer, Sony Ericsson PC Suite, or Sony Ericsson Media Manager with your phone. Sony Ericsson PC software is available from www.sonyericsson.com/support to use with your phone.

In the phone menu, you must select the USB mode based on how you plan to use the USB cable with your phone. The table lists the available computer applications and the corresponding USB mode for each.

USB mode	Purpose	Computer application
Show menu	Displays the USB menu when the USB cable is attached to the phone.	Any
Phone mode	Synchronize the phone with a computer.	Sony Ericsson PC Suite

USB mode	Purpose	Computer application
Media transfer	Transfer music, pictures, or other files between your phone and a computer. The phone appears as a media device on your computer. Sony Ericsson PC Suite cannot access your phone in this mode.	Microsoft® Windows® Explorer
Print	Print images from the Camera album.	
Mass storage	Transfer music, pictures or other files between your phone and a computer. The phone functions are turned off automatically. All functions except alarms and alerts are turned off in Mass storage mode. The phone shuts down, but restarts after removing the cable.	Microsoft® Windows® Explorer and Sony Ericsson Media Manager

USB default mode

You can select the USB mode the phone uses when a USB cable is attached.

To change the USB default mode

- 1 From standby select **Menu > Settings > the Connectivity tab > USB > USB default mode.**
- 2 Select an option.

Disconnect the USB

The correct method for disconnecting the USB cable depends on the USB mode.

To disconnect the USB cable safely in Mass storage or Phone mode

- 1 When the phone is in **Mass storage** or **Phone mode**, right-click the removable disk icon in *Windows Explorer*.
- 2 Select *Eject*.
- 3 When the message is shown, **Mass storage session ended. It is now safe to remove the USB cable.**, disconnect the USB cable.

To disconnect the USB cable safely in Media transfer or Printer mode

- Remove the USB cable.

Synchronizing

You can use the USB cable or Bluetooth wireless technology to synchronize phone contacts, appointments, bookmarks, tasks and notes with a computer program such as Microsoft Outlook. For more information go to the Getting started section at www.sonyericsson.com/support.

Synchronizing using a computer

Before synchronizing you need to install *the Sony Ericsson PC Suite*.

- *Sony Ericsson PC Suite software is available for download at www.sonyericsson.com/support.*

See *Before using Media Manager* on page 17.

To install the Sony Ericsson PC Suite

- 1 Turn on your computer.
- 2 Download the Media Manager software from www.sonyericsson.com/support.
- 3 Follow the instructions on the Web site to install.
- 4 Select a language and click **OK**.
- 5 Click *Install Sony Ericsson PC suite* and follow the instructions on the screen.

To synchronize using the PC Suite

- 1 **Computer:** Start *PC Suite* from *Start/Programs/Sony Ericsson/PC Suite*.
- 2 Follow the instructions in the *PC Suite* for how to connect.
- 3 **Phone:** Select **Phone mode**.
- 4 **Computer:** When you are notified that *the Sony Ericsson PC Suite* has found your phone, you can start synchronizing.

For usage details, see the Sony Ericsson PC Suite Help section once the software has been installed on your computer.

More features

Flight mode

In [Flight mode](#) the network and radio transceivers are turned off to prevent disturbance to sensitive equipment.

When the flight mode menu is activated you are asked to select a mode the next time you turn on your phone:

Locks

SIM card lock

This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on, you have to enter a PIN (Personal Identity Number).

If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by AT&T.

To unblock the SIM card

- 1 When **PIN blocked** appears, enter your PUK and select **OK**.
- 2 Enter a new four-to-eight-digit PIN and select **OK**.
- 3 Re-enter the new PIN and select **OK**.

To edit the PIN

- 1 From standby select **Menu > Settings > the General tab > Security > Locks > SIM Protection > Change PIN**.
- 2 Enter your PIN and select **OK**.
- 3 Enter a new four-to-eight-digit PIN and select **OK**.

- 4 Re-enter the new PIN and select **OK**.

- ! *If **Codes do not match** appears, you entered the new PIN incorrectly. If **Wrong PIN** appears, followed by **Old PIN:**, you entered your old PIN incorrectly.*

To use the SIM card lock

- 1 From standby select **Menu > Settings > the General tab > Security > Locks > SIM Protection > Protection**.
- 2 Select an option.
- 3 Enter your PIN and select **OK**.

Phone lock

You can stop unauthorized use of your phone. Change the phone lock code (0000) to any four-to-eight-digit personal code.

- ! *It is important that you remember your new code. If you forget it, you have to take your phone to your local Sony Ericsson retailer.*

To use the phone lock

- 1 From standby select **Menu > Settings > the General tab > Security > Locks > Phone protection > Protection**.
- 2 Select an option.
- 3 Enter the phone lock code and select **OK**.

To unlock the phone

- Enter your code and select **OK**.

To change the phone lock code

- 1 From standby select **Menu** > **Settings** > the **General** tab > **Security** > **Locks** > **Phone protection** > **Change code**.
- 2 Enter the old code and select **OK**.
- 3 Enter the new code and select **OK**.
- 4 Repeat the new code and select **OK**.

Keypad lock

You can set this lock to avoid accidental dialing. Incoming calls can be answered without unlocking the keypad.

- ! *Calls to the international emergency number 911 or 112 can still be made.*

To use the automatic key lock

- 1 From standby select **Menu** > **Settings** > the **General** tab > **Security** > **Automatic key lock**.
- 2 Select an option.

To unlock the keypad manually

- From standby press any key and select **Unlock** > **OK**.

IMEI number

Keep a copy of your IMEI (International Mobile Equipment Identity) number in case your phone is stolen.

To view your IMEI number

- From standby press **(*) 0673**, **(#) 0673**, **(0) +**, **(6)**, **(#) 0673**.

Hearing Aid Compatibility

Your phone is designed for Hearing Aid Compatibility (HAC) and uses settings to optimize its use with hearing aids.

Hearing Aid Settings

You can choose the setting in the phone to match the setting in your hearing aid before making or receiving calls.

To select a phone setting for HAC

- From standby select **Menu** > **Settings** > the **General** tab > **Accessibility** > **Hearing aid** and choose an option:
 - **On** – Use when your hearing aid is set to T-coil mode.
 - **Off** – Use when your hearing aid is set to Microphone mode.

To make and receive calls

- Achieve optimal HAC performance of the phone by opening the phone to make or receive a call.

Troubleshooting

Some problems will require you to call AT&T.

For more support go to www.sonyericsson.com/support.

Common questions

Master reset

If you select [Reset settings](#), the changes that you have made to settings will be deleted.

You can also contact our Call Centers. Use the phone number for the nearest Call Center in the list below. If your country/region is not represented in the list, please contact your local dealer. (The phone numbers below were correct at the time of going to print. On www.sonyericsson.com you can always find the latest updates.)

In the unlikely event that your product needs service please contact the dealer from whom it was purchased, or one of our service partners. Save your original proof of purchase, you will need it if you need to claim warranty.

You will be charged for a call to one of our Call Centers according to national rates, including local taxes, unless the phone number is a toll-free number. Hearing Aid Compatibility Rating

This model handset was designed to comply with the requirements set forth in Section 20.19 of the Federal Communication Commission's (FCC) rules governing hearing aid compatibility (HAC), for the reduction of RF interference and magnetic coupling (T-coil) to hearing aids. The Microphone (M) rating and T-coil (T) rating is defined and labeled on the handset box. Devices meeting HAC compliance must have a minimum M3 and/or T3 rating or above

as defined by the FCC in accordance with the latest ANSI Standard C63.19. The (M) rating refers to lower RF emission levels of the handset. The (T) rating refers to the magnetic coupling between the handset and the T-coil compatible hearing aid. Some hearing aids are also provided an (M) rating, and are more immune than others to interference. To determine the (M) rating of your hearing aid, please contact your hearing health professional. More information about digital wireless devices and hearing aid compatibility can be found at www.sonyericsson-snc.com.

Guidelines for Safe and Efficient Use

Please follow these guidelines. Failure to do so might entail a potential health risk or product malfunction. If in doubt as to its proper function, have

the product checked by a certified service partner before charging or using it.

Recommendations for care and safe use of our products

- Handle with care and keep in a clean and dust-free place.
- **Warning!** May explode if disposed of in fire.

- Do not expose your product to liquid or moisture or excess humidity.
- For optimum performance, your Sony Ericsson Product should not be operated in temperatures below -10°C (+14°F) or above +45°C (+113°F). Do not expose the battery to temperatures above +60°C (+140°F).

- Do not expose to flames or lit tobacco products.
- Do not drop, throw or try to bend your product.
- Do not paint or attempt to disassemble or modify your product. Only Sony Ericsson authorized personnel should perform service.
- Consult with authorized medical staff and the instructions of the medical device manufacturer before using your product near pacemakers or other medical devices or equipment.
- Discontinue use of electronic devices or disable the radio transmitting functionality of the device where required or requested to do so.
- Do not use where a potentially explosive atmosphere exists.
- Do not place your product or install wireless equipment in the area above an air bag in your car.
- Caution: Cracked or broken displays may create sharp edges or splinters that could be harmful upon contact.
- Do not use your Bluetooth Headset in positions where it is uncomfortable or will be subject to pressure.

Children

Warning! Keep out of the reach of children. Do not allow children to play with mobile phones or accessories.

They could hurt themselves or others. Products may contain small parts that could become detached and create a choking hazard.

Power supply (Charger)

Connect the charger to power sources as marked on the product. Do not use outdoors or in damp areas. Do not alter or subject the cord to damage or stress. Unplug the unit before cleaning it. Never alter the plug. If it does not fit into the outlet, have a proper outlet installed by an electrician. When power supply is connected there is a small drain of power. To avoid this small energy waste, disconnect the power supply when the product is fully charged. Use of charging devices that are not Sony Ericsson branded may impose increased safety risks.

Battery

New or idle batteries can have short-term reduced capacity. Fully charge the battery before initial use. Use for intended purpose only. Charge the battery in temperatures between +5°C (+41°F) and +45°C (+113°F). Do not put the battery into your mouth. Do not let the battery contacts touch another metal object. Turn off the product before removing the battery. Performance depends on temperatures, signal strength, usage patterns, features selected and voice or data transmissions. Only Sony Ericsson service partners should remove or replace built-in batteries. Use of batteries that are not Sony Ericsson branded may pose increased safety risks. Replace the battery only with another Sony Ericsson battery that has been qualified with the product per the standard IEEE-1725. Use of an unqualified battery may present a risk of fire, explosion, leakage or other hazard.

Personal medical devices

Mobile phones may affect implanted medical equipment. Reduce risk of interference by keeping a minimum distance of 15 cm (6 inches) between the phone and the device. Use the phone at your right ear. Do not carry the phone in your breast pocket. Turn off the phone if you suspect interference. For all medical devices, consult a physician and the manufacturer.

Driving

Some vehicle manufacturers forbid the use of phones in their vehicles unless a handsfree kit with an external antenna supports the installation. Check with your vehicle manufacturer's representative to be sure that your mobile phone or Bluetooth handsfree will not affect the electronic systems in your vehicle. Full attention should be given to driving at all times and local laws and regulations restricting the use of wireless devices while driving must be observed.

GPS/Location based functions

Some products provide GPS/Location based functions. Location determining functionality is provided "As is" and "With all faults". Sony Ericsson does not make any representation or warranty as to the accuracy of such location information.

Use of location-based information by the device may not be uninterrupted or error free and may additionally be dependent on network service availability. Please note that functionality may be reduced or prevented in certain environments such as building interiors or areas adjacent to buildings.

Caution: Do not use GPS functionality in a manner which causes distraction from driving.

Emergency calls

Calls cannot be guaranteed under all conditions. Never rely solely upon mobile phones for essential communications. Calls may not be possible in all areas, on all networks, or when certain network services and/or phone features are used.

Antenna

Use of antenna devices not marketed by Sony Ericsson could damage your phone, reduce performance, and produce SAR levels above the established limits. Do not cover the antenna with your hand as this affects call quality, power levels and can shorten talk and standby times.

Radio frequency (RF) exposure and Specific Absorption Rate (SAR)

When your phone or Bluetooth handsfree is turned on, it emits low levels of radio frequency energy. International safety guidelines have been developed through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure. The guidelines include a safety margin designed to assure the safety of all persons and to account for any variations in measurements.

Specific Absorption Rate (SAR) is used to measure radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but because the phone is designed to use the minimum power necessary to access the chosen network, the actual SAR level can be well below this value. There is no proof of difference in safety based on difference in SAR value.

Products with radio transmitters sold in the US must be certified by the Federal Communications Commission (FCC). When required, tests are performed when the phone is placed at the ear and when worn on the body. For body-worn operation, the phone has been tested when positioned a

minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when properly used with an appropriate Sony Ericsson accessory and worn on the body.

For more information about SAR and radio frequency exposure go to: www.sonyericsson.com/health.

Flight mode

Bluetooth and WLAN functionality, if available in your device, can be enabled in Flight mode but may be prohibited onboard aircraft or in other areas where radio transmissions are prohibited. In such environments, please seek proper authorization before enabling Bluetooth or WLAN functionality even in Flight mode.

Malware

Malware (short for malicious software) is software that can harm your mobile phone or other computers. Malware or harmful applications can include viruses, worms, spyware, and other unwanted programs. While your device does employ security measures to resist such efforts, Sony Ericsson does not warrant or represent that your device will be impervious to introduction of malware. You can however reduce the risk of malware attacks by using care when downloading content or accepting applications, refraining from opening or responding to messages from unknown sources, using trustworthy services to access the Internet, and only downloading content to your mobile phone from known, reliable sources.

Accessories

Use only Sony Ericsson branded original accessories and certified service partners. Sony Ericsson does not test third-party accessories. Accessories may influence RF Exposure, radio performance, sound loudness,

electric safety and other areas. Third-party accessories and parts may pose a risk to your health or safety or decrease performance.

Accessible Solutions/Special Needs

In the US, compatible Sony Ericsson phones may offer compatibility with TTY terminals (with use of necessary accessory). For more information call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or go to www.sonyericsson-snc.com.

Disposal of old electrical and electronic equipment

Electronic equipment and batteries should not be included as household waste but should be left at an appropriate collection point for recycling. This helps prevent potential negative consequences for the environment and human health. Check local regulations by contacting your local city office, your household waste disposal service, the shop where you purchased the product or calling a Sony Ericsson Call Center.

Disposing of the battery

Check local regulations or call a Sony Ericsson Call Center for information. Never use municipal waste.

Memory Card

If your product comes complete with a removable memory card, it is generally compatible with the handset purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use. If your product is equipped with a memory card reader, check memory card compatibility before purchase or use.

Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

Warning!

If your device requires an adapter for insertion into the handset or another device, do not insert the card directly without the required adapter.

Precautions on Memory Card Use

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.
- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or

writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information

Erase personal data before disposing of the product. To delete data, perform a master reset. Deleting data from the phone memory does not ensure that it cannot be recovered. Sony Ericsson does not warrant against recovery of information and does not assume responsibility for disclosure of any information even after a master reset.

Loudness warning!

Avoid volume levels that may be harmful to your hearing.

End User License Agreement

Software delivered with this device and its media is owned by Sony Ericsson Mobile Communications AB, and/or its affiliated companies and its suppliers and licensors.

Sony Ericsson grants you a non-exclusive limited license to use the Software solely in conjunction with the Device on which it is installed or delivered. Ownership of the Software is not sold, transferred or otherwise conveyed.

Do not use any means to discover the source code or any component of the Software, reproduce and distribute the Software, or modify the Software. You are entitled to transfer rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided the third party agrees in writing to be bound by the terms of this License.

This license exists throughout the useful life of this Device. It can be terminated by transferring your rights to the Device to a third party in writing. Failure to comply with any of these terms and conditions will terminate the license immediately.

Sony Ericsson and its third party suppliers and licensors retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

This license is governed by the laws of Sweden. When applicable, the foregoing applies to statutory consumer rights.

In the event Software accompanying or provided in conjunction with your device is provided with additional terms and conditions, such provisions shall also govern your possession and usage of the Software.

Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your mobile phone, original accessory delivered with your mobile phone, and/or your mobile computing product (hereinafter referred to as "Product").

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit www.sonyericsson.com to get further information.

Our warranty

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer. This Limited Warranty will last for a period of one (1) year as from the original date of purchase of the Product.

What we will do

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorized distributors or service partners, in the country* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads and other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

Conditions

- 1 This Limited Warranty is valid only if the original proof of purchase for this Product issued by a Sony Ericsson authorized dealer specifying the date of purchase and serial number**, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
- 2 If Sony Ericsson repairs or replaces the Product, the repair for the defect concerned, or the replaced Product shall be warranted for the remaining time

of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

- 3 This warranty does not cover any failure of the Product due to normal tear and wear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged more than a hundred times. However, it will eventually wear out – this is not a defect and corresponds to normal wear and tear. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and center may occur between the phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

Minor variations in camera image appearance may occur between phones. This is nothing uncommon and is not regarded as a defective camera module.

- 4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.
- 5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorised person.

- 6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

- 7 Tampering with any of the seals on the Product will void the warranty.

- 8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the dealer arising from their sales / purchase contract.

***Geographical scope of the warranty**

If you have purchased your Product in a country member of the European Economic Area (EEA) or in Switzerland or the Republic of Turkey, and such Product was intended for sale in the EEA or in Switzerland or in Turkey, you can have your Product serviced in any EEA country or in Switzerland or in Turkey, under the warranty conditions prevailing in the country in which you

require servicing, provided that an identical Product is sold in such country by an authorised Sony Ericsson distributor. To find out if your Product is sold in the country you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may not be possible elsewhere than in the country of original purchase, for example due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other countries. Please note in addition that it may sometimes not be possible to repair SIM-locked Products.

** In some countries/regions additional information (such as a valid warranty card) may be requested.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Any change or modification not expressly approved by Sony Ericsson may void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Statement

This device complies with RSS-210 of Industry Canada.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
